Any reference to the number of any section contained herein shall be understood to refer to the position of the same number, its appropriate chapter and article heading and to the general penalty clause relating thereto as well as to the section itself when reference is made to this City Code by title in any legal document. **(65 ILCS 5/1-2-3)**

1-1-2 ACCEPTANCE. Replacement pages may be inserted according to the official instructions when so authorized by the City Council. The Clerk shall see that the replacement pages are properly inserted in the official copies maintained in the office of the Clerk.

DIVISION II - SAVING CLAUSE

1-1-8 REPEAL OF GENERAL ORDINANCES. All general ordinances of the City passed prior to the adoption of this Code are hereby repealed, except such as are referred to herein as being still in force or are, by necessary implication, herein reserved from repeal **[subject to the saving clauses contained in the following sections]**, from which are excluded the following ordinances, which are not hereby repealed:

Tax Levy Ordinances; Appropriation Ordinances; Ordinances Relating to Boundaries and Annexations; Franchise Ordinances and other Ordinances Granting Special Rights to Persons or Corporations; Contract Ordinances and Ordinances Authorizing the Execution of a Contract or the Issuance of Warrants; Ordinances Establishing, Naming, or Vacating Streets, Alleys, or Other Public Places; Improvement Ordinances; Bond Ordinances; Ordinances Relating to Elections; Ordinances Relating to the Transfer or Acceptance of Real Estate by or from the City; and all Special Ordinances.

1-1-9 PUBLIC UTILITY ORDINANCES. No ordinance relating to railroads or railroad crossings with streets and other public ways or relating to the conduct, duties, service or rates of public utilities shall be repealed by virtue of the adoption of this Code or by virtue of the preceding section, excepting as this Code shall be considered as amending such ordinance or ordinances in respect to such provisions only.

1-1-10 COURT PROCEEDINGS. No new ordinance shall be construed or held to repeal a former ordinance, whether such former ordinance is expressly repealed or not, as to any offense committed against such former ordinance or as to any act done, any penalty, forfeiture or punishment so incurred, or any right accrued or claim arising under the former ordinance, or in any way whatever to affect any claim arising under the former ordinance or in any way whatever to affect any such offense or act so committed or so done, or any penalty, forfeiture or punishment so incurred or any right accrued or claim arising before the new ordinance takes effect, save only that the proceedings thereafter shall conform to the ordinance in force at the time of such proceeding, so far as practicable. If any penalty, forfeiture or punishment be mitigated by any provision of a new ordinance, such provision may be, by the consent of the party affected, applied to any judgment announced after the new ordinance takes effect.

This Section shall extend to all repeals, either by express words or implication, whether the repeal is in the ordinance making any new provisions upon the same subject or in any other ordinance.

Nothing contained in this Chapter shall be construed as abating any action now pending under or by virtue of any general ordinance of the City herein repealed and the provisions of all general ordinances contained in this Code shall be deemed to be continuing provisions and not a new enactment of the same provision; nor shall this Chapter be deemed as discontinuing, abating, modifying or altering any penalty accrued or to accrue, or as affecting the liability of any person, firm or corporation, or as waiving any right of the City under any ordinance or provision thereof in force at the time of the adoption of this Code.

1-1-11 SEVERABILITY OF PROVISIONS. Each section, paragraph, sentence, clause and provision of this Code is severable, and if any provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Code, nor any part thereof, other than that part affected by such decision.

- (1) Call to order by presiding officer.

In case of any disturbance or disorderly conduct, the presiding officer shall have the power to require that the chamber be cleared.

(C) **Duties of Members.** While the presiding officer is putting the question, no member shall walk across or out of the Council Chamber.

Every member, previous to his speaking, making a motion or seconding the same shall not proceed with his remarks until recognized and named by the Chair. He shall confine himself to the question under debate, avoiding personalities and refraining from impugning the motives of any other member's argument or vote.

(D) **Visitors.** After the public comment period, no person other than a member of the Council shall address that body unless permitted under the provisions of **Section 1-2-13.**

(E) **Presentation of New Business.** When a member wishes to present a communication, petition, order, resolution, ordinance or other original matter, the member shall read such matter when reached in its proper order.

(F) **Debate.** No member shall speak more than once on the same question, except by consent of the Presiding Officer or unless **three-fourths (3/4)** of the corporate authorities agree that one's right to debate should be limited to speak only once and then not until every other Alderman desiring to speak shall have had an opportunity to do so; provided, however, that the proponent of the matter under consideration, as the case may be, shall have the right to open and close debate.

The City Council, by motion, may limit debate. The Presiding Officer shall have the right to participate in debate. While a member is speaking, no Alderman shall hold any private discussion, nor pass between the speaker and the Chair.

(G) **Call of Aldermen to Order.** A member, when called to order by the Chair, shall thereupon discontinue speaking and take his seat and the order or ruling of the Chair shall be binding and conclusive, subject only to the right to appeal.

(H) **Appeals from Decision of the Chair.** Any member may appeal to the Council from a ruling of the Chair, and if the appeal is seconded, the Alderman making the appeal may briefly state his reason for the same, and the Chair may briefly explain his ruling; but there shall be no debate on the appeal and no other person shall participate in the discussion. The Presiding Officer shall have the right to participate in debate.

The Chair shall then put the question, "**Shall the decision of the Chair be sustained?**". If a majority of the Aldermen present vote "**No**", the decision of the Chair shall be overruled; otherwise, it shall be sustained.

(I) **Question of Personal Privilege.** The right of a member to address the Council on a question of personal privilege shall be limited to cases in which his integrity, character, or motives are assailed, questioned or impugned.

(J) **Voting.** Every member who shall be present when a question is stated from the chair shall vote thereon, unless he is personally interested in the question, in which case, he shall take whatever steps are necessary to insure that his vote is not taken.

(K) **Special Order of Business.** Any matter before the City Council may be set down as a special order of business at a time certain if **two-thirds (2/3)** of the Aldermen present vote in the affirmative, but not otherwise.

(L) **Seconding of Notions Required; Written Motions.** No motion shall be put or debated in the meeting or in committee unless it be seconded. When a motion is seconded, it shall be stated by the presiding officer before debate, and every motion in the Council, except motions of procedure, shall be reduced to writing if required by a member, and the proposer of the motion shall be entitled to the floor.

(M) **Withdrawal of Motions.** After a motion or resolution is stated by the presiding officer, it shall be deemed to be in possession of the Aldermen, but it may be withdrawn at any time before decision, by consent of the Aldermen.

(N) **Division of Questions.** If any question under consideration contains several distinct propositions, the Aldermen, by a majority vote of the Aldermen present may divide such question.

(O) **Record of Motions.** In all cases where a resolution or motion is entered in the journal, the name of the Aldermen moving the same shall be entered also.

(P) **Taking and Entering the Votes - Explanations of Votes Not Permitted.**

If any member required it, the "yeas" and "nays" upon any question shall be taken and entered in the journal; but the yeas and nays shall not be taken unless called for prior to any vote on the question.

When the Clerk has commenced to call the roll of the members for the taking of a vote by yeas and nays, all debate on the question before the City Council shall be deemed concluded, and during the taking of the vote, no member shall be permitted to explain his vote, but shall respond to the calling of his name by the Clerk, by answering yea or nay, as the case may be.

(Q) **Announcement and Changes of Vote.** The result of all votes by yeas and nays shall not be announced by the Clerk, but shall be handed to the chairman for announcement, and no vote shall be changed after the tally list has passed from the hands of the Clerk.

(R) **Precedence of Motions.** When a question is under debate, the following motions shall be in order and shall have precedence over each other in order, as listed:

- (1) To adjourn to a day certain.
- (2) To adjourn.
- (3) To take a recess.
- (4) To lay on the table.
- (5) The previous question.
- (6) To refer.
- (7) To amend.
- (8) To defer or postpone to a time certain.
- (9) To defer or postpone (without reference to time.)
- (10) To defer or postpone indefinitely.

Numbers (2), (4), and (5) to be decided without debate.

(S) **Motions to Adjourn.** A motion to adjourn the City Council shall always be in order, except:

- (1) When an Alderman is in possession of the floor.
- (2) While the yeas and nays are being called.
- (3) When the members are voting.
- (4) When adjournment was the last preceding motion.
- (5) When it has been decided that the previous question shall be taken.

A motion simply to adjourn shall not be subject to amendment or debate, but a motion to adjourn to a time certain shall be.

The City Council may, at any time, adjourn over one (1) or more regular meetings on a vote of a majority of all the Aldermen authorized by law to be elected.

(T) **Previous Question.** When the previous question is moved on the main question and seconded, it shall be put on this form: **"Shall the main question now be put?"**. If such motion be carried, all further amendments and all further motions and debate shall be excluded, and the question put without delay upon the pending amendment in proper order and then upon the main question.

(U) **Motions to Lay on the Table and to Take From the Table.** A motion to lay the question on the table shall not be debatable, but a motion to lay on the table and publish, or with any other condition shall be subject to amendment and debate.

A motion to take any motion or other proposition from the table may be proposed at the same meeting at which such motion or proposition was laid upon the table, provided **two-thirds (2/3)** of the Aldermen vote therefor.

A motion to lay any particular motion or proposition on the table shall apply to that motion or proposition only. An amendment to the main question or other pending question may be laid on the table and neither the main question nor such other pending question shall be affected thereby.

(V) **Indefinite Postponement; Motion to Defer or Postpone Without Any Reference to Time.** When consideration of a motion or other proposition is postponed indefinitely, it shall not be again taken up at the same meeting.

A motion to postpone indefinitely shall not open the main question to debate.

A motion to defer or postpone without any reference to time shall not be construed as a motion to postpone indefinitely, but shall be considered to be of the same general nature and to possess the

same general attributes so far as applicable under these rules, as a motion to postpone indefinitely or to a time certain.

(W) **Motion to Refer.** A motion to refer to a standing committee shall take precedence over a similar motion to refer to a special committee.

(X) **Motion to Amend.** A motion to amend an amendment shall be in order, but one to amend an amendment to an amendment shall not be entertained.

An amendment modifying the intention of a motion shall be in order; but an amendment relating to a different subject shall not be in order.

On an amendment to **"Strike Out and Insert"**, the paragraph to be amended shall first be read as it stands, then the words proposed to be stricken out, then those to be inserted, and finally, the paragraph as it will stand if so amended shall be read.

An amendment to the main question or other pending questions may be referred to a committee and neither the main question nor such other pending question shall be affected thereby.

(Y) **Filling of Blanks.** When a blank is to be filled and different sums or times proposed, the question shall be taken first on the least sum or the longest time.

(Z) **Motion to Substitute.** A substitute for any original proposition under debate or for any pending amendment or such proposition may be entertained notwithstanding that at such time, further amendment is admissible; and if accepted by the Aldermen by a vote shall entirely supersede such original proposition or amendment, as the case may be, and cut off all amendments appertaining thereto.

(AA) **Reconsideration.** A vote or question may be reconsidered at any time during the same meeting, or at the first regular meeting held thereafter. A motion for reconsideration having been once made and decided in the negative shall not be renewed, nor shall a motion to reconsider be reconsidered.

A motion to reconsider must be made and seconded by Aldermen who voted on the prevailing side of the question to be reconsidered, unless otherwise provided by law; provided, however, that where a motion has received a majority vote in the affirmative, but is declared lost solely on the ground that a greater number of affirmative votes is required by statute for the passage or adoption of such motion, then in such case, a motion to reconsider may be made and seconded only by those who voted in the affirmative on such question to be reconsidered.

(BB) **Adoption of Robert's "Rules of Order Revised".** The rules of parliamentary practice comprised in the latest published edition of **Robert's "Rules of Order Revised"** shall govern the Council in all cases to which they are applicable and in which they are not inconsistent with the special rules of the Council.

(CC) **Temporary Suspension of Rules - Amendment of Rules.** These rules may be temporarily suspended by a vote of **two-thirds (2/3)** of the Aldermen entitled by law to be elected and shall not be repealed, altered or amended, unless by concurrence of **two-thirds (2/3)** of all the Aldermen entitled by law to be elected.

(DD) **Censure of Aldermen - Expulsion of Aldermen.** Any Alderman acting or appearing in a lewd or disgraceful manner, or who uses opprobrious, obscene and insulting language to or about any member of the Council, or who does not obey the order of the Chair, shall be, on motion, censured by a majority vote of the members present, or expelled by a **two-thirds (2/3)** vote of all Aldermen elected.
(65 ILCS 5/3.1-40-15)

NOTE ON VOTING: An Alderman is not required to vote on a motion, resolution, or ordinance. His failure to vote, however, will not invalidate a resolution or motion which does not require the affirmative vote of a particular percentage of the corporate authorities where the majority of those exercising their franchise are in favor of the motion or resolution.

In dealing with an ordinance involving liability, expenditure or appropriation wherein an affirmative vote of a majority of the corporate authorities holding office is required, the philosophy is this: "If a member of a public body is present at a meeting, he is obliged to vote, except if he has an interest in the matter that is before the public body and if he does not vote, his failure to do so must be construed as concurring with the majority. The non-vote will be counted in the column of the majority of those voting."

1-2-12 **AGENDA.** An itemized agenda, along with all necessary supporting documentation shall be furnished to each member of the Council no later than **forty-eight (48) hours**

prior to the regular Council meeting. In the case of emergency matters, which could not have been reasonably foreseen in sufficient time to comply with this section, a revised agenda will be furnished to each member of the Council prior to the opening of the Council meeting. **(5 ILCS 120/2.02)**

1-2-13 ADDRESS BY NON-MEMBERS.

- (1) He or she shall rise (if not physically impaired) and state his or her name for the record and unless further time is granted by the Council to limit remarks to **three (3) minutes**. All remarks shall be addressed to the City Council, not to any member thereof.
- (2) No person other than the Council member recognizing the individual addressing the Council and the person having the floor shall be permitted to enter into any discussion directly or through a member of the Council without the permission of the Mayor. No questions shall be asked of an Alderman except through the Mayor. Any person making personal or impertinent remarks or who shall become disruptive addressing the City Council shall be forthwith evicted from the Council room by the Mayor.

(B) **Auxiliary Aid or Service.** The City shall take appropriate steps to ensure that communications with applicants, participants, members of the public, and companions with disabilities are as effective as communications with orders.

- (1) The City shall furnish appropriate auxiliary aid(s) and service(s) where necessary to afford qualified individuals with disabilities including applicants, participants, companions, and members of the public, an equal opportunity to participate in, and enjoy the benefits, of a service, program, or activity of the City.
- (2) Auxiliary aids and services shall be provided in a timely manner.

DIVISION III - ORDINANCES

1-2-14 ORDINANCES.

(A) **Attorney.** It shall be the duty of the City Attorney to prepare such ordinances as may be required by the City Council.

(B) **Introduced.** When a proposed ordinance is introduced, it shall be read one time by title only and referred to the proper committee unless the City Council shall otherwise specifically direct.

(C) **Vote Required-Yeas and Nays Record.** The passage of all ordinances for whatever purpose, and of any resolution or motion (1) to create any liability against a city or (2) for the expenditure or appropriation of its money, shall require the concurrence of a majority of all members then holding office on the City Council, including the Mayor, unless otherwise expressly provided by the Code or any other act governing the passage of any ordinance, resolution, or motion; provided that, where the Council consists of an odd number of Aldermen, the vote of the majority of the Aldermen shall be sufficient to pass an ordinance. The yeas and nays shall be taken upon the question of the passage of the designated ordinances, resolutions, or motions and recorded in the journal of the City Council. In

addition, the corporate authorities at any meeting may by unanimous consent to take a single vote by yeas or nays on the several questions of the passage on any two (2) or more of the designated ordinances, orders, resolutions or motions placed together for voting purposes in a single group. The single vote shall be entered separately in the journal under the designation "omnibus vote", and in such event the Clerk may enter the words "omnibus vote" or "consent agenda" in the journal in each case in lieu of entering names of the members of City Council voting "yea" and of those voting "nay" on the passage of each of the designated ordinances, orders, resolutions and motions included in such omnibus group or consent agenda. The taking of such single or omnibus vote and such entries of the words "omnibus vote" or "consent agenda" in the journal shall be a sufficient compliance with the requirements of this section to all intents and purposes and with like effect as if the vote in each case had been separately by yeas and nays on the question of the passage of each ordinance, order, resolution and motion included in such omnibus group, and separately recorded in the journal. Likewise, the yeas and nays shall be taken upon the question of the passage of any other resolution or motion at the request of any Alderman and shall be recorded in the journal. **(65 ILCS 5/3.1-40-40)**

(D) **Ordinances - Approval-Veto.** All resolutions and motions (1) which create any liability against the City, or (2) that provide for the expenditure or appropriation of its money, or (3) to sell any City property, and all ordinances, passed by the City Council shall be deposited with the City Clerk. If the Mayor approves an ordinance or resolution, the Mayor shall sign it. Those ordinances, resolutions and motions which the Mayor disapproves shall be returned to the City Council, with the Mayor's written objections, at the next regular meeting of the City Council occurring not less than five (5) days after their passage. The Mayor may disapprove of any one (1) or more sums appropriated in any ordinance, resolution, or motion making an appropriation, and, if so, the remainder shall be effective. However, the Mayor may disapprove entirely of an ordinance, resolution, or motion making an appropriation. If the Mayor fails to return any ordinance or any specified resolution or motion with his written objections, within the designated time, it shall become effective despite the absence of the Mayor's signature. **(65 ILCS 5/3.1-40-45)**

1-2-15 **RECONSIDERATION--PASSING OVER VETO.** Every resolution and motion, specified in **Section 1-2-14** and every ordinance, that is returned to the City Council by the Mayor shall be reconsidered by the City Council at the next regular meeting following the regular meeting at which the Village Board receives the Mayor's written objection. If, after reconsideration, **two-thirds (2/3)** of all the Aldermen then holding office on the City Council agree at that regular meeting to pass an ordinance, resolution, or motion, notwithstanding the Mayor's refusal to approve it, then it shall be effective. The vote on the question of passage over the Mayor's veto shall be by yeas and nays, and shall be recorded in the journal. **(65 ILCS 5/3.1-40-50)**

1-2-16 **NO VOTE TO BE RECONSIDERED AT SPECIAL MEETING.** No vote of the City Council shall be reconsidered or rescinded at a special meeting unless there are present at the special meeting at least as many Aldermen as were present when the vote was taken. **(65 ILCS 5/3.1-40-55)**

(G) Under either of the following circumstances, a municipal officer may hold a position on the board of a not-for-profit corporation that is interested in a contract, work, or business of the municipality:

- (1) If the municipal officer is appointed by the governing body of the municipality to represent the interests of the municipality on a not-for-profit corporation's board, then the municipal officer may actively vote on matters involving either that board or the municipality, at any time, so long as the membership on the not-for-profit board is not a paid position, except that the municipal officer may be reimbursed by the not-for-profit board for expenses incurred as the result of membership on the not-for-profit board.
- (2) If the municipal officer is not appointed to the governing body of a not-for-profit corporation by the governing body of the municipality, then the municipal officer may continue to serve; however, the municipal officer shall abstain from voting on any proposition before the municipal

DIVISION V - VACANCIES

1-2-39 **VACANCY BY RESIGNATION.** A resignation is not effective unless it is in writing, signed by the person holding the elective office, and notarized.

(A) **Unconditional Resignation.** An unconditional resignation by a person holding the elective office may specify a future date, not later than **sixty (60) days** after the date the resignation is received by the officer authorized to fill the vacancy, at which time it becomes operative, but the resignation may not be withdrawn after it is received by the officer authorized to fill the vacancy. The effective date of a resignation that does not specify a future date at which it becomes operative is the date the resignation is received by the officer authorized to fill the vacancy. The effective date of a resignation that has a specified future effective date is that specified future date or the date the resignation is received by the officer authorized to fill the vacancy, whichever date occurs later.

(B) **Conditional Resignation.** A resignation that does not become effective unless a specified event occurs can be withdrawn at any time prior to the occurrence of the specified event, but if not withdrawn, the effective date of the resignation is the date of the occurrence of the specified event or the date the resignation is received by the officer authorized to fill the vacancy, whichever date occurs later.

(C) **Vacancy Upon the Effective Date.** For the purpose of determining the time period that would require an election to fill the vacancy by resignation or the commencement of the **sixty (60) day** time period referred to in **Section 1-2-43**, the resignation of an elected officer is deemed to have created a vacancy as of the effective date of the resignation.

(D) **Duty of the Clerk.** If a resignation is delivered to the Clerk of the Municipality, the Clerk shall forward a certified copy of the written resignation to the official who is authorized to fill the vacancy within **seven (7) business days** after receipt of the resignation.

A vacancy occurs in an office by permanent physical or mental disability rendering the person incapable of performing the duties of the office. The corporate authorities have the authority to make the determination whether an officer is incapable of performing the duties of the office because of a permanent physical or mental disability. A finding of mental disability shall not be made prior to the appointment by a court of a guardian ad litem for the officer or until a duly licensed doctor certifies, in writing, that the officer is mentally impaired to the extent that the officer is unable to effectively perform the duties of the office. If the corporate authorities find that an officer is incapable of performing the duties of the office due to permanent physical or mental disability, that person is removed from the office and the vacancy of the office occurs on the date of the determination.

1-2-41 **VACANCY BY OTHER CAUSES.**

(A) **Abandonment and Other Causes.** A vacancy occurs in an office by reason of abandonment of office; removal from office; or failure to qualify; or more than temporary removal of residence from the Municipality, as the case may be. The corporate authorities have the authority to determine whether a vacancy under this Section has occurred. (B) **Guilty of a Criminal Offense.** An admission of guilt of a criminal offense that upon conviction would disqualify the municipal officer from holding the office, in the form of a written agreement with State or federal prosecutors to plead guilty to a felony, bribery, perjury, or other

infamous crime under State or federal law, constitutes a resignation from that office, effective on the date the plea agreement is made. For purposes of this Section, a conviction for an offense that disqualifies a municipal officer from holding that office occurs on the date of the return of a guilty verdict or, in the case of a trial by the court, on the entry of a finding of guilt.

(C) **Election Declared Void.** A vacancy occurs on the date of the decision of a competent tribunal declaring the election of the officer void.

1-2-42 ELECTION OF AN ACTING MAYOR. The election of an acting Mayor pursuant to **Section 1-2-44 or 1-2-45** does not create a vacancy in the original office of the person on the City Council, unless the person resigns from the original office following election as acting Mayor. If the person resigns from the original office following election as acting Mayor, then the original office must be filled pursuant to the terms of this Section and the acting Mayor shall exercise the powers of the Mayor and shall vote and have veto power in the manner provided by law for a Mayor. If the person does not resign from the original office following election as acting Mayor, then the acting Mayor shall exercise the powers of the Mayor but shall be entitled to vote only in the manner provided for as the holder of the original office and shall not have the power to veto. If the person does not resign from the original office following election as acting Mayor, and if that person's original term of office has not expired when a Mayor is elected and has qualified for office, the acting Mayor shall return to the original office for the remainder of the term thereof.

If the appointment fails to receive the advice and consent of the corporate authorities within **thirty (30) days**, the Mayor or acting Mayor shall appoint and forward to the corporate authorities a second qualified person as described in **Section 1-2-23**. Once the appointment of the second qualified person has been forwarded to the corporate authorities, the corporate authorities shall act upon the appointment within **thirty (30) days**. If the appointment of the second qualified person also fails to receive the advice and consent of the corporate authorities, then the Mayor or acting Mayor, without the advice and consent of the corporate authorities, may make a temporary appointment from those persons who were appointed but whose appointments failed to receive the advice and consent of the corporate authorities. The person receiving the temporary appointment shall serve until an appointment has received the advice and consent and the appointee has qualified or until a person has been elected and has qualified, whichever first occurs.

1-2-44 ELECTION TO FILL VACANCIES IN MUNICIPAL OFFICES WITH FOUR (4) YEAR TERMS. Whenever an election is held for this purpose, the City Clerk shall certify the office to be filled and the candidates for the office to the proper election authorities as provided in the general election law. BUSINESS CODE

ARTICLE I – ADMINISTRATION

DIVISION I – LICENSING AND REGULATIONS

7-1-1 APPLICATIONS.

(A) Applications for all licenses and permits required by this Chapter shall be made in writing to the City Clerk in the absence of provision to the contrary.

- (B) Each application shall contain:
- (1) the name of the applicant;
 - (2) the permit or license desired;
 - (3) the location to be used;
 - (4) Zoning district;
 - (5) the time covered; and
 - (6) the fee to be paid.

(C) Each application shall also contain the number the Certificates of Registration required under the Retailer's Occupation Tax Act, Service Occupation Tax Act, and/or Use Tax Act, if applicable. Each application shall contain such additional information as may be needed for the proper guidance of the municipal officials in the issuing of the license or permit applied for.

7-1-2 PERSONS SUBJECT TO LICENSE. Whenever a license or permit is required in this Code or in any municipal ordinance for the maintenance, operation, or conduct of any business or establishment, or for doing business or engaging in any activity or occupation, any person, firm, or corporation shall be subject to the requirement if by himself or itself, or through an agent, employee or partner, he or it is held forth as being engaged in the business, activity or occupation, or if he or it solicits patronage therefor actively or passively; or if he or it performs or attempts to perform any part of such business, activity or occupation in this Municipality. **(See Appendix "A" for a list.)**

7-1-3 FORM OF LICENSE. Every license shall be signed by the Mayor and attested by the Clerk under the corporate seal, and no license shall be valid until signed and countersigned as aforesaid, nor shall any person be deemed to be licensed until the same shall have been issued to him in due form.

7-1-4 INVESTIGATIONS.

(A) Upon the receipt of an application for a license or permit, where an investigation or inspection is required by ordinance before the issuance of such permit or license, or where an inspection or investigation shall be deemed reasonably necessary or appropriate, the Clerk, within **forty-eight (48) hours** shall refer the application to the appropriate official(s) for the making of such investigation or inspection.

(B) The official(s) to whom the application has been referred shall make a report thereon, favorable or otherwise within **ten (10) days** after receiving such application or a copy thereof.

(C) The Chief of Police or the County Health Department shall make or cause to be made an inspection regarding such permits and licenses as relate to the care and handling of food, the prevention of nuisances and the spread of disease, and the protection of health. **[If a Zoning Code is in effect, the Zoning Administrator shall make or cause to be made any inspections which relate to compliance with the Zoning Code and other related regulations.]** All other investigations, except where otherwise provided, shall be made by the Chief of Police or by some other officer designated by the Mayor.

(D) Upon receipt of all related investigative reports, the Clerk shall forward such reports, together with the application, to the Mayor for evaluation and determination.

(E) If it shall appear to the Mayor that the matters and circumstances relating to an application require further information before a proper determination can be made, such application shall be returned to the Clerk for the inclusion of such additional information as may be specified necessary and appropriate.

(F) If, after due consideration of the information contained with the application and the related investigative reports, the Mayor shall determine that the matters concerning the application are unsatisfactory, he may disapprove such application, indicating the reasons therefor. Thereupon, the Clerk shall be directed to promptly notify the applicant that his application is disapproved and that no license or permit will be issued.

(G) If, after due consideration of the information contained within the application and the related investigative reports, the Mayor shall determine that the application is satisfactory, he shall approve the application. Thereupon, the Clerk shall be directed to promptly notify the applicant that his application is approved and the license or permit may be issued.

7-1-5 FEES. In the absence of provision to the contrary, all fees and charges for licenses or permits shall be paid in advance at the time application therefor is made to the Clerk in the amounts prescribed by the corporate authorities. When an applicant has not engaged in the business or activity until after the expiration of the current license year, the license fee shall be prorated by quarters and the fee paid for each quarter or fraction thereof during which the business or activity has been or will be conducted. Except as otherwise provided, all license and permit fees shall become a part of the corporate fund. In no event shall any rebate or refund be made of any license or permit fee, or part thereof, by reason of death or departure of the licensee or permittee; nor shall any rebate or refund be made by reason of non-use of the license or discontinuance of the operation or conduct of the licensed establishment, business or activity. **(See Appendix "A")**

7-1-6 TERMINATION OF LICENSES. All annual licenses shall be operative and the license year for this Municipality shall commence on **May 1st of each year** and shall terminate on **April 30th** of the following year, where no provision to the contrary is made.

The Clerk shall notify all licensees of this Municipality of the time of expiration of the license held by the licensee (if an annual), **three (3) weeks** prior to the date of such expiration. Provided, however, that a failure to make such notification or the failure of the licensee to receive it shall not excuse the licensee from the obligation to obtain a new license or a renewal thereof, nor shall it be a defense in an action based upon operation without a license.

7-1-7 BUILDING AND PREMISES. No license shall be issued for the conduct of any business, and no permit shall be issued for any purpose or activity, if the premises and building to be used for the purpose do not fully comply with all applicable ordinances and regulations of this Municipality and the State of Illinois. No such license or permit shall be issued for the conduct of any business or performance of any act which would involve a violation of this Code and/or other applicable regulations of this Municipality. **(See Chapter 40 - Zoning Code)**

7-1-8 CHANGE OF LOCATION. The location of any licensed business or occupation, or the location of any permitted act may be changed, provided that **ten (10) days** notice thereof is given to the Clerk, in the absence of any provision to the contrary; provided further, however, that all applicable ordinances and regulations of this Municipality shall be complied with. **(See Chapter 40 - Zoning Code)**

7-1-9 LOCATION. No license for the operation of a business or establishment in this Municipality shall be construed to permit the operation of a licensed business or establishment in more

than **one (1) location** in this Municipality; a separate license shall be required for each location of a licensed establishment. For the purpose of this Code, the existence of a single location shall be evidenced by the fact that all buildings containing the principal or accessory uses shall be connected or shall be located on the same lot or parcel; shall be operated and managed by the same person or owner; and shall be an establishment with the same classification.

7-1-10 NUISANCES PROHIBITED.

7-1-10.1 GENERALLY. No business or establishment, whether licensed or not, shall be so conducted or operated as to constitute a nuisance in fact, and no building, vehicle or structure, yard, lot, premises or part thereof shall be used, kept, maintained, or operated in connection with any business or establishment so as to occasion any nuisance or so as to be dangerous to life or detrimental to health.

Furthermore, the pickup and removal of trash or garbage by any person using dumpster trucks or other motor vehicles or other mechanical means between **8:00 P.M. CST** and **6:00 A.M. CST** is found and declared to be a nuisance hereunder and is punishable as provided in **Section 1-1-20** of this Code. (**Ord. No. 4-81; 03-08-81**)

[ED. NOTE: The County Health Department should be consulted.]

7-1-10.2 UNSAFE OR UNHEALTHFUL BUSINESS.

(A) No building or structure utilized, constructed or maintained in connection with any business or occupation shall evidence an unsanitary, unsafe or dangerous condition.

(B) No substance, matter or thing of any kind whatsoever, which would be dangerous or detrimental to health, shall be allowed to exist in connection with any business or occupation, or be used in any work or labor performed in this Municipality.

7-1-10.3 REFUSE DISPOSAL.

(A) **Refuse Containers.** The standard refuse container required by this Code shall be a receptacle of not less than **twenty (20)**, nor more than **thirty-two (32) gallons capacity**, constructed of impervious material and sturdy construction with a tight-fitting cover, and equipped with handles properly placed to facilitate handling.

(B) **Duty-to Provide Refuse Containers.** The occupant of every building, structure or premises used or maintained in connection with any business or occupation shall provide and maintain in good condition and repair a sufficient number of refuse containers for the temporary storage of all refuse accumulating between collections.

All refuse which is placed for collection service outside any building or structure must be kept in standard refuse containers.

(C) **Refuse Removal.** It shall be the duty of the occupant of every building, structure or premises used or maintained in connection with any business or occupation to cause to be removed, at his own cost and expense, at least once each week, all refuse produced therein.

(D) **Removal of Restaurant Garbage.** Every person owning or controlling any hotel, restaurant, cafe, or retail food establishment where more than **thirty-two (32) gallons** of refuse, is normally produced weekly shall cause all garbage to be placed in sanitary refuse containers and shall cause all substances deposited in such containers to be removed daily from his premises and to be disposed of at his own expense.

7-1-11 HEALTH REQUIREMENTS. No owner, lessee, manager, or superintendent of any store, factory, workshop or other place where persons are employed shall cause or permit such place or any room or part thereof to be overcrowded or inadequate or faulty in respect to light, ventilation, heat or cleanliness.

7-1-12 SANITATION. All such places of employment shall be kept in a clean condition, free from effluvia of a sewer, drain, privy, stable or other nuisance(s); also as far as practicable, such premises shall be free from all gases, vapors, dust, or other impurities generated by manufacturing processes or otherwise which are injurious to health. Sufficient washroom facilities for male and female employees shall be provided and such facilities shall be properly ventilated.

7-1-13 HEAT REQUIRED.

PART B – DISPLAY SITE SELECTION/MINIMUM DISTANCES

- ☐ Did the operator provide you a copy of the Display Site plan? The display site plan must include the dimensions and locations of the discharge site, the fallout area, and identify the spectator viewing area and parking areas which must be located outside of the display site. The associated separation distances must also be shown.
- ☐ Identify the largest mortar size in inches: ()
- ☐ The minimum display site size required to conduct the display is based on the size of the largest mortar. To determine the minimum area for the display site, go to Table 1 and read the number next to size of the largest mortar identified above:

Table 1

Mortar Size (in inches)	Minimum Secured Diameter of the Site (in feet)
<3	280
3	420
4	560
5	700
6	840
7	980
8	1120
10	1400
12	1680

Where unusual or safety-threatening conditions exist, the authority having jurisdiction shall be permitted to increase the required separation distances as it deems necessary.

- ☐ Spectators and spectator parking areas must be located outside of the display site.

- ☐ Dwellings, buildings, and structures are not permitted to be located within the display site without the approval of the authority having jurisdiction and the owner and the dwelling, building, or structure is unoccupied during the display. The building may remain occupied if the structure provides protection through substantial noncombustible or fire-resistant construction for the occupants.
- ☐ Fire protection personnel and their vehicles and other emergency response personnel and vehicles shall remain at or beyond the perimeter of the display site during the actual firing of the display.
- ☐ Review sample Display Site Plan at end of this document.

PART C – LOCATION OF DISPLAY

- ☐ Mortars shall be placed at the approximate center of the display site.
- ☐ There shall not be any overhead object over the mortars or within 25 ft of the trajectory of any aerial shells.
- ☐ Ground display pieces shall be located a minimum distance of 75 ft from spectator viewing areas and parking areas.
 - ☐ Exception: For ground pieces with greater hazard potential (such as large wheels with powerful drivers, and items employing large salutes) or all roman candles and multishot devices, the minimum separation distance shall be increased to 125 ft (38 m).

PART D - MORTARS

- ☐ Mortars shall be positioned and spaced so that shells are propelled away from spectators, over the fallout area, and to afford maximum protection to the shooter and loader. Under no circumstances shall mortars be angled toward the spectator viewing area.
- ☐ Mortar racks or bundles shall be constructed in a thorough and workmanlike manner to be capable of holding multiple mortars in position during normal functioning. Mortar racks or bundles that are not inherently stable shall be secured or braced to stabilize them. Stabilization shall be accomplished by using stakes, legs, A-frames, side-boards, or equivalent means.

PART E – GROUND DISPLAY

- ☐ To the extent that it is practical, all ground display pieces shall be positioned outside the discharge area of aerial displays.
 - ☐ Exception: Where aerial shells have been preloaded, ground display pieces shall be permitted to be located in that discharge area.
- ☐ Dry grass or combustible materials located beneath ground display pieces shall be wet down before the display if they are in sufficient quantity to be a fire hazard.
- ☐ Poles for ground display pieces shall be securely placed and firmly braced so that they do not fall over during functioning of the fireworks device.

PART F – DISPLAY SITE SAFETY

- ☐ The authority having jurisdiction and the operator shall meet and determine the level of fire protection required.
- ☐ During the period before the display, where pyrotechnic materials are present, unescorted public access to the site shall not be permitted.
- ☐ Are there enough monitors positioned around the discharge site to prevent spectators or any other unauthorized persons from entering the discharge site? The discharge site must be restricted throughout the display and until the discharge site has been inspected after the display. The authority having jurisdiction may approve delineators or barriers to be used in crowd control.

- ☐ Does the display have at least two spotters, or preferably more, assigned to watch the flight and behavior of aerial shells and other aerial fireworks to verify that they are functioning as intended. If any unsafe condition is detected, such as hazardous debris falling into the audience, the spotter shall signal the shooter to cease firing until the unsafe condition is corrected. The spotters shall be in direct communication with the shooter during the conduct of the display, with an effective means of informing the shooter of any hazardous condition.

PART G – DISCHARGE AREA SAFETY

- ☐ During the firing of the display, all personnel in the discharge site shall wear head protection, eye protection, hearing protection, and foot protection and shall wear cotton, wool, or similarly flame-resistant, long-sleeved, long-legged clothing. Personal protective equipment, as necessary, shall be worn by the operator and assistants during the setup and cleanup of the display.
- ☐ No person shall ever place any body part over the mortar during the loading and firing of a display until mortars have been checked for the absence of any shells following the display.
- ☐ Smoking materials, matches, lighters or open flame devices shall not be allowed within 50 ft (15 m) of any area where fireworks or other pyrotechnic materials are present.
 - ☐ Exception: Devices such as fuses, portfires, and torches shall be permitted to be used to ignite fireworks.
- ☐ No person shall be allowed in the discharge area while under the influence of alcohol, narcotics, or medication that could adversely affect judgment, mobility, or stability.
- ☐ The first shell fired shall be observed carefully to determine that its trajectory is such that the shell functions over the fallout area and that any hazardous debris or unexploded shells land in the fallout area. The display shall be interrupted and the mortars shall be reangled or repositioned as necessary for safety at any time during an outdoor fireworks display.

PART H – HALTING DISPLAY

- ☐ Wherever, in the opinion of the authority having jurisdiction or the operator, any hazardous condition exists, the fireworks display shall be postponed until the condition is corrected. Such conditions include but are not limited to the following:
 - ☐ The lack of crowd control,
 - ☐ If high winds, precipitation, or other adverse weather conditions prevail, or
 - ☐ If any unsafe condition is detected, such as hazardous debris falling into the audience, the spotter shall signal the shooter to cease firing until the unsafe condition is corrected.
- ☐ In the event of a condition arising requiring the entry of fire protection or other emergency response personnel into the fallout area or security perimeter, the display shall be halted until the situation is resolved and the area is once again clear.

PART I – POST DISPLAY INSPECTION

- ☐ Following the display, the firing crew shall conduct an inspection of the fallout area for the purpose of locating any unexploded aerial shells or live components. This inspection shall be conducted before any public access to the site shall be permitted.
- ☐ Where fireworks are displayed at night, a search of the fallout area shall be made immediately after the display and at first light the following morning by the operator or designated personnel acceptable to the authority having jurisdiction.

No one will be permitted to sign in or out for another employee.

An employee shall, whenever possible, provide advance notice of absence from work.

When City offices and buildings are open, but inclement weather prevents employees from reaching the buildings, employees may account for such absences by using accrued time, such as vacation and compensatory time earned, or the employee may elect to be docked for time off. 11-7-8 LEAVE OF ABSENCE. No employee on leave of absence may earn vacation, or sick leave, except when the leave was for the purpose of accepting a temporary work assignment in another office.

All types of leave of absence do not earn vacations or sick leave while the employee is on leave of absence.

While the employee is on leave of absence, the length of service still continues to accumulate except for special leave situations under this Section (1) Special Leave, and for (7) Family and Medical Leave Act situations. Length of service is specifically prohibited from accumulating on Special Leave cases and on Family and Medical Leave Act situations. The prohibition on length of service accumulation is not contained in any other type of leave of absence situation. Therefore, the Code should be construed to allow accumulation of length of services while on leave of absence other than "special leave" and the "Family and Medical Leave Act".

Employee shall be granted an excused leave of absence for the following:

(A) **Special Leave.** All full-time and salary exempt employees who have completed **one (1) full year** of continuous service may request a special leave. Special leave will only be granted for personal reasons, and must be approved by employee's Superintendent. Special leave shall be granted without pay. The period for special leave shall not exceed **six (6) months**. An extension may be granted up to a maximum of **six (6) months** for a total of **one (1) year**. In order to continue to receive medical and insurance benefits during a special leave, the employee shall contribute both the employee and the employer's share of IMRF and insurance costs. Length of service or benefits shall not accrue or accumulate during a special leave. A person either hired or promoted to fill the position vacated by the person on leave shall be considered in that position temporarily and shall relinquish it upon the employee's return.

If a special leave is approved by the City Council, coverage under Illinois Municipal Retirement Fund may be maintained pursuant to IMRF rules and regulations. A request form for special leave is found in **Appendix "E"** at the conclusion of this Chapter.

(B) **Military.** Any full-time, salaried exempt, or part-time employee who is a member of a Reserve component of the Armed Services, the Illinois National Guard or the Illinois Naval Militia, shall be allowed annual leave with pay for **fifteen (15) days** and the City shall pay the difference in salary and any additions or extensions thereof without pay as may be necessary for the employees to fulfill the military reserve obligation. Such leaves will be granted without loss of length of service or other accrued benefits.

In case of an emergency call up (or order to state active duty) by the Governor, the leave shall be granted for the duration of said emergency with pay and without loss of length of service or other accrued benefits.

Military earnings during the military reserve obligation or for the emergency call shall be submitted and assigned to the City, and the City shall return it to the payroll fund from which the employee's payroll check was drawn. If military pay exceeds the employee's earning for the period, the City Council shall return the difference to the employee.

To be eligible for military reserve leave or emergency call up pay, the employee shall provide the City with a certificate from the commanding officer of the employee's unit that the leave taken was for either such purpose.

If an employee is given an early release from jury duty, the employee shall then report to his or her regular work assignment.

(D) **Witness.** An employee shall be excused from work when lawfully subpoenaed to serve as a witness. The employee must present written proof of the summons to testify to qualify for an excused absence. Notice to employee's supervisor should be made in advance of appearing in court. An employee's excused absence from work shall be on an unpaid basis, unless the employee's witness activity is work related and the witness activity is requested by the City. The employee shall turn over to the City any witness fee when the employee's witness activity is work related. The employee may choose to use a vacation day, if the witness activity is not work-related.

(E) **City Disability Leave.** To be eligible for City Disability Leave, the employee must submit to the City Council a medical opinion that the employee cannot work in his normal job position, and a medical opinion that the employee may possibly be able to return to work within the next **six (6) months**. Employees are not eligible for disability benefits until they have been employed at least **one (1) year**. Employees may be required to use their accrued sick or vacation time to continue regular wages.

Employees shall submit a letter requesting disability leave to their Superintendent within a reasonable amount of time before disability leave is taken. Upon return to work, employees shall submit a release statement from their physician to the Superintendent. If the Superintendent has reason to believe that the employee is unable to perform the normal duties or the employee is able to perform duties and is still absent, they may seek and rely upon the decision of an impartial physician. The City Council shall select a physician who is not a City employee to act as an impartial physician.

(F) **Educational Leave.** The City Council may grant an employee an educational leave of absence for the purpose of engaging in a training course. No educational leave may be granted unless in the judgment of the City Council the training course would benefit the City by improving the employee's qualifications to perform the duties of the employee's position or by qualifying the employee for advancement in rank or grade to another position in the City service. Employee shall receive his regular pay during an education leave of absence for training courses when so authorized by the City Council.

Employees may request an educational leave without pay to seek further professional training in specialty fields. Such leave may be up to **ten (10) months** in duration and requires the approval of the City Council. An employee on education leave without pay does not accrue vacation or sick leave credit for the period of leave. When ready to return to work, the employee will be offered the first available full-time position at the same job level the employee held prior to departing on educational leave without pay.

(G) **Family and Medical Leave Act.** An employee is eligible for a leave of absence through the Family and Medical Leave Act of 1993. In order to be eligible for leave, an employee must have worked for the employer at least **twelve (12) months** and must have worked at least **one thousand two hundred fifty (1,250) hours** over the previous **twelve (12) months** prior to the leave. Eligible female and male employees are allowed up to **twelve (12) weeks** of leave per **twelve (12) month period** following the birth of a child, the placement of a child for adoption or foster care, or the serious health condition of the employee or an immediate family member (defined for purposes of this Family and Medical Leave Act situation as including the employee's child, spouse or parent). The leave for birth or placement must take place within **twelve (12) months** of the birth or placement of the child.

The employee's leave shall be unpaid. The employee may, upon approval of the City Council, use accumulated sick leave and/or vacation leave. During the leave, the City shall continue to provide coverage under its group health plan. Following return upon leave, the employee shall be returned to a position with equivalent pay, benefits and other terms and conditions of employment.

In order to utilize leave of absence pursuant to the Family Medical Leave Act, the employee should give **thirty (30) day** notice.

For leave based upon serious health conditions, the employer may require certification from the employee's health care provider for leave. Employer reserves the right to require a second medical opinion at the employee's own expense. The request form is found in **Appendix "D"** at the conclusion of this Chapter.

(H) **Expiration of Leave.** When an employee returns from a leave of **six (6) months** or less, the Superintendent shall return the employee to the same or similar position in the same class in which the employee was incumbent prior to commencement of such leave.

An employee's same or similar position will not be protected for reductions in force or where the position has been eliminated. Employees are subject to termination if they are absent from work for more than **six (6) months**. No employee may be absent without permission of the supervisor to which assigned. In the absence of extenuating circumstances, an employee who is absent from work for any reason and fails to notify his or her supervisor within **two (2) working days** will be considered to have resigned.

No employee on leave of absence may earn vacation, or sick leave, except when the leave was for the purpose of accepting a temporary working assignment in another office.

11-9-3 USE OF DEPARTMENT PROPERTY. All department property and equipment entrusted to any employee will be used in accordance with the property's prescribed function. All damage through recklessness, gross negligence, intentional act, deliberate misuse, or theft shall be replaced and paid for by the employee committing the violation. Such replacement of property by the employee shall not be considered the exclusive remedy against the employee, and the employee may still be subject to discipline. All department property, personal lockers, and personal offices are subject to search and seizure. No department property shall be used for private or unauthorized purposes. All employees are required to return all department property or equipment in their possession upon separation, promotion, and/or transfer.

The Superintendent shall make all news releases concerning the department.

The City shall comply with the **Illinois Freedom of Information Act**, and employees are allowed to disseminate information pursuant to the Act. Many employees in the course of their work have access to medical information about patients, clients, employees, or other individuals. This may be medical, legal or job related information. Such information is not to be repeated or discussed outside the department or with other personnel unless such information is a necessary part of the employee's assigned duty.

Employees shall inform the Superintendent or Mayor of any possible conflict of interest situations they may have.

Employees are prohibited from accepting gifts, gratuities, or any item of value for work performed on behalf of the City. **(See Chapter 22 - Ethics Code)**

11-9-12 OTHER EMPLOYMENT. Employees are prohibited from having conflicting employment while having a full-time position. An employee may not be paid by another employer for the same **forty (40) hour** period employee is being paid by the department. If a full-time employee performs outside services or employment, such services or employment shall be reported to the Superintendent for prior approval, and advance notification shall be given by the employee to the City Clerk.

Fees earned by an employee for serving as an instructor for a class during other than normal working hours which is not sponsored by the City in another City agency, shall be dealt with as follows:

- (1) No overtime shall be earned and the fee retained, or;
- (2) Overtime shall be earned and the fee surrendered to the City Clerk and recorded as miscellaneous income.

Employees who are injured while engaging in other employment shall notify the Superintendent and the City Clerk.

11-9-13 PHYSICAL EXAMINATIONS. Each applicant for employment may be required to successfully complete a post-offer physical examination by a doctor of the employer's choice, including a drug screen upon the request of the City. At any time, employees may be required to submit to a physical examination. As a condition of their employment, the employees of the department shall authorize the release of medical testing information including drug screens to the City for departmental use only.

Each employee authorized to carry and use a gun while at work for the City, and all employees engaging in heavy manual labor as their principal form of job activity for the City may be required to submit to an annual physical exam and/or drug screens by a doctor of the employer's choice.

Drug screens can be conducted on a random basis for any security personnel employed by the City, except those under police personnel contract, for any employee authorized to carry and use a gun while performing work related activities for the City and for any employee that is required to hold other than a Class A driver's license for work related purposes. For all other employees, drug screens shall be conducted upon probable cause.

The term "drug screens", as used throughout and disclose to the Superintendent, any drug or alcohol problem that the employee may currently have.

11-9-14 REIMBURSEMENT OF COST OF TRAINING. If an employee leaves the department's employment before the completion of **three (3) years** from the initial date of employment, that employee will be liable for all costs incurred in the employee's selection, background investigation, equipment issue and training, prorated over a **three (3) year** period. Incurred training costs will be deducted from any remaining paychecks.

11-9-15 PRESCRIPTION DRUG USE. Any employee who is taking prescription or over-the-counter drugs or medication which may impact on abilities to perform work shall report the use of the drugs or medications to the immediate supervisor, along with the name and address of any medical doctors prescribing the medication.

11-9-16 - 11-9-19 RESERVED.

DIVISION II - DRUG FREE WORKPLACE POLICY

11-9-20 DRUG FREE WORKPLACE. All employees, as a condition of employment, shall comply with the City's Drug Free Workplace Policy that is found in this Division.

11-9-21 PURPOSE OF POLICY. Drug abuse affects all aspects of our lives - it threatens the workplace as well as the home, the school, and the community. The City must take a firm stance against illicit drug use. The use of drugs, which term for the purposes of this policy shall include alcohol in the workplace, is unacceptable since it can adversely affect health, safety, and productivity, as well as public confidence and trust. When drug use and/or involvement interferes with an employee's efficient and safe performance of work responsibilities and/or reduces the employee's dependability and accountability, it creates a problem for the whole organization.

Drug abuse inflicts notable human expense. Personal tragedies, feelings of anxiety and depression, and diminishing coping skills are reflected on an individual level. Dysfunctional and strained relationships mark the heavy burden felt by the families of the drug and alcohol abuser.

The cost of drug abuse, both on a personal and organizational level, is unacceptable. The rising incidence in substance abuse makes it imperative that the City combat this issue by implementing a zero tolerance policy of drug use in the workplace.

11-9-22 DRUG FREE WORKPLACE STATEMENT. The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance, including cannabis, is prohibited in the workplace. Controlled substance means a controlled substance as defined in the Illinois Controlled Substances Act or cannabis as defined in the Cannabis Control Act. Disciplinary action, up to and including dismissal can be taken against employees for drug violations.

All employees will, as a condition of employment:

(A) Agree not to manufacture, distribute, dispense, or possess controlled substances or alcohol in the workplace.

(B) Notify their respective Superintendent of any arrest or conviction of any local, state or federal criminal drug statute no later than **twenty-four (24) hours** after such arrest or conviction.

(C) Abide by the conditions set forth in this statement.

11-9-23 VIOLATIONS.

(A) Employees are subject to discipline, including discharge for violation of the above policy.

(B) Require the satisfactory participation and completion of a State licensed drug rehabilitation program, as sanctioned by the employer.

(C) The City shall notify the appropriate State Agency from which grant funds were received of the employee's conviction within **ten (10) days** after receiving notice from an employee of any criminal drug statute conviction for a violation in the workplace.

11-9-24 EMPLOYEE ASSISTANCE. A referral network to assist those who may be experiencing problems with drugs and/or alcohol will be established for all City employees.

11-9-25 STATUS OF EMPLOYMENT; REHAB COSTS. There is no requirement by the employer to keep an employee on active employment status who is receiving rehabilitative treatment if it is determined that the employee's current use of drugs prevents the individual from performing work related duties or whose continuance on active status could constitute a threat to the property and/or

safety of others. **The employee shall pay for all costs of rehabilitation.** The employee may use accumulated paid leave, and take unpaid leave pending treatment, at the discretion of the employer, and so long as the employee advised the Superintendent of use or abuse of drugs prior to occurrence of reasonable suspicion.

11-9-26 - 11-9-29 RESERVED.

DIVISION III – COMPUTER USAGE POLICY

11-9-30 COMPUTER USAGE PROCEDURE. Routinely all personnel will have access to a computer. The following procedures must be adhered to:

(A) All employees will only use the “Log-in ID”, “User ID” and “Passwords” assigned to them, i.e. use of a supervisor “User ID” and “Passwords” by a line officer is prohibited unless authorized by the Administration. Use is a privilege, not a right, which may be suspended or terminated by Mayor when, in his/her judgment, this policy has been violated by the user.

No employee is authorized to share their “password” with anyone except the Supervisor assigned to overlook all passwords in the department.

(B) It is not permissible to use City computers and equipment in any inappropriate manner, such as to disgrace the department or a fellow employee. It is forbidden to use profanity or vulgar language on any department computer equipment.

(C) Only floppy disks which are requisitioned from the storerooms and the data processing department are authorized to be used in department computers. No outside floppy disks will be authorized to be used except with permission from Administration.

(D) No employee shall be allowed to do personal work at his or her City computer. This is with or without the use of any floppy disk.

(E) No employee shall be allowed to copy any City or department document to a floppy disk and use it outside the office without permission from Administration.

(F) No employee shall be allowed to have any unauthorized programs, utilities, games or files on their City PC.

(G) Any variance from the above procedures shall have prior Administration permission.

Information and data maintained in the electronic media on City computer system are protected by the same laws and policies, and are subject to the same limitations, as information and communications in other media. Said information and data are the property of the City.

Before storing or sending confidential or personal information, users should understand that most materials on City system are, by definition, public records. As such, they are subject to laws and policies that may compel the City to disclose them. The privacy of the materials kept in electronic data storage and electronic mail is neither a right nor is it guaranteed.

11-9-31 - 11-9-34 RESERVED.

DIVISION IV – ELECTRONIC COMMUNICATIONS

11-9-35 POLICY; INTRODUCTION/PURPOSE. This policy is intended to serve as a guide on the proper use of the municipal electronic communication systems. This policy covers the use of all forms of electronic communications, including but not limited to e-mail, voice mail, fax machines, external bulletin boards, Intranet and the Internet, and applies to all users. Users are expected to read, understand and follow the provisions of this policy and will be held responsible for knowing its contents. Use of the electronic communication system constitutes acceptance of this policy and its requirements.

The City provides electronic mail (e-mail) and/or Internet access to Elected Officials and Staff who need it to perform the functions of their position. The purpose of this document is to communicate to all personnel their responsibility for acceptable use of the Internet and e-mail (whether sent over the Internet or over the City's own network). Policies and procedures are also outlined for the disclosure and monitoring of the contents of e-mail messages stored in the system when required.

The City's objectives for Employees to use e-mail and/or the Internet include:

- (A) exchanging information more efficiently than by telephone or written memorandum;
- (B) gathering information and performing research for departments; and
- (C) reducing the handling of paper copy.

11-9-36 POLICY DEFINITIONS. As used in this Policy, the terms listed below shall be defined as follows:

(A) **Electronic Mail (E-Mail).** Electronic mail may include non-interactive communication of text, data, image, or voice messages between a sender and designated recipient(s) by systems utilizing telecommunications links. It may also include correspondence transmitted and stored electronically using software facilities called "mail", "facsimile", "messaging" systems or voice messages transmitted and stored for later retrieval from a computer system.

(B) **Encryption Software.** Proprietary software that changes information from its native state to an unrecognizable coded state that can only be returned to its native state with special software.

(C) **Internet.** A worldwide network of networks, connecting informational networks communicating through a common communications language or "Protocol".

(D) **Intranet.** An in-house web site that serves the users of the City. Although Intranet pages may link to the Internet, an Intranet is not a site accessed by the general public.

(E) **World Wide Web.** An Internet client-server distributed information and retrieval system based upon hypertext transfer protocol (http) that transfers hypertext documents that can contain text, graphics, audio, video, and other multimedia file types across a varied array of computer systems.

(F) **Users.** Elected Officials, Department Heads, Employees, Volunteers, Contractors and Consultants.

(G) **Firewall.** An electronic device used to protect private networks from unauthorized access from users on the Internet.

11-9-37 OWNERSHIP. The electronic communication system is the property of the City. All computer equipment, computer hardware and computer software provided by the City are the property of the City. All communications and information transmitted by, received from, or stored in these systems are the property of the City.

11-9-38 USE OF ELECTRONIC COMMUNICATIONS. The City's electronic communications systems, including e-mail and the Internet, are intended for City business use only. Personal uses of the Internet and e-mail systems are prohibited. The City reserves the right to use

filtering software to block access to Internet sites that are considered inappropriate or non-productive. The filtered sites shall be reviewed and approved by the Mayor.

Before using these systems, all users shall understand that any information that is created, sent, received, accessed or stored in these systems shall be the property of the City and shall not be private. If a User is permitted to use electronic communication systems, such use shall not violate any section of this policy or interfere with user's work performance.

Users shall use the same care and discretion when writing e-mail and other electronic communications as they would with any formal written communication. Any messages or information sent by users to other individuals via electronic communication systems, such as the Internet or e-mail, are statements identifiable and attributable to the City. Consequently, all electronic communications sent by users shall be professional and comply with this policy.

11-9-39 PROHIBITED COMMUNICATIONS. Under no circumstances may any user operate the City's electronic communications systems for creating, possessing, uploading, downloading, accessing, transmitting or distributing material that is illegal, sexually explicit, discriminatory, defamatory or interferes with the productivity of coworkers. Specifically prohibited communications include, but are not limited to, communications that promote or transact the following: illegal activities; outside business interests; malicious use; personal activities (including chat rooms); jokes; political causes; football pools or other sorts of gambling; recreational games; the creation or distribution of chain letters; list servers for non-work purposes; "spams" (mailing to a large number of people that contain unwanted solicitations or information); sexual or any other form of harassment; discrimination on the basis of race, creed, color, gender, religion or disability; or for solicitations or advertisements for non-work purposes. Users may not engage in any use that violates copyright or trademark laws.

Also prohibited is any activity that could negatively impact public trust and confidence in the City or create the appearance of impropriety.

Users are also prohibited from posting information, opinions or comments to Internet discussion groups (for example: news groups, chat, list servers or electronic bulletin boards). Under no circumstances may any user represent their own views as those of the City.

Users may not disclose confidential or sensitive information. Personal information such as the home addresses, phone numbers, and social security numbers of Elected Officials or Employees should never be disclosed on the Internet.

11-9-40 NO PRESUMPTION OF POLICY. Although users may use passwords to access some electronic communication systems, these communications should not be considered private. Users should *always assume* that any communications, whether business-related or personal, created, sent, received or stored on the City's electronic communication systems may be read or heard by someone other than the intended recipient.

Users should also recognize that e-mail messages deleted from the system may still be retrieved from the computer's back-up system when requested by authorized personnel. Consequently, messages that were previously deleted may be recreated, printed out, or forwarded to someone else without the user's knowledge.

11-9-41 CITY'S RIGHT TO MONITOR USE. Under authorization of the Mayor, the City may monitor, intercept, access, and disclose all information created, sent, received, or stored on its electronic communication systems at any time, with or without notice to the user. The contents of computers, voice mail, e-mail and other electronic communications will be inspected when there are allegations that there have been breaches of confidentiality, security, or violations of this Electronic Communications Policy. These inspections will also be conducted when it is necessary to locate substantive information that is not readily available by less intrusive means. Before providing access to

store electronic communications such as e-mail messages, written authorization will be required from the Mayor.

The contents of the computers, voice mail, e-mail and other electronic communications may be turned over to the appropriate authority when there are allegations that there have been violations of law.

In addition, the City will regularly monitor and maintain a log of the user's Internet access, including the type of sites accessed, the name of the server, and the time of day that access occurs. The Mayor will have access to this log upon request. They may use this information that was obtained through monitoring as a basis for employee discipline.

The Mayor may authorize individuals for investigative purposes to engage in activities otherwise prohibited by this policy.

11-9-42 PROHIBITED ACTIVITIES. Users shall not download software programs of any kind. No software is to be installed on City computers without the approval of the City Council. Users may not upload, download, or otherwise transmit copyrighted, trademarked, or patented material; trade secrets; or confidential, private or proprietary information or materials. Users may not use the City's electronic communication systems to gain unauthorized access to remote computers or other systems or to damage, alter, or disrupt such computers or systems in any way, nor may users use someone else's code or password or disclose anyone's code or password including their own. It is a violation of this policy for users to intentionally intercept, eavesdrop, record or alter another person's Internet and e-mail messages. Users may not allow unauthorized individuals to have access to or use the City's electronic communication systems, or otherwise permit any use that would jeopardize the security of the City's electronic communication systems. Also, users may not post an unauthorized home page or similar web site.

Users may not make unauthorized commitments or promises that might be perceived as binding the City. Users must use their real names when sending e-mail messages or other electronic communications and may not misrepresent, obscure or in any way attempt to subvert the information necessary to identify the actual person responsible for the electronic communication. Sending an e-mail message under a fictitious or false name is a violation of this policy. Likewise, using another user's account or login ID constitutes a violation of this policy.

11-9-43 PASSWORDS. Each user will maintain a unique password. Users must keep their passwords confidential and must never leave their computers unattended when logged into the system. Passwords shall be changed whenever a password may have been compromised or revealed or when the computer security system requests a new password.

Directories of user e-mail addresses may not be made available for public access. No visitors, contractors or temporary employees may use the City's e-mail without prior written authorization from the Mayor.

11-9-44 INTERNET USAGE. Access to the Internet from any PC connected to the City's network is only allowed in accordance with this policy. Alternate methods of Internet access, such as using a modem to access a personal dial-up Internet account is prohibited as it may compromise the City's network security exposing it to potential harm from computer hackers.

Sessions on the Internet are logged automatically in exactly the same way that phone numbers are logged in the phone system. Do not use the Internet for tasks that you would not want to be logged.

Web browsers leave "footprints" providing a trail of all site visits. Do not visit any site where you would be reluctant to leave your name and work locations.

Use appropriate judgment before filling out a form included in a Web page. The form shall pass through many interconnecting computers and networks before reaching its destination. Other individuals will be able to eavesdrop on it. Personal or valuable information on the form may not remain confidential. Under no circumstances should you ever put a Social Security number on the Internet.

An Internet message sent from the City's address constitutes a City communication; therefore, it should be composed and structured correctly. Whenever possible, spell check messages prior to transmission, especially when sending to a non-City address.

Sending e-mail from the City's address can be likened to sending a letter on City letterhead. Messages may be forwarded by the recipient to others, printed in a location where others may view the message, and/or directed to the wrong recipient. Also, computer forensic experts can often retrieve e-mail previously deleted. An ill-considered remark can return to haunt the sender later.

Be courteous and follow generally accepted standards of etiquette. Protect others' privacy and confidentiality. Consider the City's needs before sending, filing, or destroying e-mail messages. Remove personal messages, temporary records and duplicate copies in a timely manner.

11-9-45 RECORDS RETAINED. Certain significant types of e-mail messages or their attached files may be considered records and should be retained if required by the City's record-retention policies. Examples of messages sent by e-mail that may constitute records include:

- (A) policies and directives;
- (B) correspondence or memoranda related to official business;
- (C) work schedules and assignments;
- (D) agendas and minutes of meetings;
- (E) drafts of documents that are circulated for comment or approval;
- (F) any document that initiates, authorizes, or completes a business transaction; and
- (G) final reports or recommendations.

11-9-46 RECORDS DISPOSAL. The content and maintenance of a user's electronic mailbox are the user's responsibility. The content and maintenance of a user's disk storage area are the user's responsibility. Each user should review his/her electronic records for deletion every **thirty (30) days**.

Messages of transitory or little value that are not normally retained in record-keeping systems should be regularly deleted. Informational messages, such as meeting notices, reminders, informal notes, and telephone messages should be deleted once the administrative purpose is served. If it is necessary to retain any e-mail message for an extended period, transfer it from the e-mail system to an appropriate electronic or other filing system. With the approval of the Mayor, the City Clerk or one of his/her staff members designated by him/her is permitted to remove any information retained in an e-mail system for more than **thirty (30) days**.

11-9-47 ACCESSING USER E-MAIL DURING ABSENCE. During a user's absence, the Mayor may authorize the City Clerk to access the user's e-mail messages and electronic Internet records without the consent of the user when necessary to carry out normal business functions.

11-9-48 FIREWALLS AND NETWORK PROTECTION. Firewalls and other devices to ensure the safety of the City private network will be installed to protect all City Electronic Communication Systems. Local governments are often targets of hackers and unauthorized intrusions because of the unique types of information stored on their systems. For this reason, the City takes a *very cautious* approach to security regarding the Internet and e-mail. Policies to ensure the security of the system include, but are not limited to: blocking access to certain Internet sites; filtering out potentially threatening e-mail attachments; filtering out dangerous types of web pages including Java Script, and ActiveX programs. Other methods of security may be deployed as new threats are discovered.

Any attempts to bypass or disable the security features installed by the City will be in violation of this policy and may result in disciplinary action.

11-9-49 PASSWORD PROTECTION. Users should use caution when using encryption software or password protecting their files. Password protected files cannot be retrieved without the necessary password. The City is not responsible for any lost, damaged or inaccessible files that result from password protection.

11-9-50 VIRUSES AND TAMPERING. Any files downloaded from the Internet must be scanned with virus detection software before installation and execution. All computers designated as having access to the Internet and e-mail must have virus detection software installed on them. Users may not deliberately disable the virus protection capabilities of these systems. The intentional introduction of viruses, attempts to breach system security, or other malicious tampering with any of the City's electronic communication systems is expressly prohibited. Users must immediately report any viruses, tampering or other system breaches to the Mayor or a designated officer.

Many viruses are transmitted through the e-mail system as attachments. Caution should be practiced prior to the accessing of any attachments to e-mail messages. Never access any unexpected attachments without verifying the source and reason for it, even if you recognize the sender of the e-mail. It is common practice for hackers to alter the source of an e-mail in an attempt to spread a virus.

11-9-51 DISCLAIMER OF LIABILITY FOR USE OF THE INTERNET. The City is not responsible for material viewed or downloaded by users from the Internet. The Internet provides access to a significant amount of information, some of which contains offensive, sexually explicit and inappropriate material. It is difficult to avoid contact with this material; therefore, users of the Internet do so at their own risk.

11-9-52 DUTY NOT TO WASTE ELECTRONIC COMMUNICATIONS RESOURCES. Users must not deliberately perform actions that waste electronic communication resources or unfairly monopolize resources to the exclusion of other users. This includes, but is not limited to, subscribing to list servers, mailing lists or web sites not directly related to the user's job responsibilities; spending nonproductive time on the Internet; and doing large non-work related file downloads or mass mailings. Electronic communication resources are limited and users have a duty to conserve these resources.

11-9-53 E-MAIL ADDRESSES. The City reserves the right to keep a user's e-mail address active for a reasonable period of time following the user's departure to ensure that important business communications reach their respective department.

11-9-54 FREEDOM OF INFORMATION ACT REQUESTS. The City will not accept Freedom of Information Act (F.O.I.A.) requests from the public via the Internet. If a citizen e-mails a F.O.I.A. request to a user, the employee should notify the citizen that these requests must be made in writing in compliance with the Freedom of Information Code. **(See Chapter 22)**

11-9-55 USE OF CREDIT CARDS ON THE INTERNET. Before making purchases on the Internet, users who are authorized to use City credit cards must ensure that they are using a secured site. The City recommends that users do not use their credit cards over the Internet and expressly disclaims responsibility for any loss or damages that results from credit card usage over the Internet.

11-9-56 **VIOLATIONS.** Violations of this policy may subject employees to disciplinary action ranging from the removal of electronic communication privileges to dismissal from employment. City employees who observe violations of this policy are obligated to report the violations to the Mayor or City Clerk.

11-9-57 **POLICY CHANGES.** The City reserves the right to change this policy at any time with notice. Nothing in this policy is intended or should be construed as an agreement and/or a contract expressed or implied. Policy changes will be disseminated electronically or in written form within **forty-eight (48) hours** of taking effect after an ordinance has been adopted.

ARTICLE X - RIGHTS OF EMPLOYEES

11-10-1 PERSONNEL FILE. Employees are allowed to look at their own personnel files during normal business hours. Persons wishing to view their own file shall file a written request with the Mayor or the City Clerk. A copy of the request shall be placed in the employee's personnel file. Nothing should be placed in an employee's personnel file nor shall anything be removed from the file without the consent of the Mayor and City Council. Records of prior grievances and discipline action shall be maintained in the employee's personnel file. The final decision to remove items lies within the discretion of the Mayor and the City Council.

11-10-2 REFERENCES. Employees or former employees have the right to obtain references or recommendations. Such references shall provide the applicable date of hire and the last date employed, and a general description of the applicable job duties. ARTICLE XIV – ANTI-BULLYING POLICY

11-14-1 APPLICATION OF POLICY. The City finds a safe work environment is beneficial for employees and promotes productivity. Workplace bullying has been linked to absenteeism, drug and alcohol use, and sexual violence. The City considers workplace bullying unacceptable and will not tolerate it. The anti-bullying policy shall apply to all individuals who are employees, volunteers and contractors. For purposes of this policy:

- (A) "Employee" is defined as an individual working for the City for remuneration;
- (B) "Volunteer" is defined as an individual who volunteers services to the City without remuneration;
- (C) "Contractor" is defined as an individual who contracts with the City to provide services, or an individual who works for a contractor of the City.

11-14-2 DEFINITION. Bullying is defined as any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a person that has or can be reasonably predicted to have the effect of one or more of the following:

- (A) placing the person in reasonable fear of harm to the person or the person's property;
- (B) causing a substantially detrimental effect on the person's physical or mental health;
- (C) substantially interfering with the person's productivity; or
- (D) substantially interfering with the person's ability to participate in or benefit from the opportunities offered by the employer.

Bullying may be intentional or unintentional. The City considers the following types of behavior illustrative examples of bullying: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, pushing; shoving; kicking; poking; tripping; assault, or threat of physical assault; theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying.

11-14-3 BULLYING PROHIBITED. Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, and any other distinguishing characteristic is prohibited in all places of employment, and an employer shall prevent bullying in its place of employment.

- (A) No person shall be subjected to bullying:
 - (1) during any period of employment activity;
 - (2) while working, on property of the employer, or at employer-sponsored or employer-sanctioned events or activities; or

11-14-5 REPORTING AND COMPLAINT PROCEDURE. The City encourages all employees, volunteers or contractors to promptly report any instance of bullying behavior. Early reporting and intervention have proven to be the most effective method of resolving actual or perceived incidents of bullying. Therefore, while no fixed reporting period has been established, prompt reporting of complaints or concerns is encouraged so that rapid and constructive action can be taken. The City shall make every effort to stop alleged workplace bullying before it becomes severe or pervasive, but can only do so with the cooperation of its employees.

Reports of bullying will be treated seriously, and investigated promptly and impartially. The City further encourages all individuals to whom this policy applies to formally report any concerns of assault, battery, or other bullying behavior of a criminal nature to the City Attorney's office. The City Council requires any supervisor who witnesses bullying, irrespective of reporting relationship or his/her responsibility to address it, to promptly report this conduct to the Police Chief or the Mayor.

Individuals who believe they have experienced conduct that they believe violates this policy, or who have concerns about such matter, should report their complaints or concerns verbally or in writing to his or her supervisor, or the City Attorney, before the conduct becomes severe or pervasive. Individuals should not feel obligated to report their complaints to their immediate supervisor first before bringing the matter to the attention of one of the other designated City representatives identified above.

The availability of this complaint procedure does not preclude individuals who believe they are being subjected to bullying conduct from promptly advising the offender that his or her behavior is unwelcome and requesting that such behavior immediately stop.

ARTICLE XV – DOMESTIC AND SEXUAL VIOLENCE POLICY

11-15-1 PURPOSE OF POLICY. Domestic violence can permeate the lives and compromise the safety of employees with tragic, destructive and often fatal results. Domestic violence occurs within a wide spectrum of relationships, including married and formerly married couples, couples with children in common, couples who live together or have lived together, gay, lesbian, bisexual and transgender couples, and couples who are dating or who have dated in the past. Domestic violence represents a pattern of coercive tactics which can include physical, psychological, sexual, economic and emotional abuse perpetrated by one person against another in an intimate relationship or in the same household, with the goal of establishing and maintaining power and control over the victim. In addition to exacting a tremendous toll from the individuals it directly affects, domestic violence often spills over into the workplace, compromising the safety of both victims and co-workers and resulting in lost productivity, increased health care costs, increased absenteeism, and increased employee turnover. The City will take appropriate actions to promote safety in the workplace and respond effectively to the needs of victims of domestic violence.

11-15-2 DEFINITION. For purposes of this policy and pursuant to the Illinois Victims' Economic Security and Safety Act (VESSA), the following terms are defined as follows:

(A) **"Abuser":** A person who perpetrates a pattern of coercive tactics which can include physical, psychological, sexual, economic, and emotional abuse against an adult intimate partner, with the goal of establishing and maintaining power and control over the victim.

(B) **"Domestic Violence":** Domestic violence means abuse by a family or household member, as defined by this policy pursuant to Section 103 of the Illinois Domestic Violence Act of 1986. Domestic violence includes sexual assault or stalking.

(C) **"Employee":** A person working for the City for remuneration for services.

(D) **"Family or Household Member":** For employees with a family or household member who is a victim of domestic or sexual violence, this means spouse, parent, son, daughter, other person related by blood or by present or prior marriage, another person who shares a relationship through a son or daughter, and persons jointly residing in the same household.

(E) **"Parent"** means biological parent of an employee or an individual who stood in loco parentis to an employee when the employee was a son or daughter as defined herein.

(F) **"Son or Daughter"** means a biological, adopted, or foster child, a stepchild, a legal ward, or a child of a person standing in loco parentis, who is under **eighteen (18) years** of age, or is **eighteen (18) years** of age or older and incapable of self-care because of a mental or physical disability.

11-15-3 VICTIMS' ECONOMIC SECURITY AND SAFETY ACT (VESSA). The person against whom an abuser directs coercive and/or violent acts, including an employee who is a victim of domestic or sexual violence, or an employee's family or household member who is a victim of domestic or sexual violence, and whose interests are not adverse to the employee as it related to domestic or sexual violence.

11-15-4 POLICY.

(A) **Employee Awareness.** The City shall take reasonable actions to educate employees regarding the effects of domestic violence and methods to report such violence to authorities. It is the policy of the City that information on domestic violence and available resources shall be available to employees through the City Council and by this written policy, which shall be disseminated to employees.

(B) **Non-Discriminatory Policy.** Non-Discriminatory and Responsive Personnel Policies for Victimized Employees of the City shall ensure that personnel policies and procedures do not

discriminate against victims of domestic violence and are responsive to the needs of victims of domestic violence.

- (1) Illinois law prohibits employers from interfering with, restraining, or denying the exercise of any right provided under VESSA. This law requires employers, when given **forty-eight (48) hours** prior notification, to allow time off for employed victims of domestic or sexual violence and employees with a family or household member who is a victim of domestic or sexual violence, to take unpaid leave to seek medical help, legal assistance, counseling, safety planning, and other assistance without penalty from the employer for the employee or the family or household member who is a victim.
- (2) Illinois law prohibits employers from discriminating against any employee who is a victim of domestic or sexual violence or any employee who has a family or household member who is a victim of domestic or sexual violence.
- (3) An employee who is a victim of domestic or sexual violence, or has a family or household member who is a victim of domestic or sexual violence and whose interests are not adverse to the employee as it relates to domestic or sexual violence, may take unpaid leave from work to address domestic or sexual violence by:
 - (a) seeking medical attention for, or recovering from, physical or psychological injuries caused by domestic or sexual violence to the victim;
 - (b) obtaining services from a victim services organization for the victim;
 - (c) obtaining psychological or other counseling for the victim;
 - (d) participating in safety planning, temporarily or permanently relocating, or taking other actions to increase the safety of the victim;
 - (e) seeking legal assistance or remedies to ensure the health and safety of the victim, including preparing for or participating in any civil or criminal legal proceeding related to or derived from domestic or sexual violence.
- (4) The employee shall be entitled to a total of **twelve (12) workweeks** of leave during any **twelve (12) month** period. This policy does not create a right for an employee to take an unpaid leave that exceeds the unpaid leave time allowed under, or is in addition to, the unpaid leave time permitted by the federal Family Medical Leave Act. Leave may be taken intermittently or on a reduced work schedule. An employee may substitute accumulated paid leave for unpaid leave; however, the paid leave will count toward the number of workweeks used for purposes of this policy. The employee shall provide at least **forty-eight (48) hours** advance notice of the employee's intention to take leave, unless providing such notice is not practicable. No action will be taken against an employee for failing to provide **forty-eight (48) hours** advance notice if the employee provides certification that leave was used for the purposes outlined in **Section 11-15-4(B)(2)** of this Section and can demonstrate that advance notice was not practicable.
- (5) During a leave taken pursuant to this policy, the City shall maintain coverage under its group health plan for the duration of such leave at the level and under the conditions coverage would have been provided if the employee had continued in employment for the duration of such leave. If the employee fails to return from leave, however, the City may recover any premium costs it paid for such coverage if the reason

for the employee not returning is other than the continuation, recurrence, or onset of domestic or sexual violence or circumstances beyond the control of the employee. Neither seniority nor leave benefits will accrue to the employee during unpaid leave.

- (6) The City, upon request, will assist the employee in determining the best use of his/her attendance and leave benefits when an employee needs to be absent as a result of being a victim of domestic violence. If an employee requests time off to care for and/or assist a family or household member who has been a victim of domestic violence, the employee's supervisor or the City Council (or their designee) will evaluate the employee's request for leave for eligibility under existing law and collective bargaining agreements applicable to the employee and the attendance rules.
- (7) The City requires certification from an employee for leave under this policy. The employee shall certify that the leave is for one of the purposes enumerated in **Section 11-15-4(B)** of this Section. Certification shall be provided to the employer within a time period set by the employer.
- (8) The City understands that victims of domestic violence may lack the required documentation or have difficulty obtaining the required certification to justify absences without compromising their safety. Therefore, the Mayor or his designee shall consult with the employee to identify what documentation she/he might have, or be able to obtain, that will not compromise his/her safety-related needs and will satisfactorily meet the documentation requirement of the employer.
- (9) All information provided to the employer pursuant to notification and certification requirements of this policy, and the purposes for which leave may be requested pursuant to this policy, shall be retained in strictest confidence by the employer, except to the extent that disclosure is requested or consented to in writing by the employee, or otherwise required by applicable federal or State law. Reported information shall be kept private to the greatest extent possible by Federal law, State law, and City policy; however, information may have to be disclosed pursuant to a subpoena, Illinois Supreme Court Rules, a court of law, or where otherwise required by law. Where medical information is received by the City from an employee who is the victim of domestic violence, such medical information shall be kept confidential.
- (10) Employees who are victims of domestic violence and who are legally separated from a covered spouse or civil-union partner, shall be allowed to make reasonable changes in benefits at any time during the calendar year, provided the change is requested within **thirty (30) days** of the separation and is in accordance with the City policies, rules, and regulations.
- (11) The City will not make inquiries about a job applicant's current or past domestic violence victimization, and employment decisions will not be based on any assumptions about or knowledge of such exposure.

(C) **Accountability for Employees Who are Abusers.** The City will hold employees, individuals who volunteer services to the City without remuneration (hereafter "volunteers"), and individuals who contract with the City or work for contractors of the City (hereafter "contractors"), accountable for engaging in the following behavior: (i) using City resources to commit an act of domestic violence; (ii) committing an act of domestic violence from or at the workplace or from any other location while on official City business; or (iii) using their job-related authority and/or City resources in order to negatively affect victims and/or assist perpetrators in locating a victim and/or in perpetrating an act of domestic violence.

Any physical assault or threat made by an employee, volunteer, or contractor, while on City premises, during working hours, while representing the City, or at a City-sponsored event, is a serious violation of this policy. This policy applies not only to acts against employees, but to acts against all other persons. Those found to have violated this policy will be subject to corrective or disciplinary action, up to and including discharge.

- (1) In cases in which the City has found that an employee, volunteer, or contractor, has threatened, harassed, or abused an intimate partner at the workplace using City resources such as work time, workplace telephones, facsimile machines, mail, e-mail or other means, said employee shall be subject to corrective or disciplinary action.
- (2) In cases in which the City has verification that an employee, volunteer, or contractor is responsible for a domestic violence-related offense, or is the subject of any order of protection, including temporary, final or out-of-state order, as a result of domestic violence, and said employee, volunteer or contractor has job functions that include the authority to take actions that directly impact victims of domestic violence and/or actions that may protect abusers from appropriate consequences for their behavior, the Mayor shall determine if corrective action is warranted.
- (3) In cases in which any employee, volunteer, or contractor intentionally uses his/her job-related authority and/or intentionally uses City resources in order to negatively impact a victim of domestic violence, assist an abuser in locating a victim, assist an abuser in perpetrating acts of domestic violence, or protect an abuser from appropriate consequences for his/her behavior, said individual may be subject to corrective or disciplinary action.

ARTICLE XVI - DISCIPLINE

11-16-1 **PROCEDURE.** The formal disciplinary process is a five step procedure, but dismissal may occur at any step in the process. Superintendents may use the Discipline Form attached as **Appendix B** for documentation purposes. Under normal circumstances, these steps are outlined in the following sections.

11-16-2 **VERBAL REPRIMAND.** A verbal reprimand informs an employee of unsatisfactory conduct, attitude or performance, and acknowledges that continued such actions will result in more severe disciplinary actions. The reprimand should be done in private, and should be documented with the date and nature of the problem and placed in the employee's personnel file.

11-16-3 **WRITTEN REPRIMAND.** A written reprimand informs an employee of unsatisfactory conduct, attitude or performance. Written reprimand is more severe than a verbal reprimand, but serves the same purpose to acknowledge further unsatisfactory conduct, attitude, or performance will result in more severe disciplinary action. A copy of the written reprimand will be sent to the employee, the Superintendent, Mayor and employee's personnel file.

11-16-5 **ADMINISTRATIVE LEAVE.** An Employee may be placed on administrative leave by the Mayor with or without pay and benefits pending an investigation based on alleged violation of the municipal policies and procedures. 11-16-6 **SUSPENSION.** Suspension of an employee would be at the discretion of the Superintendent. The suspension will result in a loss of salary for the period of the suspension. If the employee violates the conditions of the probation, the employee may be subject to termination. Removal from probationary status is based upon satisfactory completion of a probationary period, a recommendation from the employee's immediate superintendent, and the approval the Mayor and City Council. The period of suspension may be up to but not exceeding **thirty (30) days** off without pay in one calendar year. The suspension may include demotion, and is within the discretion of the Superintendent.

11-16-7 **DISMISSAL.** Dismissal shall be used as a disciplinary action of last resort at the discretion of the Mayor and the City Council. All employees are subject to discharge by the Mayor with the advice and consent of the City Council during any of the disciplinary steps.

11-16-9 POLITICAL ACTIVITIES. No form of discipline can occur because of any employee's political activity or political beliefs. This prohibition on discipline does not apply to individuals in policy making or confidential positions or where an overriding interest or vital importance exists which requires that an employee's political beliefs and activities conform to those of the Superintendent or the Corporate Authorities.

The City also recognizes that false accusations can have serious affects on innocent men and women. We trust that all employees will continue to act in a responsible and professional manner to establish a pleasant working environment free of discrimination.

ARTICLE XVII - MISCELLANEOUS

11-17-1 GRIEVANCE PROCEDURE. The purpose of a grievance procedure is to establish and maintain harmonious and cooperative working relationships between the City and its employees, to assure equitable treatment of employees, and to provide expeditious means of resolving employee dissatisfaction over circumstances or conditions of employment.

Strict adherence to the grievance procedures and time limits is mandatory, except that the time limits may be extended for good cause.

A grievance is defined as a dispute, disagreement, complaint, or any matter concerning any terms or conditions of employment, or concerning the application of any departmental policy, or concerning any employee relationship, or work related issue.

As used in this Article, the term days shall mean working days of the employee filing the grievance.

At any step, if a written response is not provided to the grieving employee within the **ten (10) day** time frame, the grievance will be considered denied at that step, and the employee may proceed to the next step.

If any Superintendent is disciplined and/or discharged by the Mayor with the advice and consent of the City Council, the discipline and/or discharge shall constitute the final resolution of the matter and there shall be no access in this instance to the various steps of the grievance procedure. The failure of a reappointment of a Superintendent by the Mayor shall not be interpreted to constitute discipline and/or discharge of an ongoing employment relationship with the City.

Steps:

(A) A grieving employee shall within **five (5) days** after he learns of the circumstances or conditions which prompted the grievance, submit the grievance to the employee's Superintendent, in writing, informing such Superintendent of the grievance and the particulars concerning the same. The Superintendent shall provide a written response to the grieving employee within **ten (10) days** after receiving the grievance.

(B) If the grievance is not resolved to the employee's satisfaction, the employee may submit the grievance to the Mayor by summarizing the grievance in writing.

The grievance must be submitted to the Mayor within **five (5) days** of the decision of the Superintendent.

For all other employees, the grievance shall be before the Mayor.

(See Appendix "C" for Disability Act Procedure.)

11-17-2 LAYOFFS. In the event it becomes necessary to layoff employees for any reason, employees will be laid off based on the following criteria: Employee's knowledge, skills, and abilities in relation to positions available, lack of work, lack of funds, the employee's length of service, the employee's work record including commendations as well as disciplinary action, the employee's attitude and relations with other employee's as well as other agencies and change in duties of the department. The employee shall receive **two (2) weeks'** notice.

11-17-3 RESIGNATION. Sick leave, vacation, and retirement fund benefits cease at midnight on the date of termination. Life and health insurance will cease at the end of the month of the termination. Employees may elect to continue participation in the plan on a self-pay basis as provided by federal statutes. The employee will be paid for each day of accrued and unused vacation time. Monies accumulated in the employee's retirement account may be refundable, according to IMRF Rules. Forms required to request this refund are available from the City Clerk's office.

CHAPTER 13

ENTERPRISE ZONE

13-1-1 ZONE ESTABLISHED. The City hereby establishes an "Enterprise Zone", pursuant to authority granted by the Illinois Enterprise Zone Act (The "Act"; PA 82-1019), as amended, subject to the approval of the Illinois Department of Commerce and Community Affairs, and subject to the provisions of the Act.

13-1-2 TERM OF ZONE. The term of the zone shall commence with the date the Enterprise Zone is designated and certified by the Illinois Department of Commerce and Community Affairs pursuant to Section 5.3 of the Act, and shall terminate at midnight of **December 31** of the **twentieth (20th) year** after the year in which the Enterprise Zone is certified, unless otherwise stated herein.

13-1-3 AREA OF ZONE. As amended by the units of government and approved by the Illinois Department of Commerce and Community Affairs, the area of the Enterprise Zone shall be as described in Exhibits A-1, A-2, A-3, A-4, A-5, A-6, A-7 and A-8, as outlined in the maps in Exhibits B, B-1, B-2, B-3, B-4, B-5, B-6, B-7 and B-8, which exhibits are attached to this Code and made a part hereof. **(Ord. Nos. 36-96; 37-96; 38-96; 09/09/96)**

13-1-4 DECLARATION OF QUALIFICATION. The City hereby declares and affirms that the zone area is qualified for designation as an Enterprise Zone in accordance with the provisions of the Illinois Enterprise Zone Act, and further affirms that:

- (A) The zone area is a contiguous area.
- (B) The zone area comprises a minimum of **one-half (1/2) square mile** and not more than **twelve (12) square miles** in total area.
- (C) The zone area is a depressed area.
- (D) The zone area satisfies any additional criteria established by the Illinois Department of Commerce and Community Affairs.
- (E) On **December 17, 1990**, the City Council conducted a public hearing within the zone area on the question of whether to create the zone, what local plans, tax incentives and other programs should be established in connection with the zone, and what the boundaries of the zone should be, and that public notice was given in at least one newspaper of general circulation within the zone area, not more than **twenty (20) days** nor less than **five (5) days** before the hearing.

13-1-5 SALE OF BUILDING MATERIALS. Each retailer whose place of business is within the City of Herrin and who makes a sale of building materials to be incorporated into real estate located in the Enterprise Zone by remodeling, rehabilitation or new construction, may deduct receipts from sales of building materials to be incorporated into real estate located within the Enterprise Zone by remodeling, rehabilitation, or new construction, to the extent that such remodeling, rehabilitation, or new construction is of the nature and scope for which a building permit or certification of eligibility is required and has been obtained. The incentive provided by this Section shall commence the **first (1st) day** of the calendar month following the month in which the Enterprise Zone is designated and certified, and shall continue for the term of the Enterprise Zone. **(Ord. No. 27-94; 09-12-94)**

13-1-6 **ABATEMENT OF TAXES.** The City authorizes and directs the County Clerk to abate ad valorem taxes imposed upon real property, located within the Enterprise Zone area, upon which new improvements have been constructed or upon which existing improvements have been renovated or rehabilitated, subject to the following conditions:

(A) Any abatement of taxes on any parcel shall not exceed the amount attributable to the construction of the improvements and the renovation or rehabilitation of existing improvements on such parcel.

(B) Such abatement shall be allowed for commercial, industrial, or manufacturing property, also for residential property improvement through the urban homestead program located within the zone area. Commercial means the buying and selling of goods and/or services, but does not include the rental or leasing of structures primarily for residential use on a permanent or non-transient basis (including, but not limited to, duplexes, apartments, and condominiums). Hotels, motels, and inns shall be considered commercial for purposes of this Section. **(Ord. No. 43-95; 11-14-95)**

(C) Such abatement shall be at the rate of: 100% of the value of the improvements, for the assessment year in which the improvements are made, and the four assessment years immediately following the year in which the improvements are made, and 50% of the value of the improvements for the succeeding **five (5) years**.

(D) The abatement is allowed only for improvements duly assessed at more than \$10,000 market value, the nature and scope of which a building permit or certification of eligibility is required and has been obtained.

(E) Such abatement shall continue and be in full force as set forth in this Section for any improvements which are completed within the term of the Enterprise Zone as specified in Section 13-1-3 of this enactment.

(F) The abatement will apply to the assessed value at the time of approval at the then current taxing rate; if there would be increases in the taxing rate or reassessments done during the time of the abatement period which would increase the assessed value, the business or industry would be responsible for the taxes on the increases.

(G) No abatement shall be applicable to any such improvement located within the boundaries of a Tax Redevelop Project District.

(H) If during the term of said property tax abatement, the company ceases operations due to closure of business operations, (i.e., sales of products, laying off personnel which leads to closure), said property tax abatement is terminated and canceled for the remainder of the term as stipulated under Section 13-1-6(C) in Ordinance No. 65-90, and the Intergovernmental Agreement. **(Ord. No. 44-95; 11-14-95)**

13-1-7 **WAIVER OF FEES.** In the case of any and all permit fees required and charged by the City for the rehabilitation, expansion or new construction of any commercial, industrial, manufacturing or community development assisted projects within the Zone Area, such permit fees (but not the permits themselves) shall be waived in their entirety. The permit fee waiver herein provided for shall include all fees charged for building, plumbing, electrical, zoning, and excavation permits where a building permit or certification of eligibility is otherwise required and has been obtained for such rehabilitation, expansion or new construction, but shall not include such permit fees charged for the mere repair or replacement of electrical, plumbing or mechanical systems not undertaken in connection with such rehabilitation, expansion or new construction.

The Designated Zone Organization may sell or lease such structure to commercial and industrial businesses pursuant to the procedures set forth in the sales agreement

between it and the City. The Designated Zone Organization may retain the structure in whole or in part for its own use. Any proceeds derived from the use, lease or sale of such property shall accrue to the Designated Zone Organization.

Under the urban homestead program, the City may sell to an individual a residence or any portion thereof that the City owns within the zone area for a sum of **One Hundred Dollars (\$100.00)**. The individual must agree to renovate or remodel the property to meet the standards and level of maintenance stated in the sales agreement between the individual and the City, and the individual must live in the residence for **seven (7) years**. At the end of the **seven (7) year period**, the City shall assign title to the property over to the individual, provided satisfactory improvements to the property have been made pursuant to the agreement with the City.

The urban homestead program and the urban shopstead program shall be subject to rules and guidelines issued by the Zone Administrator, with the approval of the Council, provided such rules and guidelines are not inconsistent with the act.

FLOOD PLAIN CODE

ARTICLE I - GENERALLY

14-1-1 PURPOSE. This Code is enacted pursuant to the police powers granted to this City by Illinois Municipal Code (**65 ILCS 5/1-2-1, 5/11-12-12, 5/11-30-8 and 5/11-31-2**) and pursuant to the home rule authority of the City in order to accomplish the following purposes:

- (A) to prevent unwise developments from increasing flood or drainage hazards to others;
- (B) to protect new buildings and major improvements to buildings from flood damage;
- (C) to promote and protect the public health, safety, and general welfare of the citizens from the hazards of flooding;
- (D) to lessen the burden on the taxpayer for flood control, repairs to public facilities and utilities, and flood rescue and relief operations;
- (E) to maintain property values and a stable tax base by minimizing the potential for creating flood blighted areas; and
- (F) to make federally subsidized flood insurance available; and
- (G) to preserve the natural characteristics and functions of watercourses and floodplains in order to moderate flood and stormwater impacts, improve water quality, reduce soil erosion, protect aquatic and riparian habitat, provide recreational opportunities, provide aesthetic benefits and enhance community and economic development.

14-1-2 DEFINITIONS. For the purpose of this Code, the following definitions are adopted:

"Base Flood": The flood having a **one percent (1%)** probability of being equaled or exceeded in any given year. The base flood is also known as the 100-year flood. The base flood elevation at any location is as defined in **Section 14-1-3** of this Code.

"Base Flood Elevation (BFE)": The elevation in relation to mean sea level of the crest of the base flood.

"Basement": That portion of a building having its floor sub-grade (below ground level) on all sides.

"Building": A walled and roofed structure, including gas or liquid storage tank, that is principally above ground, including manufactured homes, prefabricated buildings and gas or liquid storage tanks. The term includes a gas or liquid storage tank, a manufactured home, or a prefabricated building. The term also includes recreational vehicles and travel trailers installed on a site for more than **one hundred eighty (180) days** per year.

"Critical Facility": Any facility which is critical to the health and welfare of the population and, if flooded, would create an added dimension to the disaster. Damage to these critical facilities can impact the delivery of vital services, can cause greater damage to other sectors of the community, or can put special populations at risk.

Examples of critical facilities where flood protection should be required include: emergency services facilities (such as fire and police stations), schools, hospitals, retirement homes and senior care facilities, major roads and bridges, critical utility sites (telephone switching stations or electrical transformers), and hazardous material storage facilities (chemicals, petrochemicals, hazardous or toxic substances).

"Development": Any man-made change to real estate including, but not necessarily limited to:

- (A) demolition, construction, reconstruction, repair, placement of a building, or any structural alteration to a building;
- (B) substantial improvement of an existing building;

(C) installation of a manufactured home on a site, preparing a site for a manufactured home, or installing a travel trailer on a site for more than **one hundred eighty (180) days** per year;

(C) installation of utilities, construction of roads, bridges, culverts or similar projects;

(D) construction or erection of levees, dams, walls, or fences;

(E) drilling, mining, filling, dredging, grading, excavating, paving or other alterations of the ground surface;

(F) storage of materials including the placement of gas and liquid storage tanks, and channel modifications or any other activity that might change the direction, height, or velocity of flood or surface waters.

"Development" does not include routine maintenance of existing buildings and facilities, resurfacing roads; or gardening, plowing, and similar practices that do not involve filling, grading, or construction of levees.

"Existing Manufactured Home Park or Subdivision": A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed or buildings to be constructed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by a community.

"Expansion to an Existing Manufactured Home Park or Subdivision": The preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

"FEMA": Federal Emergency Management Agency.

"Flood": A general and temporary condition of partial or complete inundation of normally dry land areas from the overflow, the unusual and rapid accumulation, or the runoff of surface waters from any source.

"Flood Fringe": That portion of the floodplain outside of the regulatory floodway.

"Flood Insurance Rate Map": A map prepared by the Federal Emergency Management Agency that depicts the floodplain or special flood hazard area (SFHA) within a community. This map includes insurance rate zones and may or may not depict floodways and show based flood elevations.

"Flood Insurance Study": An examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations.

"Floodplain and Special Flood Hazard Area (SFHA)": These two terms are synonymous. Those lands within the jurisdiction of the **City of Herrin**, the extraterritorial jurisdiction of the **City of Herrin**, or that may be annexed into the **City of Herrin**, that are subject to inundation by the base flood. The floodplains of the **City of Herrin** are generally identified as such on panel number(s) **170717** of the countywide Flood Insurance Rate Map of **Williamson County** prepared by the Federal Emergency Management Agency and dated **August 4, 2008**. Floodplain also includes those areas of known flooding as identified by the community.

The floodplains of those parts of unincorporated **Williamson County** that are within the extraterritorial jurisdiction of the **City of Herrin** or that may be annexed into the **City of Herrin** are generally identified as such on the Flood Insurance Rate Map prepared for **Williamson County** by the Federal Emergency Management Agency and dated **August 4, 2008**.

"Floodproofing": Any combination of structural or nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate, property and their contents.

"Floodproofing Certificate": A form published by the Federal Emergency Management Agency that is used to certify that a building has been designed and constructed to be structurally dry floodproofed to the flood protection elevation.

"Flood Protection Elevation (FPE)": The elevation of the base flood plus **one (1) foot** of freeboard at any given location in the floodplain.

"Floodway": That portion of the floodplain required to store and convey the base flood. The floodway for the floodplains of **Hurricane Creek** and **Seventeenth Street Ditch** shall be according to the best data available from Federal, State, or other sources.

"Historic Structure": Any structure that is:

(A) Listed individually in the National Register of Historic Places or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register.

"Lowest Floor": The lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor. Provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of **Section 14-1-7** of this Code.

"Manufactured Home": A structure transportable in **one (1)** or more sections, that is built on a permanent chassis and is designed to be used with or without a permanent foundation when connected to required utilities.

"NFIP": National Flood Insurance Program.

(A) built on a single chassis;

(B) **four hundred (400) square feet** or less in size;

(C) designed to be self-propelled or permanently towable by a light duty truck and designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel or seasonal use.

"Repetitive Loss": Flood related damages sustained by a structure on **two (2)** separate occasions during a **ten (10) year** period for which the cost of repairs at the time of each such flood event on the average equals or exceeds **twenty-five percent (25%)** of the market value of the structure before the damage occurred.

"SFHA": See definition of **"Floodplain"**.

"Start of Construction": Includes substantial improvement and means the date the building permit was issued. This, provided the actual start of construction, repair, reconstruction, rehabilitation, addition placement or other improvement, was within **one hundred eighty (180) days** of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns or any work beyond the stage of excavation or placement of a manufactured home on a foundation. For a substantial improvement, actual start of construction means the first alteration of any wall, ceiling, floor or other structural part of a building whether or not that alteration affects the external dimensions of the building.

"Structure": See **"Building"**.

"Substantial Damage": Damage of any origin sustained by a structure whereby the cumulative percentage of damage subsequent to the adoption of this Code equals or exceeds **fifty percent (50%)** of the market value of the structure before the damage occurred regardless of actual repair work performed. Volunteer labor and materials must be included in this determination. The term includes "Repetitive Loss Buildings" (See definition).

"Substantial Improvement": Any reconstruction, rehabilitation, addition or improvement of a structure taking place subsequent to the adoption of this Code, in which the cumulative percentage of improvements equals or exceeds **fifty percent (50%)** of the market value of the structure before the improvement or repair is started, or increases the floor area by more than **twenty percent (20%)**.

"Substantial Improvement" is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. This term includes structures which have incurred repetitive loss or substantial damage, regardless of the actual repair work done. The term does not include:

(A) Any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions, or

(B) Any alteration of a structure listed on the National Register of Historic Places or the Illinois Register of Historic Places.

"Violation": The failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the required federal, state, and/or local permits and elevation certification is presumed to be in violation until such time as the documentation is provided.

14-1-3 BASE FLOOD ELEVATION. This Code's protection standard is the base flood. The best available base flood data are listed below. Whenever a party disagrees with the best available data, the party shall finance the detailed engineering study needed to replace existing data with better data and submit it to the FEMA and IDNR/OWR for approval prior to any development of the site.

(A) The base flood elevation for the floodplains of **Hurricane Creek** and **Seventeenth Street Ditch** shall be as delineated on the 100-year flood profiles in the countywide Flood Insurance Study of **Williamson County** prepared by the Federal Emergency Management Agency and dated **August 4, 2008**.

(B) The base flood elevation for each floodplain delineated as an "AH Zone" or "AO Zone" shall be that elevation (or depth) delineated on the countywide Flood Insurance Rate Map of **Williamson County**.

(C) The base flood elevation for each of the remaining floodplains delineated as an "A Zone" on the countywide Flood Insurance Rate Map of **Williamson County** shall be according to the best data available from federal, state or sources. Should no other data exist, an engineering study must be financed by the applicant to determine base flood elevations.

(D) The base flood elevation for the floodplains of those parts of unincorporated **Williamson County** that are within the extraterritorial jurisdiction of the City, or that may be annexed into the City, shall be as delineated on the 100-year flood profiles in the Flood Insurance Study of **Williamson County** prepared by the Federal Emergency Management Agency and dated **August 4, 2008**.

14-1-4 DUTIES OF THE CODE INSPECTOR. The Code Inspector shall be responsible for the general administration of this Code and ensure that all development activities within the floodplains under the jurisdiction of the City meet the requirements of this Code. Specifically, the Code Inspector shall:

(A) Process development permits in accordance with **Section 14-1-5**;

(B) Ensure that all development in a floodway (or a floodplain with no delineated floodway) meets the damage prevention requirements of **Section 14-1-6**;

- (C) Ensure that the building protection requirements for all buildings subject to **Section 14-1-7** are met and maintain a record of the "as-built" elevation of the lowest floor (including basement) or floodproof certificate;
- (D) Assure that all subdivisions and annexations meet the requirements of **Section 14-1-8**;
- (E) Ensure that water supply and waste disposal systems meet the Public Health standards of **Section 14-1-9**;
- (F) If a variance is requested, ensure that the requirements of **Section 14-1-11** are met and maintain documentation of any variances granted;
- (G) Inspect all development projects and take any and all penalty actions outlined in **Section 14-1-13** as necessary to ensure compliance with this Code;
- (H) Assure that applicants are aware of and obtain any and all other required local, state, and federal permits;
- (I) Notify IDNR/OWR and any neighboring communities prior to any alteration or relocation of a watercourse;
- (J) Provide information and assistance to citizens upon request about permit procedures and floodplain construction techniques;
- (K) Cooperate with state and federal floodplain management agencies to coordinate base flood data and to improve the administration of this Code;
- (L) Maintain for public inspection base flood data, floodplain maps, copies of state and federal permits, and documentation of compliance for development activities subject to this Code;
- (M) Perform site inspections to ensure compliance with this Code and make substantial damage determinations for structures within the floodplain, and
- (N) Maintain the accuracy of floodplain maps including notifying IDNR/OWR and/or submitting information to FEMA within **six (6) months** whenever a modification of the floodplain may change the base flood elevation or result in a change to the floodplain map.

14-1-5 DEVELOPMENT PERMIT. No person, firm, corporation, or governmental body not exempted by state law shall commence any development in the floodplain without first obtaining a development permit from the Code Inspector. The Code Inspector shall not issue a development permit if the proposed development does not meet the requirements of this Code.

- (A) The application for development permit shall be accompanied by:
 - (1) drawings of the site, drawn to scale showing property line dimensions;
 - (2) existing grade elevations and all changes in grade resulting from excavation or filling;
 - (3) the location and dimensions of all buildings and additions to buildings;
 - (4) the elevation of the lowest floor (including basement) of all proposed buildings subject to the requirements of **Section 14-1-7** of this Code, and
 - (5) cost of project or improvements as estimated by a licensed engineer or architect. A signed estimate by a contractor may also meet this requirement.
- (B) Upon receipt of an application for a development permit, the Code Inspector shall compare the elevation of the site to the base flood elevation. Any development located on land that can be shown by survey data to be higher than the current base flood elevation and which has not been filled after the date of the site's first Flood Insurance Rate Map is not in the floodplain and therefore not subject to the requirements of this Code. Conversely, any development located on land shown to be below the base flood elevation and hydraulically connected, but not shown on the current Flood Insurance Rate Map, is subject to the provisions of this Code.

The Code Inspector shall maintain documentation of the existing ground elevation at the development site and certification that this ground elevation existed prior to the date of the site's first Flood Insurance Rate Map identification.

The Code Inspector shall be responsible for obtaining from the applicant copies of all other federal, state, and local permits, approvals or permit-not-required letters that may be required for this type of activity. The Code Inspector shall not issue a permit unless all other federal, state, and local permits have been obtained.

14-1-10 CARRYING CAPACITY AND NOTIFICATION. For all projects involving channel modification, fill, or stream maintenance (including levees), the flood carrying capacity of the watercourse shall be maintained.

In addition, the City shall notify adjacent communities in writing **thirty (30) days** prior to the issuance of a permit for the alteration or relocation of the watercourse.

14-1-11 VARIANCES. Whenever the standards of this Code place undue hardship on a specific development proposal, the applicant may apply to the Zoning Board of Appeals for a variance. The Zoning Board of Appeals shall review the applicant's request for a variance and shall submit its recommendation to the City Council. The City Council may attach such conditions to granting of a variance as it deems necessary to further the intent of this Code.

(A) No variance shall be granted unless the applicant demonstrates that all of the following conditions are met:

- (1) The development activity cannot be located outside the floodplain;
- (2) An exceptional hardship would result if the variance were not granted;
- (3) The relief requested is the minimum necessary;

(B) The Zoning Board of Appeals shall notify an applicant in writing that a variance from the requirements of the building protection standards of **Section 14-1-7** would lessen the degree of protection to a building will:

- (2) Increase the risks to life and property; and
- (3) Require that the applicant proceed with knowledge of these risks and that the applicant acknowledge in writing the assumption of the risk and liability.

(C) Variances to the building protection requirements of **Section 14-1-7** of this Code which are requested in connection with reconstruction, repair or alteration of a historic site or historic structure as defined in "Historic Structures" may be granted using criteria more permissive than the requirements of **Section 14-1-6** and **14-1-7** of this Code subject to the conditions that:

14-1-12 **DISCLAIMER OF LIABILITY.** The degree of protection required by this Code is considered reasonable for regulatory purposes and is based on the available information derived from engineering and scientific methods of study. Larger floods may occur or flood heights may be increased by man-made or natural causes. This Code does not imply that development either inside or outside of the floodplain will be free from flooding or damage. This Code does not create liability on the part of the City or any officer or employee thereof for any flood damage that results from reliance on this Code or any administrative decision made lawfully thereunder.

5-3-13 **PENALTY.** Failure to obtain a permit for development in the floodplain or failure to comply with the conditions of a permit or a variance shall be deemed to be a violation of this Code. Upon due investigation, the Code Inspector may determine that a violation of the minimum standards of this Code exists. The Code Inspector shall notify the owner in writing of such violation.

- (A) If such owner fails, after **ten (10) days'** notice, to correct the violation:
 - (1) The City shall make application to the Circuit Court for an injunction requiring conformance with this Code or make such other order as the court deems necessary to secure compliance with this Code.
 - (2) A separate offense shall be deemed committed upon each day during or on which a violation occurs or continues; and

(Ord. No. 9-2001; 03-03-11)

(B) The Code Inspector shall inform the owner that any such violation is considered a willful act to increase flood damages and therefore may cause coverage by a Standard Flood Insurance Policy to be suspended.

The Code Inspector is authorized to issue an order requiring the suspension of the subject development. The stop-work order shall be in writing, indicate the reason for the issuance, and shall order the action, if necessary, to resolve the circumstances requiring the stop-work order. The stop-work order constitutes a suspension of the permit.

No site development permit shall be permanently suspended or revoked until a hearing is held by the Zoning Board of Appeals. Written notice of such hearing shall be served on the permittee and shall state:

- (1) the grounds for the complaint, reasons for suspension or revocation, and
- (2) the time and place of the hearing.

At such hearing, the permittee shall be given an opportunity to present evidence on their behalf. At the conclusion of the hearing, the Zoning Board of Appeals shall determine whether the permit shall be suspended or revoked.

(C) Nothing herein shall prevent the City from taking such other lawful action to prevent or remedy any violations. All costs connected therewith shall accrue to the person or persons responsible.

14-1-14 ABROGATION AND GREATER RESTRICTIONS. This Code repeals and replaces other ordinances adopted by the City to fulfill the requirements of the National Flood Insurance Program, including **Article III** of the Chapter, adopted on **June 1, 1990**. However, this Code does not repeal the original resolution or ordinance adopted to achieve eligibility in the Program. Nor does this Code repeal, abrogate, or impair any existing easements, covenants or deed restrictions. Where this Code and other ordinance easements, covenants or deed restrictions conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

14-1-15 SEVERABILITY. The provisions and sections of this Code shall be deemed separable and the invalidity of any portion of this Code shall not affect the validity of the remainder.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HERRIN, COUNTY OF WILLIAMSON, AND THE STATE OF ILLINOIS, AS FOLLOWS:

SECTION 1. It is the intent of the parties by this Ordinance to extend for an additional term, subject to the terms and conditions here stated, the authorization to Ameren Illinois, its successors and assigns, to construct, operate and maintain a utility system within the City as originally authorized by Ordinance No. 15-56, approved on June 25, 1956. The parties acknowledge that by so doing they are continuing an existing relationship authorizing the services of a utility for the provision of electric energy and other purposes within the City for the benefit of its citizens and residents as well as other consumers of electric energy located within its corporate limits. For purposes of construing the terms, rights and obligations of the parties this authorization is granted pursuant to Section 14 of the Electric Supplier Act, 220 ILCS 30/14, and the Illinois Municipal Code, 65 ILCS 5/1-1-1, et seq.

SECTION 2. There is hereby given and granted to Ameren Illinois, its successors and assigns (hereinafter referred to as the "Company"), the right, privilege and authority to construct, operate, maintain and/or extend within the corporate limits, as the same now exists or may hereafter be extended, of the City of Herrin (hereinafter referred to as "Municipality"), an electric utility system for the transmission, distribution and/or sale of electric energy and other purposes (the "System"), together with the right, privilege and authority to erect, construct, install, operate and/or maintain all poles, conductors, wires, cables, conduits, equipment and/or other apparatus as may be necessary or convenient for the System, in, upon, along, over, under, through and/or across each and all of the streets, avenues, alleys, bridges, easements, rights of way and/or other public places.

SECTION 3. All poles and other equipment placed or installed under this Ordinance in streets, alleys, avenues and other public places, shall be so placed as not to interfere unnecessarily with travel on such streets, alleys, avenues and other public places. All poles and other equipment placed or installed under this Ordinance shall be so located as not to injure unnecessarily any pipes, conduits, sewers, drains, pavement or other like public improvements, and said Company shall forthwith repair any damage caused to such improvements to the satisfaction of the official or officials of said Municipality having charge of the supervision thereof and in default thereof said Municipality may repair such damage and charge the cost thereof to, and collect the same from, the Company. All facilities of Company in said Municipality shall be installed and maintained in accordance with the applicable rules and regulations of the Illinois Commerce Commission.

When any roadway within a right-of-way shall be graded, curbed, paved or otherwise changed or when there is a relocation of such right-of-way, so as to make the resetting or relocation of any poles or other equipment placed or installed under this Ordinance necessary, the Company shall make such resetting or relocation, at the Company's cost and expense. Municipality shall provide the Company with a suitable location for the resetting or relocation of such poles or other equipment, and the Company's obligation shall be limited to resetting or relocating poles or other equipment of the same type and configuration as the displaced poles or other equipment. Municipality may request similar revisions to compensation amounts under these criteria in additional five year periods throughout the term of this ordinance.

Upon receipt of such notice, Municipality and Company shall negotiate in good faith to amend this ordinance to provide Company or Municipality such more favorable treatment, terms or conditions on an equivalent basis. Such amendment shall take into consideration all circumstances that distinguish between Company and the entity or person receiving the more favorable or less favorable treatment, terms, or conditions.

SECTION 8. The Company shall be exempt from any special tax, assessment, license, rental or other charge during the term of this Ordinance, on all poles, conductors, wires, cables, conduits, equipment and other apparatus placed in the streets, alleys, avenues, bridges, easements, rights of way or other public places within the corporate limits of Municipality.

All rights, privileges and authority given and granted by this Ordinance are granted for a term of 20 years from and after the acceptance of this Ordinance as hereinafter provided (the "Initial Term"), and thereafter on a year-to-year basis (each a "Subsequent Term") unless either the Company or Municipality notifies the other in writing of its desire to terminate this Ordinance at least six (6) months prior to the expiration of the Initial Term or any Subsequent Term.

SECTION 12. The Municipality acknowledges that Company is vested in rights, permissions and authority independent of this Ordinance. Neither acceptance of this Ordinance nor compliance with its provisions shall impair in any way or waive any right, permission or authority which Company may have independent of this Ordinance. In addition, neither use by Company of public property or places as authorized by this Ordinance nor service rendered by Company in said Municipality shall be treated as use solely of the rights, permission and authority provided for by this Ordinance and in no way shall indicate non-use of any right, permission or authority vested in the Company independent of this Ordinance. In the event the Municipality vacates any streets, avenues, alleys, easements, rights of way, bridges or other public places during the term of this Ordinance, Municipality agrees to reserve unto Company the rights, privileges and authority herein given and granted to the Company in upon, along, over and across each and all of such vacated premises which are at the time in use by the Company.

SECTION 13. All prior ordinances relating to the authorization of the Company to construct, operate and maintain an electric utility system in the Municipality are hereby repealed, and this Ordinance shall take precedence over all other ordinances and parts of ordinance in conflict with this Ordinance or with any of its provisions, to the extent of such conflict.

SECTION 14. This Ordinance shall not relieve Company of the obligation to comply with any ordinance now existing in the Municipality or enacted in the future requiring Company to obtain written permits or other approval from the Municipality prior to commencement of construction of facilities within the streets thereof, except Company shall not be required to obtain permits or other approval from the Municipality for the maintenance, upgrading and repair of its constructed facilities. Company shall provide notice of excavation hereunder in accordance with the Illinois Underground Utility Damage Prevention Act (220 ILCS 50/1 et seq.)

SECTION 15. If any provision of this Ordinance, or the application of such provision to particular circumstances, shall be held invalid, the remainder of this Ordinance, or the application of such provision to circumstances other than those as to which it is held invalid, shall not be affected thereby.

SECTION 16. Any conflict between the Franchise Ordinance and the provisions contained in the Electric Service Customer Choice and Rate Relief Law of 1997 (Public Act 90-561) will be resolved by giving the state statute mandatory priority over any contrary language contained in the Franchise Ordinance.

SECTION 17. This Ordinance shall take effect and the rights, privileges and authority hereby granted and renewed shall vest in Company upon its filing of an acceptance with the City Clerk according to the terms prescribed herein and as provided for in Section 12 and in 35 ILCS 645/5-4. This Ordinance shall be in full force from and after its passage, approval and ten (10) day period of publication in the manner provided by law.

ADDENDUM "B"

GAS FRANCHISE

AN ORDINANCE RENEWING AN EXISTING FRANCHISE AND GRANTING FOR A PERIOD OF 20 YEARS TO AMERENCIPS, A CORPORATION, ITS SUCCESSORS AND ASSIGNS, THE FRANCHISE, RIGHT, PERMISSION AND AUTHORITY TO CONSTRUCT, RECONSTRUCT, EXCAVATE FOR, PLACE, REMOVE, EXTEND, MAINTAIN, AND OPERATE A GAS UTILITY SYSTEM IN THE CITY OF HERRIN, COUNTY OF WILLIAMSON AND STATE OF ILLINOIS.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HERRIN, COUNTY OF WILLIAMSON, AND THE STATE OF ILLINOIS, AS FOLLOWS:

SECTION 1. It is the intent of the parties by this Ordinance to extend for an additional term, subject to the terms and conditions here stated, the authorization to AmerenCIPS, its successors and assigns, to construct, operate and maintain a gas utility system within the City as originally authorized by an Ordinance No. 8-79 approved on April 23, 1979. The parties acknowledge that by so doing they are continuing an existing relationship authorizing the services of a utility for the provision of gas energy and other purposes within the City for the benefit of its citizens and residents as well as other consumers of gas energy located within its corporate limits.

SECTION 2. There is hereby given and granted to AmerenCIPS, its successors and assigns (hereinafter referred to as the "Company"), the right, privilege and authority to construct, operate, maintain and/or extend within the corporate limits, as the same now exists or may hereafter be extended, of the City of Herrin (hereinafter referred to as "Municipality"), a gas utility system for the transmission, distribution and/or sale of gas energy and other purposes (the "System"), together with the right, privilege and authority to lay, erect, construct, install, operate and/or maintain all necessary mains, pipes, valves, equipment and/or other apparatus as may be necessary or convenient for the System, in, upon, along, over, under, through and/or across each and all of the streets, avenues, alleys, bridges, easements, rights of way and/or other public places.

SECTION 3. All mains, pipes, valves and apparatus shall, so far as practicable, be placed underground and shall be so located and laid as not to interfere with any pipes, conduits, sewers, drains, pavements or other public improvements existing at the time of such location, and said Company shall forthwith repair any damage caused to such improvements to the satisfaction of the official or officials of said Municipality having charge of the supervision thereof. There shall be no unnecessary obstruction to the streets, avenues, alleys and public places of said Municipality in the laying, installation, operation or maintenance of any of said mains, pipes, valves or apparatus. All facilities of Company in said Municipality shall be installed and maintained in accordance with the applicable rules and regulations of the Illinois Commerce Commission.

SECTION 4. When any street, avenue, alley, bridge, easement, right of way and/or other public place, upon which or in which any facilities of Company have been placed, shall be graded, curbed, paved or otherwise changed by the Municipality so as to make the resetting or reconstruction of such facilities necessary, Company shall make such necessary change in construction at no cost to Municipality. Should it become necessary or should the Company desire to use conduits or other similar fixtures, Company shall make application to the Municipality for the establishment of permanent grades and such conduits or other similar fixtures shall not be installed until such permanent grades have been established. The Municipality agrees to establish promptly such permanent grades upon such application.

SECTION 5. The rates to be charged by the Company for gas service rendered under this Ordinance shall be such as are approved from time to time by the Illinois Commerce Commission of the State of Illinois and/or such other duly constituted governmental authority as shall have jurisdiction thereof. All rules and Regulations of the Illinois Commerce Commission of the State of Illinois applicable

to the rights, privileges and authority granted by this Ordinance, in the event of conflict herewith, shall govern.

SECTION 6. As a further consideration for the rights, privileges and authorities granted by this ordinance, the Company shall, throughout the period in which Company shall exercise the rights, privileges and authority granted by this ordinance furnish to the said Municipality, annually, compensation in the amount of \$22,600, payable annually, within 30 days of the anniversary date.

SECTION 7. The rights, privileges and authority hereby granted shall inure to and be vested in Company, its successors and assigns, successively, subject to all of the terms, provisions and conditions herein contained, and each of the obligations hereby imposed upon Company shall devolve and be binding upon its successors and assigns, successively, in the same manner.

SECTION 8. This Ordinance shall confer no right, privilege or authority on Company, its successors or assigns, unless Company shall within ninety (90) days after due notice to the Company of the enactment of this Ordinance, file with the City Clerk an acceptance of the terms and provisions hereof; provided, however, that if such acceptance be not so filed within said period of ninety (90) days, all rights, privileges, and authority herein granted shall become null and void.

SECTION 9. All rights, privileges and authority given and granted by this Ordinance are granted for a term of 20 years from and after the acceptance of this Ordinance as hereinafter provided (the "Initial Term"), and thereafter on a year-to-year basis (each a "Subsequent Term") unless either the Company or Municipality notifies the other in writing of its desire to terminate this Ordinance at least six (6) months prior to the expiration of the Initial Term or any Subsequent Term.

SECTION 10. The Municipality acknowledges that Company is vested in rights, permissions and authority independent of this Ordinance. Neither acceptance of this Ordinance nor compliance with its provision shall impair in any way or waive any right, permission or authority which Company may have independent of this Ordinance. In addition, neither use by Company of public property or places as authorized by this Ordinance nor service rendered by Company in said Municipality shall be treated as use solely of the rights, permission and authority provided for by this Ordinance and in no way shall indicate non-use of any right, permission or authority vested in the Company independent of this Ordinance. In the event the Municipality vacates any streets, avenues, alleys, easements, rights of way, bridges or other public places during the term of this Ordinance, Municipality agrees to reserve unto Company the rights, privileges and authority herein given and granted to the Company in upon, under, along, over and across each and all of such vacated premises which are at that time in use by the Company.

SECTION 11. All ordinances and parts of ordinances in conflict with this Ordinance or with any of its provisions are, to the extent of such conflict, hereby repealed.

SECTION 12. This Ordinance shall not relieve Company of the obligation to comply with any ordinance now existing in the Municipality or enacted in the future requiring Company to obtain written permits or other approval from the Municipality prior to commencement of construction of facilities within the streets thereof, except Company shall not be required to obtain permits or other approval from the Municipality for the maintenance, upgrading and repair of its facilities. Except in cases of emergency, prior to engaging in any excavation activity that is expected to create an obstruction or other hazardous condition in any street, avenue, alley or public place, the Company shall notify Municipality of the location and extent of the planned excavation. In cases of emergency, Company shall notify Municipality of the location and extent of any such activity as soon as practicable after the emergency has been abated.

SECTION 13. If any provision of this Ordinance, or the application of such provision to particular circumstances, shall be held invalid, the remainder of this Ordinance, or the application of such provision to circumstances other than those as to which it is held invalid, shall not be affected thereby.

SECTION 14. If, at any time, during the term of this contract, Municipality permits another entity or person to provide gas distribution or similar services, and Company reasonably believes the other entity or person is granted more favorable treatment, terms, or conditions, then Company shall notify Municipality of such treatment, terms, or conditions. Alternatively, if Municipality reasonably believes the other entity or person grants Municipality more favorable treatment, terms, or conditions, the Municipality shall notify Company of such treatment, terms, or conditions. Upon receipt of such notice, Municipality and Company shall negotiate in good faith to amend this ordinance to provide Company or Municipality such more favorable treatment, terms or conditions on an equivalent basis. Such amendment shall take into consideration all circumstances that distinguish between Company and the entity or person receiving the more favorable or less favorable treatment, terms, or conditions.

SECTION 15. The Company shall be exempt from any special tax, assessment, license, rental or other charge during the term of this Ordinance, on all mains, pipes, valves, equipment and other apparatus placed under the streets, alleys, avenues, bridges, easements, rights of way or other public places within the corporate limits of Municipality.

SECTION 16. This Ordinance shall take effect and the rights, privileges and authority hereby granted and renewed shall vest in Company upon its filing of an acceptance with the City Clerk according to the terms prescribed herein and as provided for in Section 12 and in 35 ILCS 645/5-4. This Ordinance shall be in full force from and after its passage, approval and ten (10) day period of publication in the manner provided by law.

CHAPTER 17

HEALTH REGULATIONS

ARTICLE I – GARBAGE DISPOSAL CODE

DIVISION I – RECEPTACLES

17-1-1 REQUIREMENTS. Any person using or occupying any building, house or structure within the City shall provide and maintain in good order and repair garbage or trash receptacles of sufficient number to contain the garbage or trash that will accumulate on the premises.

17-1-2 REMOVAL OF CONTENTS. It shall be the duty of every owner of a garbage or trash receptacle to remove or to have removed the contents of the same in accordance with this Code at least once a week, excluding weeks that contain national public holidays.

17-1-3 UNAUTHORIZED REMOVAL OF GARBAGE AND TRASH FROM CONTAINERS. It shall be unlawful for any person other than duly authorized employee or agent of the City to collect or remove any garbage or trash from garbage and trash receptacles used in the regular City collection service. Nothing in this Code shall be construed as prohibiting haulers from collecting and removing garbage and rubbish from commercial and business establishments or public institutions provided, however, that such haulers are duly licensed per City-ordained requirements.

17-1-4 SPECIFICATIONS. Receptacles used for storage or refuse materials shall be watertight and meet the following specifications:

(A) Trash cans of a durable grade of galvanized metal or other suitable material approved by the Superintendent of the public works department, from **five (5)** to **thirty (30) gallons** capacity. They shall be provided with **two (2)** lifting handles on opposite sides and a tightly fitting cover with a lifting handle. The can shall be without inside protrusions, and the refuse shall be loosely packed so that the contents shall discharge freely when the receptacle is inverted.

(B) Refuse bags made of heavy, multiple-ply paper or polyethylene or ethylene copolymer resin and designed for outdoor storage of refuse. Bags must be securely tied or sealed to prevent emission of odors, be of a material so liquids and greases will not be able to penetrate through the material, and be of sufficient thickness and strength to contain the refuse enclosed without tearing or ripping under normal handling.

17-1-5 DAMAGED OR DETERIORATED RECEPTACLES. Receptacles which have deteriorated, or have been damaged to the extent that the covers will not fit securely or those having jagged or sharp edges capable of causing injury to refuse collectors or other persons whose duty is to handle containers, are declared a nuisance and shall be condemned by the public works department superintendent, the City codes department or their authorized representatives. If such receptacles are not removed within **five (5) days** after notice of such defective conditions to the owner or user, then such receptacles shall be confiscated.

17-1-6 PLACEMENT FOR COLLECTION. Garbage and trash receptacles shall be placed at the alley or boulevard for regular collection service no sooner than the afternoon prior to regular collection service. Refuse and refuse receptacles may be placed on public property in alleys and boulevards for removal by regular collection or special order service only where there is at least **thirteen**

(13) feet or 3.96 meters of clear passage for public vehicles, but in no case shall refuse or refuse storage containers project more than **two (2) feet or 0.61 meters** into the alley right-of-way or extend beyond the boulevard. **(Ord. No. 24-99)**

If it is not practicable to collect and remove garbage and trash through alley collection service and thus boulevard service is required, then the owner, occupant, tenant or lessee of the premises shall place his receptacles at such point as the public works supervisor or his designee shall find and designate to be the most accessible for collection and removal.

When alleys or streets become impassable because of inclement weather or other unusual conditions, the public works superintendent may notify residence, public and commercial establishments to place refuse receptacles at the nearest collection point which is accessible to refuse removal vehicles.

17-1-7 PLACING GARBAGE AND TRASH IN RECEPTACLES. Garbage or trash that is mixed with water or other liquids shall be drained before being placed in a garbage or trash receptacle. Animal matter that is subject to decomposition shall be wrapped in paper or other combustible material before being placed in a garbage receptacle. Grease in a free-flowing state shall be reduced to a solid.

17-1-8 PLACING TRASH, BRUSH, CUTTINGS FOR COLLECTION. If trash is of such nature that it cannot be placed in the required trash receptacles it shall be carefully placed beside the trash receptacle in bundles less than **twenty-five (25) pounds or 11.34 kilograms** in weight. Trash such as paper cartons or wood boxes that cannot be placed in a receptacle shall be prepared for collection by placing the smaller cartons and boxes in the larger cartons and boxes until the larger cartons and boxes are completely filled. After the large cartons and boxes are completely filled, they shall be securely tied. Cartons and boxes shall not be larger than **thirty-six (36) inches or 91.44 centimeters** along any side so they can be placed in regular collection trucks.

Brush, long stems of bushes, tree limbs and cuttings are ineligible under the City collection service policy and will not be collected. No such brush, stems, limbs, cuttings, or other yard waste are to be placed on the curbs, boulevards or other collection points for collection by the City service.

17-1-9 CERTAIN MATTER NOT TO BE PLACED IN RECEPTACLES. Dead animals, feces, materials impregnated with urine, poisons, explosives, dangerous or corrosive chemicals, clothing taken from persons with infectious diseases, heavy metals or metal parts, lumber, dirt, rocks, bricks, concrete blocks, tires, crates and other refuse from construction or remodeling, shall not be placed in receptacles used for regular collection service. In addition, per **Section 17-1-8**, grass cuttings, bundles of hedge cuttings and other yard waste are not to be placed in receptacles.

17-1-10 UNAUTHORIZED USE OF RECEPTACLES; DUTY OF OWNER, OCCUPANT, TENANT, LESSEE, OR POSSESSOR TO REMOVE REFUSE FROM ADJACENT RIGHT-OF-WAY. It shall be unlawful for any person to place, or permit another to place, any garbage or trash in any receptacle, at any refuse collection point unless the refuse is from the premises served by the container or from the premises at which the receptacle or collection point is located.

The owner, occupant, tenant, lessee, or possessor of any building, house, structure, commercial or public facility, or land shall cause to be removed all refuse items of the nature which are prohibited to the regular collection service, and which are located, owned or deposited on the property or on the public right-of-way adjacent to the property, and the existence of refuse or any other item on the property or the adjacent public right-of-way shall be prima facie evidence that such owner, occupant, tenant, lessee, or possessor failed to remove, as provided by this Code, at his own expense, the refuse or other item or items so stored or located thereon. Removal within **three (3) days** of notice by the City is required.

17-1-11 SUPERVISION OF RECEPTACLES, NOTICE TO REFUSE DISPOSAL DEPARTMENT OF FAILURE TO EMPTY RECEPTACLES. Each owner, manager, occupant, tenant or

lessee of a house or building used for residential, business or commercial purposes shall maintain supervision and surveillance over the garbage or trash receptacles serving such premises, and if such receptacles are not emptied and the contents removed by an employee of the City or other duly authorized person or entity for a period of **five (5) days**, he shall notify the public works department of the fact within **five (5) days**.

The public works department shall provide regular collection services according to the type and volume of refuse to be removed, economies of operations and capability within the department. ARTICLE I – GENERAL PROVISIONS

18-1-1 **PURPOSE.** Pursuant to the authority delegated to municipalities by numerous provisions of State Law, this Code establishes a comprehensive set of minimum standards relating to the condition and maintenance of all dwellings in this Municipality. These regulations are intended to preserve, protect, and promote public health, safety, comfort, and general welfare. More specifically, they are intended to assist in achieving the following objectives:

- (A) To preserve sound existing housing and to upgrade or eliminate substandard housing throughout this Municipality;
- (B) To prevent overcrowding hazards, energy waste, unsanitary conditions, and vermin infestation in all dwellings;
- (C) To preserve or increase the municipal tax base by arresting - and ultimately, reversing - the spread of blight;
- (D) To enhance the appearance and public image of Municipality;
- (E) To delineate the responsibilities of the owners and occupants of all dwelling units; and
- (F) To establish fair and efficient procedures for the administration and enforcement of this Code.

18-1-2 **APPLICABILITY.** This Code shall be applicable, in pertinent part, to the following:

- (A) Every single-family dwelling, including every mobile home;
- (B) Every two-family or multiple-family dwelling and every dwelling unit therein;
- (C) Any accessory structure associated with any of above; and
- (D) The lot on which any of the above is located.

This Code shall be applicable retroactively and, except as specifically provided otherwise, the fact that any dwelling existed prior to the effective date of this Code or was built in compliance with ordinances in force at the time of construction shall not be a valid defense in any proceeding related to the enforcement of this Code.

18-1-3 **INTERPRETATION, CONFLICT WITH OTHER CODES.** Every provision of this Code shall be construed liberally in favor of this Municipality, and every requirement imposed herein shall be considered minimal. If any provision of this Code is found in direct conflict with another municipal ordinance or with State law, the more stringent provision shall prevail.

(A) **Relationship to Zoning Code.** This Code shall not be interpreted as permitting the construction of a dwelling or the continuation or alteration of a non-conforming use except in compliance with the Zoning Code.

(B) **Relationship to Building, Plumbing, Electrical Codes.** Any construction or remodeling work that may result from the enforcement of this Code shall be carried out in compliance with any Building, Plumbing, or Electrical Code adopted by this Municipality.

18-1-4 **DISCLAIMER OF LIABILITY.**
(A) Except as may be provided otherwise by statute or Code, no officer, board member, agent, or employee of this Municipality shall render himself personally liable for any damage that may accrue to persons or property as a result of any act required or permitted in the discharge of his duties under this Code. (**See "Local Governmental and Governmental Employees Tort Immunity Act," 745 ILCS 10/1-101.**)

(B) Any suit brought against any officer, board member, agent, or employee of this Municipality, as a result of any act required or permitted in the discharge of his duties under this Code, shall be defended by the Municipal Attorney until the final determination of the legal proceedings.

18-3-4 **BASEMENTS.** Basements and crawl spaces shall be maintained free from dampness that contributes to structural deterioration. Water shall not be permitted to stand on the floor. All slab drains shall be covered with grating, and all sewer connections shall be properly trapped. Basements shall be maintained free from accumulations of trash.

18-3-5 **STAIRWAYS AND PORCHES.** Every interior and exterior stairway and every porch or similar feature shall be structurally sound and properly maintained.

(E) **Basement Hatchways.** Every basement hatchway shall be constructed and maintained so as to prevent rodents or rain/surface runoff from entering into the dwelling.

2. Throughout the calendar year in the case of air-conditioned dwellings.

Provided that this subsection shall not apply to dwellings equipped with insulated (e.g., thermopane) windows. **[See also, Secs. 18-3-1(E), 18-3-6(D)]**

18-3-8 INTERIOR SANITATION. The occupant shall maintain the interior of his dwelling unit in a clean and sanitary condition, free from vermin and any accumulation of trash. (Trash accumulating between collections shall be stored in containers required by **Section 18-3-10**). In multiple-family dwellings, the owner shall be responsible for keeping the shared/public areas clean. **(See Chapter 25)**

18-3-9 **EXTERMINATION.** Any necessary extermination work shall be conducted in a manner protective of human health and, after the work is completed, adequate measures to prevent reinfestation shall be taken. In multiple-family dwellings, the tenant shall be responsible for the elimination of rodents and other vermin from that part of the premises under his exclusive control; but when more than **one (1) dwelling unit** is infested at the same time, the dwelling owner shall be responsible for the extermination work.

18-3-10 **TRASH CONTAINERS.**
(A) **Container Specifications.** The owner or occupant of every dwelling unit shall provide and maintain in good condition a sufficient number of trash containers for the temporary storage of all trash accumulating between collections. The standard trash container required by this Code shall be a receptacle of not less than **fifteen (15)** nor more than **thirty (30) gallon** capacity, of impervious material and sturdy construction, with a tight fitting cover, and equipped with handles properly placed to facilitate handling. The container must not have any interior protrusions which hinder the free discharge of the contents. The combined weight of the contents and container shall not exceed **fifty (50) pounds**. **Fifty-five (55) gallon** barrels or oil drums are not approved containers.

(B) **Multiple-Family Dwellings.** In multiple-family dwellings and apartment complexes, the owner shall provide:

1. At least **one (1) standard trash container** for every **two (2) occupants**; or
2. Such number of **one and one-half (1 1/2) cubic yard** metal containers equipped for mechanical dumping (dumpsters) that the total capacity thereof equals or exceeds the capacity required under paragraph (a). In the case of multiple-family dwellings erected after the effective date of this Code, dumpsters (rather than standard trash containers) shall be mandatory.

18-3-11 **ACCESSORY STRUCTURES.** Structures accessory to dwellings include, but are not limited to, porches, decks, stoops, garages, carports, sheds, and fences.

(A) **Maintenance, Removal.** All accessory structures shall be structurally sound, currently functional, and maintained in good repair and alignment. The owner shall remove any accessory structure that serves no useful purpose and is deteriorated beyond economical repair.

(B) **Obstructions, Vermin Harborage.** Accessory structures shall not block light and air from any dwelling unit, obstruct access to any dwelling unit, or provide harborage for vermin.

18-3-12 **YARDS.**
(A) Every yard shall be properly graded and drained to prevent the accumulation of stagnant water.

(B) All exterior property and premises shall be maintained free from the accumulation of rubbish, trash and garbage, which includes lumber and other building materials unless it is stacked on elevated racks to prevent harborage to vermin, and discarded furniture and appliances, tools and toys.

(C) All garbage shall be properly stored in approved leak proof covered containers, which shall be stored at the side or rear of the structure, except for the period the containers are placed at the curb for garbage collection. Open containers and barrels are prohibited. Trash containers of any kind or type are prohibited from being located in the front yard. Plastic trash bags are prohibited unless properly placed in an approved covered container. It is permissible, however, to place plastic bags next to the curb on trash collection days.

(D) Property owners and residents are responsible to clean up any trash and garbage that becomes scattered in another's yard.

(E) On corner lots, in the triangular portion of land bounded by the street lines of the lot and a line joining the **two (2)** points, each of which is on **one (1)** street line and **thirty (30)**

feet from the point of the intersection, the owner or occupant shall keep all vegetation trimmed so that it does not extend more than **two (2) feet** above ground level, provided however, this restriction shall not apply to trees having a trunk diameter of **two (2) inches** or more when measured **twelve (12) inches** above ground. (Ord. No. 45-2003; 08-25-03)

18-3-13 BOARDING UP. Whenever the glass in any window, glazed exterior door, exterior transom, or skylight is broken, the owner shall promptly remove the broken glass from the premises and temporarily board-up the affected openings in order to prevent accidents, provide protection from the elements, keep out animal pests, and provide security to the occupants or contents of the dwelling unit. Since the presence of sloppily boarded-up buildings invites vandalism and creates a blighting influence, all boarding-up of exterior openings shall be accomplished in a neat, workmanlike manner using not less than **one-half (1/2) inch thick** weather-resistant plywood cut to fit within openings, fastened in place as securely as possible, and suitably coated with a color that blends with the exterior colors of the building as inconspicuously as possible.

The Administrator shall notify the owner or his agent of any boarded-up dwelling unit(s) not complying with these requirements and shall allow him not more than **ten (10) working days** from the date of notice in which to replace the broken glass or to repair, replace or paint the boarding.

- (B) **One (1) stove** (or similar device) for cooking food, properly installed for safe and efficient operation. Portable cooking equipment employing flame and the use of liquid fuel is prohibited; and

- (C) **One (1) refrigerator** (or similar device) for the safe storage of food at temperatures less than **fifty degrees (50°F) Fahrenheit** but more than **thirty-two degrees (32°F) Fahrenheit** under ordinary maximum summer conditions, properly installed and connected for safe, sanitary and efficient operation.

18-4-4 **BATHROOMS.** Every dwelling unit shall contain at least **one (1) bathroom** that affords privacy to the individual using it. Every required bathroom shall be equipped with a flush toilet, tub or shower, and lavatory basin. Natural ventilation shall be deemed adequate when the total area through which outside air can flow into the room by acceptable means equals at least **forty-five percent (45%)** of the total clear glass area required for natural light. (**See Sec. 18-4-7**). Acceptable means of natural ventilation include windows, louvers, monitors, or other direct openings to the outdoors, but not doors.

(B) **Small Kitchens.** A kitchen less than **seventy (70) square feet** in floor area that is without either a mechanical ventilation system or a direct opening to the outdoors shall nonetheless be considered adequately ventilated if there is an opening at least **thirty-two (32) square feet** in area between the kitchen and another room in the same dwelling unit that has adequate natural ventilation.

(C) **Bathrooms.** Every bathroom shall be adequately ventilated by **one (1)** or more of the following means:

1. Natural or mechanical ventilation as set forth above; or

CHAPTER 22

MANDATED POLICIES

ARTICLE I – IDENTITY THEFT

22-1-1 PROGRAM ADOPTION. The City developed this Identity Theft Prevention Program pursuant to the Federal Trade Commission's Red Flags Rule, which implements Section 114 of the Fair and Accurate Credit Transactions of 2003. 16 C.F.R. § 681.2. This Program was developed with oversight and approval of the City. After consideration of the size and complexity of the Utility's operations and account systems, and the nature and scope of the Utility's activities, the City Council determined that this Program was appropriate for the City, and therefore approved this Program on February 9, 2009.

22-1-2 PROGRAM PURPOSE AND DEFINITIONS.
(A) **Fulfilling Requirements of the Red Flags Rule.** Under the Red Flag Rule, every financial institution and creditor is required to establish an "Identity Theft Prevention Program" tailored to its size, complexity and the nature of its operation. Each program must contain reasonable policies and procedures to:

- (1) Identify relevant Red Flags for new and existing covered accounts and incorporate those Red Flags into the Program;
- (2) Detect Red Flags that have been incorporated into the Program;
- (3) Respond appropriately to any Red Flags that are detected to prevent and mitigate Identity Theft; and
- (4) Ensure the Program is updated periodically, to reflect changes in risks to customers or to the safety and soundness of the creditor from Identity Theft.

(B) **Red Flags Rule Definitions Used in this Program.** The Red Flags Rule defines "Identity Theft" as "fraud committed using the identifying information of another person" and a "Red Flag" as "a pattern, practice, or specific activity that indicates the possible existence of Identity Theft."

According to the Rule, a municipal utility is a creditor subject to the Rule requirements. The Rule defines creditors "to include finance companies, automobile dealers, mortgage brokers, utility companies, and telecommunications companies. Where non-profit and government entities defer payment for goods or services, they, too, are to be considered creditors."

All the Utility's accounts that are individual utility service accounts held by customers of the utility whether residential, commercial or industrial are covered by the Rule. Under the Rule, a "covered account" is:

- (1) Any account the Utility offers or maintains primarily for personal, family or household purposes, that involves multiple payments or transactions; and
- (2) Any other account the Utility offers or maintains for which there is a reasonably foreseeable risk to customers or to the safety and soundness of the Utility from Identity Theft.

"Identifying information" is defined under the Rules as "any name or number that may be used, alone or in conjunction with any other information, to identify a specific person," including: name, address, telephone number, social security number, date of birth, government issued driver's license or identification number, alien registration number, government passport number, employer or taxpayer identification number, unique electronic identification number, computer's Internet Protocol address, or routing code.

22-1-3 IDENTIFICATION OF RED FLAGS. In order to identify relevant Red Flags, the Utility considers the types of accounts that it offers and maintains, the methods it provides to open its accounts, the methods it provides to access its accounts, and its previous experiences with Identity Theft. The Utility identifies the following red flags, in each of the listed categories:

- (A) **Notifications and Warnings From Credit Reporting Agencies; Red Flags.**
 - (1) Report of fraud accompanying a credit report;
 - (2) Notice or report from a credit agency of a credit freeze on a customer or applicant;
 - (3) Notice or report from a credit agency of an active duty alert for an applicant; and
 - (4) Indication from a credit report of activity that is inconsistent with a customer's usual pattern or activity.
- (B) **Suspicious Documents; Red Flags.**
 - (1) Identification document or card that appears to be forged, altered or inauthentic;
 - (2) Identification document or card on which a person's photograph or physical description is not consistent with the person presenting the document;
 - (3) Other document with information that is not consistent with existing customer information (such as if a person's signature on a check appears forged); and
 - (4) Application for service that appears to have been altered or forged.
- (C) **Suspicious Personal Identifying Information; Red Flags.**
 - (1) Identifying information presented that is inconsistent with other information the customer provides (example: inconsistent birth dates);
 - (2) Identifying information presented that is inconsistent with other sources of information (for instance, an address not matching an address on a credit report);
 - (3) Identifying information presented that is the same as information shown on other applications that were found to be fraudulent;
 - (4) Identifying information presented that is consistent with fraudulent activity (such as an invalid phone number or fictitious billing address);
 - (5) Social security number presented that is the same as one given by another customer;
 - (6) An address or phone number presented that is the same as that of another person;
 - (7) A person fails to provide complete personal identifying information on an application when reminded to do so (however, by law social security numbers must not be required); and
 - (8) A person's identifying information is not consistent with the information that is on file for the customer.
- (D) **Suspicious Account Activity or Unusual Use of Account; Red Flags.**
 - (1) Change of address for an account followed by a request to change the account holder's name;
 - (2) Payments stop on an otherwise consistently up-to-date account;
 - (3) Account used in a way that is not consistent with prior use (example: very high activity);
 - (4) Mail sent to the account holder is repeatedly returned as undeliverable;
 - (5) Notice to the Utility that a customer is not receiving mail sent by the Utility;
 - (6) Notice to the Utility that an account has unauthorized activity;
 - (7) Breach in the Utility's computer system security; and
 - (8) Unauthorized access to or use of customer account information.

(E)

Alerts From Others; Red Flag.

- (1) Notice to the Utility from a customer, identity theft victim, law enforcement or other person that it has opened or is maintaining a fraudulent account for a person engaged in Identity Theft.

22-1-4

DETECTING RED FLAGS.

(A)

New Accounts. In order to detect any of the Red Flags identified above associated with the opening of a **new account**, Utility personnel will take the following steps to obtain and verify the identity of the person opening the account:

- (1) Require certain identifying information such as name, date of birth, residential or business address, principal place of business for an entity, driver's license or other identification;
- (2) Verify the customer's identity (for instance, review a driver's license or other identification card);
- (3) Review documentation showing the existence of a business entity; and
- (4) Independently contact the customer.

(B)

Existing Accounts. In order to detect any of the Red Flags identified above for an **existing account**, Utility personnel will take the following steps to monitor transactions with an account:

- (1) Verify the identification of customers if they request information (in person, via telephone, via facsimile, via email);
- (2) Verify the validity of requests to change billing addresses; and
- (3) Verify changes in banking information given for billing and payment purposes.

22-1-5

PREVENTING AND MITIGATING IDENTITY THEFT.

(A)

Prevent and Mitigate. In the event Utility personnel detect any identified Red Flags, such personnel shall take one or more of the following steps, depending on the degree of risk posed by the Red Flag:

- (1) Continue to monitor an account for evidence of Identity Theft;
- (2) Contact the customer;
- (3) Change any passwords or other security devices that permit access to accounts;
- (4) Not open a new account;
- (5) Close an existing account;
- (6) Reopen an account with a new number;
- (7) Notify the Program Administrator for determination of the appropriate step(s) to take;
- (8) Notify law enforcement; or
- (9) Determine that no response is warranted under the particular circumstances.

(B)

Protect Customer Identifying Information. In order to further prevent the likelihood of Identity Theft occurring with respect to Utility accounts, the Utility will take the following steps with respect to its internal operating procedures to protect customer identifying information:

- (1) Ensure that its website is secure or provide clear notice that the website is not secure;
- (2) Ensure complete and secure destruction of paper documents and computer files containing customer information;
- (3) Ensure that office computers are password protected and that computer screens lock after a set period of time;
- (4) Keep offices clear of papers containing customer information;
- (5) Request only the last 4 digits of social security numbers (if any);
- (6) Ensure computer virus protection is up to date; and

- (7) Require and keep only the kinds of customer information that are necessary for utility purposes.

22-1-6 PROGRAM UPDATES. The Program Administrator will periodically review and update this Program to reflect changes in risks to customers and the soundness of the Utility from Identity Theft. In doing so, the Program Administrator will consider the Utility's experiences with Identity Theft situations, changes in Identity Theft methods, changes in Identity Theft detection and prevention methods, and changes in the Utility's business arrangements with other entities. After considering these factors, the Program Administrator will determine whether changes to the Program, including the listing of Red Flags, are warranted. If warranted, the Program Administrator will update the Program or present the City Council with his or her recommended changes and the City Council will make a determination of whether to accept, modify or reject those changes to the Program.

22-1-7 PROGRAM ADMINISTRATION.

(A) **Oversight.** Responsibility for developing, implementing and updating this Program lies with an Identity Theft Committee for the Utility. The Committee is headed by a Program Administrator who may be the head of the Utility or his or her appointee. Two or more other individuals appointed by the head of the Utility or the Program Administrator comprise the remainder of the committee membership. The Program Administrator will be responsible for the Program administration, for ensuring appropriate training of Utility staff on the Program, for reviewing any staff reports regarding the detection of Red Flags and the steps for preventing and mitigating Identity Theft, determining which steps of prevention and mitigation should be taken in particular circumstances and considering periodic changes to the Program.

(B) **Staff Training and Reports.** Utility staff responsible for implementing the Program shall be trained either by or under the direction of the Program Administrator in the detection of Red Flags, and the responsive steps to be taken when a Red Flag is detected.

(C) **Service Provider Arrangements.** In the event the Utility engages a service provider to perform an activity in connection with one or more accounts, the Utility will take the following steps to ensure the service provider performs its activity in accordance with reasonable policies and procedures designed to detect, prevent, and mitigate the risk of Identity Theft.

- (1) Require, by contract, that service providers have such policies and procedures in place; and
- (2) Require, by contract, that service providers review the Utility's Program and report any Red Flags to the Program Administrator.

(D) **Non-Disclosure of Specific Practices.** For the effectiveness of this Identity Theft Prevention Program, knowledge about specific Red Flag identification, detection, mitigation and prevention practices must be limited to the Identity Theft Committee who developed this Program and to those employees with a need to know them. Any documents that may have been produced or are produced in order to develop or implement this program that list or describe such specific practices and the information those documents contain are considered "security information" as defined in Minnesota Statutes Section 13.37 and are unavailable to the public because disclosure of them would be likely to substantially jeopardized the security of information against improper use, that use being to circumvent the Utility's Identity Theft prevention efforts in order to facilitate the commission of Identity Theft.

ARTICLE II - USE OF SOCIAL SECURITY NUMBERS

A Social Security Number that may permissibly be mailed under this Section may not be printed, in whole or in part, on a postcard or other mailer that does not require an envelope or be visible on an envelope without the envelope having been opened.

(B) Except as otherwise provided in this policy, beginning immediately on the effective date of the City's authorizing Ordinance, no officer or employee of the City shall do any of the following:

- (1) Collect, use, or disclose a Social Security number from an individual, unless

 - (2) The disclosure of Social Security Numbers pursuant to a court order, warrant, or subpoena.
 - (3) The collection, use, or disclosure of Social Security Numbers in order to ensure the safety of: City employees; persons committed to correctional facilities, local jails, and other law enforcement facilities or retention centers; wards of the State; and all persons working in or visiting a City facility.

(D) Any standards of the City for the collection, use, or disclosure of Social Security Numbers that are stricter than the standards under this Policy with respect to the protection of those Social Security Numbers, then, in the event of any conflict with the provisions of this Policy, the stricter standards adopted by the City shall control.

22-2-3 PUBLIC INSPECTION AND COPYING OF DOCUMENTS. Notwithstanding any other provision of this policy to the contrary, all officers and employees of the City must comply with the provisions of any other State law with respect to allowing the public inspection and copying of information or documents containing all or any portion of an individual's Social Security Number. All officers and employees of the City must redact Social Security Numbers from the information or documents before allowing the public inspection or copying of the information or documents.

22-2-4 APPLICABILITY.

(A) This policy does not apply to the collection, use, or disclosure of a Social Security Number as required by State or Federal law, rule, or regulation.

(B) This policy does not apply to documents that are required to be open to the public under any State or Federal law, rule, or regulation, applicable case law, Supreme Court Rule, or the Constitution of the State of Illinois.

22-2-5 COMPLIANCE WITH FEDERAL LAW. If a federal law takes effect requiring any federal agency to establish a national unique patient health identifier program, the City shall follow that law.

22-2-6 EMBEDDED SOCIAL SECURITY NUMBERS. Beginning immediately on the effective date of the City's authorizing Ordinance, no officer or employee of the City may encode or embed a Social Security Number in or on a card or document, including, but not limited to, using a bar code, chip, magnetic strip, RFID technology, or other technology, in place of removing the Social Security Number as required by this Policy.

22-2-7 IDENTITY--PROTECTION REQUIREMENTS.

(A) All officers, employees and agents of the City identified as having access to Social Security Numbers in the course of performing their duties to be trained to protect the confidentiality of all Social Security Numbers. (B) Only employees who are required to use or handle information or documents that contain Social Security Numbers have access to such information or documents.

(C) Social Security Numbers requested from an individual shall be provided in a manner that makes the Social Security Number easily redacted if required to be released as part of a public records' request.

(D) When collecting a Social Security Number or upon request by the individual, a statement of the purpose or purposes for which the City is collecting and using the Social Security Number be provided.

(E) A written copy of this Privacy Policy, and any amendment thereto, shall be filed with the City Council within **thirty (30) days** after approval of this Policy or any amendment thereto.

(F) The City shall advise its employees of the existence of the Policy and make a copy of this Policy available to each employee, and shall also make this Privacy Policy available to any member of the public, upon request and at no charge for a single copy of this Privacy Policy. If the City amends this Privacy Policy, then the City shall also advise its employees of the existence of the amended Policy and make a copy of the amended Policy available to each employee.

22-2-8 PENALTY. Any person who violates any portion of this Article, as now or hereafter amended, shall be subject to a fine of not less than **One Hundred Dollars (\$100.00)** for the first such violation and a fine of not less than **Seven Hundred Fifty Dollars (\$750.00)** for each violation thereafter.

22-2-9 AMENDMENT OF PRIVACY POLICY. The Privacy Policy adopted in this Division and Chapter shall be subject to amendment from time to time by the City Council as the City Council shall deem necessary in its sole discretion in order to maintain the City's compliance with the Illinois Identity Protection Act as now or hereafter amended.

22-2-10 CONFLICT WITH STRICTER LAWS. This Policy does not supersede any more restrictive law, rule, or regulation regarding the collection, use, or disclosure of Social Security Numbers.

[NOTE: This Policy is to comply with Public Act 096-9874 of the State of Illinois, cited as the Identity Protection Act, and codified as Title 30, Act 5, Section 1, et seq., as now or hereafter amended.]

ARTICLE III - FREEDOM OF INFORMATION POLICY

22-3-1 PUBLIC RECORDS AVAILABLE. To the extent required by the Freedom of Information Act, **5 ILCS 140-1 et seq.** the City shall make available to any person for inspection or copying all public records, except as otherwise provided in Section 7 of the Freedom of Information Act, **5 ILCSA 140/7.**

22-3-2 DESIGNATION, DUTIES AND TRAINING OF FREEDOM OF INFORMATION ACT OFFICERS.

(A) The City Administrative Assistant is hereby designated to act as Freedom of Information Officer. The Officer shall receive requests submitted to the City under the Freedom of Information Act, insure that the City responds to requests in a timely fashion, and issue responses under the Freedom of Information Act. The Freedom of Information officer shall develop a list of documents or categories of records that the City shall immediately disclose upon request.

(B) Upon receiving a request for a public record, the Freedom of Information Officer shall:

- (1) Note the date the City receives the written request;
- (2) Compute the date on which the period for response will expire and make a notation of that date on the written request;
- (3) Maintain an electronic or paper copy of the written request including all documents submitted with the request until the request has been complied with or denied; and
- (4) Create a file for the retention of the original request, a copy of the response, a record of written communications with the person making the request, and a copy of other communications regarding the request.

(C) The Freedom of Information Act officers shall successfully complete an electronic training curriculum to be developed by the Public Access Counselor in the office of the Attorney General of the State of Illinois and thereafter successfully complete an annual training program. Thereafter when a new Freedom of Information officer is designated by the City, that person shall successfully complete the electronic training curriculum within **thirty (30) days** after assuming the position. Successful completion of the required training curriculum within the periods provided shall be a prerequisite to continue serving as a Freedom of Information officer.

22-3-3 PROCEDURES. The City shall prominently display at the City Clerk's office, display on its website, make available for inspection and copying, and send through the mail as requested, each of the following:

(A) A brief description of the City, which will include, but not be limited to a block diagram giving its functional departments, the total amount of its operating budget, the number and location of all of its separate offices, the approximate number of full and part-time employees and the identification and membership of any board, commission, committee or council which operates in an advisory capacity relative to the operation of the City, or which exercises control over its policies or procedures; and

(B) A brief description of the methods whereby the public may request information and public records, a directory designating the Freedom of Information officers, the address where request for public records should be directed, and the fees relating thereto.

22-3-4 REQUESTS TO INSPECT OR COPY. All requests to inspect or copy records or documents prepared, maintained or under the control of the City shall be made in the following manner:

(A) All requests shall be in writing, shall state with reasonable particularity what records are to be inspected or copied, shall state whether the records are requested for a commercial

purpose, and shall be signed by the person making the request. The request may be, but is not required to be, submitted on a form provided by the City.

(B) The written request shall be submitted to the City Clerk or to the Mayor. If neither the City Clerk nor the Mayor is available, the request shall be submitted to any employee of the City acting under the direction of the City Clerk.

(C) The Officer receiving the request shall date stamp the request and indicate the date by which a response to the request must be made.

(D) Each request for other than commercial purposes shall be granted or denied in writing within **five (5) business days** after its receipt by the City, except as hereafter stated. The failure to grant or deny a request within **five (5) business days** shall operate as a denial, except as provided hereinbelow.

(E) The time limit set forth hereinabove may be extended for an additional **five (5) business days** by notice in writing to the person making the request of the **five (5) business days** extension. The notification shall state the reason(s) for the **five (5) business day's** extension and contain a date certain on which the requested record(s) will be available. The failure to grant or deny a request within the additional **five (5) business days** shall operate as a denial. The person making the request and the City may agree in writing to extend the time for compliance for a period to be determined by the parties. If the person making the request and the City agree to extend the period for compliance, a failure by the City to comply with any previous deadlines shall not be treated as a denial of the request for the records.

(F) Charges for copies of records and/or documents shall be imposed in accordance with the following:

- (1) No fees shall be charged for the first **fifty (50) pages** of black and white, letter or legal sized copies requested.
- (2) **Fifteen Cents (\$0.15)** for one-sided page for each black and white, letter, legal sized or 11" x 17" copy requested.
- (3) **One Dollar (\$1.00)** for each certified copy requested.
- (4) **Ten Cents (\$0.10)** for each audio recording.

(G) It shall be the responsibility of the person making the request to pick up the requested documents at City Hall. If the person making the request asks the City to mail the documents, he or she shall provide the City with his/her correct mailing address so as to efficiently process all requests. Copies of records requested to be mailed will be forwarded United States Certified Mail to the address provided. Pre-payment of **Two Dollars Fifty Cents (\$2.50)** per ounce shall be required.

(H) When a person requests a copy of a record maintained in an electronic format, the City shall furnish it in the electronic format specified by the person making the request, if feasible. If it is not feasible to furnish the public records in the specified electronic format, then the City shall furnish it in the format in which it is maintained by the City, or in paper format at the option of the person making the request.

22-3-5 REQUEST FOR COMMERCIAL PURPOSES. The City shall respond to a request for records to be used for a commercial purpose within **twenty-one (21) working days** after receipt. The response shall (1) provide to the person making the request an estimate of the time required by the City to provide the records requested and an estimate of the fees to be charged, which the City may require the person to pay in full before copying the requested documents, (2) deny the request pursuant to **one (1)** or more of the exemptions set out in the Freedom of Information Act, **5 ILCS 140/1 et seq.**, (3) notify the person making the request that the request is unduly burdensome and extend an opportunity to the person making the request to attempt to reduce the request to manageable portions, or (4) provide the records requested.

Unless the records are exempt from disclosure, the City shall comply with a commercial request within a reasonable period considering the size and complexity of the request, and giving priority to records requested for non-commercial purposes.

It is unlawful for a person to knowingly obtain a public record for a commercial purpose within disclosing that it is for a commercial purpose, and any person obtaining a public record for commercial purpose without disclosing that it is for a commercial purpose shall be fined in accordance with the City Code.

22-3-6 **FEES.** The City Clerk shall determine when the established fees are subject to waiver or reduction because the release of the requested information is in the public interest.

22-3-7 **PUBLIC FILE.** The City Clerk shall establish and maintain a central file, open to the public, of all denials of requests for records which shall be indexed according to the exemption utilized to deny a request for records, and to the extent possible, according to the types of records requested.

22-3-8 **GRANTING OR DENIAL OF REQUESTS.** A request for all records within a category shall be granted unless the request constitutes an undue burden upon the City. Prior to denying a request based upon the burdensome nature of the request, an opportunity to narrow the request to manageable proportions shall be provided. If the attempt to narrow the request fails, the request may be denied because compliance will unduly burden the operations of the City and the burden outweighs the public interest in the information. The denial shall be in writing, specifying the reasons why compliance will be unduly burdensome and the extent to which compliance will so burden the operations of the City. Repeated requests from the same person for the same records that are unchanged or identical to records previously provided are properly denied under the Freedom of Information Act shall be deemed unduly burdensome under this Section.

22-3-9 **CERTAIN INFORMATION EXEMPT FROM INSPECTION AND COPYING.** If any record exempt from disclosure contains material which is not exempt, the information which is exempt shall be deleted and the remaining information shall be available for inspection and copying.

22-3-10 **NOTICE OF DENIAL OF REQUEST; APPEALS.**
(A) If the City denies the request, the City shall notify the person making the request in writing of:

- (1) the decision to deny the request;
- (2) the reasons for the denial, including a detailed factual basis for the application of any exemption claim;
- (3) the names and titles or positions of each person responsible for the denial;
- (4) the right to review by the Public Access Counselor and the address and phone number for the Public Access Counselor; and
- (5) the right to judicial review.

If an exemption is claimed, then the denial must include the specific reasons for the denial, including a detailed factual basis and a citation to support a legal authority.

(B) If the City asserts an exemption under Subsection (1)(c) or (1)(f) of Section 7 of the Freedom of Information Act, it shall, within the time periods provided for Respondent to request, provide written notice to the person making the request and the Public Access Counselor of its intent to deny the request in whole or in part. The notice shall include:

- (1) a copy of the request for access to records;
- (2) the proposed response from the City;
- (3) a detailed summary of the City's basis for asserting its exemption.

If the Public Access Counselor determines that further inquiry is warranted, the procedures set forth in the Freedom of Information Act, as amended from time to time, regarding the review of denials shall be applicable. Times for response compliance by the City to the request shall be tolled until the Public Access Counselor concludes his or her inquiry.

ARTICLE IV - FAIR HOUSING CODE

22-4-1 DECLARATION OF POLICY.

(A) In furthering the policy of the State of Illinois as expressed in its Constitution and other laws; in order that the safety and general welfare, peace and health of all the inhabitants of the City may be ensured, it is hereby declared the policy of the City to assure equal opportunity to all residents, regardless of race, color, religion, national origin or ancestry, sex, creed, or physical disability to live in decent, sanitary, healthful, standard living quarters.

If any labor organization or representative fails or refuses to cooperate with the contractor in his or her efforts to comply with the Act and Rules and Regulations, the contractor will promptly notify the Department and the contracting agency and will recruit employees from other sources when necessary to fulfill its obligations under the contract.
 - (e) That he or she will submit reports as required by the Department's Rules and Regulations, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects comply with the Act and the Department's Rules and Regulations.
 - (f) That he or she will permit access to all relevant books, records, accounts and work sites by personnel of the contracting agency and the Department for purposes of investigation to ascertain

compliance with the Act and the Department's Rules and Regulations.

- (g) That he or she will include verbatim or by reference the provisions of this clause in every subcontract awarded under which any portion of the contract obligations are undertaken or assumed, so that the provisions will be binding upon the subcontractor. In the same manner as with other provisions of this contract, the contractor will be liable for compliance with applicable provisions of this clause by subcontractors; and further it will promptly notify the contracting agency and the Department in the event any subcontractor fails or refuses to comply with the provisions. In addition, the contractor will not utilize any subcontractor declared by the Illinois Human Rights Commission to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

22-7-4 OUTREACH TO ALL. The City assures that it will actively provide nondiscriminatory outreach, selection, and service to all individuals.

22-7-5 MINORITY HIRING. Efforts will be made to hire minority individuals for all job categories so that minority employment in all categories of the work force will represent a proportionate share of minority populations in the City as well as surrounding areas.

22-7-6 ACCOMMODATIONS FOR DISABLED. The City will provide accommodations to the best of its ability for employees with disabilities, contingent on budget and structural limitations.

22-7-7 COMPLIANCE BY EMPLOYEES. All City employees are expected to adhere to the above policy and to work actively for its implementation both internally and in carrying out City program activities.

22-7-8 DESIGNATED ENFORCERS. The City designates the Mayor and the City Council to carry out the EEO/AA plan.

ARTICLE VIII – POLICY PROHIBITING SEXUAL HARASSMENT

22-8-1 PROHIBITION ON SEXUAL HARASSMENT. It is unlawful to harass a person because of that person's sex. The courts have determined that sexual harassment is a form of discrimination under Title VII of the U.S. Civil Rights Act of 1964, as amended in 1991. All persons have a right to work in an environment free from sexual harassment. Sexual harassment is unacceptable misconduct which affects individuals of all genders and sexual orientations. It is a policy of this City to prohibit harassment of any person by any municipal official, municipal agent, municipal employee or municipal agency or office on the basis of sex or gender. All municipal officials, municipal agents, municipal employees and municipal agencies or offices are prohibited from sexually harassing any person, regardless of any employment relationship or lack thereof.

22-8-2 DEFINITION OF SEXUAL HARASSMENT. This policy adopts the definition of sexual harassment as stated in the Illinois Human Rights Act, which currently defines sexual harassment as:

(A) Any unwelcome sexual advances or requests for sexual favors or any conduct of a sexual nature when:

- (1) Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment,
- (2) Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
- (3) Such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

(B) Conduct which may constitute sexual harassment includes:

- (1) **Verbal.** Sexual innuendoes, suggestive comments, insults, humor, and jokes about sex, anatomy or gender-specific traits, sexual propositions, threats, repeated requests for dates, or statements about other employees, even outside their presence, of a sexual nature.
- (2) **Non-verbal.** Suggestive or insulting sounds (whistling), leering, obscene gestures, sexually suggestive bodily gestures, "catcalls", "smacking" or "kissing" noises.
- (3) **Visual.** Posters, signs, pin-ups or slogans of a sexual nature, viewing pornographic material or websites.
- (4) **Physical.** Touching, unwelcome hugging or kissing, pinching, brushing the body, any coerced sexual act or actual assault.
- (5) **Textual/Electronic.** "Sexting" (electronically sending messages with sexual content, including pictures and video), the use of sexually explicit language, harassment, cyber stalking or threats via all forms of electronic communication (e-mail, text/picture/ video messages, intranet/on-line postings, blogs, instant messages and social network websites like Facebook and Twitter).

(C) The most severe and overt forms of sexual harassment are easier to determine. On the other end of the spectrum, some sexual harassment is more subtle and depends, to some extent, on individual perception and interpretation. The courts will assess sexual harassment by a standard of what would offend a "reasonable person."

22-8-3 PROCEDURE FOR REPORTING AN ALLEGATION OF SEXUAL HARASSMENT.

(A) An employee who either observes sexual harassment or believes herself/himself to be the object of sexual harassment should deal with the incident(s) as directly and firmly as possible

by clearly communicating his/her position to the offending employee, and his/her immediate supervisor. It is not necessary for sexual harassment to be directed at the person making the report.

(B) Any employee may report conduct which is believed to be sexual harassment, including the following:

- (1) **Electronic/Direct Communication.** If there is sexual harassing behavior in the workplace, the harassed employee should directly and clearly express his/her objection that the conduct is unwelcome and request that the offending behavior stop. The initial message may be verbal. If subsequent messages are needed, they should be put in writing in a note or a memo.
- (2) **Contact with Supervisory Personnel.** At the same time direct communication is undertaken, or in the event the employee feels threatened or intimidated by the situation, the problem must be promptly reported to the immediate supervisor of the person making the report, a department head, a director of human resources, an ethics officer, the city manager or administrator, or the chief executive officer of the Municipality.
The employee experiencing what he or she believes to be sexual harassment must not assume that the employer is aware of the conduct. If there are no witnesses and the victim fails to notify a supervisor or other responsible officer, the Municipality will not be presumed to have knowledge of the harassment.
- (3) **Resolution Outside Municipality.** The purpose of this policy is to establish prompt, thorough and effective procedures for responding to every report and incident so that problems can be identified and remedied by the Municipality. However, all municipal employees have the right to contact the Illinois Department of Human Rights (IDHR) or the Equal Employment Opportunity Commission (EEOC) for information regarding filing a formal complaint with those entities. An IDHR complaint must be filed within **three hundred (300) days** of the alleged incident(s) unless it is a continuing offense. A complaint with the EEOC must also be filed within **three hundred (300) days**.

(C) Documentation of any incident may be submitted with any report (what was said or done, the date, the time and the place), including, but not limited to, written records such as letters, notes, memos and telephone messages.

(D) All allegations, including anonymous reports, will be accepted and investigated regardless of how the matter comes to the attention of the Municipality. However, because of the serious implications of sexual harassment charges and the difficulties associated with their investigation and the questions of credibility involved, the claimant's willing cooperation is a vital component of an effective inquiry and an appropriate outcome.

22-8-4 PROHIBITION ON RETALIATION FOR REPORTING SEXUAL HARASSMENT ALLEGATIONS.

(A) No municipal official, municipal agency, municipal employee or municipal agency or office shall take any retaliatory action against any municipal employee due to a municipal employee's:

- (1) Disclosure or threatened disclosure of any violation of this policy,
- (2) The provision of information related to or testimony before any public body conducting an investigation, hearing or inquiry into any violation of this policy, or
- (3) Assistance or participation in a proceeding to enforce the provisions of this policy.

(B) For the purposes of this policy, retaliatory action means the reprimand, discharge, suspension, demotion, denial of promotion or transfer, or change in the terms or conditions of

employment of any municipal employee that is taken in retaliation for a municipal employee's involvement in protected activity pursuant to this policy.

(C) No individual making a report will be retaliated against even if a report made in good faith is not substantiated. In addition, any witness will be protected from retaliation.

(D) Similar to the prohibition against retaliation contained herein, the State Officials and Employees Ethics Act (**5 ILCS 430/15-10**) provides whistleblower protection from retaliatory action such as reprimand, discharge, suspension, demotion, or denial of promotion or transfer that occurs in retaliation for an employee who does any of the following:

- (1) Discloses or threatens to disclose to a supervisor or to a public body an activity, policy, or practice of any officer, member, State agency, or other State employee that the State employee reasonably believes is in violation of a law, rule, or regulation;
- (2) Provides information to or testifies before any public body conducting an investigation, hearing, or inquiry into any violation of a law, rule, or regulation by any officer, member, State agency or other State employee; or
- (3) Assists or participates in a proceeding to enforce the provisions of the State Officials and Employees Ethics Act.

(E) Pursuant to the Whistleblower Act (**740 ILCS 174/15(a)**), an employer may not retaliate against an employee who discloses information in a court, an administrative hearing, or before a legislative commission or committee, or in any other proceeding, where the employee has reasonable cause to believe that the information discloses a violation of a State or federal law, rule, or regulation. In addition, an employer may not retaliate against an employee for disclosing information to a government or law enforcement agency, where the employee has reasonable cause to believe that the information discloses a violation of a State or federal law, rule, or regulation. (**740 ILCS 174/15(b)**).

(F) According to the Illinois Human Rights Act (**775 ILCS 5/6-101**), it is a civil rights violation for a person, or for two or more people to conspire, to retaliate against a person because he/she has opposed that which he/she reasonably and in good faith believes to be sexual harassment in employment, because he/she has made a charge, filed a complaint, testified, assisted, or participated in an investigation, proceeding, or hearing under the Illinois Human Rights Act.

(G) An employee who is suddenly transferred to a lower paying job or passed over for a promotion after filing a complaint with IDHR or EEOC, may file a retaliation charge – either due within **three hundred (300) days** of the alleged retaliation.

22-8-5 CONSEQUENCES OF A VIOLATION OF THE PROHIBITION ON SEXUAL HARASSMENT. In addition to any and all other discipline that may be applicable pursuant to municipal policies, employment agreements, procedures, employee handbooks and/or collective bargaining agreement, any person who violates this policy or the Prohibition on Sexual Harassment contained in **5 ILCS 430/5-65**, may be subject to a fine of up to **Five Thousand Dollars (\$5,000.00)** per offense, applicable discipline or discharge by the Municipality and any applicable fines and penalties established pursuant to local ordinance, State law or Federal law. Each violation may constitute a separate offense. Any discipline imposed by the Municipality shall be separate and distinct from any penalty imposed by an ethics commission and any fines or penalties imposed by a court of law or a State or Federal agency.

22-8-6 CONSEQUENCES FOR KNOWINGLY MAKING A FALSE REPORT. A false report is a report of sexual harassment made by an accuser using the sexual harassment report to accomplish some end other than stopping sexual harassment or retaliation for reporting sexual harassment. A false report is not a report made in good faith which cannot be proven. Given the seriousness of the consequences for the accused, a false or frivolous report is a severe offense that can itself result in disciplinary action. Any person who intentionally makes a false report alleging a violation of any provision of this policy shall be subject to discipline or discharge pursuant to applicable municipal

policies, employment agreements, procedures, employee handbooks and/or collective bargaining agreements.

In addition, any person who intentionally makes a false report alleging a violation of any provision of the State Officials and Employees Ethics Act to an ethics commission, an inspector general, the State Police, a State's Attorney, the Attorney General, or any other law enforcement official is guilty of a Class A misdemeanor. An ethics commission may levy an administrative fine of up to **Five Thousand Dollars (\$5,000.00)** against any person who intentionally makes a false, frivolous or bad faith allegation.

The City, as the employer, has the right to expect its employees to report for work fit and able for duty. This policy is intended to ensure that City employees are not impaired in their ability to perform assigned duties in a safe, healthy and productive manner and to protect any such employee and the public from the risks associated with the adverse effects of drugs and alcohol. Accordingly, the unlawful manufacture, distribution, possession, or use of a controlled substance, including cannabis and alcohol, is prohibited in the workplace or while acting on behalf of the City. Employees are required to sign a release and consent/authorization form, a copy of which is included with this policy, at the time the policy is distributed to the employee.

22-10-4 APPLICABILITY. This Drug/Alcohol Testing Policy and Procedure is not intended to replace the Drug Free Workplace Programs but to define and clarify, who will be tested, when the employees will be tested and where employees will be tested. The following four employee categories define under which category each full time, part time/temporary and volunteer employee will be tested:

(A) Any employee who drives a City vehicle, tractor, tractor mower or similar motor powered equipment that moves under its own power will be tested under the Federal DOT testing standards.

(B) Testing for employees of the Police Department shall be controlled by the provisions set forth in their union contract.

(C) All other City employees who are not included within the two categories listed above in (A) or (B) will be subject to testing to comply with the requirements necessary to establish a Drug Free Workplace within the City.

(E) Part time/temporary employees and volunteer employees of the City will remain exempt from pre-employment and random testing as defined in this testing program, but they can be included for testing if reasonable suspicion should arise, or an accident should occur during the tenure of their part time/temporary or volunteer employment. After reasonable suspicion of abuse of drugs or alcohol has been established or an accident should occur, the decision to request a drug and alcohol test for the employee must be deemed necessary and reasonable by the Mayor and/or the supervisor of the employee.

22-10-5 TESTING PROCEDURE. In conducting any drug testing under this policy, the City shall:

(A) Use only a clinical laboratory or hospital facility that is licensed pursuant to the Illinois Clinical Laboratory and Blood Bank Act, **210 ILCS 25/101 *et seq.***, that has been or is capable of being accredited by the National Institute of Drug Abuse ("NIDA").

22-10-6 SCREENING AND TESTING.

(A) **Pre-Employment Testing.**

(1) All employee applicants shall be advised of the City Drug/Alcohol testing requirements at the time of interview. (3) An applicant will not be employed or considered for employment if:
the test results confirm POSITIVE;
he/she refuses to complete the test;
he/she tampers with, or adulterates the specimen;

he/she fails to cooperate in the testing process (including executing all required documentation).

(B) **Testing Based on Reasonable Suspicion.** If there is a reasonable suspicion that any City employee, paid or volunteer, has violated any of the prohibited actions covered by this policy, such employee may be required to undergo drug and/or alcohol testing. Reasonable suspicion exists if the facts and circumstances warrant a rational inference that an employee has violated any of the acts prohibited by this policy. Reasonable suspicion shall be based upon the following:

- (1) Observable phenomena, such as direct observation of use or the verifiable physical symptoms resulting from the abuse of drugs or being under the influence of alcohol which may include by way of example but is not limited to a pattern of abnormal conduct or erratic behavior, a dramatic decline in work performance, excessive sick leave usage, difficulty in walking, slurred speech, needle marks, glazed stare, and possession of alcohol, or unauthorized banned substance or drug paraphernalia at work.
- (2) Information provided by an identifiable, reliable and credible third party that an employee has committed any of the acts prohibited by this policy.

In the event reasonable suspicion exists, the City shall arrange for a drug and/or alcohol test. When testing is ordered, the employee may be temporarily reassigned or relieved from duty and placed on leave with pay pending the receipt of the test results by the City. The City shall also provide the employee with written notice setting forth the objective facts and reasonable inferences to be drawn from those facts which form the basis of the reasonable suspicion.

The employee will then be escorted to the testing facility or collection facility by a designated supervisor immediately.

After completing the test, the employee will be escorted to his/her residence or at the option of his/her supervisor to another location to await the test results, and the employee shall be off work with pay pending the results of the tests. Under no circumstances shall the employee be allowed to leave the work site or the test site driving his/her own vehicle or a City vehicle.

Employees who test positive for either drugs or alcohol will be subject to disciplinary action, up to and including termination.

(C) **Random Testing.** Random drug testing shall be conducted during working hours. Employees will be selected at random for a drug test by a random drawing/lottery. The testing times and dates are unannounced and are with unpredictable frequency throughout the year.

When testing is ordered, the employee will be directed to the testing facility or collection facility within a reasonable period of time.

After completing the test, the employee will return to work pending the results of the test.

Employees who test positive for drugs will be subject to disciplinary action, up to and including termination.

(D) **Post Accident Testing.** Post accident drug/alcohol testing is required immediately following any accident involving a City employee, paid or volunteer, who operates City equipment or operates a City vehicle where an injury to a person has occurred or where damage to equipment, or property has occurred and that damage exceeds **One Hundred Dollars (\$100.00)**, based on actual cost or reliable estimates of damage.

When testing is ordered, the employee will be escorted to the testing facility or collection facility by a designated supervisor within a reasonable period of time following the accident.

Employees who test positive for either drugs or alcohol will be subject to disciplinary action, up to and including termination.

(E) **Testing Required for Position Required to Have a CDL.** In addition to the provisions of this policy, any employee who is appointed to a position required to have a commercial driver's license ("CDL") shall be subject to drug and/or alcohol screening following any work related accident. Mandatory drug screening shall also be required of all applicants chosen to be hired for positions requiring a CDL. Those who fail the pre-employment drug screening shall not be hired for those positions.

(F) **Return to Work.** Any employee who returns to work after an extended leave of absence shall be required to have drug testing and be evaluated at a medical facility of the City's choosing.
(Ord. No. 3-2020; 02-10-20)

22-10-7 CONFIDENTIALITY OF TEST RESULTS. Any employee subject to a drug and/or alcohol test under this policy will be provided a copy of all information and reports received by the City in connection with any drug and/or alcohol test and any results thereof under this policy. Any results of drug and alcohol test will be disclosed to any employee tested, the applicable supervisor, City Attorney and those permitted by law.

22-10-8 CONSEQUENCES OF POSITIVE TEST RESULT OR REFUSAL TO COOPERATE. Any employee who refuses to cooperate in testing or who fails a test or violates the Drug and Alcohol Policy shall be subject to disciplinary action, up to and including termination.

(H) **Gifts in Excess of the \$300 Annual Gift Limitation Amount are Prohibited.** No employee or family member of an employee shall accept gifts that exceed an aggregate value of the adjusted annual gift limitation amount in accordance with Government Code in any **twelve (12) consecutive months** from an individual or entity that is doing business with the City.

(I) **Improper Disclosure of Privileged, Personal or Confidential Information.** Unless expressly authorized, no employee shall intentionally disclose privileged, personal or confidential information obtained as a result of, or in connection with, his or her employment with the City for any purpose. Privileged, personal or confidential information does not include information that is a matter of public knowledge or that is available to the public on request. Nothing in this policy is intended to prohibit or infringe upon any communication, speech or expression that is protected or privileged under law. This includes speech and expression protected under state and federal constitutions as well as labor or other applicable laws.

(J) **Improper Using One's City Employment.** No employee shall use or permit the use of any City assets for a non-City purpose that is for the private benefit of the employee or any other person unless available on equal terms to the general public.

(K) **Improper Influence.** No employee, except in the course of his or her official duties, shall assist any person in any transaction with the City when such employee's assistance would appear to a reasonable person to be enhanced by that employee's position with the City for their own personal benefit. This subsection shall not apply to any employee appearing on his own behalf or representing himself as to any matter in which he has a proprietary interest, if not otherwise prohibited by law.

(L) **Duty to Identify, Report and Work to Eliminate Fraud, Waste and Abuse.** It is the responsibility and duty of every employee to identify, report and work to eliminate fraud, waste and abuse at all levels of the City administration and operations. Employees are encouraged to bring to the attention of management any opportunity to reduce or eliminate fraud, waste and abuse.

(M) **Duty to Cooperate.** It is the duty of every employee to cooperate in an investigation involving a violation or an alleged violation of this policy. Upon the City's request, an employee will participate and fully cooperate in any investigation. This policy does not preclude an employee from exercising his or her Constitutional rights or those afforded to him or her by a City recognized labor contract. However, the exercising of one's rights does not preclude City from disciplining an employee for his or her failure to participate or cooperate in an investigation if the City may lawfully do so.

(N) **Handling of Anonymous Complaints or Allegations of Violations of this Policy.** Employees are prohibited from attempting to identify or intentionally exposing the identity of any party making an anonymous report or complaint pursuant to this policy.

22-11-6 REPORTING. Employees are expected to report all violations or suspected violations of this policy to management in a timely and professional manner. The City recognizes that the reporting party may desire or require anonymity. Thus, anonymous reports or concerns may be reported by any party to the City Mayor or the City Council. It is the duty of every employee to report any known violation of this policy or what would appear to a reasonable person to be a violation of this policy. Employees are reminded that they may report anonymously any actions that detract from the efficiency and effectiveness of City operations include, but not limited to, fraud, waste, abuse, ethics violations, retaliation, discrimination and safety violations. It is a violation of this policy to retaliate against an employee who makes a report anonymously under Illinois Labor Code. The Illinois State Attorney General's Whistleblower Hotline number is (888) 814-4646.

22-11-7 INVESTIGATION AND ENFORCEMENT. All violations or alleged violations of this policy will be investigated. As stated above, it is the duty of every employee to cooperate in an investigation involving a violation or an alleged violation of this policy. Upon the request of the City, an employee will participate and fully cooperate in any investigation, whether conducted by the City or its agent(s). If as a result of good faith investigation and a resultant reasonable conclusion that a violation of this policy has occurred, the offending employee may be subject to disciplinary action up to and including termination.

22-11-8 ACKNOWLEDGEMENT. With the City's approval of this policy, anyone hired after this policy approval will be required to read and understand this policy as it will be an approved ordinance of the City. This form shall be retained in department files.

(Ord. No. 14-2018; 05-29-18)

ARTICLE XII - WHISTLEBLOWER PROTECTION POLICY

22-12-1 **PURPOSE.** The City provides whistleblower protections in two important areas: confidentiality and against retaliation. The confidentiality of a whistleblower will be maintained to the extent allowable by law, however, an identity may have to be disclosed to conduct a thorough investigation, to comply with the law and to provide accused individuals their legal rights of defense. A whistleblower may also waive confidentiality in writing. The Municipality will not retaliate against a whistleblower. This includes, but is not limited to, protection from retaliation in the form of an adverse employment action such as terminations, compensation decreases or poor work assignments and threats of physical harm. Any whistleblowers who believe they are being retaliated against must submit a written report to the Auditing Official within **sixty (60) days** of gaining knowledge of retaliatory action. The right of a whistleblower for protection against retaliation does not include immunity for any personal wrongdoing that is alleged and investigated.

22-12-2 **DEFINITIONS.**
(A) **Whistleblower** means an employee, as defined in this Section, of the Municipality who:

- (1) Reports an improper governmental action as defined under **50 ILCS 105/4.1** (hereinafter Section 4.1);
- (2) cooperates with an investigation by an Auditing Official related to a report of improper governmental action; or
- (3) testifies in a proceeding or prosecution arising out of an improper governmental action.

(B) **Auditing Official** means any elected, appointed or employed individual, by whatever name, in the Municipality whose duties may include receiving, registering and investigating complaints and information concerning misconduct, inefficiency and waste within the Municipality; investigating the performance of officers, employees, functions and programs; and promoting economy, efficiency, effectiveness and integrity in the administration of the programs and operations of the City.

- (1) The Auditing Official shall be the City Attorney, until replaced by the Municipality.
- (2) If the Municipality does not designate an Auditing Official, the Auditing official defaults to the State's Attorney of Williamson County.

(C) **Employee** means anyone employed by the Municipality, whether in a permanent or temporary position, including full-time, part-time and intermittent workers. Employee also includes members of appointed boards or commissions, whether paid or unpaid. Employee also includes persons who have been terminated because of any report or complaint submitted under Section 4.1.

(D) **Improper governmental action** means any action by an employee of the Municipality; an appointed member of a board, commission or committee; or an elected official of the Municipality that is undertaken in violation of a federal or state law or local ordinance; is an abuse of authority; violates the public's trust or expectation of their conduct; is of substantial and specific danger to the public's health or safety; or is a gross waste of public funds. The action need not be within the scope of the employee's, elected officials, board member's, commission member's or committee member's official duties to be subject to claim of "improper governmental action".

- (1) Improper governmental action does not include the Municipality's personnel actions, including, but not limited to employee grievances, complaints, appointments, promotions, transfers, assignments, reassignments, reinstatements, restorations, reemployment, performance evaluations, reductions in pay, dismissals, suspensions, demotions, reprimands or violations of collective bargaining agreements, except to the extent that the action amounts to retaliation.

(E) **Retaliate, retaliation or retaliatory action** means any adverse change in an employee's employment status or the terms and conditions of employment that results from an employee's protected activity under Section 4.1. Retaliatory action includes, but is not limited to, denial

of adequate staff to perform unsubstantial letters of reprimand or unsatisfactory performance evaluations; demotion; reduction in pay; denial of promotion; transfer or reassignment; suspension or dismissal; or other disciplinary action made because of an employee's protected activity under Section 4.1.

22-12-3 DUTIES OF AN AUDITING OFFICIAL. Each Auditing Official shall establish written processes and procedures consistent with the terms of this policy and best practices for investigations for managing complaints filed under Section 4.1. Each Auditing Official shall investigate and dispose of reports of improper governmental action in accordance with these processes and procedures, and all other provisions of Section 4.1.

The Auditing official must provide each employee a written summary or a complete copy of Section 4.1 upon commencement of employment and at least once each year of employment. At the same time, the employee shall also receive a copy of the written processes and procedures for reporting improper governmental actions from the applicable Auditing Official.

Auditing Officials may reinstate, reimburse for lost wages or expenses incurred, promote, or provide some other form of restitution.

In instances where an Auditing Official determines that restitution will not suffice, the Auditing Official may make their investigation findings available for the purposes of aiding in that employee's, or the employee's attorney's effort to make the employee whole.

Auditing Officials are responsible for reading the full context of Section 4.1 and complying with all requirements.

If no Auditing Official is designated, the State's Attorney of Williamson County will be the Auditing Official.

22-12-4 DUTIES OF AN EMPLOYEE. All reports of illegal and dishonest activities will be promptly submitted to the Auditing Official who is responsible for investigating and coordinating corrective action.

If an employee has knowledge of, or a concern of, improper governmental action, the employee shall make a written report of the activity to the Auditing Official. The employee must exercise sound judgment to avoid baseless allegations. An employee who intentionally files a false report of wrongdoing will be subject to discipline up to and including termination.

The whistleblower is not responsible for investigating the activity or for determining fault or corrective measures; a designated Auditing Official is charged with these responsibilities.

22-12-5 DEFEND TRADE SECRETS ACT (18 U.S.C. § 1836) COMPLIANCE. Section 7(b): "Immunity from Liability for Confidential Disclosure of a Trade Secret to the Government or in a Court Filing:

(A) **Immunity.** An individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that (1) is made (a) in confidence to a federal, state or local government official, either directly or indirectly, or to an attorney; and (b) solely for the purpose of reporting or investigating a suspected violation of law; or (2) is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal.

(B) **Use of Trade Secret Information in Anti-Retaliation Lawsuit.** An individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual (1) files any document containing the trade secret under seal; and (2) does not disclose the trade secret, except pursuant to court order."

22-12-6 EMPLOYEE ACKNOWLEDGEMENT. Employees are required to sign a written acknowledgement that they have received, read and understand this Policy, and to submit that acknowledgement to the Auditing Official or other designated official of the Municipality. The form that follows an Addendum "A" will satisfy this requirement upon receipt.

"APPLICANT" means any person making application for a license or permit.

"CORPORATE AUTHORITIES" shall mean the Mayor and the City Council.

"IMMOBILIZED MANUFACTURED HOME": As applied to a manufactured home, "immobilize" means to remove the wheels, tongue and hitch and to affix to a permanent foundation. The term implies that, once affixed to a permanent foundation, the destruction of said foundation would be necessary in order to move the dwelling to another location.

"LICENSE" means a license certificate issued by the City allowing a person to operate and maintain a manufactured home park under the provisions of this Code and the rules and regulations issued hereunder.

"LICENSEE" means any person having a license or permit under this Chapter.

"MANUFACTURED HOME" means a structure designed for permanent habitation and so constructed as to permit its transport on wheels, temporarily or permanently attached to its frame, from the place of its construction to the location or subsequent location at which it is intended to be a permanent habitation and designed to permit the occupancy thereof as a dwelling place for **one (1)** or more persons. The term shall only include manufactured homes constructed after **June 30, 1976**, in accordance with the Federal **"National Manufactured Housing Construction and Safety Standards Act of 1974"**. Compliance with this standard is indicated by a 2-inch by 4-inch metal plate attached to the exterior tail light end of the manufactured home. The average width and/or length of the living area (excluding garages, carports, porches, or attachments) of a manufactured home shall not exceed a ratio of 3 to 1. As with all residences, a manufactured home shall have a minimum 4/12 pitch roof with residential style siding and roofing, **six (6) inch** minimum eave overhang, and shall have a minimum living area of not less than **nine hundred (900) square feet**. Provided that any such structure resting on a permanent foundation with wheels, tongue and hitch permanently removed shall not be construed as a **"manufactured home"**, but shall be an **"immobilized manufactured home"**. A manufactured home should not be confused with a **"camping trailer"** or **"recreational vehicle"**. **(See 210 ILCS Sec. 115/2.10)**

Separate ownership of contiguous tracts of land shall not preclude the tracts of land from common licensure as a manufactured home park if they are maintained and operated jointly. Neither an immobilized manufactured home nor a motorized recreational vehicle shall be construed as being a part of a manufactured home park. **(See 210 ILCS Sec. 115/2.5)**

ARTICLE I – DEFINITIONS

24-1-1 **ILLINOIS VEHICLE CODE; DEFINITIONS ADOPTED.** The Illinois Vehicle Code, **Illinois Compiled Statutes, Chapter 625, Chapter 1**, entitled "**Title and Definitions**", as passed, approved and amended by the Illinois General Assembly is hereby adopted by the City, the provisions thereof shall be controlling within the corporate limits of the City. **(65 ILCS 5/1-3-2)**

ARTICLE II - GENERAL REGULATIONS

24-2-1 **OBEDIENCE TO POLICE.** Members of the Police Department, Special Police, and Auxiliary Police assigned to traffic duty are hereby authorized to direct all traffic in accordance with the provisions of this Article or in emergencies as public safety or convenience may require, and it shall be unlawful for any person to fail or refuse to comply with any lawful order, signal or direction of a policeman. Except in cases of emergency, it shall be unlawful for any person not authorized by law to direct or attempt to direct traffic. **(625 ILCS 5/11-203)**

24-2-2 **SCENE OF FIRE.** The Fire Department officer in command or any fireman designated by him may exercise the powers and authority of a policeman in directing traffic at the scene of any fire or where the Fire Department has responded to an emergency call for so long as the Fire Department equipment is on the scene in the absence of or in assisting the Police Department.

24-2-3 **SIGNS AND SIGNALS.** It shall be unlawful for the driver of any vehicle to disobey the instructions of any traffic sign or signal placed in view by authority of the corporate authorities or in accordance with the laws of the State of Illinois except upon direction of a police officer. All signs and signals established by direction of the governing body shall conform to the Illinois State Manual of Uniform Traffic Control Devices for Streets and Highways. **Schedule "V" - Signs and Signals** shall be an integral part of this Section. **(625 ILCS 5/11-301)**

24-2-4 **UNAUTHORIZED SIGNS.** No person shall place, maintain or display upon or in view of any street, any unauthorized sign, signal, marking, light, reflector or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, or which attempts to direct the movement of traffic, nor shall any person or place, maintain or display upon or in view of any street, any other sign which hides from view or interferes with the movement of traffic or effectiveness of any traffic-control device or any railroad sign or signal, and no person shall place or maintain, nor shall any public authority permit upon any highway, any traffic sign or signal bearing thereon any commercial advertising. No tree, bush or foliage of any kind shall be so placed, maintained, allowed to remain, or be displayed upon either public or private property in such a manner as to hide from view or interfere with the movement of traffic or the effectiveness of any traffic-control device, sign or signal.

24-2-5 INTERFERENCE WITH SIGNS OR SIGNALS. It shall be unlawful for any person to deface, injure, move or interfere with any official traffic sign or signal.

24-2-6 ADVERTISING SIGNS. It shall be unlawful to maintain anywhere in the City any sign, signal, marking or device other than a traffic sign or signal authorized by the City Council or the Illinois Department of Transportation, which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal in view of any street or highway, and it shall be unlawful to place or maintain any sign which hides from view any lawful traffic-control device. It shall be unlawful to maintain or operate any flashing or rotating beacon of light in view of any street or highway. **(See Chapters 27 and 33) (Also See Chapter 40 - Zoning Code)**

24-2-7 ANIMALS OR BICYCLES. Any person riding a bicycle or an animal or driving any animal drawing a vehicle upon any street shall be subject to the provisions of this Code applicable to the driver of a vehicle, except those provisions which can have no application to one riding a bicycle or driving or riding an animal. **(625 ILCS 5/11-206)**

24-2-8 BICYCLE LAMPS, REFLECTORS, AND EQUIPMENT. When used at nighttime, every bicycle shall be equipped with the following:

(A) A lamp upon the front which emits a white light visible from a distance of at least **five hundred (500) feet** to the front.

(B) A red reflector on the rear which shall be visible to a distance of **six hundred (600) feet** to the rear when directly in front of lawful lower beams of headlights on a motor vehicle.

(C) A reflex reflector on each pedal visible from the front and rear of the bicycle from a distance up to **two hundred (200) feet** when viewed within the lawful lower beams of headlights on a motor vehicle.

(D) Side reflectors upon each side of the bicycle which shall be visible up to a distance of **five hundred (500) feet** when viewed directly in front of a lawful lower beam of motor vehicle headlights. The requirements of this subparagraph may be met by reflective materials which shall be at least **three-sixteenths (3/16) of an inch** wide on each side of each tire or rim which may indicate as clearly as possible the continuous circular shape and size of the tires or rims of such bicycle and which reflective materials may be of the same color on both the front and rear tire or rim.

24-2-9 REGULATION OF SKATEBOARDS, IN-LINE SKATES (ROLLERBLADES OR ROLLERSKIS) AND ROLLERSKATES. All on-street operation of skateboards, in-line skates (rollerblades and rollerskis) and rollerskates shall be conducted as far to the right of the traffic lane as possible, in a single file and flowing with traffic. All operations of these skateboards, in-line skates and rollerskates shall be during daylight hours unless the operator has a white light showing to the front and is wearing some type of reflective clothing or reflective strips on his or her clothing which can be seen from a distance of **five hundred (500) feet** to the rear and side. Further, all operation shall be consistent with the rules of the road established for bicycles. Skateboards, in-line skates and rollerskates shall be allowed on all City streets and sidewalks except for those listed in **Schedule "Z"** at the conclusion of this Code.

ARTICLE III - STOP AND THROUGH STREETS

24-3-1 **THROUGH STREETS.** The streets and parts of streets of the City designated by ordinance as "through streets" are hereby declared to be through streets. The driver of a vehicle shall stop at the entrance to a through street and shall yield the right-of-way to other vehicles which have entered the intersection or which are approaching so close on a through street as to constitute an immediate hazard unless directed otherwise by the traffic officer. See **Schedule "A"** for applicable through and stop streets.

24-3-2 **ONE-WAY STREETS OR ALLEYS.** It shall be unlawful to operate any vehicle on any streets or alleys designated as one-way streets or alleys by ordinance in any direction other than that so designated. See **Schedule "B"** for the designated one-way streets and alleys. **(625 ILCS 5/11-208)**

24-3-3 **STOP STREETS.** The driver of a vehicle shall stop in obedience to a stop sign at an intersection where a stop sign is erected pursuant to ordinance at one or more entrances thereto and shall proceed cautiously, yielding to the vehicles not so obliged to stop which are within the intersection or approaching so close as to constitute an immediate hazard, unless traffic at such intersection is controlled by a police officer on duty, in which event, the directions of the police officer shall be complied with. See **Schedule "A"** for designated stop intersections and traffic lights. **(625 ILCS 5/11-302)**

24-3-4 **POSTING SIGNS.** Appropriate signs shall be posted to show all through, stop and yield right-of-way streets, all one-way streets and alleys and all stop intersections. **(625 ILCS 5/11-304)**

ARTICLE IV - DRIVING RULES

24-4-1 **ILLINOIS VEHICLE CODE; RULES OF THE ROAD ADOPTED.** The Illinois Vehicle Code, **Illinois Compiled Statutes, Chapter 625, 5/11-100 et seq.**, entitled "**Rules of the Road**", as passed, approved and amended by the Illinois General Assembly is hereby adopted by the City and the provisions thereof shall be controlling within the corporate limits of the City except for the following changes, deletions and omissions:

(A)

Omissions:

- (1) Omit Sections 11-207, 11-208.1, 11-208.2, 11-209.1, 11-302, 11-303, 11-310(f), 11-313, 11-401 to and including 11-416, 11-500 to and including 11-502, 11-602, 11-603, 11-604, 11-606(b), 11-608, 11-1419, and 11-1422.

(B)

Changes and Additions:

- (1) Change 11-904(a) to read: "Preferential right-of-way at an intersection may be indicated by stop signs as authorized by this Code."
- (2) Change 11-1416(a) to read: "Any person who shall willfully and unnecessarily attempt to delay, hinder or obstruct any other person in lawfully driving and traveling upon or along any highway within this State or who shall offer for barter or sale, merchandise on said highway so as to interfere with the effective movement of traffic shall, upon conviction, be guilty of a violation of this Code."

24-4-2

DRIVING RULES.

(A)

Careless Driving. It shall be unlawful to operate a vehicle in the City in a careless manner so as to interfere with the safe or lawful operation of any other vehicle or so as to interfere with or to injure, damage, or endanger persons or property engaged in the lawful use of the street.

(B)

Drag Racing. No person shall participate within the City in drag racing as such activity is defined by **625 ILCS 5/11-504.**

(C)

Fleeing or Attempting to Elude Police Officer. Any driver or operator of a motor vehicle who, having been given a visual or audible signal by a police officer directing such driver or operator to bring his vehicle to a stop, willfully fails to or refuses to obey such direction, increases his speed, extinguishes his lights or otherwise flees or attempts to elude the officer is guilty of a violation of this Chapter. The signal given by the police officer may be by hand, voice, siren, red or blue light. Provided, however, the officer giving such signal shall be in police uniform and if driving a vehicle, such vehicle shall be marked showing it to be an official police vehicle.

(D)

Unlawful Possession of Highway Sign or Marker. Traffic control signals, signs or markers owned by the City shall be possessed only by the City's employees, police officers, contractors, or their employees engaged in highway construction, contract or work upon the roadways or public ways approved by the City. No person shall possess a traffic control signal, sign or marker owned by the City except as provided in this paragraph without the prior written authority of the City. It shall be a violation of this Chapter for a person to possess such a traffic control signal, sign or marker without lawful authority.

(E)

Special Speed Limitations on Elevated Structures. No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure when such structure is sign-posted.

Upon the trial of any person charged with the violation of this section, proof of the determination of the maximum speed by the City and the existence of such signs is conclusive evidence of the maximum speed which can be maintained with safety to such bridge or structure. **(625 ILCS 5/11-608)**

(F)

General Speed Restrictions. The speed limits on the various streets shall be approved by the City Council, but shall not exceed **twenty miles per hour (20 MPH)** in a school zone and not to exceed **twenty-five miles per hour (25 MPH)** on a residential street; otherwise, **thirty**

miles per hour (30 MPH) on an arterial street unless otherwise posted. **Schedule "D"** shall list the applicable streets that have specific speed limits thereon. **(625 ILCS 5/11-604)**

(G) **Special Speed Limit While Passing Schools.** No person shall drive a motor vehicle at a speed in excess of **twenty miles per hour (20 MPH)** while passing a school zone or while traveling upon any public thoroughfare on or across which children pass going to and from school during school days when school children are present as specified in **Schedule "D"**.

This section shall not be applicable unless appropriate signs are posted upon streets and maintained by the City or State wherein the school zone is located. **(625 ILCS 5/11-605)**

(H) **Failure to Reduce Speed.** A vehicle shall be driven upon the streets and alleys of this City at a speed which is reasonable and proper with regard to traffic conditions and the use of the street or alley. The fact that the vehicle does not exceed the applicable maximum speed limit does not relieve the driver of the duty to decrease speed when approaching and crossing an intersection or when special hazard exists with respect to pedestrian or other traffic or by reason of weather or highway conditions. Speed must be decreased as may be necessary to avoid colliding with any person or vehicle on or entering the highway in compliance with legal requirements and the duty of all persons to use due care.

(I) **Traffic Lane Usage.** Whenever any roadway within the City has been divided into **two (2)** or more clearly marked lanes for traffic, a vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(J) **U-Turns Prohibited.** No driver of a vehicle shall make a "U-turn" on any street or at any intersection of any streets in the City.

24-4-3 **DUTY TO REPORT ACCIDENT.** The driver of a vehicle which is in any manner involved in an accident within the City shall, without unnecessary delay, notify the Police Department and shall make a report of such action. Failure to report an accident within the City within **twenty-four (24) hours** shall result in arrests of the person or persons involved. **(625 ILCS 5/11-415)**

24-4-4 **TRANSPORTING LIQUOR IN VEHICLES.** No person shall transport, carry, possess or have any alcoholic liquor within the passenger area of any motor vehicle in this City except in the original container and with the seal unbroken. **(625 ILCS 5/11-502)**

24-4-5 **EXCESSIVE NOISE - STOPPED VEHICLE.** No operator of a motor vehicle shall, when the motor vehicle is stopped, unreasonably accelerate the engine thereof with the gears of the vehicle in neutral, thereby causing an unreasonably loud or excessive noise.

24-4-6 **EXCESSIVE NOISE - WHEELS.** No operator of a motor vehicle shall when the motor vehicle is stopped, accelerate the engine with the gears of such vehicle in neutral and while so accelerating the engine, shift the gears of the vehicle into a forward or reverse movement, thereby causing an unreasonably loud noise with the drive wheels of the vehicle.

24-4-7 **EXCESSIVE NOISE - SQUEALING TIRES.** No operator of a motor vehicle shall cause the wheels of such vehicle to spin violently, thereby causing an unreasonably loud or excessive noise. **(625 ILCS 5/11-505)**

24-4-8 **RECKLESS, NEGLIGENT OR CARELESS DRIVING.** It shall be unlawful to operate any vehicle in the City in a careless, reckless, negligent or wanton manner, or carelessly so as to endanger life or property.

24-4-9 **EXCESSIVE NOISE WHILE OPERATING A MOTOR VEHICLE.** No operator of a motor vehicle shall, when operating the motor vehicle within the corporate limits, accelerate the vehicle, or engine thereof if said vehicle is stopped, or rapidly stop the vehicle causing an unreasonably loud noise. **(Ord. No. 24-81; 06-22-81)**

ARTICLE V - EQUIPMENT OF VEHICLES

24-5-1 **ILLINOIS VEHICLE CODE; EQUIPMENT OF VEHICLES ADOPTED.** The Illinois Vehicle Code, **Illinois Compiled Statutes, Chapter 625, Section 12**, entitled "**Equipment of Vehicles**", as passed, approved, and amended by the Illinois General Assembly is hereby adopted by the City and the provisions thereof shall be controlling within the corporate limits of the City. **(625 ILCS 5/12-605, 5/12-605.1; and 5/12-605.2)**

24-5-2 **MUFFLER.** No motor vehicle shall be operated on any street unless such vehicle is provided with a muffler in efficient actual working condition; and the use of a cut-out is prohibited. No muffler shall cause an unreasonably loud or excessive noise. **(625 ILCS 5/12-602)**

24-5-3 **SOUND AMPLIFICATION SYSTEMS.** No driver of any motor vehicle within this City shall operate or permit operation of any sound amplification system which can be heard outside the vehicle from **seventy-five (75) feet** or more when the vehicle is being operated upon a highway, unless such system is being operated to request assistance or warn of a hazardous situation. This Section shall not apply to authorized emergency vehicles. **(625 ILCS 5/12-611)**

24-5-4 **EXCESSIVE ENGINE BRAKING NOISE PROHIBITED.** It shall be unlawful for the operator of a commercial vehicle as defined in **625 ILCS 5/1-111.8** to operate or actuate any engine braking system within the City that emits excessive noise unless it is an emergency. The Superintendent is authorized and directed to post signs stating: "**EXCESSIVE ENGINE BRAKING NOISE PROHIBITED**" at appropriate locations. **(625 ILCS 5/12-602.1)**

(C) If, after the hearing, the administrative hearing officer does not determine by a preponderance of the evidence that the motor vehicle was used in such a violation, the administrative hearing officer shall enter an order finding for the owner and for the return of the motor vehicle, or the administrative fees if already paid.

(D) If the owner of record fails to appear at the hearing, the owner of record/interested person shall be deemed to have waived his or her right to a hearing. If the owner of record/interested person pays such administrative fee and the motor vehicle is returned to the owner of record/interested person, no default order need be entered if the owner of record/interested person was informed of his or her right to a hearing, in which case an order of liability shall be deemed to have been made when the City receives the written waiver.

(E) If a bond in the amount equal to the administrative fee is posted with the Police Department, the impounded motor vehicle shall be released to the owner of record/interested person. The owner of record/interested person shall still be liable to the towing agent for any applicable towing and storage fees.

(F) If an administrative fee is imposed pursuant to this Section, the bond will be forfeited to the City; however, if none of the enumerated offenses in this Article are proven by a preponderance of the evidence, the bond will be returned to the person posting the bond. All bond money posted pursuant to this Article shall be held by the City until the administrative hearing officer issues a decision, or, if there is a judicial review, until the court of jurisdiction issues its order(s).

A request for a hearing must be made in writing and delivered to the City Clerk within the time stated in the notice; otherwise, it will be presumed that a nuisance exists, and that such nuisance must be abated as ordered. The hearing shall not be a formal trial-type proceeding, but appropriate procedural safeguards shall be observed to ensure fairness. At the conclusion of the hearing, the Police Chief or his designated representative shall render his decision and the reasons therefor in writing. If he finds that a nuisance exists, he shall order it abated within an additional time which must be reasonable under the circumstances.

25-1-6 ABATEMENT BY CITY. If the person ordered to abate a nuisance fails to do so, or if the nuisance poses an emergency, this City may perform the required action to abate. Any City official who is authorized to abate any nuisance as defined in this Article shall have authority to engage the necessary assistance and to incur the necessary expenses therefor. 25-1-7 **FAILURE TO COMPLY WITH NOTICE.** If the person notified to abate a nuisance shall neglect or refuse to comply with the requirements of such notice by abating such nuisance within the time specified, such person shall be guilty of a violation of this Code. The City shall not be required to issue another notice where the condition or violation is at first abated, but later resumed and/or repeated.

In the event the premises are used as a business, service may be obtained by handing the notice to any employee or agent of the business owner.

25-3-4 FAILURE TO COMPLY WITH NOTICE. If the owner or occupant fails to comply with the requirements specified in the notice within **seven (7) days** of the date of notice, the City may disconnect the water service to the premises, and post the premises "Occupancy Prohibited".

In addition to imposition of fees as provided in **Section 25-3-10**, all costs incurred for the removal of the garbage, trash and debris by the City shall be forwarded to the owner of the property for payment. The fees for removal of such large item(s) shall be **Forty Dollars (\$40.00)** for the first large item and **Ten Dollars (\$10.00)** for each additional large item removed by the City on any individual trip. In addition, if a resident places items out on the curb with their trash, the **seven (7) day** period is considered waived and the City will pick it up on regular trash day for the following fee: **Fifteen Dollars (\$15.00)** per item. (**Ord. No. 33-2016; 10-24-16**)

(C) All fees levied by the City pursuant to subsection (B) herein shall be billed to the customer responsible for the Herrin Water Department's monthly bill at the location of the tagged large items of garbage, trash or debris, including any large items collected from multi-family residential housing units. Said fees will be added to the monthly water bill, and non-payment or untimely payment of such fees may lead to termination of water service as otherwise provided in this Code.

27-11-1 PURPOSE AND ADDITIONAL FINDINGS.

(A) Purpose. It is the purpose of this Article to regulate public nudity in order to promote the health, safety, morals, and general welfare of the citizens of the City. The provisions of this Article have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials.

(B) Findings. The City Council finds:

- (1) Public places allowing nudity lend themselves to ancillary unlawful and unhealthy activities that are presently uncontrolled.
- (2) Sexual acts, including masturbation, and oral and anal sex, occur at adult oriented businesses, especially those which provide private or semi-private booths or cubicles for viewing films, videos, live sex shows or public nudity.
- (3) Allowing public nudity creates unhealthy conditions.
- (4) Persons frequent certain adult theaters, adult arcades, and other adult oriented businesses for the purpose of engaging in sex within the premises of such adult oriented businesses.
- (5) At least **fifty (50)** communicable diseases may be spread by activities occurring in adult oriented businesses involving public nudity, including, but not limited to, syphilis, gonorrhea, human immunodeficiency virus infection (HIV-AIDS), genital herpes, hepatitis B, Non A, Non B amebiasis, salmonella infections and shigella infections.
- (6) Since 1981 and to the present, there has been an increasing cumulative number of reported cases of AIDS caused by the human immunodeficiency virus (HIV) in the United States.
- (7) The Surgeon General of the United States in his report of **October 22, 1986**, has advised the American public that AIDS and HIV infection may be transmitted through sexual contact, intravenous drug abuse, exposure to infected blood and blood components, and from an infected mother to her newborn.
- (8) According to the best scientific evidence, AIDS and HIV infection, as well as syphilis and gonorrhea, are principally transmitted by sexual acts.
- (9) Sanitary conditions in some adult oriented businesses and those places allowing public nudity are unhealthy, in part, because the activities conducted there are unhealthy, and, in part, because of the unregulated nature of the activities, including nudity, and the failure of the owners and the operators of the facilities to self-regulate those activities and maintain those facilities.
- (10) Numerous studies and reports have determined that semen is found in the areas of adult oriented businesses allowing public nudity and where persons view "adult" oriented films.
- (11) The findings noted in paragraphs (1) through (10) raise substantial governmental concerns.
- (12) Public places allowing nudity have operational characteristics which should be reasonably regulated in order to protect those substantial governmental concerns.
- (13) The general welfare, health, morals and safety of the citizens of the City will be promoted by the enactment of this Article.

ARTICLE XII - OBSCENITY

27-12-1 OBSCENITY.

(A) Elements of the Offense. A person commits an obscenity offense when, with the knowledge of the nature or content thereof or recklessly failing to exercise reasonable inspection which would have disclosed the nature or content thereof, he:

- (1) sells, delivers or provides or offers or agrees to sell, deliver or provide any obscene writing, picture, record or other representation or embodiment of the obscene; or
- (2) presents or directs an obscene play, dance, or other performance or participates directly in that portion thereof which makes it obscene; or
- (3) publishes, exhibits or otherwise makes available anything obscene; or
- (4) performs an obscene act or otherwise presents an obscene exhibition of his body for gain; or
- (5) creates, buys, procures or possesses obscene matter or material with intent to disseminate it in violation of this Section, or of the penal laws or regulations of any other jurisdiction; or
- (6) advertises or otherwise promotes the sale of material represented or held out by him to be obscene, whether or not it is obscene.

(B) Obscene Defined. Any material or performance is obscene if:

- (1) the average person, applying contemporary adult community standards, would find that, taken as a whole, it appeals to the prurient interest; and
- (2) the average person, applying contemporary adult community standards, would find that it depicts or describes, in a patently offensive way, ultimate sexual acts or sadomasochistic sexual acts, whether normal or perverted, actual or simulated, or masturbation, excretory functions or lewd exhibition of the genitals; and
- (3) taken as a whole, it lacks serious literary, artistic, political or scientific value.

(C) Interpretation of Evidence. Obscenity shall be judged with reference to ordinary adults except that it shall be judged with reference to children or other specially susceptible audiences if it appears from the character of the material or the circumstances of its dissemination to be specially designed for or directed to such an audience.

Where circumstances of production, presentation, sale, dissemination, distribution, or publicity indicate that material is being commercially exploited for the sake of its prurient appeal, such evidence is probative with respect to the nature of the matter and can justify the conclusion that the matter is lacking in serious literary, artistic, political or scientific value.

In any prosecution for an offense under this Section, evidence shall be admissible to show:

- (1) the character of the audience for which the material was designed or to which it was directed;
- (2) what the predominant appeal of the material would be for ordinary adults or a special audience, and what effect, if any, it would probably have on the behavior of such people;
- (3) the artistic, literary, scientific, educational or other merits of the material, or the absence thereof;
- (4) the degree, if any, of public acceptance of the material in this State;
- (5) appeal to prurient interest or absence thereof in advertising or other promotion of the material;
- (6) purpose of the author, creator, publisher or disseminator.

(D) Prima Facie Evidence. The creation, purchase, procurement or possession of a mold, engraved plat or other embodiment or obscenity, specially adapted for reproducing multiple copies, or the possession of more than **three (3) copies** of obscene material shall be prima facie evidence of an intent to disseminate. **(65 ILCS 5/11-5-1)**

27-12-2

HARMFUL MATERIAL.

(A) **Elements of the Offense.** A person who, with knowledge that a person is a child; that is, a person under **eighteen (18) years** of age, or who fails to exercise reasonable care in ascertaining the true age of a child, knowingly distributes to, or sends or causes to be sent to, or exhibits to or offers to distribute or exhibit any harmful material to a child is guilty of a violation of this Code.

(B) **Definitions.**

- (1) Material is harmful if, to the average person applying contemporary standards, its predominant appeal, taken as a whole, is to prurient interest; that is, shameful or morbid interest in nudity, sex, or excretion which goes substantially beyond customary limits of candor in description or representation of such matters and is material, the redeeming social importance of which is substantially less than its prurient appeal.
- (2) **"Material"** as used in this Code means any writing picture, record or other representation or embodiment.
- (3) **"Distribute"** means to transfer possession of material whether with or without consideration.
- (4) **"Knowingly"** as used in this Section means having knowledge of the contents of the subject matter or recklessly failing to exercise reasonable inspection which would have disclosed the contents thereof.

(C) **Interpretation of Evidence.** The predominant appeal to prurient interest of the material shall be judged with reference to average children of the same general age of the child to whom such material was offered, distributed, sent or exhibited unless it appears from the nature of the matter or the circumstances of its dissemination, distribution or exhibition that it is designed for specially susceptible groups, in which case, the predominant appeal of the material shall be judged with reference to its intended or probable recipient group.

In prosecutions under this Section where circumstances of production, presentation, sale, dissemination, distribution, or publicity, indicate the material is being commercially exploited for the sake of its prurient appeal, such evidence is probative with respect to the nature of the material and can justify the conclusion that the redeeming social importance of the material is, in fact, substantially less than its prurient appeal.

(D) **Affirmative Defenses.**

- (1) Nothing in this Section shall prohibit any public library or any library operated by an accredited institution of higher education from circulating harmful material to any person under **eighteen (18) years** of age, provided such circulation is in aid of a legitimate scientific or educational purpose, and it shall be an affirmative defense in any prosecution for a violation of this Section that the act charged was committed in aid of legitimate scientific or educational purposes.
- (2) Nothing in this Section shall prohibit any parent from distributing to his child any harmful material.
- (3) Proof that the defendant demanded, was shown and acted in reliance upon any of the following documents as proof of the age of a child shall be a defense to any criminal prosecution under this Section:
 - (a) A document issued by the federal government or any state, county or municipal government, or subdivision or agency thereof, including, but not limited to a motor vehicle operator's license, a registration certificate issued under the Federal Selective Service Act or an identification card issued to a member of the armed forces.
- (4) In the event an advertisement of harmful material as defined in this Section culminates in the sale or distribution of such harmful material to a child, under circumstances where there was no personal confrontation of the child by the defendant, his employees or agents as where the order or request for such harmful material was transmitted by mail, telephone, or similar means of communication and delivery of such

harmful material to the child was by mail, freight, or similar means of transport, it shall be a defense in any prosecution for a violation of this Section that the advertisement contained the following statement or a statement substantially similar thereto, and that the defendant required the purchaser to certify that he was not under the age of **eighteen (18) years** and that the purchaser falsely stated that he was not under the age of **eighteen (18) years**:

"NOTICE: It is unlawful for any person under eighteen (18) years of age to purchase the matter herein advertised. Any person under eighteen (18) years of age who falsely states that he is not under eighteen (18) years of age for the purpose of obtaining the material advertised herein is guilty of a misdemeanor."

(E) **Child Falsifying Age.** Any person under **eighteen (18) years** of age who falsely states, either orally or in writing that he is not under the age of **eighteen (18) years**, or who presents or offers to any person any evidence of age and identity which is false or not actually his own for the purpose of ordering, obtaining, viewing or otherwise procuring or attempting to procure or view any harmful material is guilty of a misdemeanor. **(65 ILCS 5/11-5-1)**

27-12-3 TIE-IN SALES OF OBSCENE PUBLICATIONS TO DISTRIBUTORS. Any person, firm or corporation, or any agent, officer or employee thereof engaged in the business of distributing books, magazines, periodicals, comic books or other publications to retail dealers who shall refuse to furnish to any retail dealer such quantity of books, magazines, periodicals, comic books or other publications as such retail dealer normally sells because the retail dealer refuses to sell, or offer for sale, any books, magazines, periodicals, comic books or other publications which are obscene, lewd, lascivious, filthy or indecent is guilty of an offense. Each publication sold or delivered in violation of this Section shall constitute a separate offense. **(720 ILCS 5/11-22)**

ARTICLE XIV – SMOKE FREE AIR CODE

27-14-1 BACKGROUND. Smoking creates the hazard of injury to the personal health of those in the environment of such smoke as well as the potential of damage to property that may result from the incendiary nature of such activity. It has been determined that breathing ambient smoke is a health hazard to both smokers and nonsmokers. Cigarette smoking also produces several substances that are considered hazardous to health including carbon monoxide, hydrogen cyanide, nitrous oxide and formaldehyde. Secondhand smoke (68% of the total smoke produced by a cigarette) affects the health of the bystander, interfering with respiratory tract defenses, often causing nonsmokers to have allergic or irritative reactions, and is a known cause of lung cancer.

Because the hazards of smoking have a potentially harmful effect, material and direct, on the public health, safety, welfare, comfort, and property of residents of the City, it is necessary and desirable to establish regulations that prohibit smoking in all enclosed public places, in all enclosed places of employment, near entrances to all such public places and places of employment, in and near open air public dining areas, and within certain unenclosed public places including school grounds, parks and recreation areas and outdoor venues.

27-14-2 PURPOSE. This Article may be cited as the "Smoke Free Air Code," the purpose of which is to protect the public health, comfort and environment by prohibiting smoking in all enclosed public places and places of employment, within **twenty-five (25) feet** of all public entrances to such places, in open air public dining areas and within **twenty-five (25) feet** of such areas, and within certain unenclosed public places including school grounds, parks and recreation areas and outdoor venues in order to ensure that nonsmokers may breathe air free from the hazardous effects of secondhand smoke.

PROPERTY MAINTENANCE CODE

ARTICLE I – SCOPE AND ADMINISTRATION

DIVISION - GENERAL

29-1-1 **TITLE.** These regulations shall be known as the Property Maintenance Code of the City of Herrin, Illinois hereinafter referred to as "this Code". **(IPMC 101.1)**

29-1-2 **SCOPE.** The provisions of this Code shall apply to all existing residential and nonresidential *structures* and all existing *premises* and constitute minimum requirements and standards for *premises, structures, equipment* and facilities for light, *ventilations*, space, heating, sanitation, protection from the elements, life safety, safety from fire and other hazards, and for safe and sanitary maintenance; the responsibility of *owners, operators* and *occupants*; the *occupancy* of existing *structures* and *premises*, and for administration, enforcement and penalties. **(IPMC 101.2)**

Exception: This Code shall not apply to Commercial *structures* unless they contain residential uses.

[This Section establishes the broad purpose of the Code—to protect the public health, safety and welfare in both existing residential and nonresidential structures and on all existing premises.

Four specific areas are addressed in greater detail in subsequent sections:

(1) *Establishing minimum maintenance standards for such elements as basic equipment, light, ventilation, heating, sanitation and fire safety.*

(2) *Fixing responsibility among owners, operators and occupants for following the Code.*

(3) *Regulating the use of existing structures and premises.*

(4) *Providing for administration, enforcement and penalties.*

These four categories provide communities with the tools to reduce risks created by deteriorated or unsafe buildings and help communities upgrade and maintain other existing structures.]

29-1-3 **INTENT.** This Code shall be construed to secure its expressed intent, which is to ensure public health, safety and welfare insofar as they are affected by the continued *occupancy* and maintenance of *structures* and *premises*. Existing *structures* and *premises* that do not comply with these provisions shall be altered or repaired to provide a minimum level of health and safety as required herein. **(IPMC 101.3)**

[This Code is intended to provide requirements addressing the public health, safety and welfare as they relate to the use and maintenance of existing structures and premises. The Code requires existing structures and premises that are not in compliance with the Code to be altered or repaired to meet the Code. The Code requirements are intended to represent the minimum acceptable level of public health and safety. The International Existing Building Code® (IEBC®) is listed as the required Code for all repairs, alterations, additions and change of occupancies to existing structures.]

29-1-4 **SEVERABILITY.** If a section, subsection, sentence, clause or phrase of this Code is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this Code. **(IPMC 101.4)**

[Only invalid sections of the Code (as established by the court of jurisdiction) can be set aside. This is essential to safeguard the application of the Code text to situations whereby a provision of the Code is declared illegal or unconstitutional. This Section would preserve the legislative action that put the legal provisions in place.]

DIVISION II - APPLICABILITY

29-1-5 GENERAL. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall govern. Where differences occur between provisions of this Code and the reference standards, the provisions of this Code shall apply. Where, in a specific case, different sections of this Code specify different requirements, the most restrictive shall govern. **(IPMC 102.1)**

29-1-6 MAINTENANCE. *Equipment, systems, devices and safeguards required by this Code or a previous regulation or Code under which the structure or premises was constructed, altered or repaired shall be maintained in good working order. No owner, operator or occupant shall cause any service, facility, equipment or utility which is required under this Section to be removed from or shut off from or discontinued for any occupied dwelling, except for such temporary interruption as necessary while repairs or alterations are in progress. The requirements of this Code are not intended to provide the basis for removal or abrogation of fire protection and safety systems and devices in existing structures. Except as otherwise specified herein, the owner or the owner's designated agent shall be responsible for the maintenance of buildings, structures and premises.* **(IPMC 102.2)**

[This Section contains general maintenance requirements. The Code specifically prohibits the disconnection of any required utilities for an occupied dwelling. This helps to safeguard persons who have a physical condition and are dependent on these systems. Some examples of this include: a person who has to have electricity to power a kidney dialysis machine; a patient who is on an oxygen system full time; or someone with particularly bad allergies who needs to have an air-conditioning system to help filter the air. Any safety system that exists in a building must be maintained. A fire protection or safety system is not to be removed from a building if it is required by the Code or a previous regulation or code that was in effect when the building was built. This Section also specifies that the owner or the owner's agent is responsible for maintenance, not the tenants of rental property.]

29-1-7 APPLICATION OF OTHER CODES. Repairs, additions or alterations to a structure, or changes of occupancy, shall be done in accordance with the procedures and provisions of the *International Building Code, International Fuel Gas Code, International Mechanical Code, and NFPA 70.* Nothing in this Code shall be construed to cancel, modify or set aside any provision of the *Municipal Zoning Code.* **(IPMC 102.3)**

29-1-8 EXISTING REMEDIES. The provision in this Code shall not be construed to abolish or impair existing remedies of the jurisdiction or its officers or agencies relating to the removal or demolition of any structure which is dangerous, unsafe and unsanitary. **(IPMC 102.4)**

29-1-9 WORKMANSHIP. Repairs, maintenance work, alterations or installations which are caused directly or indirectly by the enforcement of this Code shall be executed and installed in a *workmanlike* manner and installed in accordance with the manufacturer's installation instructions. **(IPMC 102.5)**

29-1-10 HISTORIC BUILDINGS. The provisions of this Code shall not be mandatory for existing buildings or structures designated as historic buildings when such buildings or structures are judged by the *Code Official* to be safe and in the public interest of health, safety and welfare. **(IPMC 102.6)**

29-1-11 REFERENCED CODES AND STANDARDS. The codes and standards referenced in this Code shall be those that are listed in **Article VIII** and considered part of the requirements of this

Code to the prescribed extent of each such reference and as further regulated in **Sections 29-1-11(A) and 29-1-11(B). (IPMC 102.7)**

Exception: Where enforcement of a code provision would violate the conditions of the listing of the *equipment* or *appliance*, the conditions of the listing shall apply.

(A) **Conflicts.** Where conflicts occur between provisions of this Code and the referenced standards, the provisions of this Code shall apply. **(IPMC 102.7.1)**

(B) **Provisions in Reference Codes and Standards.** Where the extent of the reference to a referenced code or standard includes subject matter that is within the scope of this Code, the provisions of this Code, as applicable, shall take precedence over the provisions in the referenced code or standard. **(IPMC 102.7.2)**

29-1-12 REQUIREMENTS NOT COVERED BY CODE. Requirements necessary for the strength, stability or proper operation of an existing fixture, structure or *equipment*, or for the public safety, health and general welfare, not specifically covered by this Code, shall be determined by the *Code Official*. **(IPMC 102.8)**

29-1-13 APPLICATION OF REFERENCES. References to chapter, article or section numbers, or to provisions not specifically identified by number, shall be construed to refer to such chapter, article, section or provision of this Code. **(IPMC 102.9)**

29-1-14 OTHER LAWS. The provisions of this Code shall not be deemed to nullify any provisions of local, state or federal law. **(IPMC 102.10)**

DIVISION III – DEPARTMENT OF PROPERTY MAINTENANCE INSPECTION

Any suit instituted against any officer or employee because of an act performed by that officer or employee in the lawful discharge of duties and under the provisions of this Code shall be defended by the legal representative of the jurisdiction until the final termination of the proceedings. The *Code Official* or any subordinate shall not be liable for costs in an action, suit or proceeding that is instituted in pursuance of the provisions of this Code. **(IPMC 103.4)**

29-1-19 PERMIT TO OCCUPY.

(A) **Permit Required.** It shall be unlawful for any *person, owner* or agent thereof to occupy or use, or to permit any *person* to occupy or use any *premises* for any purpose including the movement of furniture, *equipment* or other personal property into said *premises* until a permit to occupy has been issued by the *Code Official*. The permit so issued shall state that the condition of the *premises* and its proposed occupation complies with all of the provisions of this Code as far as can be determined by a visual inspections of the *premises* and a review of the records.

(B) **Application for Occupancy.** It shall be unlawful for any *person* to knowingly make any false statements on an application for permit to occupy a *dwelling unit* as to the names, relationships, ages, or number of *occupants* who will occupy a *dwelling unit* as to the names, relationships, ages, or number of *occupants* who will occupy the *dwelling unit*. (E) **Revocation of Permit.** The *Code Official* may revoke a permit in case of any false statement or misrepresentation of facts in the application on which a permit was based, or in the event a structure or part thereof is *condemned* pursuant to this Code.

29-1-20 FEES. The fees for activities and services performed by the department in carrying out its responsibilities under this Code shall be as indicated in the schedule found in **Appendix "A"** at the conclusion of this Chapter. **(IPMC 103.5)**

DIVISION IV – DUTIES AND POWERS OF THE CODE OFFICIAL

29-1-21 GENERAL. The *Code Official* is hereby authorized and directed to enforce the provisions of this Code. The *Code Official* shall have the authority to render interpretations of this Code and to adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies and procedures shall be in compliance with the intent and purpose of this Code. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this Code. **(IPMC 104.1)**

29-1-22 INSPECTIONS. The *Code Official* shall make all of the required inspections, or shall accept reports of inspection by *approved* agencies or individuals. All reports of such inspections shall be in writing and be certified by a responsible officer of such *approved* agency or by the responsible individual. The *Code Official* is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise, subject to the approval of the appointing authority. **(IPMC 104.2)**

29-1-23 RIGHT OF ENTRY. Where it is necessary to make an inspection to enforce the provisions of this Code, or whenever the *Code Official* has reasonable cause to believe that there exists in a structure or upon a *premises* a condition in violation of this Code, the *Code Official* is authorized to enter the structure or *premises* at reasonable times to inspect or perform duties imposed by this Code, provided that if such structure or *premises* is occupied the *Code Official* shall present credentials to the *occupant* and request entry. If a structure or *premises* is unoccupied, the *Code Official* shall first make a reasonable effort to locate the *owner* or other *person* having charge or control of the structure or *premises* and request entry. If entry is refused, the *Code Official* shall have recourse to the remedies provided by law to secure entry. **(IPMC 104.3)**

*[This Section establishes the right of the Code Official to enter the premises in order to make the inspections required by **Section 29-1-23**. The right to enter structures or premises is limited. First, to protect the right of privacy, the owner or occupant must grant the Code Official permission before an interior inspection of the property can be conducted. Permission is not required for inspections that can be accomplished from within the public right-of-way. Second, such access may be denied by the owner or occupant. Unless the inspector has reasonable cause to believe that a violation of the Code exists, access may be unattainable. Third, Code Officials must present proper identification and request admittance during reasonable hours—usually the normal business hours of the establishment—to be admitted. Fourth, inspections must be aimed at securing or determining compliance with the provisions and intent of the regulations that are specifically within the established scope of the Code Official's authority.]*

Searches of a private residence to gather information for the purpose of enforcing codes, ordinances or regulations are considered unreasonable and are prohibited by the Fourth Amendment to the U.S. Constitution. "Reasonable cause" in the context of this Section must be distinguished from "probable cause", which is required to gain access to property in criminal cases. The burden of proof establishing reasonable cause may vary among jurisdictions. Usually, an inspector must show that the property is subject to inspection under the provisions of the Code; that the interests of the public health, safety and welfare outweigh the individual's right to maintain privacy; and that such an inspection is required solely to determine compliance with the provisions of the Code.

Many jurisdictions do not recognize the concept of an administrative warrant and may require the Code Official to prove probable or reasonable cause in order to gain access upon refusal. This burden of proof is usually more substantial, often requiring the Code Official to stipulate in advance why access is needed (usually access is restricted to gathering evidence for seeking an indictment or making an arrest), what specific items or information is sought, its relevance to the case against the individual subject, how knowledge of the relevance of the information or items sought was obtained and how the evidence sought will be used. In all such cases, the right to privacy must always be weighed against the right of the Code Official to conduct an inspection to verify that the public health, safety and welfare are not in jeopardy. Such important and complex constitutional issues should be discussed with the jurisdiction's legal counsel. Jurisdictions should establish procedures for securing the necessary court orders when an inspection is deemed necessary following a refusal.]

29-1-24 IDENTIFICATION. The *Code Official* shall carry proper identification when inspecting *structures* or *premises* in the performance of duties under this Code. **(IPMC 104.4)**

29-1-25 NOTICES AND ORDERS. The *Code Official* shall issue all necessary notices or orders to ensure compliance with this Code. **(IPMC 104.5)**

29-1-26 DEPARTMENT RECORDS. The *Code Official* shall keep official records of all business and activities of the department specified in the provisions of this Code. Such records shall be retained in the official records for the period required for retention of public record. **(IPMC 104.6)**

DIVISION V - APPROVAL

29-1-27 MODIFICATIONS. Whenever there are practical difficulties involved in carrying out the provisions of this Code, the *Code Official* shall have the authority to grant modifications for individual cases upon application of the *owner* or *owner's* representative, provided the *Code Official* shall first find that special individual reason makes the strict letter of this Code impractical and the modification is in compliance with the intent and purpose of this Code and that such modification does not lessen health, life and fire safety requirements. The details of action granting modifications shall be recorded and entered in the department files. **(IPMC 105.1)**

29-1-28 ALTERNATIVE MATERIALS, METHODS AND EQUIPMENT. The provisions of this Code are not intended to prevent the installation of any material or to prohibit any method of construction not specifically prescribed by this Code, provided that any such alternative has been *approved*. An alternative material or method of construction shall be *approved* where the *Code Official* finds that the

proposed design is satisfactory and complies with the intent of the provisions of this Code, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in this Code in quality, strength, effectiveness, fire resistance, durability and safety. **(IPMC 105.2)**

29-1-29 REQUIRED TESTING. Whenever there is insufficient evidence of compliance with the provisions of this Code, or evidence that a material or method does not conform to the requirements of this Code, or in order to substantiate claims for alternative materials or methods, the *Code Official* shall have the authority to require tests to be made as evidence of compliance at no expense to the jurisdiction. **(IPMC 105.3)**

(A) **Test Methods.** Test methods shall be as specified in this Code or by other recognized test standards. In the absence of recognized and accepted test methods, the *Code Official* shall be permitted to approve appropriate testing procedures performed by an *approved* agency. **(IPMC 105.3.1)**

(B) **Test Reports.** Reports of tests shall be retained by the *Code Official* for the period required for retention of public records. **(IPMC 105.3.2)**

29-1-30 USED MATERIAL AND EQUIPMENT. The use of used materials which meet the requirements of this Code for new materials is permitted. Materials, *equipment* and devices shall not be reused unless such elements are in good repair or have been reconditioned and tested when necessary, placed in good and proper working condition and *approved* by the *Code Official*. **(IPMC 105.4)**

29-1-31 APPROVED MATERIALS AND EQUIPMENT. Materials, *equipment* and devices *approved* by the *Code Official* shall be constructed and installed in accordance with such approval. **(IPMC 105.5)**

29-1-32 RESEARCH REPORTS. Supporting data, where necessary to assist in the approval of materials or assemblies not specifically provided for in this Code, shall consist of valid research reports from *approved* sources. **(IPMC 105.6)**

DIVISION VI - VIOLATIONS

29-1-33 UNLAWFUL ACTS. It shall be unlawful for a *person*, firm or corporation to be in conflict with or in violation of any of the provisions of this Code. **(IPMC 106.1)**

29-1-34 NOTICE OF VIOLATION. The *Code Official* shall serve a notice of violation or order in accordance with **Division VII**. **(IPMC 106.2)**

29-1-35 PROSECUTION OF VIOLATION. Any *person* failing to comply with a notice of violation or order served in accordance with **Division VII** shall be deemed guilty of a misdemeanor or civil infraction as determined by the City, and the violation shall be deemed a strict liability offense. If the notice of violation is not complied with, the *Code Official* shall institute the appropriate proceeding at law or in equity to restrain, correct or abate such violation, or to require the removal or termination of the unlawful *occupancy* of the structure in violation of the provisions of this Code or of order or direction made pursuant thereto. Any action taken by the authority having jurisdiction on such *premises* shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate. **(IPMC 106.3)**

29-1-36 **VIOLATION PENALTIES.** Any person who shall violate a provision of this Code or fails to comply with any of the requirements thereof or who erects, constructs, alters or repairs a building or structure in violation of the approved construction documents or directive of the building official, or of a permit or certificate issued under the provisions of this Code, shall be subject to all fines, penalties, and sentencing of a petty offense, as such term is defined in the Unified Code of Corrections Act (**730 ILCS 5/5-4.5-75**). Each day that a violation continues after due notice has been served shall be deemed a separate offense. (**IPMC 106.4**)

29-1-37 **ABATEMENT OF VIOLATION.** The imposition of the penalties herein prescribed shall not preclude the legal officer of the jurisdiction from instituting appropriate action to restrain, correct or abate a violation, or to prevent illegal *occupancy* of a building, structure or *premises*, or to stop an illegal act, conduct, business or utilization of the building, structure or *premises*. (**IPMC 106.5**)

[Despite the assessment of a penalty in the form of a fine against a violator, the violation itself must still be corrected. Failure to make the necessary corrections will result in the violator being subject to additional penalties as described in the proceeding section.]

DIVISION VII – NOTICES AND ORDERS

29-1-38 **NOTICE TO PERSON RESPONSIBLE.** Whenever the *Code Official* determines that there has been a violation of this Code or has grounds to believe that a violation has occurred, notice shall be given in the manner prescribed in **Sections 29-1-39** and **29-1-40** to the *person* responsible for the violation as specified in this Code. Notices for condemnation procedures shall also comply with **Section 29-1-45**. (**IPMC 107.1**)

29-1-39 **FORM.** Such notice prescribed in **Section 29-1-38** shall be in accordance with all of the following: (**IPMC 107.2**)

- (A) Be in writing.
- (B) Include a description of the real estate sufficient for identification.
- (C) Include a statement of the violation or violations and why the notice is being issued.
- (D) Include a correction order allowing a reasonable time to make the repairs and improvements required to bring the *dwelling unit* or structure into compliance with the provisions of this Code.
- (E) Inform the property *owner* of the right to appeal.
- (F) Include a statement of the right to file a lien in accordance with **Section 29-1-35**.

29-1-40 **METHOD OF SERVICE.** Such notice shall be deemed to be properly served if a copy thereof is: (**IPMC 107.3**)

- (A) delivered personally;
- (B) sent by certified or first-class mail addressed to the last known address; or
- (C) if the notice is returned showing that the letter was not delivered, a copy thereof shall be posted in a conspicuous place in or about the structure affected by such notice.

29-1-41 **UNAUTHORIZED TAMPERING.** Signs, tags or seals posted or affixed by the *Code Official* shall not be mutilated, destroyed or tampered with, or removed without authorization from the *Code Official*. (**IPMC 107.4**)

29-1-42 PENALTIES. Penalties for noncompliance with orders and notices shall be as set forth in **Section 29-1-36. (IPMC 107.5)**

29-1-43 TRANSFER OF OWNERSHIP. It shall be unlawful for the *owner* of any *dwelling unit* or structure who has received a compliance order or upon whom a notice of violation has been served to sell, transfer, mortgage, lease or otherwise dispose of such *dwelling unit* or structure to another until the provisions of the compliance order or notice of violation have been complied with, or until such *owner* shall first furnish the grantee, transferee, mortgagee or lessee a true copy of any compliance order or notice of violation issued by the *Code Official* and shall furnish to the *Code Official* a signed and notarized statement from the grantee, transferee, mortgagee or lessee, acknowledging the receipt of such compliance order or notice of violation and fully accepting the responsibility without condition for making the corrections or repairs required by such compliance order or notice of violation. **(IPMC 107.6)**

[When a property has a pending violation order, it is unlawful for an owner to sell, transfer, mortgage, lease or otherwise dispose of the property without either following the order or advising the buyer, mortgagee, etc., of the pending violation. The owner must prove that the buyer has received notice of pending violations by providing the Code Official with a signed, notarized receipt from the new transferee.]

Determining who is the current owner of a building is a frustrating and difficult activity. To evade code enforcement action, owners will frequently transfer ownership of their property. This provision of the Code permits the Code Official to cite the seller if he or she did not provide the Code Official with the required notification when the property was transferred; thus, even though the seller may avoid complying with the outstanding violation orders, he or she can still be charged with a violation for failing to provide proof that the transferee was aware of the pending orders.]

DIVISION VIII - UNSAFE STRUCTURES AND EQUIPMENT

29-1-44 GENERAL. When a structure or *equipment* is found by the *Code Official* to be unsafe, or when a structure is found unfit for human *occupancy*, or is found unlawful, such structure shall be *condemned* pursuant to the provisions of this Code. **(IPMC 108.1)**

[This Section provides a brief description of conditions where the Code Official is given the authority to condemn an existing structure or equipment. Where a structure or equipment is "unlawful", as described in the text of this Section, that structure or equipment does not comply with the requirements of the Code. The deficiencies are such that an unsafe condition or a condition that is unfit for human occupancy exists.]

(A) **Unsafe Structures.** An unsafe structure is one that is found to be dangerous to the life, health, property or safety of the public or the *occupants* of the structure by not providing minimum safeguards to protect or warn *occupants* in the event of fire, or because such structure contains unsafe *equipment* or is so damaged, decayed, dilapidated, structurally unsafe or of such faulty construction or unstable foundation, that partial or complete collapse is possible. **(IPMC 108.1.1)**

(B) **Unsafe Equipment.** Unsafe *equipment* includes any boiler, heating *equipment*, elevator, moving stairway, electrical wiring or device, flammable liquid containers or other *equipment* on the *premises* or within the structure which is in such disrepair or condition that such *equipment* is a hazard to life, health, property or safety of the public or *occupants* of the *premises* or structure. **(IPMC 108.1.2)**

(C) **Structure Unfit for Human Occupancy.** A structure is unfit for human *occupancy* whenever the *Code Official* finds that such structure is unsafe, unlawful or, because of the degree to which the structure is in disrepair or lacks maintenance, is unsanitary, vermin or rat infested, contains filth and contamination, or lacks *ventilation*, illumination, sanitary or heating facilities or other essential *equipment* required by this Code, or because the location of the structure constitutes a hazard to the *occupants* of the structure or to the public. **(IPMC 108.1.3)**

(D) **Unlawful Structure.** An unlawful structure is one found in whole or in part to be occupied by more *persons* than permitted under this Code, or was erected, altered or occupied contrary to law. **(IPMC 108.1.4)**

[An unlawful structure is one that has serious deficiencies such that an unsafe condition or a condition that is unfit for human occupancy exists. An unlawful structure does not mean one where there are criminal activities.]

(E) **Dangerous Structure or Premises.** For the purpose of this Code, any structure or *premises* that has any or all of the conditions or defects described below shall be considered dangerous. **(IPMC 108.1.5)**

- (1) Any door, aisle, passageway, stairway, exit or other means of egress that does not conform to any *approved* building or fire code of the jurisdiction as related to the requirements for existing buildings.
- (2) The walking surface of any aisle, passageway, stairway, exit or other means of egress is so warped, worn loose, torn or otherwise unsafe as to not provide safe and adequate means of egress.
- (3) Any portion of a building, structure or appurtenance that has been damaged by fire, earthquake, wind, flood, *deterioration*, *neglect*, abandonment, vandalism or by any other cause to such an extent that it is likely to partially or completely collapse, or to become *detached* or dislodged.
- (4) Any portion of a building, or any member, appurtenance or ornamentation on the exterior thereof that is not of sufficient strength or stability, or is not so *anchored*, attached or fastened in place so as to be capable of resisting natural or artificial loads of one and one-half the original designed value.
- (5) The building or structure, or part of the building or structure, because of dilapidation, *deterioration*, decay, faulty construction, the removal or movement of some portion of the ground necessary for the support, or for any other reason, is likely to partially or completely collapse, or some portion of the foundation or underpinning of the building or structure is likely to fail or give way.
- (6) The building or structure, or any portion thereof, is clearly unsafe for its use and *occupancy*.
- (7) The building or structure is *neglected*, damaged, dilapidated, unsecured or abandoned so as to become an attractive nuisance to children who might play in the building or structure to their danger, becomes a harbor for vagrants, criminals or immoral *persons*, or enables *persons* to resort to the building or structure for committing a nuisance or an unlawful act.
- (8) Any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by the *approved* building or fire code of the City, or of any law or ordinance to such an extent as to present either a substantial risk of fire, building collapse or any other threat to life and safety.
- (9) A building or structure, used or intended to be used for dwelling purposes, because of inadequate maintenance, dilapidation, decay, damage, faulty construction or arrangement, inadequate light, *ventilation*, mechanical or plumbing system, or otherwise, is determined by the *Code Official* to be unsanitary, unfit for human habitation or in such a condition that is likely to cause sickness or disease.
- (10) Any building or structure, because of a lack of sufficient or proper fire-resistance-rated construction, fire protection systems, electrical system, fuel connections, mechanical system, plumbing system or other cause, is determined by the *Code Official* to be a threat to life or health.
- (11) Any portion of a building remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned so as to constitute such building or portion thereof as an attractive nuisance or hazard to the public.

29-1-45 CLOSING OF VACANT STRUCTURES. If the structure is vacant and unfit for human habitation and *occupancy*, and is not in danger of structural collapse, the *Code Official* is authorized to post a placard of condemnation on the *premises* and order the structure closed up so as not to be an attractive nuisance. Upon failure of the *owner* to close up the *premises* within the time specified in the order, the *Code Official* shall cause the *premises* to be closed and secured through any available public

agency or by contract or arrangement by private *persons* and the cost thereof shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate and may be collected by any other legal resource. **(IPMC 108.2)**

(A) **Authority to Disconnect Service Utilities.** The *Code Official* shall have the authority to authorize disconnection of utility service to the building, structure or system regulated by this Code and the referenced codes and standards set forth in **Section 29-1-11** in case of emergency where necessary to eliminate an immediate hazard to life or property or when such utility connection has been made without approval. The *Code Official* shall notify the serving utility and, whenever possible, the *owner* and *occupant* of the building, structure or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnection the *owner* or *occupant* of the building structure or service system shall be notified in writing as soon as practical thereafter. **(IPMC 108.2.1)**

29-1-46 **NOTICE.** Whenever the *Code Official* has *condemned* a structure or *equipment* under the provisions of this Section, notice shall be posted in a conspicuous place in or about the structure affected by such notice and service on the *owner* or the *person* or *persons* responsible for the structure or *equipment* in accordance with **Section 29-1-40**. If the notice pertains to *equipment*, it shall also be placed on the *condemned equipment*. The notice shall be in the form prescribed in **Section 29-1-39**. **(IPMC 108.3)**

29-1-47 **PLACARDING.** Upon failure of the *owner* or *person* responsible to comply with the notice provisions within the time given, the *Code Official* shall post on the *premises* or on defective *equipment*, a placard bearing the word "*Condemned*" and a statement of the penalties provided for occupying the *premises*, operating the *equipment* or removing the placard. **(IPMC 108.4)**

(A) **Placard Removal.** The *Code Official* shall remove the condemnation placard whenever the defect or defects upon which the condemnation and placarding action were based have been eliminated. Any *person* who defaces or removes a condemnation placard without the approval of the *Code Official* shall be subject to the penalties provided by this Code. **(IPMC 108.4.1)**

[Only the Code Official is authorized to remove a condemnation placard. The Code Official is to remove the placard only when the defect or defects have been corrected as required by the Code. Any other person who removes or defaces a placard is in violation of the Code and subject to its penalties.]

29-1-48 **PROHIBITED OCCUPANCY.** Any occupied structure *condemned* and placarded by the *Code Official* shall be vacated as ordered by the *Code Official*. Any *person* who shall occupy a placarded *premises* or shall operate placarded *equipment*, and any *owner* or any *person* responsible for the *premises* who shall let anyone occupy a placarded *premises* or operate placarded *equipment* shall be liable for the penalties provided by this Code. **(IPMC 108.5)**

29-1-49 **ABATEMENT METHODS.** The *owner*, *operator* or *occupant* of a building, *premises* or *equipment* deemed unsafe by the *Code Official* shall abate or cause to be abated or corrected such unsafe conditions either by repair, rehabilitation, demolition or other *approved* corrective action. **(IPMC 108.6)**

29-1-50 **RECORD.** The *Code Official* shall cause a report to be filed on an unsafe condition. The report shall state the *occupancy* of the structure and the nature of the unsafe condition. **(IPMC 108.7)**

DIVISION IX - EMERGENCY MEASURES

29-1-51 IMMINENT DANGER. When, in the opinion of the *Code Official*, there is *imminent danger* of failure or collapse of a building or structure which endangers life, or when any structure or part of a structure has fallen and life is endangered by the occupation of the structure, or when there is actual or potential danger to the building, *occupants* or those in the proximity of any structure because of explosives, explosive fumes or vapors or the presence of toxic fumes, gases or materials, or operation of defective or dangerous *equipment*, the *Code Official* is hereby authorized and empowered to order and require the *occupants* to vacate the *premises* forthwith. The *Code Official* shall cause to be posted at each entrance to such structure a notice reading as follows: "**This Structure is Unsafe and its *Occupancy* has been Prohibited by the Code Official.**" It shall be unlawful for any *person* to enter such structure except for the purpose of securing the structure, making the required repairs, removing the hazardous condition or of demolishing the same. (IPMC 109.1)

29-1-52 TEMPORARY SAFEGUARDS. Notwithstanding other provisions of this Code, whenever, in the opinion of the *Code Official*, there is *imminent danger* due to an unsafe condition, the *Code Official* shall order the necessary work to be done, including the boarding-up of openings, to render such structure temporarily safe whether or not the legal procedure herein described has been instituted; and shall cause such other action to be taken as the *Code Official* deems necessary to meet such emergency. (IPMC 109.2)

29-1-53 CLOSING STREETS. When necessary for public safety, the *Code Official* shall temporarily close *structures* and close or order the authority having jurisdiction to close, sidewalks, streets, *public ways* and places adjacent to unsafe *structures*, and prohibit the same from being utilized. (IPMC 109.3)

29-1-54 EMERGENCY REPAIRS. For the purposes of this Section, the *Code Official* shall employ the necessary labor and materials to perform the required work as expeditiously as possible. (IPMC 109.4)

29-1-55 COSTS OF EMERGENCY REPAIRS. Costs incurred in the performance of emergency work shall be paid by the jurisdiction. The legal counsel of the jurisdiction shall institute appropriate action against the *owner* of the *premises* where the unsafe structure is or was located for the recovery of such costs. (IPMC 109.5)

29-1-56 HEARING. Any *person* ordered to take emergency measures shall comply with such order forthwith. Any affected *person* shall thereafter, upon petition directed to the appeals boards, be afforded a hearing as described in this Code. (IPMC 109.6)

DIVISION X - DEMOLITION

29-1-57 GENERAL. The *Code Official* shall order the *owner* of any *premises* upon which is located any structure, which in the *Code Official's* judgement after review is deteriorated or dilapidated or has become so out of repair as to be dangerous, unsafe, unsanitary or otherwise unfit for human habitation or *occupancy*, and such that it is unreasonable to repair the structure, to demolish and remove such structure; or if such structure is capable of being made safe by repairs, to repair and make safe and sanitary, or to board up and hold for future repair or to demolish and remove at the *owner's* option; or

where there has been a cessation of normal construction of any structure for a period of more than **two (2) years**, the *Code Official* shall order the *owner* to demolish and remove such structure, or board up until future repair. Boarding the building up for future repair shall not extend beyond **one (1) year**, unless *approved* by the building official. (IPMC 110.1)

29-1-58 NOTICES AND ORDERS. All notices and orders shall comply with **Division VII.**
(IPMC 110.2)

[Before the Code Official can pursue action to demolish a building in accordance with Section 29-1-67 or 29-1-69, it is imperative that all owners and any other persons with a recorded encumbrance on the property be given proper notice of the demolition plans (See Division VII for notice and order requirements).]

If the Mayor finds that the demands placed upon these funds in coping with a particular disaster are unreasonably great, and the Governor has proclaimed the municipality a disaster, he may make application for funds from the state disaster relief fund. If monies available from the fund are insufficient, and if the Mayor finds that other sources of money to cope with the disaster are not available or are insufficient, he shall issue a call for an immediate session of the City Council for the purpose of enacting ordinances as the City Council may deem necessary to transfer and expend monies appropriated for other purposes, or borrow monies from the United States Government or other public or private sources. (C) During a local disaster emergency, the Mayor may suspend the provisions of any municipal ordinance prescribing procedures for the conduct of municipal business, or the orders, rules and regulations of any municipal agency, if strict compliance with the provisions of any ordinance, rule or regulation would in any way prevent, hinder or delay necessary action in coping with the emergency, as authorized by "**The Illinois Emergency Management Agency Act**", provided that, if the City Council meets at such time, he shall act subject to the directions and restrictions imposed by that body.

30-4-8 TESTING OF DISASTER WARNING DEVICES. The testing of disaster devices including outdoor warning sirens shall be held only on the first Tuesday of each month at **10 o'clock** in the morning.

Such arrangements shall be consistent with the state and local emergency management operations plan and program, and in the event of such disaster as described in **Section 30-4-3** of this Code, it shall be the duty of each local and department for emergency management operations to render assistance in accordance with the provisions of such mutual aid arrangements.

The local Emergency Management Agency shall ascertain what means exist for rapid and efficient communications in times of disaster emergencies. The agency shall consider the desirability of supplementing these communications resources or of integrating them into a comprehensive system or network. In studying the character and feasibility of any system or its several parts, the agency shall evaluate the possibility of multipurpose use thereof for general municipal and local governmental purposes. The agency shall make recommendations to the Mayor as appropriate.

30-4-11 IMMUNITY.

Neither the municipality, the agency or any member thereof or any person acting at their direction, engaged in any emergency management operations or disaster activities, while complying with or attempting to comply with this Code or any rule or regulations promulgated pursuant to this Code is liable for the death of or any injury to persons, or damage to property, as a result of such activity. This section does not, however, affect the right of any person to receive benefits to which he would otherwise be entitled under this act under the Worker's Compensation Act or the Worker's Occupational Diseases Act, or under any pension law, and this Section does not affect the right of any such person to receive any benefits or compensation under any Act of Congress.

30-4-12 PROFESSIONS, TRADES AND OCCUPATIONS.

If such disaster as is described in **Section 30-4-3** occurs in this municipality and the services of persons who are competent to practice any profession, trade or occupation are required in this municipality to cope with the disaster situation and it appears that the number of persons licensed or registered in this municipality to practice such profession, trade or occupation may be insufficient for such purpose, then any persons who are licensed elsewhere to practice any such profession, trade or occupation may, if a member of another political subdivision rendering aid in this municipality pursuant to the order of the head of that political subdivision and upon the request of the municipality, or if otherwise requested so to do by the Mayor or the coordinator of this municipality, during the time the disaster condition continues, practice such profession, trade or occupation in this municipality without being licensed or registered in this municipality.

30-4-13 APPROPRIATIONS AND LEVY OF TAX.

The City Council may make appropriations for emergency management operations in the manner provided by law for making appropriations for the ordinary expenses of such political subdivision. The City Council may also levy for emergency management operations a tax not to exceed **.05%** of the full, fair cash value as equalized or assessed by the Department of Revenue on all taxable property in the municipality for the current year. However, the amount collectible under such a levy shall in no event exceed **Twenty-Five Cents (\$0.25)** per capita. The annual tax shall be in addition to and in excess of the amount authorized to be levied for general corporate purposes.

30-4-14 AUTHORITY TO ACCEPT SERVICES, GIFTS, GRANTS OR LOANS.

Whenever the federal or state governments, or any agency or officer thereof, or whenever any person, firm or corporation shall offer to the municipality services, equipment, supplies, materials or funds by way of gift or grant for purposes of emergency management, the municipality, acting through the Mayor or through its City Council, may accept such offer and upon such acceptance the Mayor or the City Council may authorize any officer of the municipality to receive such services, equipment, supplies, materials or funds on behalf of the municipality.

30-4-15 ORDERS, RULES AND REGULATIONS.

(A) The Mayor shall file a copy of every rule, regulation or order and any amendment thereof made by him pursuant to the provisions of this Code in the office of the Municipal Clerk. No such rule, regulation or order, or any amendment thereof, shall be effective until **ten (10) days** after such filing; provided, however, that upon the declaration of such a disaster emergency by the Mayor as is described in **Section 30-4-7**, the provision relating to the effective date of any rule, regulation order or amendment issued pursuant to this Code and during the state of such disaster emergency, is abrogated, and said rule, regulation, order or amendment shall become effective immediately upon being filed with the Municipal Clerk, accompanied by a certificate stating the reason for the emergency.

(B) The Emergency Management Agency established pursuant to this Code, and the coordinator thereof, shall execute and enforce such orders, rules and regulations as may be made by the Governor under authority of the Illinois Emergency Management Agency Act. The local Emergency Management Agency shall have available for inspection at its office all orders, rules and regulations made by the Governor, or under this authority. The State Emergency Management Agency shall furnish such orders, rules and regulations to the agency.

30-4-16 UTILIZATION OF EXISTING AGENCY, FACILITIES AND PERSONNEL.

In carrying out the provisions of this Code, the Mayor and the coordinator of the emergency management agency are directed to utilize the services, equipment, supplies and facilities of existing departments, offices and agencies of the municipality to the maximum extent practicable, and the officers and personnel of all such departments, offices and agencies are directed, upon request, to cooperate with and extend such services and facilities to the coordinator and the emergency management agency.

30-4-17 SEVERABILITY. If any provision of this Code or the application thereof to any person or circumstances be held invalid, such invalidity shall not affect such other provisions or applications of the ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this Code are hereby declared to be severable.

MUTUAL AID BOX ALARM SYSTEM AGREEMENT

This Agreement by and among the units of federal, state and local government, and other non-governmental emergency response organizations, subscribed hereto, hereafter referred to as "Units", or "Parties" is made and entered into the date set forth next to the signatures of those authorized to execute this Agreement on behalf of the respective parties, each Party having approved this Agreement and adopted same pursuant to their state's constitutional and statutory authority and in a manner provided by law. In order to provide efficient and effective management of this Agreement, groups of the parties may be established as "Chapters" on a state-by-state basis and Chapters may include parties from adjoining states.

WHEREAS, the Mutual Aid Box Alarm System (MABAS) was formally organized beginning in 1968 in the northwest and western suburbs of Chicago, Illinois to coordinate and automate fire department mutual aid based roughly on the Chicago Fire Department's box alarm system, whereby predetermined resources of personnel and fire equipment were assigned to respond to a specific incident or area; and

WHEREAS, MABAS has grown into a multi-state organization through prearranged mutual aid and dispatch agreements that coordinate responses to emergencies and disasters including fires, emergency medical calls, hazardous material incidents, water related rescues, and technical rescues, and MABAS is designed to facilitate all levels of mutual aid from day-to-day automatic aid responses to major incidents and disasters requiring significant deployment of resources; and

WHEREAS, since the last revision of the master MABAS intergovernmental agreement circa 1988, MABAS has grown exponentially to its current composition of almost 1,200 Illinois Units and 2,200 total Units in Illinois and several nearby States with Units ranging from all-volunteer fire departments to major cities like Chicago, Milwaukee, and St. Louis; and

WHEREAS, the Constitution of the State of Illinois, 1970, Article VII, Section 10, authorizes units of local government to contract or otherwise associate among themselves, with the State, with other States and their units of local government, and with the United States to obtain and share services and to exercise, combine, or transfer any power or function in any manner not prohibited by law or ordinance; and to further contract or otherwise associate with individuals, associations, and corporations in any manner not prohibited by law or ordinance; and to further contract or otherwise associate with individuals, associations, and corporations in any manner not prohibited by law; and

WHEREAS, the Indiana Code at Section 36-1-7 (IC 36-1-7) authorizes an Indiana political subdivision to enter into a mutual aid agreement with political subdivisions of states other than Indiana, provided the agreement contains the necessary terms and conditions set out in IC 36-7-3, is approved by the Indiana Attorney General as required under IC 36-1-7-4, is recorded with the county recorder and filed with the Indiana State Board of Accounts as required under IC 36-1-7-6; and

WHEREAS, for the purposes of Chapter 3 of Indiana Emergency Management and Disaster law, the term "political subdivision" means city, town, township, county, school corporation, library district, local housing authority, public transportation corporation, local building authority, local hospital or corporation, local airport authority or other separate local governmental entity that may sue and be sued. WHEREAS, Chapter 28E of the State Code of Iowa provides that any powers, privileges or authority exercised or capable of exercise by a public agency of the State of Iowa may be exercised and enjoyed jointly with any public agency of any other state or of the United States to the extent that laws of such other state or of the United States permit such joint exercise or enjoyment (See 28E.3); and

WHEREAS, the State Code of Iowa, in Chapter 28E, authorizes any one or more public agencies to contract with any one or more other public agencies to perform any governmental service, activity, or undertaking which any of the public agencies entering into the contract is authorized by law to perform, provided that such contract shall be authorized by the governing body of each party to the contract (See 28E.12); and

The term also includes any instrumentality of a governmental unit if that unit has independent policy-making and appropriating authority; and

WHEREAS, Article VI, Section 16 of the Constitution of Missouri and Sections 70.210, 70.320, and 70.220.1, of the Revised Statutes of Missouri, provide that any municipality or political subdivision of the state of Missouri may contract and cooperate with other municipalities or political subdivisions thereof, or with other states or their municipalities or political subdivisions, or with the United States, to provide a common service as provided by law so long as the subject and purpose of such are within the scope of the powers of such municipality or political subdivision; and

WHEREAS, similar provisions providing for intergovernmental cooperation exist in the other states in which any Party to this Agreement resides, and which provide legal authority for each respective Party to enter into the Agreement; and

WHEREAS, the Parties have determined that it is in their best interests to enter into this Agreement to secure to each the benefits of mutual aid in fire protection, suppression, provision of rescue and emergency medical assistance, hazardous materials control, technical rescue, training and any other emergency support for the protection of life and property in the event of an Emergency, Disaster, or other Serious Threat to Public Health and Safety, and to engage in Training and other preparedness activities in furtherance of the foregoing mutual aid activities; and

NOW, THEREFORE, in consideration of the mutual covenants and understandings set forth in this Agreement, and pursuant to the authority bestowed upon the Parties set forth above, it is agreed by, among and between the Parties as follows:

SECTION ONE - PURPOSE

It is recognized and acknowledged that leveraging collective resources from other Units to provide effective, efficient response to Emergencies, Disasters, or Serious Threats to Public Safety is desired. Further, it is acknowledged that the closest available Unit(s) that can render aid may be outside of a requesting Unit’s or Chapter’s jurisdiction. Accordingly, it is the express intent of the Parties that this agreement be in a standardized form which can be adopted by Units in different States, notwithstanding this Agreement may not specifically cite the applicable current legal authority for a particular State and its member Units to join MABAS, the lack of such citation herein shall not be construed in any manner as an impediment to or prohibition of Units within other States from joining MABAS, it being the express intent of the parties that each Unit desiring to join MABAS may

become additional Parties hereto by adopting this Intergovernmental Agreement without modification. In this fashion by way of this Agreement, the Parties will have created a mutual aid agreement that incorporates emergency response disciplines from federal, state and local governmental units, as well as non-governmental organizations and corporations that provide emergency response functions and services that support the mission of MABAS and its member Units.

The Parties hereby authorize and direct their respective Chief Officer, or designee, to take reasonably necessary and proper action to render and request Mutual Aid to and from the other Parties to the Agreement, and to participate in Training activities, all in furtherance of effective and efficient provision of Mutual Aid pursuant to this Agreement.

In accordance with a Party's policies and within the authority provided to its Chief Officer, upon an Aiding Unit's receipt of a request from a Requesting Unit for Emergency Services, the Chief Officer, or the Chief Officer's designee such as the ranking officer on duty, may commit the requested Mutual Aid in the form of equipment, Emergency Responders, and Emergency Services to the assistance of the Requesting Unit. All aid rendered shall be to the extent of available personnel and equipment taking into consideration the resources required for adequate protection of the territorial limits of the Aiding Unit. The decision of the Chief Officer, or designee, of the Aiding Unit as to the personnel and equipment available to render aid, if any, shall be final.

SECTION FOUR - JURISDICTION OVER PERSONNEL AND EQUIPMENT

Emergency Responders dispatched to aid a Requesting Unit pursuant to this Agreement shall, at all times, remain employees or agents of the Aiding Unit, and are entitled to receive any benefits and compensation to which they may otherwise be entitled under the laws, regulations, or ordinances of the United States of America, their respective States, and their respective political subdivisions. This includes, but is not limited to, benefits for pension, relief, disability, death, and workers' compensation. If an Emergency Responder is injured or killed while rendering assistance under this Agreement, benefits shall be afforded in the same manner and on the same terms as if the injury or death were sustained while the Emergency Responder was rendering assistance for or within the Aiding Unit's own jurisdiction.

Emergency Responders of the Aiding Unit will come under the operational control of the Requesting Unit's Incident Commander, or other appropriate authority, until released. The Aiding Unit shall, at all times, have the right to withdraw any and all aid upon the order of its Chief Officer, or designee. The Aiding Unit shall notify the Incident Commander of the extent of any withdrawal and coordinate the withdrawal to minimize jeopardizing the safety of the operation or other Emergency Responders.

If for any reason an Aiding Unit determines that it cannot respond to a Requesting Unit, the Aiding Unit shall promptly notify the Requesting Unit of the Aiding Unit's inability to respond; however, failure to promptly notify the Requesting Party of such inability to respond shall not be deemed to be noncompliance with the terms of this Section and no liability may be assigned. No liability of any kind shall be attributed to or assumed by a Party, for failure or refusal to render aid, or for withdrawal of aid.

SECTION FIVE - COMPENSATION FOR AID

Nothing herein shall operate to bar any recovery of funds from any third party, state or federal agency under any existing statutes, or other authority. Each Aiding Unit is responsible for the compensation of its Emergency Responders providing Mutual Aid and for any additional costs incurred to ensure its jurisdiction has adequate resources during the rendering of Mutual Aid.

Day-to-day Mutual Aid should remain free of charge and the administrative requirements of reimbursement make it infeasible to charge for day-to-day Mutual Aid. However, the following exceptions may be applied:

1. Third Party Reimbursement – Expenses for Emergency Services recoverable from third parties shall be proportionally distributed to all participating Units by the Unit recovering such payment from a third party. The Unit responsible for seeking payment from a third party shall provide timely notice to Aiding Units of a date by which submission of a request for reimbursement must be received. Reimbursement shall be based on the accurate and timely submission of allowable costs and documentation attributable to the incident by each Aiding Unit. These costs include manpower, use of equipment and materials provided, and damage or loss of equipment. The Unit recovering payment from a third party shall notify Aiding Units that such payment has been made and will reimburse the other Units. If the third-party payment is less than the full amount of all Units' cost submittals, the funds shall be proportionally distributed based on each Unit's submitted costs compared to the total of all costs submitted. Intrastate Emergency Management Agency Tasking – Expenses recoverable related to a response to an emergency or disaster at the request of a state's emergency management agency or authority. Reimbursement shall be based on the accurate and timely submission of allowable costs and documentation attributable to the response by each Aiding Unit. These costs include manpower, use of equipment and materials provided, and damage or loss of equipment. The Unit recovering payment from a state shall notify Aiding Units that such payment has been made and will reimburse the other Units. If the payment is less than the full amount of all Units' cost submittals, the funds shall be proportionally distributed based on each Unit's submitted costs compared to the total of all costs submitted.

2. Interstate Emergency Management Assistance Compact ("EMAC") Response – Expenses recoverable related to a response to an emergency or disaster at the request of a state's emergency management agency or authority to another state. Reimbursement shall be based on the accurate and timely submission of allowable costs and documentation attributable to the response by each Aiding Unit. These costs include manpower, use of equipment and materials provided, and damage or loss of equipment. If these payments are not made directly to the participating Units, the Unit recovering payment from a state shall notify Aiding Units that such payment has been made and will reimburse the other Units. If the payment is less than the full amount of all Units' cost submittals, the funds shall be proportionally distributed based on each Unit's submittal costs compared to the total of all costs submitted.

3. Emergency Medical Services Billing – Member Units providing Mutual Aid under this Agreement may bill patients for emergency medical services in accordance with applicable federal, state, and local ambulance billing regulations.

SECTION SIX - INSURANCE

Each party shall procure and maintain, at its sole and exclusive expense, insurance coverage, including comprehensive liability, personal injury, property damage, worker's compensation, auto, and, if applicable, watercraft, aircraft, drones, or emergency medical service professional liability, with minimum policy limits of:

Auto liability:	\$1,000,000 combined single limit
General Liability:	\$1,000,000 per occurrence
Emergency Medical Service Professional Liability:	\$1,000,000 per occurrence
Workers' Compensation:	Statutory limits

The obligations of this Section may be satisfied by a Party's membership in a self-insurance pool, a self-insurance plan, or arrangement with an insurance provider approved by the state of jurisdiction. To the extent permitted by governing law of the state in which a Party resides, each Party agrees to waive subrogation rights it may acquire, and to require any insurer to waive subrogation rights they may acquire, by virtue of the payment of claims, suits, or other loss arising out of this Agreement, and shall, as to any insurer, obtain any endorsement necessary to effectuate such waiver of subrogation.

SECTION SEVEN - LIABILITY

Each party will be solely responsible for the acts of its own governing body, officers, employees, agents, and subcontractors, expressly including, but not limited to, all of its Emergency Responders, the costs associated with those acts, and the defense of those acts. No Party shall be responsible to another Party for any liability or costs arising from the act of an employee or agent of another Party. Each party hereto shall hold other Parties hereto harmless for any liability or costs arising from the act of an employee or agent of another party. The Provisions of this Section shall survive the termination of this Agreement by any Party.

Any Party responding under this Agreement to another state shall be considered agents of the Requesting Unit in the other state for tort liability and immunity purposes related to third-party claims to the extent permissible under the laws of both states. Nothing in this Section shall be deemed a waiver by any party of its right to dispute any claim or assert statutory and common law immunities as to third parties.

SECTION EIGHT - CHAPTERS

For operational efficiency and representation of Units and Divisions, Chapters are hereby created on a state-by-state basis. Chapters shall elect a President to the Council of Chapter Presidents. When a Division forms within a state that does not have a Chapter, that Division will be affiliated with another state Chapter. When three Divisions within a state become organized, a Chapter for that state shall automatically be created, and Divisions within that state shall be transitioned to the new Chapter, unless prohibited by state statute(s).

Chapters shall have their own governing Board selected by the Units, Divisions, or Regions, and shall determine the number and role of Chapter officers. Chapters shall develop bylaws that provide for their governance and operations within the framework of this Agreement and the direction of the Council of Chapter Presidents. Chapters shall maintain authority to establish Divisions or Regions, to the assignment of Units to Divisions or Regions, and to establish emergency response procedures, protocols, resources, and training requirements. Chapters and their Divisions may fix and assess dues, secure appropriate insurance, own and maintain facilities, vehicles, apparatus and equipment, employ and provide benefits for personnel, operate specialized response teams, participate in EMAC activities, enter into agreements with other governmental and non-governmental entities, and administer the affairs of their Chapter, to facilitate the purposes of MABAS.

SECTION NINE – COUNCIL OF CHAPTER PRESIDENTS

A Council of Chapter Presidents is hereby created that consists of the elected President of each state Chapter. The Council of Chapter Presidents shall facilitate coordination among state Chapters, adopt bylaws for the operation of the Council of Presidents, ensure compliance with this Agreement, recommend common operating procedures and practices, recommend changes to this Agreement, and promote unity to facilitate the purposes of MABAS. MABAS and the Council of Chapter Presidents shall be hosted by the founding Chapter of MABAS, Illinois, and shall be based therein. As the Council is hosted in Illinois, all issues and questions concerning the construction, validity, enforcement and interpretation of this Agreement shall be governed by, and construed in accordance with, the laws of the State of Illinois.

SECTION TEN - DIVISIONS

For operational efficiency and representation of Member Units, Divisions are hereby authorized on a Chapter-by-Chapter basis in accordance with procedures established by their Chapter. When a Division forms within a state that does not have a Chapter, that Division will be affiliated with another state Chapter in accordance with procedures established by that other state's Chapter.

Divisions shall have their own governing Board, shall determine the number and role of Division officers, and shall develop bylaws that govern their operations within the framework of this Agreement and direction of the Chapter and Council of

Chapter Presidents. Divisions shall maintain authority to establish emergency response procedures, protocols, resources, and training requirements within the framework of this Agreement and the direction of the Chapter and Council of Chapter Presidents. Divisions may fix and assess dues, secure appropriate insurance, own and maintain facilities, vehicles, apparatus and equipment, employ and provide benefits for personnel, operate specialized response teams, enter into agreements with other governmental and non-governmental entities, and administer the affairs of their Division, to facilitate the purposes of MABAS.

SECTION ELEVEN - TERM

This Agreement shall be in effect for a term of one year from the date of signature hereof and shall automatically renew for successive one-year terms unless terminated in accordance with this Section. Any party may terminate their participation within this Agreement, at any time, for any reason, or for no reason at all, upon ninety (90) days written notice to the applicable state Chapter. A Unit that terminates this Agreement must return any asset that is owned by, or provided from, a Chapter or its Divisions prior to the termination of the Agreement, unless agreed to otherwise in writing by the Chapter or Division. Costs associated with the recovery or replacement of said asset if it is not voluntarily returned after written notice has been given shall be borne by the departing Unit, including reasonable legal fees.

SECTION TWELVE – MISCELLANEOUS

A. **Entire Agreement.** This Agreement sets forth the entire agreement between the Parties. The language of this Agreement shall be construed as a whole according to its fair meaning and not construed strictly for or against any Party. By signing this agreement, each of the Parties affirm that they have taken all actions and secured all local approvals necessary to authorize and sign this Agreement.

B. **Binding Effect.** This Agreement shall be binding upon and inure to the benefit of any successor entity which may assume the obligations of any Party hereto.

C. **Severability of Provisions.** If a Court of competent jurisdiction finds any provision of this Agreement invalid or unenforceable, then that provision shall be deemed severed from this Agreement. The remainder of this Agreement shall remain in full force.

F. **Recitals.** The Recitals shall be considered an integral part of this Agreement.

J. **No Implied Waiver.** Absent a written waiver, no fact, failure, or delay by a Party to pursue or enforce any rights or remedies under this Agreement shall constitute a waiver of those rights with regard to any existing or subsequent breach of this Agreement. No waiver of any term, condition, or provision of this Agreement, whether by conduct or otherwise, in one or more instances shall be deemed or construed as a continuing waiver of any term, condition, or provision of this Agreement. No waiver by either Party shall subsequently affect its right to require strict performance of this Agreement.

K. **Notices.** Notices given under this Agreement shall be in writing and shall be delivered by one or more of the following processes: personally delivered, sent by express delivery service, certified mail, or first-class U.S. mail postage prepaid to the head of the governing body of the participating agency.

SECTION THIRTEEN - AMENDMENT

An amendment may be proposed by any Party, Division or Chapter, and be presented to the Council of Chapter Presidents for review, comment, and modification. The Council of Chapter Presidents shall, after consideration, recommend final amendatory language to all Parties for adoption and execution. The Agreement may be amended only upon written agreement and approval of the governing bodies of two-thirds (2/3) of the Parties. ARTICLE IV - CONSTRUCTION OF UTILITY FACILITIES IN THE RIGHTS-OF-WAY

33-4-1

PURPOSE AND SCOPE.

(A) **Purpose.** The purpose of this Article is to establish policies and procedures for constructing facilities on rights-of-way within the City's jurisdiction, which will provide public benefit consistent with the preservation of the integrity, safe usage, and visual qualities of the City rights-of-way and the City as a whole.

(B) **Intent.** In enacting this Article, the City intends to exercise its authority over the rights-of-way in the City and, in particular, the use of the public ways and property by utilities, by establishing uniform standards to address issues presented by utility facilities, including without limitation:

- (1) prevent interference with the use of streets, sidewalks, alleys, parkways and other public ways and places;
- (2) prevent the creation of visual and physical obstructions and other conditions that are hazardous to vehicular and pedestrian traffic;
- (3) prevent interference with the facilities and operations of the City's utilities and of other utilities lawfully located in rights-of-way or public property;
- (4) protect against environmental damage, including damage to trees, from the installation of utility facilities;
- (5) protect against increased stormwater run-off due to structures and materials that increase impermeable surfaces;
- (6) preserve the character of the neighborhoods in which facilities are installed;
- (7) preserve open space, particularly the tree-lined parkways that characterize the City's residential neighborhoods;
- (8) prevent visual blight from the proliferation of facilities in the rights-of-way; and
- (9) assure the continued safe use and enjoyment of private properties adjacent to utility facilities locations.

(C) **Facilities Subject to this Article.** This Article applies to all facilities on, over, above, along, upon, under, across, or within the rights-of-way within the jurisdiction of the City. A facility lawfully established prior to the effective date of this Article may continue to be maintained, repaired and operated by the utility as presently constructed and located, except as may be otherwise provided in any applicable franchise, license or similar agreement.

(D) **Franchises, Licenses, or Similar Agreements.** The City, in its discretion and as limited by law, may require utilities to enter into a franchise, license or similar agreement for the privilege of locating their facilities on, over, above, along, upon, under, across, or within the City rights-of-way. Utilities that are not required by law to enter into such an agreement may request that the City enter into such an agreement. In such an agreement, the City may provide for terms and conditions inconsistent with this Article.

(E) **Effect of Franchises, Licenses, or Similar Agreements.**

- (1) **Utilities Other Than Telecommunications Providers.** In the event that a utility other than a telecommunications provider has a franchise, license or similar agreement with the City, such franchise, license or similar agreement shall govern and control during the term of such agreement and any lawful renewal or extension thereof.
- (2) **Telecommunications Providers.** In the event of any conflict with, or inconsistency between, the provisions of this Article and the provisions of any franchise, license or similar agreement between the City and any telecommunications provider, the provisions of such franchise, license or similar agreement shall govern and control during the term of such agreement and any lawful renewal or extension thereof.

(F) **Conflicts With Other Articles.** This Article supersedes all Articles or parts of Articles adopted prior hereto that are in conflict herewith, to the extent of such conflict.

(G) **Conflicts With State and Federal Laws.** In the event that applicable federal or State laws or regulations conflict with the requirements of this Article, the utility shall comply with the requirements of this Article to the maximum extent possible without violating federal or State laws or regulations.

(H) **Sound Engineering Judgment.** The City shall use sound engineering judgment when administering this Article and may vary the standards, conditions, and requirements expressed in this Article when the City so determines. Nothing herein shall be construed to limit the ability of the City to regulate its rights-of-way for the protection of the public health, safety and welfare.

No permit shall be required for installation and maintenance of service connections to customers' premises where there will be no disruption of the right-of-way.

(B) **Permit Application.** All applications for permits pursuant to this Article shall be filed on a form provided by the City and shall be filed in such number of duplicate copies as the City may designate. The applicant may designate those portions of its application materials that it reasonably believes contain proprietary or confidential information as "proprietary" or "confidential" by clearly marking each page of such materials accordingly.

Additional City Review of Applications of Telecommunications

- (1) Pursuant to Section 4 of the Telephone Company Act, 220 ILCS 65/4, a telecommunications retailer shall notify the City that it intends to commence work governed by this Article for facilities for the provision of telecommunications services. Such notice shall consist of plans, specifications, and other documentation sufficient to demonstrate the purpose and intent of the facilities, and shall be provided by the telecommunications retailer to the City not less than **ten (10) days** prior to the commencement of work requiring no excavation and not less than **thirty (30) days** prior to the commencement of work requiring excavation. The City Engineer or Director of Public Works shall specify the portion of the right-of-way upon which the facility may be placed, used or constructed.
- (2) In the event that the City Engineer or Director of Public Works fails to provide such specification of location to the telecommunications retailer within either (a) **ten (10) days** after service of notice to the City by the telecommunications retailer in the case of work not involving excavation for new construction or (b) **twenty-five (25) days** after service of notice by the telecommunications retailer in the case of work involving excavation for new construction, the telecommunications retailer may commence work without obtaining a permit under this Article.
- (3) Upon the provision of such specification by the City, where a permit is required for work pursuant to **Section 33-4-4** of this Article the telecommunications retailer shall submit to the City an application for a permit and any and all plans, specifications and documentation available regarding the facility to be constructed. Such application shall be subject to the requirements of paragraph (A) of this Section.

(C) **Additional City Review of Applications of Holders of State Authorization Under the Cable and Video Competition Law of 2007.** Applications by a utility that is a holder of a State-issued authorization under the Cable and Video Competition Law of 2007 shall be deemed granted **forty-five (45) days** after submission to the City, unless otherwise acted upon by the City, provided the holder has complied with applicable City codes, ordinances, and regulations.

33-4-6 EFFECT OF PERMIT.

(A) **Authority Granted: No Property Right or Other Interest Created.** A permit from the City authorizes a permittee to undertake only certain activities in accordance with this Article on City rights-of-way, and does not create a property right or grant authority to the permittee to impinge upon the rights of others who may have an interest in the public rights-of-way.

(B) **Duration.** No permit issued under this Article shall be valid for a period longer than **six (6) months** unless construction is actually begun within that period and is thereafter diligently pursued to completion.

(C) **Pre-Construction Meeting Required.** No construction shall begin pursuant to a permit issued under this Article prior to attendance by the permittee and all major contractors and subcontractors who will perform any work under the permit at a pre-construction meeting. The pre-construction meeting shall be held at a date, time and place designated by the City with such City representatives in attendance as the City deems necessary. The meeting shall be for the purpose of reviewing the work under the permit, and reviewing special considerations necessary in the areas where work will occur, including, without limitation, presence or absence of other utility facilities in the area and their locations, procedures to avoid disruption of other utilities, use of rights-of-way by the public during construction, and access and egress by adjacent property owners.

(D) **Compliance With All Laws Required.** The issuance of a permit by the City does not excuse the permittee from complying with other requirements of the City and applicable statutes, laws, ordinances, rules, and regulations.

33-4-7 **REVISED PERMIT DRAWINGS.** In the event that the actual locations of any facilities deviate in any material respect from the locations identified in the plans, drawings and specifications submitted with the permit application, the permittee shall submit a revised set of drawings or plans to the City within **ninety (90) days** after the completion of the permitted work. The revised drawings or plans shall specifically identify where the locations of the actual facilities deviate from the locations approved in the permit. If any deviation from the permit also deviates from the requirements of this Article, it shall be treated as a request for variance in accordance with **Section 33-4-21** of this Article. If the City denies the request for a variance, then the permittee shall either remove the facility from the right-of-way or modify the facility so that it conforms to the permit and submit revised drawings or plans therefor.

33-4-8 **INSURANCE.**
(A) **Required Coverages and Limits.** Unless otherwise provided by franchise, license, or similar agreement, each utility occupying right-of-way or constructing any facility in the right-of-way shall secure and maintain the following liability insurance policies insuring the utility as named insured and naming the City, and its elected and appointed officers, officials, agents, and employees as additional insureds on the policies listed in paragraphs (1) and (2) below:

- (1) Commercial general liability insurance, including premises-operations, explosion, collapse, and underground hazard (commonly referred as "X", "C", and "U" coverages) and products-completed operations coverage with limits not less than:
 - (a) **Five Million Dollars (\$5,000,000.00)** for bodily injury or death to each person;
 - (b) **Five Million Dollars (\$5,000,000.00)** for property damage resulting from any one accident; and
 - (c) **Five Million Dollars (\$5,000,000.00)** for all other types of liability;
- (2) Automobile liability for owned, non-owned and hired vehicles with a combined single limit of **One Million Dollars (\$1,000,000.00)** for personal injury and property damage for each accident;
- (3) Worker's compensation with statutory limits; and
- (4) Employer's liability insurance with limits of not less than **One Million Dollars (\$1,000,000.00)** per employee and per accident.

If the utility is not providing such insurance to protect the contractors and subcontractors performing the work, then such contractors and subcontractors shall comply with this Section.

(B) **Excess or Umbrella Policies.** The coverages required by this Section may be in any combination of primary, excess, and umbrella policies. Any excess or umbrella policy must provide excess coverage over underlying insurance on a following-form basis such that when any loss covered by the primary policy exceeds the limits under the primary policy, the excess or umbrella policy becomes effective to cover such loss.

(C) **Copies Required.** The utility shall provide copies of any of the policies required by this Section to the City within **ten (10) days** following receipt of a written request therefor from the City.

(D) **Maintenance and Renewal of Required Coverages.** The insurance policies required by this Section shall contain the following endorsement:

"It is hereby understood and agreed that this policy may not be canceled nor the intention not to renew be stated until **thirty (30) days** after receipt by the City, by registered mail or certified mail, return receipt requested, of a written notice addressed to the City Administrator of such intent to cancel or not to renew."

Within **ten (10) days** after receipt by the City of said notice, and in no event later than **ten (10) days** prior to said cancellation, the utility shall obtain and furnish to the City evidence of replacement insurance policies meeting the requirements of this Section.

(E) **Self-Insurance.** A utility may self-insure all or a portion of the insurance coverage and limit requirements required by paragraph (A) of this Section. A utility that self-insures is not required, to the extent of such self-insurance, to comply with the requirement for the naming of additional insureds under paragraph (A), or the requirements of paragraphs (B), (C) and (D) of this Section. A utility that elects to self-insure shall provide to the City evidence sufficient to demonstrate its financial ability to self-insure the insurance coverage and limit requirements required under paragraph (A) of this Section, such as evidence that the utility is a "private self insurer" under the Workers Compensation Act.

(F) **Effect of Insurance and Self-Insurance on Utility's Liability.** The legal liability of the utility to the City and any person for any of the matters that are the subject of the insurance policies or self-insurance required by this Section shall not be limited by such insurance policies or self-insurance or by the recovery of any amounts thereunder.

(G) **Insurance Companies.** All insurance provided pursuant to this Section shall be effected under valid and enforceable policies, issued by insurers legally able to conduct business with the licensee in the State of Illinois. All insurance carriers and surplus line carriers shall be rates "A-" or better and of a class size "X" or higher by A.M. Best Company.

33-4-9 **INDEMNIFICATION.** By occupying or constructing facilities in the right-of-way, a utility shall be deemed to agree to defend, indemnify and hold the City and its elected and appointed officials and officers, employees, agents and representatives harmless from and against any and all injuries, claims, demands, judgments, damages, losses and expenses, including reasonable attorney's fees and costs of suit or defense, arising out of, resulting from or alleged to arise out of or result from the negligent, careless or wrongful acts, omissions, failures to act or misconduct of the utility or its affiliates, officers, employees, agents, contractors or subcontractors in the construction of facilities or occupancy of the rights-of-way, and in providing or offering service over the facilities, whether such acts or omissions are authorized, allowed or prohibited by this Article or by a franchise, license, or similar agreement; provided, however, that the utility's indemnity obligations hereunder shall not apply to any injuries, claims, demands, judgments, damages, losses or expenses arising out of or resulting from the negligence, misconduct or breach of this Article by the City, its officials, officers, employees, agents or representatives.

33-4-10 **SECURITY.**

(A) **Purpose.** The permittee shall establish a Security Fund in a form and in an amount as set forth in this Section. The Security Fund shall be continuously maintained in accordance with this Section at the permittee's sole cost and expense until the completion of the work authorized under the permit. The Security Fund shall serve a security for:

- (1) The faithful performance by the permittee of all the requirements of this Article;
- (2) Any expenditure, damage, or loss incurred by the City occasioned by the permittee's failure to comply with any codes, rules, regulations, orders, permits and other directives of the City issued pursuant to this Article; and
- (3) The payment by permittee of all liens and all damages, claims, costs, or expenses that the City may pay or incur by reason of any action or non-performance by permittee in violation of this Article including, without limitation, any damage to public property or restoration work the permittee is required by this Article to perform that the City must perform itself or have completed as a consequence solely of the permittee's failure to perform or complete, and all other payments due the City from the permittee pursuant to this Article or any other applicable law.

(B) **Form.** The permittee shall provide the Security Fund to the City in the form, at the permittee's election, of cash, a surety bond in a form acceptable to the City, or an unconditional letter

of credit in a form acceptable to the City. Any surety bond or letter of credit provided pursuant to this paragraph shall, at a minimum:

- (1) Provide that it will not be canceled without prior notice to the City and the permittee;
- (2) Not require the consent of the permittee prior to the collection by the City of any amounts covered by it; and
- (3) Shall provide a location convenient to the City and within the State of Illinois at which it can be drawn.

(C) **Amount.** The dollar amount of the Security Fund shall be sufficient to provide for the reasonably estimated cost to restore the right-of-way to at least as good a condition as that existing prior to the construction under the permit, as determined by the City Engineer or Director of Public Works, and may also include reasonable, directly related costs that the City estimates are likely to be incurred if the permittee fails to perform such restoration. Where the construction of facilities proposed under the permit will be performed in phases in multiple locations in the City, with each phase consisting of construction of facilities in one location or related group of locations, and where construction in another phase will not be undertaken prior to substantial completion of restoration in the previous phase or phases, the City Engineer or Director of Public Works may, in the exercise of sound discretion, allow the permittee to post a single amount of security which shall be applicable to each phase of the construction under the permit. The amount of the Security Fund for phased construction shall be equal to the greatest amount that would have been required under the provisions of this paragraph (C) for any single phase.

(D) **Withdrawals.** The City, upon **fourteen (14) days'** advance written notice clearly stating the reason for, and its intention to exercise withdrawal rights under this paragraph, may withdraw an amount from the Security Fund, provided that the permittee has not reimbursed the City for such amount within the **fourteen (14) day** notice period. Withdrawals may be made if the permittee:

- (1) Fails to make any payment required to be made by the permittee hereunder;
- (2) Fails to pay any liens relating to the facilities that are due and unpaid;
- (3) Fails to reimburse the City for any damages, claims, costs or expenses which the City has been compelled to pay or incur by reason of any action or non-performance by the permittee; or
- (4) Fails to comply with any provision of this Article that the City determines can be remedied by an expenditure of an amount in the Security Fund.

(E) **Replenishment.** Within **fourteen (14) days** after receipt of written notice from the City that any amount has been withdrawn from the Security Fund, the permittee shall restore the Security Fund to the amount specified in paragraph (C) of this Section.

(F) **Interest.** The permittee may request that any and all interest accrued on the amount in the Security Fund be returned to the permittee by the City, upon written request for said withdrawal to the City, provided that any such withdrawal does not reduce the Security Fund below the minimum balance required in paragraph (C) of this Section.

(G) **Closing and Return of Security Fund.** Upon completion of the work authorized under the permit, the permittee shall be entitled to the return of the Security Fund, or such portion thereof as remains on deposit, within a reasonable time after account is taken for all offsets necessary to compensate the City for failure by the permittee to comply with any provisions of this Article or other applicable law. In the event of any revocation of the permit, the Security Fund, and any and all accrued interest therein, shall become the property of the City to the extent necessary to cover any reasonable costs, loss or damage incurred by the City as a result of said revocation, provided that any amounts in excess of said costs, loss or damage shall be refunded to the permittee.

(H) **Rights Not Limited.** The rights reserved to the City with respect to the Security Fund are in addition to all other rights of the City, whether reserved by this Article or otherwise authorized by law, and no action, proceeding or exercise of right with respect to said Security Fund shall affect any other right the City may have. Notwithstanding the foregoing, the City shall not be entitled to a double monetary recovery with respect to any of its rights which may be infringed or otherwise violated.

33-4-11

PERMIT SUSPENSION AND REVOCATION.

(A) **City Right to Revoke Permit.** The City may revoke or suspend a permit issued pursuant to this Article for one or more of the following reasons:

- (1) Fraudulent, false, misrepresenting, or materially incomplete statements in the permit application;
- (2) Noncompliance with this Article;
- (3) Permittee's physical presence or presence of permittee's facilities on, over, above, along, upon, under, across, or within the rights-of-way presents a direct or imminent threat to the public health, safety, or welfare; or
- (4) Permittee's failure to construct the facilities substantially in accordance with the permit and approved plans.

(B) **Notice of Revocation or Suspension.** The City shall send written notice of its intent to revoke or suspend a permit issued pursuant to this Article stating the reason or reasons for the revocation or suspension and the alternatives available to permittee under this **Section 33-4-11**.

(C) **Permittee Alternatives Upon Receipt of Notice of Revocation or Suspension.** Upon receipt of a written notice of revocation or suspension from the City, the permittee shall have the following options:

- (1) Immediately provide the City with evidence that no cause exists for the revocation or suspension;
- (2) Immediately correct, to the satisfaction of the City, the deficiencies stated in the written notice, providing written proof of such correction to the City within **five (5) working days** after receipt of the written notice of revocation; or
- (3) Immediately remove the facilities located on, over, above, along, upon, under, across, or within the rights-of-way and restore the rights-of-way to the satisfaction of the City providing written proof of such removal to the City within **ten (10) days** after receipt of the written notice of revocation.

The City may, in its discretion, for good cause shown, extend the time periods provided in this paragraph.

(D) **Stop Work Order.** In addition to the issuance of a notice of revocation or suspension, the City may issue a stop work order immediately upon discovery of any of the reasons for revocation set forth within paragraph (A) of this Section.

(E) **Failure or Refusal of the Permittee to Comply.** If the permittee fails to comply with the provisions of paragraph (C) of this Section, the City or its designee may, at the option of the City:

- (1) correct the deficiencies;
- (2) upon not less than **twenty (20) days** notice to the permittee, remove the subject facilities or equipment; or
- (3) after not less than **thirty (30) days** notice to the permittee of failure to cure the noncompliance, deem them abandoned and property of the City. The permittee shall be liable in all events to the City for all costs of removal.

33-4-12

CHANGE OF OWNERSHIP OR OWNER'S IDENTITY OR LEGAL STATUS.

(A) **Notification of Change.** A utility shall notify the City no less than **thirty (30) days** prior to the transfer of ownership of any facility in the right-of-way or change in identity of the utility. The new owner of the utility or the facility shall have all the obligations and privileges enjoyed by the former owner under the permit, if any, and all applicable laws, ordinances, rules and regulations, including this Article, with respect to the work and facilities in the right-of-way.

(B) **Amended Permit.** A new owner shall request that any current permit be amended to show current ownership. If the new owner fails to have a new or amended permit issued in

its name, the new owner shall be presumed to have accepted, and agreed to be bound by, the terms and conditions of the permit if the new owner uses the facility or allows it to remain on the City's right-of-way.

(C) **Insurance and Bonding.** All required insurance coverage or bonding must be changed to reflect the name of the new owner upon transfer.

33-4-13 GENERAL CONSTRUCTION STANDARDS.

(A) **Standards and Principles.** All construction in the right-of-way shall be consistent with applicable ordinances, codes, laws, rules and regulations, and commonly recognized and accepted traffic control and construction principles, sound engineering judgment and, where applicable, the principles and standards set forth in the following IDOT publications, as amended from time to time:

- (1) Standard Specifications for Road and Bridge Construction;
- (2) Supplemental Specifications and Recurring Special Provisions;
- (3) Highway Design Manual;
- (4) Highway Standards Manual;

- (6) Illinois Manual on Uniform Traffic Control Devices (92 Ill. Adm. Code § 545);
- (7) Flagger's Handbook; and
- (8) Work Site Protection Manual for Daylight Maintenance Operations.

(B) **Interpretation of Municipal Standards and Principles.** If a discrepancy exists between or among differing principles and standards required by this Article, the City Engineer or Director of Public Works shall determine, in the exercise of sound engineering judgment, which principles apply and such decision shall be final. If requested, the Superintendent shall state which standard or principle will apply to the construction, maintenance, or operation of a facility in the future.

33-4-14 TRAFFIC CONTROL.

(A) **Minimum Requirements.** The City's minimum requirements for traffic protection are contained in IDOT's Illinois Manual on Uniform Traffic Control Devices and this Code.

(B) **Warning Signs, Protective Devices, and Flaggers.** The utility is responsible for providing and installing warning signs, protective devices and flaggers, when necessary, meeting all applicable federal, state, and local requirements for protection of the public and the utility's workers when performing any work on the public rights-of-way.

(C) **Interference with Traffic.** All work shall be phased so that there is minimum interference with pedestrian and vehicular traffic.

(D) **Notice When Access is Blocked.** At least **forty-eight (48) hours** prior to beginning work that will partially or completely block access to any residence, business or institution, the utility shall notify the resident, business or institution of the approximate beginning time and duration of such work; provided, however, that in cases involving emergency repairs pursuant to **Section 33-4-20** of this Article, the utility shall provide such notice as is practicable under the circumstances.

(E) **Compliance.** The utility shall take immediate action to correct any deficiencies in traffic protection requirements that are brought to the utility's attention by the City.

33-4-15 LOCATION OF FACILITIES.

- (1) **No Interference with City Facilities.** No utility facilities shall be placed in any location if the City Engineer or Director of Public Works determines that the proposed location will require the relocation or displacement of any of the City's utility facilities or will otherwise interfere with the operation or maintenance of any of the City's utility facilities.

- (2) **Minimum Interference and Impact.** The proposed location shall cause only the minimum possible interference with the use of the right-of-way and shall cause only the minimum possible impact upon, and interference with the rights and reasonable convenience of property owners who adjoin said right-of-way.
- (3) **No Interference with Travel.** No utility facility shall be placed in any location that interferes with the usual travel on such right-of-way.
- (4) **No Limitations on Visibility.** No utility facility shall be placed in any location so as to limit visibility of or by users of the right-of-way.
- (5) **Size of Utility Facilities.** The proposed installation shall use the smallest suitable vaults, boxes, equipment enclosures, power pedestals, and/or cabinets then in use by the facility owner, regardless of location, for the particular application.

(B)

Parallel Facilities Located Within Highways.

- (1) **Overhead Parallel Facilities.** An overhead parallel facility may be located within the right-of-way lines of a highway only if:
 - (a) Lines are located as near as practicable to the right-of-way line and as nearly parallel to the right-of-way line as reasonable pole alignment will permit;
 - (b) Where pavement is curbed, poles are as remote as practicable from the curb with a minimum distance of **two (2) feet (0.6m)** behind the face of the curb, where available;
 - (c) Where pavement is uncurbed, poles are as remote from pavement edge as practicable with minimum distance of **four (4) feet (1.2m)** outside the outer shoulder line of the roadway and are not within the clear zone;
 - (d) No pole is located in the ditch line of a highway; and
 - (e) Any ground-mounted appurtenance is located within **one (1) foot (0.3m)** of the right-of-way line or as near as possible to the right-of-way line.
- (2) **Underground Parallel Facilities.** An underground parallel facility may be located within the right-of-way lines of a highway only if:
 - (a) The facility is located as near the right-of-way line as practicable and not more than **eight (8) feet (2.4m)** from and parallel to the right-of-way line;
 - (b) A new facility may be located under the paved portion of a highway only if other locations are impracticable or inconsistent with sound engineering judgment (e.g., a new cable may be installed in existing conduit without disrupting the pavement); and
 - (c) In the case of an underground power or communications line, the facility shall be located as near the right-of-way line as practicable and not more than **five (5) feet (1.5m)** from the right-of-way line and any above-grounded appurtenance shall be located within **one (1) foot (0.3m)** of the right-of-way line or as near as practicable.

(C)

Facilities Crossing Highways.

- (1) **No Future Disruption.** The construction and design of crossing facilities installed between the ditch lines or curb lines of City highways may require the incorporation of materials and protections (such as encasement or additional cover) to avoid settlement or future repairs to the roadbed resulting from the installation of such crossing facilities.
- (2) **Cattle Passes, Culverts, or Drainage Facilities.** Crossing facilities shall not be located in cattle passes, culverts, or drainage facilities.

- (3) **90 Degree Crossing Required.** Crossing facilities shall cross at or as near to a **ninety (90) degree** angle to the centerline as practicable.
- (4) **Overhead Power or Communication Facility.** An overhead power or communication facility may cross a highway only if:
 - (a) It has a minimum vertical line clearance as required by ICC's rules entitled, "Construction of Electric Power and Communication Lines" (83 Ill. Adm. Code 305);
 - (b) Poles are located within **one (1) foot (0.3m)** of the right-of-way line of the highway and outside of the clear zone; and
 - (c) Overhead crossings at major intersections are avoided.
- (5) **Underground Power or Communication Facility.** An underground power or communication facility may cross a highway only if:
 - (a) The design materials and construction methods will provide maximum maintenance-free service life; and
 - (b) Capacity for the utility's foreseeable future expansion needs is provided in the initial installation.
- (6) **Markers.** The City may require the utility to provide a marker at each right-of-way line where an underground facility other than a power or communication facility crosses a highway. Each marker shall identify the type of facility, the utility, and an emergency phone number. Markers may also be eliminated as provided in current Federal regulations. (49 C.F.R. §192.707 (1989)).

(D) **Facilities to be Located Within Particular Rights-of-Way.** The City may require that facilities be located within particular rights-of-way that are not highways, rather than within particular highways.

(E) **Freestanding Facilities.**

- (1) The City may restrict the location and size of any freestanding facility located within a right-of-way.
- (2) The City may require any freestanding facility located within a right-of-way to be screened from view.

(F) **Facilities Installed Above Ground.** Above ground facilities may be installed only if:

- (1) No other existing facilities in the area are located underground;
- (2) New underground installation is not technically feasible; and
- (3) The proposed installation will be made at a location, and will employ suitable design and materials, to provide the greatest protection of aesthetic qualities of the area being traversed without adversely affecting safety. Suitable designs include, but are not limited to, self-supporting armless, single-pole construction with vertical configuration of conductors and cable. Existing utility poles and light standards shall be used wherever practicable; the installation of additional utility poles is strongly discouraged.

(G) **Facility Attachments to Bridges or Roadway Structures.**

- (1) Facilities may be installed as attachments to bridges or roadway structures only where the utility has demonstrated that all other means of accommodating the facility are not practicable. Other means shall include, but are not limited to, underground, underwater, independent poles, cable supports and tower supports, all of which are completely separated from the bridge or roadway structure. Facilities transmitting commodities that are volatile, flammable, corrosive, or energized, especially those under significant pressure or potential, present high degrees of risk and such installations are not permitted.
- (2) A utility shall include in its request to accommodate a facility installation on a bridge or roadway structure supporting data demonstrating the impracticability of alternate routing. Approval or disapproval of an

application for facility attachment to a bridge or roadway structure will be based upon the following considerations:

- (a) The type, volume, pressure or voltage of the commodity to be transmitted and an evaluation of the resulting risk to persons and property in the event of damage to or failure of the facility;
- (b) The type, length, value, and relative importance of the highway structure in the transportation system;
- (c) The alternative routings available to the utility and their comparative practicability;
- (d) The proposed method of attachment;
- (e) The ability of the structure to bear the increased load of the proposed facility;
- (f) The degree of interference with bridge maintenance and painting;
- (g) The effect on the visual quality of the structure; and
- (h) The public benefit expected from the utility service as compared to the risk involved.

(H)

Appearance Standards.

- (1) The City may prohibit the installation of facilities in particular locations in order to preserve visual quality.
- (2) A facility may be constructed only if its construction does not require extensive removal or alteration of trees or terrain features visible to the right-of-way user or to adjacent residents and property owners, and if it does not impair the aesthetic quality of the lands being traversed.

33-4-16

(A)

Methods.

CONSTRUCTION METHODS AND MATERIALS.

Standards and Requirements for Particular Types of Construction

(1) **Boring or Jacking.**

- (a) **Pits and Shoring.** Boring and jacking under rights-of-way shall be accomplished from pits located at a minimum distance specified by the City Engineer or Director of Public Works from the edge of the pavement. Pits for boring or jacking shall be excavated no more than **forty-eight (48) hours** in advance of boring or jacking operations and backfilled within **forty-eight (48) hours** after boring or jacking operations are completed. While pits are open, they shall be clearly marked and protected by barricades. Shoring shall be designed, erected, supported, braced, and maintained so that it will safely support all vertical and lateral loads that may be imposed upon it during the boring or jacking operation.
- (b) **Wet Boring or Jetting.** Wet boring or jetting shall not be permitted under the roadway.
- (c) **Borings With Diameters Greater than Six (6) Inches.** Borings over **six (6) inches (0.15m)** in diameter shall be accomplished with an auger and following pipe, and the diameter of the auger shall not exceed the outside diameter of the following pipe by more than **one (1) inch (25mm)**.
- (d) **Borings with Diameters Six (6) Inches or Less.** Borings of **six (6) inches** or less in diameter may be accomplished by either jacking, guided with auger, or auger and following pipe method.

- (e) **Tree Preservation.** Any facility located within the drip line of any tree designed by the City to be preserved shall be bored under or around the root system.
- (2) **Trenching.** Trenching for facility installation, repair, or maintenance on rights-of-way shall be done in accord with the applicable portions of Section 603 IDOT's "Standard Specifications for Road and Bridge Construction".
 - (a) **Length.** The length of open trench shall be kept to the practicable minimum consistent with requirements for pipe-line testing. Only one-half of any intersection may have an open trench at any time unless special permission is obtained from the City Engineer or Director of Public Works.
 - (b) **Open Trench and Excavated Material.** Open trench and wind rowed excavated material shall be protected as required by Chapter 6 of the Illinois Manual on Uniform Traffic Control Devices. Where practicable, the excavated material shall be deposited between the roadway and the trench as added protection. Excavated material shall not be allowed to remain on the paved portion of the roadway. Where right-of-way width does not allow for wind rowing excavated material off the paved portion of the roadway, excavated material shall be hauled to an off-road location.
 - (c) **Drip Line of Trees.** The utility shall not trench within the drip line of any tree designated by the City to be preserved.
- (3) **Backfilling.**
 - (a) Any pit, trench, or excavation created during the installation of facilities shall be backfilled for its full width, depth, and length using methods and materials in accordance with IDOT's "Standard Specifications for Road and Bridge Construction". When excavated material is hauled away or is unsuitable for backfill, suitable granular backfill shall be used.
 - (b) For a period of **three (3) years** from the date construction of a facility is completed, the utility shall be responsible to remove and restore any backfilled area that has settled due to construction of the facility. If so ordered by the Engineer or Director of Public Works, the utility, at its expense, shall remove any pavement and backfill material to the top of the installed facility, place and properly compact new backfill material, and restore new pavement, sidewalk, curbs, and driveways to the proper grades, as determined by the Engineer or Director of Public Works.
- (4) **Pavement Cuts.** Pavement cuts for facility installation or repair shall be permitted on a highway only if that portion of the highest is closed to traffic. If a variance to the limitation set forth in this paragraph is permitted under **Section 33-4-21**, the following requirements shall apply:
 - (a) Any excavation under pavements shall be backfilled and compacted as soon as practicable with granular material of CA-6 or CA-10 gradation, as designated by the Engineer or Director of Public Works.
 - (b) Restoration of pavement, in kind, shall be accomplished as soon as practicable, and temporary repair with bituminous mixture shall be provided immediately. Any subsequent failure of either the temporary repair or the restoration shall be rebuilt upon notification by the City.

- (c) All saw cuts shall be full depth.
- (d) For all rights-of-way which have been reconstructed with a concrete surface/base in the last **seven (7) years**, or resurfaced in the last **three (3) years**, permits shall not be issued unless such work is determined to be an emergency repair or other work considered necessary and unforeseen before the time of the reconstruction or unless a pavement cut is necessary for a J.U.L.I.E. locate.

(5) **Encasement.**

- (a) Casing pipe shall be designed to withstand the load of the highway and any other superimposed loads. The casing shall be continuous either by one-piece fabrication or by welding or jointed installation approved by the City.
- (b) The venting, if any, of any encasement shall extend within **one (1) foot (0.3m)** of the right-of-way line. No above-ground vent pipes shall be located in the area established as clear zone for that particular section of the highway.
- (c) In the case of water main or service crossing, encasement shall be furnished between bore pits unless continuous pipe or City approved jointed pipe is used under the roadway. Casing may be omitted only if pipe is installed prior to highway construction and carrier pipe is continuous or mechanical joints are of a type approved by the City. Bell and spigot type pipe shall be encased regardless of installation method.
- (d) In the case of gas pipelines of **60 psig** or less, encasement may be eliminated.
- (e) In the case of gas pipelines or petroleum products pipelines with installations of more than **60 psig**, encasement may be eliminated only if:
 - (i) extra heavy pipe is used that precludes future maintenance or repair and
 - (ii) cathodic protection of the pipe is provided;
- (f) If encasement is eliminated for a gas or petroleum products pipeline, the facility shall be located so as to provide that construction does not disrupt the right-of-way.

(6) **Minimum Cover of Underground Facilities.** Cover shall be provided and maintained at least in the amount specified in the following table for minimum cover for the type of facility:

<u>Type of Facility</u>	<u>Minimum Cover</u>
Electric Lines	30 inches (0.8m)
Communication, Cable or Video Service Lines	18 to 24 inches (0.6m, as Determined by City)
Gas or Petroleum Products	30 inches (0.8m)
Water Line	Sufficient Cover to Provide Freeze Protection
Sanitary Sewer, Storm Sewer, Or Drainage Line	Sufficient Cover to Provide Freeze Protection

(B)

Standards and Requirements for Particular Types of Facilities.

(1) **Electric Power or Communication Lines.**

- (a) **Code Compliance.** Electric power or communications facilities within City rights-of-way shall be constructed, operated, and maintained in conformity with the provisions of 83 Ill. Adm. Code 305 (formerly General Order 160 of the Illinois Commerce Commission) entitled "Rules for Construction of Electric Power and Communications Lines", and the National Electrical Safety Code.
- (b) **Overhead Facilities.** Overhead power or communication facilities shall use single pole construction and, where practicable, joint use of poles shall be used. Utilities shall make every reasonable effort to design the installation so guys and braces will not be needed. Variances may be allowed if there is no feasible alternative and if guy wires are equipped with guy guards for maximum visibility.
- (c) **Underground Facilities.**
 - (i) Cable may be installed by trenching or plowing, provided that special consideration is given to boring in order to minimize damage when crossing improved entrances and side roads.
 - (ii) If a crossing is installed by boring or jacking, encasement shall be provided between jacking or bore pits. Encasement may be eliminated only if:
 - a. the crossing is installed by the use of "moles", "whip augers", or other approved method which compress the earth to make the opening for cable installation or
 - b. the installation is by the open trench method which is only permitted prior to roadway construction.
 - (iii) Cable shall be grounded in accordance with the National Electrical Safety Code.
 - (iv) **Burial of Drops.** All temporary service drops placed between **November 1** of the prior year and **March 15** of the current year, also known as snowdrops, shall be buried by **May 31** of the current year, weather permitting, unless otherwise permitted by the City. Weather permitting, utilities shall bury all temporary drops, excluding snowdrops, within **ten (10) business days** after placement.

(2) **Underground Facilities Other Than Electric Power or Communication Lines.** Underground facilities other than electric power or communication lines may be installed by:

- (a) The use of "moles", "whip augers", or other approved methods which compress the earth to move the opening for the pipe;
- (b) jacking or boring with vented encasement provided between the ditch lines or toes of slopes of the highway;
- (c) open trench with vented encasement between ultimate ditch lines or toes of slopes, but only if prior to roadway construction; or
- (d) tunneling with vented encasement, but only if installation is not possible by other means.

(3) **Gas Transmission, Distribution and Service.** Gas pipelines within rights-of-way shall be constructed, maintained, and operated in a City

approved manner and in conformance with the Federal Code of the Office of Pipeline Safety Operations, Department of Transportation, Part 192 – Transportation of Natural and Other Gas by Pipeline: Minimum Federal Safety Standards (49 CFR §192), IDOT's "Standard Specifications for Road and Bridge Construction", and all other applicable laws, rules, and regulations.

- (4) **Petroleum Products Pipelines.** Petroleum products pipelines within rights-of-way shall conform to the applicable sections of ANSI Standard Code for Pressure Piping. (Liquid Petroleum Transportation Piping Systems ANSI-B 31.4).
- (5) **Waterlines, Sanitary Sewer Lines, Storm Water Sewer Lines or Drainage Lines.** Water lines, sanitary sewer lines, storm sewer lines, and drainage lines within rights-of-way shall meet or exceed the recommendations of the current "Standard Specifications for Water and Sewer Main Construction in Illinois".
- (6) **Ground Mounted Appurtenances.** Ground mounted appurtenances to overhead or underground facilities, when permitted within a right-of-way, shall be provided with a vegetation-free area extending **one (1) foot (305mm)** in width beyond the appurtenance in all directions. The vegetation-free area may be provided by an extension of the mounting pad, or by heavy duty plastic or similar material approved by the Engineer or Director of Public Works. With the approval of the Engineer or Director of Public Works, shrubbery surrounding the appurtenance may be used in place of vegetation-free area. The housing for ground-mounted appurtenances shall be painted a neutral color to blend with the surroundings.

(C)

Materials.

- (1) **General Standards.** The materials used in constructing facilities within rights-of-way shall be those meeting the accepted standards of the appropriate industry, the applicable portions of IDOT's "Standard Specifications for Road and Bridge Construction", the requirements of the Illinois Commerce Commission, or the standards established by other official regulatory agencies for the appropriate industry.
- (2) **Material Storage on Right-of-Way.** No material shall be stored on the right-of-way without the prior written approval of the City Engineer or Director of Public Works. When such storage is permitted, all pipe, conduit, wire, poles, cross arms, or other materials shall be distributed along the right-of-way prior to and during installation in a manner to minimize hazards to the public or an obstacle to right-of-way maintenance or damage to the right-of-way and other property. If material is to be stored on right-of-way, prior approval must be obtained from the City.
- (3) **Hazardous Materials.** The plans submitted by the utility to the City shall identify any hazardous materials that may be involved in the construction of the new facilities or removal of any existing facilities.

(D)

Operational Restrictions.

- (1) Construction operations on rights-of-way may, at the discretion of the City, be required to be discontinued when such operations would create hazards to traffic or the public health, safety, and welfare. Such operations may also be required to be discontinued or restricted when conditions are such that construction would result in extensive damage to the right-of-way or other property.
- (2) These restrictions may be waived by the Engineer or Director of Public Works when emergency work is required to restore vital utility services.

- (3) Unless otherwise permitted by the City, the hours of construction are those set forth in **Chapter 25** of this Code.

(E) **Location of Existing Facilities.** Any utility proposing to construct facilities in the City shall contact J.U.L.I.E. and ascertain the presence and location of existing above-ground and underground facilities within the rights-of-way to be occupied by its proposed facilities. The City will make its permit record available to a utility for the purpose of identifying possible facilities. When notified of an excavation or when requested by the City or by J.U.L.I.E., a utility shall locate and physically mark its underground facilities within **forty-eight (48) hours**, excluding weekends and holidays, in accordance with the Illinois Underground Facilities Damage Prevention Act (220 ILCS 50/1 *et seq.*)

33-4-17 VEGETATION CONTROL.

(A) **Electric Utilities - Compliance with State Laws and Regulations.** An electric utility shall conduct all tree-trimming and vegetation control activities in the right-of-way in accordance with applicable Illinois laws and regulations, and additionally, with such local franchise or other agreement with the City as permitted by law.

(B) **Other Utilities - Tree Trimming Permit Required.** Tree trimming that is done by any other utility with facilities in the right-of-way and that is not performed pursuant to applicable Illinois laws and regulations specifically governing the same, shall not be considered a normal maintenance operation, but shall require the application for, and the issuance of, a permit, in addition to any other permit required under this Article.

- (1) **Application for Tree Trimming Permit.** Applications for tree trimming permits shall include assurance that the work will be accomplished by competent workers with supervision who are experienced in accepted tree pruning practices. Tree trimming permits shall designate an expiration date in the interest of assuring that the work will be expeditiously accomplished.

- (2) **Damage to Trees.** Poor pruning practices resulting in damaged or misshapen trees will not be tolerated and shall be grounds for cancellation of the tree trimming permit and for assessment of damages. The City will require compensation for trees extensively damaged and for trees removed without authorization. The formula developed by the International Society of Arboriculture will be used as a basis for determining the compensation for damaged trees or unauthorized removal of trees. The City may require the removal and replacement of trees if trimming or radical pruning would leave them in an unacceptable condition.

(C) **Specimen Trees or Trees of Special Significance.** The City may require that special measures be taken to preserve specimen trees or trees of special significance. The required measures may consist of higher poles, side arm extensions, covered wire or other means.

(D) **Chemical Use.**

- (1) Except as provided in the following paragraph, no utility shall spray, inject or pour any chemicals on or near any trees, shrubs or vegetation in the City for any purpose, including the control of growth, insects or disease.
- (2) Spraying of any type of brush-killing chemicals will not be permitted on rights-of-way unless the utility demonstrates to the satisfaction of the Engineer or Director of Public Works that such spraying is the only practicable method of vegetation control.

33-4-18 REMOVAL, RELOCATION, OR MODIFICATION OF UTILITY FACILITIES.

(A) **Notice.** Within **ninety (90) days** following written notice from the City, a utility shall, at its own expense, protect, support, temporarily or permanently disconnect, remove, relocate, change or alter the position of any utility facilities within the rights-of-way whenever the corporate

authorities have determined that such removal, relocation, change or alteration, is reasonably necessary for the construction, repair, maintenance, or installation of any City improvement in or upon, or the operations of the City in or upon, the rights-of-way.

(B) **Removal of Unauthorized Facilities.** Within **thirty (30) days** following written notice from the City, any utility that owns, controls, or maintains any unauthorized facility or related appurtenances within the rights-of-way shall, at its own expense, remove all or any part of such facilities or appurtenances from the rights-of-way. A facility is unauthorized and subject to removal in the following circumstances:

- (1) Upon expiration or termination of the permittee's license or franchise, unless otherwise permitted by applicable law;
- (2) If the facility was constructed or installed without the prior grant of a license or franchise, if required;
- (3) If the facility was constructed or installed without prior issuance of a required permit in violation of this Article; or
- (4) If the facility was constructed or installed at a location not permitted by the permittee's license or franchise.

(C) **Emergency Removal or Relocation of Facilities.** The City retains the right and privilege to cut or move any facilities located within the rights-of-way of the City, as the City may determine to be necessary, appropriate or useful in response to any public health or safety emergency. If circumstances permit, the Municipality shall attempt to notify the utility, if known, prior to cutting or removing a facility and shall notify the utility, if known, after cutting or removing a facility.

(D) **Abandonment of Facilities.** Upon abandonment of a facility within the rights-of-way of the City, the utility shall notify the City within **ninety (90) days**. Following receipt of such notice the City may direct the utility to remove all or any portion of the facility if the City Engineer or Director of Public Works determines that such removal will be in the best interest of the public health, safety and welfare. In the event that the City does not direct the utility that abandoned the facility to remove it, by giving notice of abandonment to the City, the abandoning utility shall be deemed to consent to the alteration or removal of all or any portion of the facility by another utility or person.

33-4-19 CLEANUP AND RESTORATION. The utility shall remove all excess material and restore all turf and terrain and other property within **ten (10) days** after any portion of the rights-of-way are disturbed, damaged or destroyed due to construction or maintenance by the utility, all to the satisfaction of the City. This includes restoration of entrances and side roads. Restoration of roadway surfaces shall be made using materials and methods approved by the City Engineer or Director of Public Works. Such cleanup and repair may be required to consist of backfilling, regrading, reseeding, resodding, or any other requirement to restore the right-of-way to a condition substantially equivalent to that which existed prior to the commencement of the project. The time period provided in this Section may be extended by the City Engineer or Director of Public Works for good cause shown.

33-4-20 MAINTENANCE AND EMERGENCY MAINTENANCE.

(A) **General.** Facilities on, over, above, along, upon, under, across, or within rights-of-way are to be maintained by or for the utility in a manner satisfactory to the City and at the utility's expense.

(B) **Emergency Maintenance Procedures.** Emergencies may justify noncompliance with normal procedures for securing a permit:

- (1) If an emergency creates a hazard on the traveled portion of the right-of-way, the utility shall take immediate steps to provide all necessary protection for traffic on the highway or the public on the right-of-way including the use of signs, lights, barricades or flags. If a hazard does not exist on the traveled way, but the nature of the emergency is such as to require the parking on the shoulder of equipment required in repair operations, adequate signs and lights shall be provided. Parking on the

shoulder in such an emergency will only be permitted when no other means of access to the facility is available.

- (2) In an emergency, the utility shall, as soon as possible, notify the City Engineer or Director of Public Works or his or her duly authorized agent of the emergency, informing him or her as to what steps have been taken for protection of the traveling public and what will be required to make the necessary repairs. If the nature of the emergency is such as to interfere with the free movement of traffic, the City police shall be notified immediately.
- (3) In an emergency, the utility shall use all means at hand to complete repairs as rapidly as practicable and with the least inconvenience to the traveling public.

(C) **Emergency Repairs.** The utility must file in writing with the City a description of the repairs undertaken in the right-of-way within **forty-eight (48) hours** after an emergency repair.

33-4-21 VARIANCES.

(A) **Request for Variance.** A utility requesting a variance from one or more of the provisions of this Article must do so in writing to the City Engineer or Director of Public Works as a part of the permit application. The request shall identify each provision of this Article from which a variance is requested and the reasons why a variance should be granted.

(B) **Authority to Grant Variances.** The City Engineer or Director of Public Works shall decide whether a variance is authorized for each provision of this Article identified in the variance request on an individual basis.

(C) **Conditions for Granting of Variance.** The City Engineer or Director of Public Works may authorize a variance only if the utility requesting the variance has demonstrated that:

- (1) One or more conditions not under the control of the utility (such as terrain features or an irregular right-of-way line) create a special hardship that would make enforcement of the provision unreasonable, given the public purposes to be achieved by the provision; and
- (2) All other designs, methods, materials, locations or facilities that would conform with the provision from which a variance is requested are impracticable in relation to the requested approach.

(D) **Additional Conditions for Granting of a Variance.** As a condition for authorizing a variance, the City Engineer or Director of Public Works may require the utility requesting the variance to meet reasonable standards and conditions that may or may not be expressly contained within this Article but which carry out the purposes of this Article.

(E) **Right to Appeal.** Any utility aggrieved by any order, requirement, decision or determination, including denial of a variance, made by the City Engineer or Director of Public Works under the provisions of this Article shall have the right to appeal to the City Council, or such other board or commission as it may designate. The application for appeal shall be submitted in writing to the City Clerk within **thirty (30) days** after the date of such order, requirement, decision or determination. The City Council shall commence its consideration of the appeal at the Council's next regularly scheduled meeting occurring at least **seven (7) days** after the filing of the appeal. The City Council shall timely decide the appeal.

33-4-22 PENALTIES. Any person who violates, disobeys, omits, neglects or refuses to comply with any of the provisions of this Article shall be subject to fine in accordance with the penalty provisions of this Code. There may be times when the City will incur delay or other costs, including third party claims, because the utility will not or cannot perform its duties under its permit and this Article. Unless the utility shows that another allocation of the cost of undertaking the requested action is appropriate, the utility shall bear the City's costs of damages and its costs of installing, maintaining, modifying, relocating, or removing the facility that is the subject of the permit. No other administrative agency or commission may review or overrule a permit related cost apportionment of the City. Sanctions may be imposed upon a utility that does not pay the costs apportioned to it.

33-4-23 ENFORCEMENT. Nothing in this Article shall be construed as limiting any additional or further remedies that the City may have for enforcement of this Article.

(Ord. No. 14-2017; 07-24-17)

ARTICLE V - IMPROVEMENTS

33-5-1 SIDEWALKS.

(A) Grade. No sidewalk shall be built above or below the established grade of this City, and in all cases where no grade is established, any person building a sidewalk shall build the same according to the instructions of the Street Committee of the City Council.

(B) Permit. It shall be unlawful for any person, company, partnership, or individual to build, lay or construct any sidewalk along any property in the City, or along any of the streets, alleys, or public highways thereon, without first obtaining a permit from the City Clerk to do so.

(D) Request for New Sidewalks. Any owner of property who desires new sidewalks constructed upon City property adjoining his premises, and who agrees to pay the cost of the material, the City shall provide the labor for the construction of the sidewalks, and the applicant shall file a written request with the City Clerk, giving the location of the property and the dimensions of the sidewalks requested. Upon approval of the request by the City Council, and the payment of the costs of the materials, the City shall construct the sidewalks. (65 ILCS 5/11-80-13)

33-5-2 CURBS AND GUTTERS.

(A) Request in Writing. Any person owning property within the City who desires to have new curbs and gutters constructed along the street adjoining his premises shall file a request with the City Clerk, giving the location of the property and the length of the curb and gutters requested.

(B) Cost to Owner. If the funds are available and the City Council approves the request, the property owner shall pay **one-half (1/2)** of the cost of the construction and thereafter, the curb and gutter will be constructed by the City. The cost of construction shall not include any engineering fees; these shall be paid by the City.

(C) Approval by City Council. The approval of the request for construction of curbs and gutters by the City Council shall be dependent upon the approval of funds, priority of projects and continuity of construction for the best benefit of the City as determined by the City Council.

(D) Subdivisions. This is not applicable to new subdivisions.
65 ILCS 5/11-80-11)

33-5-3 STORM SEWERS.

(A) Description of Storm Water Sewers. Storm water sewers shall be any pipe or sewer used for the carrying of surface drains, ground waters, roof leaders or storm waters, rain waters, or other waters other than sanitary sewage.

(B) Supervision. The Superintendent of the Water and Sewer Departments shall supervise all connections made to the public storm sewer system or excavations for the purposes of installing or repairing the same.

(C) Permits. Before any connection is made to the public storm water sewers, a permit shall be applied for and approved by the Superintendent or his designated representative.

CHAPTER 34

SUBDIVISION CODE

ARTICLE I – SCOPE AND PURPOSE

34-1-1 **TITLE.** This Code shall be known, referred to, and cited as "**The Subdivision Code**".

34-1-2 **SCOPE.** For the purpose of present and future development of the City and for the promotion of the public health, safety, comfort, morals and welfare of persons living within the territory governed, the provisions and regulations hereafter contained shall govern the subdividing and platting of lands lying within the corporate limits of the Municipality and within all unincorporated territory located within **one and one-half (1 1/2) miles** of the Municipality, as now or hereafter existing, except as otherwise provided in this Code. Within the area of jurisdiction of the City, the provisions of the Statutes of the State of Illinois are hereby adopted as part of the **Official Plan of the City**.

This Code prescribes procedures for the subdivision or resubdivision of land within the area of jurisdiction of the City and comprises the procedures, requirements, standards, and specifications with respect thereto.

(65 ILCS 5/11-12-9)

34-1-3 **PURPOSE.** In accordance with State law, this Chapter regulates the subdivision and development of land in order to assist in achieving the following specific objectives:

- (A) To preserve, protect, and promote the public health, safety and welfare;
- (B) To implement the **City Comprehensive Plan and the Official Map**;
- (C) To provide a pleasant living environment by furthering the orderly layout and development of land;
- (D) To avoid legal and other problems by requiring that subdivided land be properly monumented and recorded;
- (E) To conserve and increase the value of land, improvements, and buildings throughout the City;
- (F) To preserve the City's natural beauty and topography to the maximum feasible extent;
- (G) To protect against injury or damage caused by pollution, storm water runoff, or erosion and sedimentation;
- (H) To provide safe and convenient access to new developments and to avoid traffic congestion and unnecessary public expenditures by requiring the proper location, design, and construction of streets and sidewalks;
- (I) To insure the proper installation and maintenance of adequate water mains, sanitary sewers, storm water sewers, and other utilities and services; and
- (J) To insure that in conservation areas, adequate parks and similar facilities can be made available to serve the residents of new developments.

(65 ILCS 5/11-12-8 through 5/11-12-12; 765 ILCS 205/1, et seq.)

34-1-4 **INTERPRETATION.** This Code is intended as **Minimum Requirements** to provide for coordinated, efficient, and economic development of the City, to insure the adequacy of street and utility facilities, and to promote the public health, safety and welfare.

Thus, in accordance with State law, whenever this Chapter imposes higher standards than the County Subdivision Ordinance and the Plat Act, Chapter 109, the higher standards shall supersede the County regulations in the unincorporated territory located within the subdivision jurisdiction of the City.

34-1-5 APPLICATION OF CODE. No lot, tract, or parcel of land in a subdivision, as defined herein, may be conveyed unless a Final Plat of the property has been approved according to the requirements and provisions of this Code and recorded in the office of the County Recorder of Deeds, except in those instances listed in **Section 34-1-9** when subdivision plats will not be required.

34-1-6 SUITABILITY OF LAND FOR SUBDIVISION DEVELOPMENT. Land unsuitable for subdivision development due to drainage, flood hazard area, hillside area, rock formation or any other condition(s) constituting a danger to health, life or property shall not be approved for subdivision development unless the subdivider presents evidence or data satisfactory to the Plan Commission, establishing that the methods proposed to meet any such condition(s) are adequate to avoid any danger to health, life, or property.

34-1-8 **ADOPTION BY REFERENCE.** All definitions not otherwise noted contained in the Zoning Code and The Revised Code of Ordinances are hereby adopted by reference.

34-1-9 **SUBDIVISION PLATS WILL NOT BE REQUIRED.** The provisions of these regulations do not apply and no subdivision plat is required in any of the following instances, provided, however, all of the resulting divisions shall conform to the Zoning Code:

(A) The division or subdivision of land into parcels or tracts of **five (5) acres** or more in size which does not involve any new streets or easements of access;

(B) The division of lots or blocks of less than **one (1) acre** in any recorded subdivision which does not involve any new streets or easements of access;

(C) The sale or exchange of parcels of land between owners of adjoining and contiguous land;

(H) The sale of a single lot of less than **five (5) acres** from a larger tract when a plat of a survey is made by a registered surveyor; provided that this exemption shall not apply to the sale of any subsequent lots from the same larger tract of land, as determined by the dimensions and configuration of the larger tract on **October 1, 1973**, and provided also that this exemption does not invalidate any local requirements applicable to the subdivision of land; and

(I) The division of land for cemetery usage.

Under the circumstances when subdivision plats are not required as described above, the Plan Commission reserves the right to request a plat of survey or other documentation if there is a need for said survey or documentation in order to verify conformance to the Zoning Code and/or to insure that the division of property is in accordance with the purpose and objectives of the Code as listed in **Section 34-1-3**.

34-1-10 DISCLAIMER OF LIABILITY.

(A) Except as may be provided otherwise by statute or ordinance, no official, council member, agent or employee of the City shall render himself personally liable for any damage that may accrue to persons or property as a result of any act required or permitted in the discharge of his duties under this Chapter. **(See “Local Governmental Employees Tort Immunity Act”, 745 ILCS 10/1-101)**

ARTICLE II - PRELIMINARY PLAT

DIVISION I - PROCEDURE

34-2-1 PRE-APPLICATION CONFERENCE. Before submitting a preliminary plan and plat, the applicant is encouraged to confer with the Administrator and the Plan Commission and other official units of government affected thereby as well as those providing services to the area in question to initiate pre-planning activities and obtain information and guidance before entering into binding commitments or incurring substantial expense in the preparation of detailed plans, surveys and other data.

34-2-2 APPLICABILITY OF ARTICLE. No land within the subdivision jurisdiction of the City--other than land that is specifically exempted from the requirements of this Code as provided in **Section 34-1-9**--shall be subdivided or developed except in compliance with the regulations of this Code and the applicable provisions of State law. **No lot** in any subdivision shall be conveyed until:

(A) The portion of the subdivision in which the lot is located has been improved in accordance with the requirements of this Article or until a performance bond or other security has been posted to assure the completion of such improvements; and

(B) The final plat of the subdivision has been approved by the City Council and recorded in the office of the County Recorder of Deeds.

No building permit shall be issued to allow construction on any lot conveyed in violation of this Section.

34-2-3 MINOR SUBDIVISIONS. Minor subdivisions, as defined in **Section 34-1-7**, may be exempted from the procedures and requirements for Preliminary Plats and the subdivider may proceed to filing of the Final Plat for review. Final Plat procedures and requirements shall be as specified in **Article IV, Sections 34-4-1 and 34-4-4**.

34-2-4 PRELIMINARY PLAN AND PLAT.

34-2-4.1 SUBDIVIDER. The subdivider shall file with the City at the office of the Administrator **ten (10) copies** of the Preliminary Plan and Plat at least **ten (10) days** prior to the regularly scheduled Plan Commission meeting. Such application shall include the following:

(A) **Requested Information.** A written request to the Plan Commission for preliminary review of such subdivision and a general description of the location and size of the tract to be platted; the intent as to character type and use of the property and structures to be developed; the deed restrictions proposed, if any; a statement of mineral rights; the extent and character of the improvements to be made by the subdivider, the zone district classification(s) of the territory and compliance of the proposed subdivision thereto. If appropriate, a description of any unique hardship or difficulty limiting the physical development of the property under consideration and a description of any past history of the property under consideration which is pertinent thereto.

(B) **Documentation.** The necessary documentation in accordance with the requirements of this Code. **(See Sec. 34-2-6, et seq.)**

(C) **Filing Fee.** A filing fee sufficient to cover the engineering inspection fees to be incurred by the City.

34-2-4.2 PROCEDURE.

(A) **Distribute Copies.** The Administrator shall immediately distribute a copy to the City Superintendent(s); a copy to the School Superintendent(s); a copy to the Soil and Water Conservation Service; a copy to the City Engineer; a copy to the Mayor; **two (2) copies** to the Plan Commission; and a copy to the Fire Chief.

(B) **Time Constraints.** The Commission shall review the Preliminary Plat within **sixty (60) days** from the date of application or the filing by the subdivider of the last item of required supporting data, whichever date is later, unless such time is extended by written mutual consent, and shall determine whether the Preliminary Plat shall be approved as submitted; shall be approved subject to certain conditions or modifications; or shall be disapproved.

(C) **Plan Commission Review.** The action of the Plan Commission shall be noted in writing, and if such Preliminary Plat is disapproved or is conditionally approved, the Commission shall furnish written notice of such action to the applicant setting forth the reasons for disapproval or conditional approval and specifying with particularity the aspects in which the Preliminary Plat fails to conform to the City's Code including the Comprehensive Plan.

(D) **City Council Review.** The City Council shall accept or reject the Preliminary Plat within **thirty (30) days** after its next regularly scheduled meeting following the action granting approval of the Preliminary Plat by the Commission, unless such time is extended by written mutual agreement of the City Council and the applicant, or such Preliminary Plat will be deemed as approved. The City Council shall indicate by letter whether the Preliminary Plat is approved or disapproved as submitted. If the Preliminary Plat is disapproved, the letter shall state the reasons for disapproval.

(E) **Official Approval.** A certified copy of the letter of approval or disapproval by the City Council shall be attached to the Preliminary Plat and shall be filed with the City Clerk; **one (1)** such copy shall be filed with the Administrator and **one (1) copy** shall be returned to the subdivider. Approval of the Preliminary Plat shall not qualify the Preliminary Plat for recording with the County Recorder of Deeds.

(F) **Rights and Privileges of Subdivider.** Preliminary Plat approval shall confer upon the subdivider the following rights and privileges:

- (1) That the Preliminary Plat approval will remain in effect for a **one (1) year** period. The applicant may, during this period, submit all of or part or parts of said Preliminary Plat for final approval. In the event that the subdivision is being developed in stages, the applicant may, by written mutual agreement with the Plan Commission, have final approval of the last part of the Plat delayed for a period not to exceed **three (3) years** from the date of the Preliminary Plat approval. Any part of a subdivision which is being developed in stages shall contain a tract of land at least **one (1) block** in length.
- (2) That the general terms and conditions under which the Preliminary Plat approval was granted will not be changed.

34-2-5 RESERVED.

DIVISION II - PRELIMINARY PLAT REQUIREMENTS

34-2-6 REQUIREMENTS. Every Preliminary Plat shall be prepared by a land surveyor registered in the State of Illinois. The Preliminary Plat to be provided by the subdivider **shall meet and include** the following specifications and supporting data:

(C) Names and addresses of the owner, subdivider, land planning consultant and the Illinois Registered Land Surveyor who prepared the Preliminary Plat.

(D) Existing and proposed streets or alleys and rights-of-way on and adjoining the site of the proposed subdivision; showing the names and including street roadway and right-of-way widths, approximate gradients, types and widths of pavement, curbs, sidewalks, crosswalks, planting strips and other pertinent data, including classification of all streets as to function as established herein.

(E) All lot lines adjacent to and abutting the subdivision.

(F) Layout of lots, showing approximate dimensions, numbers, lot area, and zone district classification(s).

(J) Location and size of existing public utilities and drainage ways or facilities within or adjoining the proposed subdivision and the location and size of nearest water trunk mains, interceptor sewer lines and other pertinent utilities.

(K) Location, type and approximate size of utility improvements to be installed.

(L) Tract boundary lines showing dimensions, bearings, angles and references to known land lines.

(M) The gross area and net area acreage of the proposed subdivision, the acreage of streets, and of any areas reserved for the common use of the property owners within the subdivision and/or for public use.

(N) A topographical map which shall show topographically and by profile the elevation of the land prior to the commencement of any change in elevations as a part of any phase of subdividing, and additionally, if it is contemplated that such elevation or the flow of surface water from such land, will be changed as a result of any portion of such subdivision development, then such study shall also show such proposed changes in the elevations and the flow of surface water from such land. The topographical study required hereunder may be prepared as a study separate from, but of the same scale and size of the subdivision plat.

The Plat shall include a signed statement of a registered Professional Engineer, and the owner of the land, that to the best of their knowledge, the drainage of surface waters will not be changed by the construction of such subdivision or any part hereof, or, that if such surface water drainage will be changed, reasonable provision has been made for collection and diversion of such surface waters into public areas, or drains which the owner has a right to use, and that such surface water will be planned for in accord with generally accepted engineering practices so as to reduce the likelihood of damage to the adjoining property because of the construction of the subdivision. **(Ord. No. 36-2005; 07-25-05)**

(O) Location of major water courses, ponding areas, natural drainage ways and flood hazard areas.

(P) The Preliminary Plan shall be drawn to a scale of not greater than **one hundred feet to one inch (100' = 1")**, provided, however, that if the resulting drawing would be over **forty-two (42) inches (42") square**, a scale of up to **two hundred feet to one inch (200' = 1")** may be used.

(R) Whenever a large tract is intended to be developed in stages, and only part of that tract is to be submitted for Final Plat approval, a Preliminary Plat for subdivision of the entire tract shall be submitted.

DIVISION III - MINIMUM STANDARDS OF DESIGN

34-2-9 GENERAL STATEMENT. The subdivider shall conform to the following principles and standards of land subdivision in the design of each subdivision or portion thereof. No Preliminary Plat shall be approved unless it conforms to the following minimum standards of design.

34-2-10 STREETS AND ALLEYS.

(A) The street and alley arrangement shall be such as to not impose undue hardship upon the owners of adjoining property when they plat their own land and seek to provide for convenient access thereto. Reserve strips controlling access to streets are prohibited, except where their control is placed with the City Council.

(B) The arrangement of rights-of-way in a subdivision shall provide for the continuation of the existing streets or rights-of-way in adjoining areas, unless the Plan Commission deems such continuation undesirable for reasons of topography or design. Where subdivision streets or rights-of-way are continuations or extensions of existing streets or rights-of-way, the width thereof shall be of the same or greater width as the existing street or right-of-way, except that in no case shall the street or right-of-way in the subdivision be of less width than hereinafter provided.

(C) Where, in the opinion of the Plan Commission, it is desirable to provide future street access to adjoining areas, the streets and rights-of-way in the subdivision shall be extended to the property line. If deemed necessary by the Plan Commission, any temporary dead-end street shall be provided with a temporary turnaround. In no case shall access be denied to any parcel or part of a parcel of ground by the subdividing of land.

(D) Streets shall intersect, as nearly as possible, at right angles.

(E) Local street curb intersections shall be rounded by radii of at least **fifteen (15) feet**; intersections involving collector or arterial streets shall have radii of not less than **twenty-five (25) feet**.

(F) Street jogs with center line offsets of less than **one hundred twenty-five (125) feet** are prohibited.

(G) Unless topography indicates a need for a greater length, dead-end streets designed to be so permanently shall be no longer than **five hundred (500) feet** and shall terminate in a circular open space having a radius at the outside of the pavement of at least **forty-two (42) feet** and a diameter at the outside of the right-of-way of at least **one hundred (100) feet**.

(H) Local streets shall be designed so as to discourage through traffic.

(I) No local street grade shall be in excess of **ten percent (10%)** and no collector street or arterial street grade shall be in excess of **seven percent (7%)**, except as otherwise approved by the Plan Commission due to adverse topographic conditions. For adequate drainage, the minimum grade of any new street shall not be less than **one-half of one percent (0.5%)**.

(J) The Plan Commission **shall not** approve streets which will be subject to frequent inundation or flooding.

(K) Alleys shall be avoided in a single-family and two family district, except as required by this Section, however, may be required in multiple-family districts and commercial or industrial districts, unless other definite and assured provision is made for service access, such as off-street loading, unloading and parking consistent and adequate for the use proposed.

(L) Dead-end alleys shall not be permitted, except where provided with adequate turnaround facilities at the dead end, or where such dead-end alleys provide the only access to off street parking.

(M) Alleys, where provided, shall have a right-of-way of not less than **twenty (20) feet**.

(N) The minimum right-of-way of local streets, minimum including marginal access streets and cul-de-sacs, shall be **fifty (50) feet**.

(O) The minimum right-of-way of secondary or collector streets shall be **sixty (60) feet**.

(P) The minimum right-of-way of arterial or primary streets shall be **eighty (80) feet**.

(Q) Intersections of more than **two (2) streets at one (1) point** shall be avoided.

(R) Where the subdivision abuts in or contains an existing or proposed arterial street, the Plan Commission may require that marginal access streets be provided in order that no lots front on such existing or proposed arterial street.

(S) Dedication of half-streets shall be discouraged, but may be permitted whenever there is no other logical method of platting. However, wherever there exists a dedicated or platted half-street or alley adjacent to the tract to be subdivided, the other half of the street or alley shall be platted, unless otherwise permitted by the Plan Commission.

34-2-11 DRAINAGE. No plat shall be approved for any subdivision which is subject to flooding unless the plat conforms to the applicable requirements of this Code. **(See Chapter 5, "Flood Plain Code")**

(A) No plat shall be approved for any subdivision or part thereof which is subject to periodic flooding or which contains inadequate drainage facilities or which makes adequate drainage of streets impossible. However, if the subdivider agrees in writing to make improvements at his expense which will, in the opinion of the Plan Commission, make the area safe for human occupancy and use further provide adequate drainage for streets, then the preliminary and final plat may be approved.

(B) Storm water drainage shall be discharged to marsh lands, swamps, retention basins, or other treatment facilities. Diversion of storm water to marshlands or swamps shall be considered by the Plan Commission for existing or planned surface drainage. Marshlands and swamps used for storm water shall provide for natural or artificial water level control.

(C) No existing ditch, stream, drain or drainage canal shall be deepened, widened, filled, rerouted or filled without written permission from the City.

(D) Where artificial channels must be constructed to augment the natural drainage system, such channels as well as the natural drainage ways may be planned as part of a recreational trail system. Channels shall be designed to be aesthetically compatible for recreational trail use.

(E) The drainage system shall be constructed and operational during construction or as approved by the City.

(F) The natural drainage system shall be used as far as is feasible for the storage and flow of runoff.

(G) No plat shall be recorded for any subdivision situated within **five hundred (500) feet** of any surface drain or watercourse serving a tributary area of **six hundred forty (640) acres** or more, until such plan or map has been reviewed by the Department of Transportation, either independently or in cooperation with Federal, State or local agencies, for the purpose of determining, for the protection of persons and property, the flood hazards involved and a report thereon filed by that Department with the County Recorder.

34-2-12 EROSION AND SEDIMENT CONTROL. The following standards shall be applied in the subdivision and construction of land areas:

(A) The development shall conform to the natural limitations presented by topography and soil so as to create the least potential for soil erosion.

(B) Natural plant covering shall be retained and protected so far as is consistent with development of the site.

(C) When soil is exposed, the exposure shall be for the shortest feasible period of time.

(D) Land shall be developed in increments of workable size, such that adequate erosion and siltation controls can be provided as construction progresses. The smallest practical area of land shall be exposed at any one period of time.

(E) Erosion and siltation control measures shall be coordinated with the different stages of development. Appropriate control measures shall be installed prior to development when necessary to control erosion.

(F) Provision shall be made to effectively accommodate the increased runoff caused by changed soil and surface conditions during and after development.

(G) Sediment basins, debris basins, desilting basins, or silt traps shall be installed and maintained to remove sediment from runoff waters undergoing development.

(H) Temporary vegetation or, where appropriate, mulching or other non-viable cover shall be used to protect areas exposed during development.

(I) Where the topsoil is removed, sufficient arable soil shall be set aside for respreading over the developed area. The soil shall be restored to a depth of **four (4) inches** and shall be of a quality at least equal to the soil quality prior to development.

(J) Permanent final plant covering or structures shall be installed as soon as possible.

34-2-13 EASEMENTS.

(A) Easements of not less than **seven and one-half (7 ½) feet in width** shall be provided on each side of all rear lot lines, and alongside lot lines where necessary for storm and sanitary sewers, gas, water, and other mains, and for electric and telephone lines or for other public utilities. Easements of greater width may be required along or across lots when necessary for the extension of main sewers or other utilities or where both water and sewer lines are located in the same easement. A **two (2) foot** easement shall be required on **one (1) side** of and adjacent to an alley to accommodate pole lines.

(B) Adequate easements for storm water drainage shall be established along any natural drainage channel and in such other locations as may be necessary to provide satisfactory disposal of storm water from streets, alleys, and all other portions of the subdivision. The location and minimum widths of such easements shall be determined by the Administrator.

(C) No tree, shrub or building shall be placed or erected in any easement for utility or drainage purposes or within the right-of-way of any street, except at the owner's risk as to all costs for demolition, removal or reconstruction, and the proper authorities may have free access to and use of the easements at any time.

34-2-14 BLOCKS - CROSSWALKS.

(A) No block shall be longer than **one thousand eight hundred (1,800) feet** or less than **five hundred (500) feet in length**, except where the continuity of the existing neighborhood would be disrupted.

(B) All blocks, whenever it is deemed essential to provide access to schools, playgrounds, shopping centers and other community facilities, shall have a crosswalk with a right-of-way of at least **ten (10) feet in width** near the center of the block. **[See Sec. 34-3-12(B)]**

(C) The length, width, and shapes of blocks shall be determined with due regard to building sites, land use, zoning requirements, access, safety, and convenience.

(D) Where a subdivision adjoins an arterial or collector street, the greater dimension of the block shall generally front or back upon such arterial or collector street to avoid unnecessary ingress or egress.

34-2-15 PARKS AND OTHER PUBLIC AREAS.

(A) Where any area is specifically designated on the Comprehensive Plan of the City for a public park, playground, school or other public use, and is owned by the subdivider, such area shall be reserved for such use on all subdivision plans and plats; and the acquisition of such area may then be secured by the City Council or arrangements be made for its acquisition within a period not to exceed **one (1) year** from the date of approval of the final plan. The value of such lands shall be established by

three (3) qualified appraisers; one (1) of whom shall be appointed by the Plan Commission, **one (1)** appointed by the subdivider, and one of whom shall be mutually agreed upon by the other **two (2)**.

(B) Should the City Council decide to take such premises, then, and in that case, it shall make arrangements to pay the subdivider the appraised value therefor as determined by the above described appraisers, or a sum that is mutually agreed upon. The City Council may accept any donation of land as above described should the subdivider desire to contribute the same to the City.

34-2-16 UTILITIES.

(A) Source of domestic water, electric and gas supply and the type of sewage disposal.

(B) Storm water drainage.

(1) Complete storm sewer system, including pipe sizes, inlets and inverts.

(2) A proposed surface water drainage pattern for each individual lot, block, and street.

(C) All easements as required shall be indicated.

(D) **Protective Covenants.** An outline of all proposed protective covenants shall accompany the preliminary plan and shall include a protection against the obstruction of any surface water drainage easement.

34-2-17 LOTS.

(A) **Minimum Size.** All lots in a subdivision shall conform to the minimum lot area and dimensions requirements of the zoning district in which the subdivision is located; land that is under water or reserved for street improvements shall not be counted in determining compliance with requirements. **(See Zoning Code)**

(B) The lot arrangement and design shall be such that all lots will provide satisfactory and desirable building sites, properly related to topography and the character of surrounding development.

(C) All side lines of lots shall be at right angles to straight street right-of-way lines and radial to curved street right-of-way lines, except where a variation of this rule will provide a better street and lot design.

(D) All remnants of lots below minimum lot area size left over after subdividing of a larger tract shall be added to adjacent lots, rather than allowing to remain as unusable land, except when designated for utility purposes or accepted for public space for park or other public uses.

(E) Lots which **cannot** be served by either a public or private sanitary sewer, and/or a public water system, shall comply with the applicable provisions of the applicable Zoning Code, or shall not be less than **one (1) acre** in size per lot or household unit, whichever is greater. Such lots shall have a width of not less than **one hundred twenty-five (125) feet** or a depth in excess of **three (3) times** its width, unless otherwise permitted and approved by the Plan Commission.

(F) Lots with double frontage should be avoided where possible. Corner lots and lots with double frontage shall have extra dimension sufficient to permit the establishment of front building setback lines on the adjoining streets.

(G) The subdividing of the land shall be such as to provide each lot with satisfactory access to public streets. The Plan Commission may require additional reservation of land to insure adequate access to prevent land locking of the adjoining territory.

34-2-18 - 34-2-19 RESERVED.

DIVISION IV - APPROVAL OF PRELIMINARY PLAN

34-2-20 CHECKLIST COMPLETED. In order to qualify for approval, the Preliminary Plan shall be accompanied by a properly executed checklist as shown in **Section 34-6-1, Schedule "A"**.

34-2-21 CHANGES OR REVISIONS. The Plan Commission and/or Administrator may recommend, or the City Council may require, such changes or revisions as are deemed necessary in the interests and needs of the community.

34-2-22 APPROVAL - TENTATIVE. The approval of a preliminary plan by the Plan Commission and the City Council is tentative only, involving merely the general acceptability of the layout as submitted.

34-2-23 CERTIFICATE. Approval shall consist of a certificate to that effect on the preliminary plan signed by the Chairman of the Plan Commission and by the Mayor, with the advice and consent of the City Council.

ARTICLE III - ENGINEERING PLANS

DIVISION I - PROCEDURE

34-3-1 ENGINEERING PLAN PROCEDURE. Within **twelve (12) months** after receiving approval of the Preliminary Plan by the City Council, there shall be submitted to the Administrator by the subdivider, **four (4) copies** of the engineering plans and specifications as required in **Division II** of this Article. The Administrator shall immediately refer **two (2) copies** to the Plan Commission and **two (2) copies** to the Mayor and shall notify the City Council of this action at the next regular City Council meeting. In the event of a special problem, the Plan Commission shall notify the owner or subdivider of the time and place at which he shall be afforded an opportunity of being heard. The Plan Commission shall make its recommendation to the City Council within **forty-five (45) days** after receipt of the engineering drawings and specifications. In the event of disapproval of the engineering plans and specifications by the Plan Commission, the same shall be immediately returned so marked to the Administrator for return to the subdivider, and may be refiled with the Administrator after necessary revisions are made.

34-3-2 - 34-3-3 RESERVED.

DIVISION II - MINIMUM STANDARDS OF IMPROVEMENT

34-3-4 GENERAL STATEMENT. Utility and street improvements shall be provided by the subdivider in each new subdivision in accordance with the standards and requirements described in the following section. The requirements set forth below shall be considered as minimum requirements and nothing contained herein shall be construed to mean that the subdivider cannot construct or provide improvements of a higher type.

34-3-5 REFERENCE MONUMENTS. Permanent monuments shall be of concrete, **four by four by thirty inches (4" x 4" x 30")** with a **one-half (1/2) inch** iron pin cast in the center, set in such a manner that they will not be moved by frost and shall be placed in the field as required by the **Illinois Compiled Statutes**.

All lot corners shall be marked by **one-half (1/2) inch** iron pins not less than **thirty (30) inches** in length and driven into the ground and shall not protrude above the ground surface more than **one and one-half (1 ½) inches**.

These monuments must be placed at all corners, at the end of all curves, at the point where a curve changes its radius, at all angle points along a meander line, the points to be not less than **twenty (20) feet** back from the normal water elevation of a lake or from the bank of a stream, except that when such corners or points fall within a street or proposed future street, the monuments must be placed in the right-of-way line of the street. All internal boundaries, corners and points must be monumented in the field by like monuments as defined above.

34-3-6 STREET IMPROVEMENTS. All streets shall be graded as hereinafter provided:
(A) **New Streets.** All new streets, which are created and dedicated for use within a subdivision, shall be graded, drained and surfaced in accordance with the minimum requirements hereinbelow set forth and in a manner which will provide complete and adequate drainage of all the streets, alleys, and public grounds which may be necessary in order to provide adequate and satisfactory drainage along the side of any existing public street which lies adjacent to the subdivision.

In general, all such new streets within the subdivision and all work to be undertaken thereon shall be designed and constructed according to the specifications adopted by the **State of Illinois Department of Transportation**; as the same are in effect at the time the Preliminary Plat and plans for such improvement work are submitted for approval.

(B) **Grading Roadway and Side Slopes.** The roadway shall be considered to be that part of the improvement which lies between the right-of-way lines, and which roadway shall not be less than **fifty (50) feet in width** on local streets and **sixty (60) feet** on collector streets.

(C) **Combination Concrete Curb and Gutter.** Combination concrete curb and gutter shall be built in accordance with the detail shown on **Figure 3**.

The minimum distance from back to back of curbs shall be **thirty-eight (38) feet** on local streets and **forty-two (42) feet** on collector streets.

(D) **Street Construction Standards.** All streets within the jurisdictional authority of the City, other than State highways, shall be improved with pavements bounded by integral concrete curbs and gutter, in accordance with the following criteria:

(1) Specifications are as follows:

Within **sixty (60) days** of the approval of the Final Plat, one of the following shall be completed:

- (A) Deposit with the City a subdivider's bond in the amount of the estimated cost of the land improvements; said bond need never exceed **one and one-half (1 ½) times** the estimated cost of the improvements remaining to be completed; or

All expenses incurred in determining the amounts apportioned against the land and the cost of releasing each lot or tract shall be paid by the subdivider; or
- (D) Deposit with the City other collateral equivalent to **one and one-half (1 ½) times** the estimated cost of land improvements yet remaining to be installed, such collateral to be approved by the City Council.

34-4-12 CONSTRUCTION TIME CONSTRAINTS. All required land improvements shall be installed and completed within a period of **two (2) years** after the recording of the Final Plat. Failure of the subdivider to complete all of the improvements within this **two (2) year** period shall result in forfeiture of the guarantee collateral unless an extension of time is requested by the subdivider and granted by the City Council. In the event of failure to complete the improvements in the required period, as stated above, the City Council may direct that no further building permits be issued for property in such subdivision pending satisfaction of the City Council in regard to the status of the required land improvements.

34-4-13 INSPECTION. All required land improvements to be installed under the provisions of this Chapter shall be checked during the course of construction, by or at the direction of the Administrator or his designated representative.

- (A) To review and forward preliminary and final plats to the Plan Commission;
- (B) To transmit improvement plans to the City Engineer for his review;
- (C) To issue stop orders as necessary when the City Engineer determines that approved improvements are being constructed in violation of this Code;
- (D) To pursue actions authorized in this Code when a developer fails to complete required improvements;
- (E) To evaluate and make decisions concerning proposed minor changes in approved final plats;
- (F) To review and forward applications for subdivision variances to the Plan Commission;
- (G) To periodically review the provisions of this Code to determine whether revisions are needed, and to make recommendations on such matters to the Plan Commission as necessary;
- (H) To maintain up-to-date records of matters pertaining to this Code, including, but not limited to, preliminary plats, as-built records of completed improvements, final plats, variances, and amendments; and
- (I) To provide information to subdividers/developers and to the general public on matters related to this Code.

A copy of their decision, clearly stating their reasons therefor and the exact terms of any variance granted shall be attached to both the preliminary and final plats. The City Council shall not grant any subdivision variance unless, based upon the information presented to them, they determine that:

- (1) the proposed variance is consistent with the general purposes of this Code; and
- (2) strict application of the subdivision design and improvement requirements would result in great practical difficulties or hardship to the applicant, not a mere inconvenience; and
- (3) the proposed variance is the minimum deviation from the subdivision requirements that will alleviate the difficulties/ hardship; and
- (4) the plight of the applicant is due to peculiar circumstances not of his own making; and
- (5) the peculiar circumstances engendering the variance request are not applicable to other tracts, and therefore, that a variance would be a more appropriate remedy than an amendment; and
- (6) the variance, if granted, will not substantially impair implementation of the City Community Plan, if any, including the Official Map.

34-5-3 AMENDMENTS. Amendments to this Code may be proposed by the Administrator, any member of the City Council, any Plan Commission member, or any party in interest. Every amendment proposal shall be filed on a prescribed form in the Administrator's office. 36-2-2 **SCOPE.** The provisions of this Code shall apply to the City's procedures in connection with all of the City's locally imposed and administered taxes.

36-2-3 **DEFINITIONS.** Certain words or terms herein shall have the meaning ascribed to them as follows:

(A) **Act.** "Act" means the "Local Government Taxpayers' Bill of Rights Act".

(D) **Local Tax Administrator.** "Local Tax Administrator", the City's Treasurer, is charged with the administration and collection of the locally imposed and administered taxes, including staff, employees or agents to the extent they are authorized by the local tax administrator to act in the local tax administrator's stead. The local tax administrator shall have the authority to implement the terms of this Code to give full effect to this Code. - (B) second to the interest due for the applicable period; and
- (C) third to the penalty for the applicable period.

36-2-7 **CERTAIN CREDITS AND REFUNDS.**

(A) The City shall not refund or credit any taxes voluntarily paid without written protest at the time of payment in the event that a locally imposed and administered tax is declared invalidly enacted or unconstitutional by a court of competent jurisdiction. However, a taxpayer shall not be deemed to have paid the tax voluntarily if the taxpayer lacked knowledge of the facts upon which to protest the taxes at the time of payment or if the taxpayer paid the taxes under duress.

(B) The statute of limitations on a claim for credit or refund shall be **four (4)** or less years after the end of the calendar year in which payment in error was made. The City shall not grant a credit or refund of locally imposed and administered taxes, interest, or penalties to a person who has not paid the amounts directly to the City.

- (2) Within **ten (10) days** of the receipt by the local tax administrator of any claim for a refund or credit, the local tax administrator shall either:

36-2-8 **AUDIT PROCEDURE.** Any request for proposed audit pursuant to any local administered tax shall comply with the notice requirements of this Code.

(A) Each notice of audit shall contain the following information:

- (1) the tax;
- (2) the time period of the audit; and
- (3) a brief description of the books and records to be made available for the auditor.

(B) Any audit shall be conducted during normal business hours and if the date and time selected by the local tax administrator is not agreeable to the taxpayer, another date and time may be requested by the taxpayer within **thirty (30) days** after the originally designated audit and during normal business hours.

(C) The taxpayer may request an extension of time to have an audit conducted. The audit shall be conducted not less than **seven (7) days** nor more than **thirty (30) days** from the date the notice is given, unless the taxpayer and the local tax administrator agreed to some other convenient time. In the event taxpayer is unable to comply with the audit on the date in question, the taxpayer may request another date within the **thirty (30) days**, approved in writing, that is convenient to the taxpayer and the local tax administrator.

(D) Every taxpayer shall keep accurate books and records of the taxpayer's business or activities, including original source documents and books of entry denoting the transactions which had given rise or may have given rise to any tax liability, exemption or deduction. All books shall be kept in the English Language and shall be subject to and available for inspection by the City.

(E) It is the duty and responsibility of every taxpayer to make available its books and records for inspection by the City. If the taxpayer or tax collector fails to provide the documents necessary for audit within the time provided, the local tax administrator may issue a tax determination and assessment based on the tax administrator's determination of the best estimate of the taxpayer's tax liability.

(F) If an audit determines there has been an overpayment of a locally imposed and administered tax as a result of the audit, written notice of the amount of overpayment shall be given to the taxpayer within **thirty (30) days** of the City's determination of the amount of overpayment.

(G) In the event a tax payment was submitted to the incorrect local governmental entity, the local tax administrator shall notify the local governmental entity imposing such tax.

36-2-9 APPEAL.

(A) The local tax administrator shall send written notice to a taxpayer upon the local tax administrator's issuance of a protestable notice of tax due, a bill, a claim denial, or a notice of claim reduction regarding any tax. The notice shall include the following information:

- (1) the reason for the assessment;
- (2) the amount of the tax liability proposed;
- (3) the procedure for appealing the assessment; and
- (4) the obligations of the City during the audit, appeal, refund and collection process.

(B) A taxpayer who receives written notice from the local tax administrator of a determination of tax due or assessment may file with the local tax administrator a written protest and petition for hearing, setting forth the basis of the taxpayer's request for a hearing. The written protest and petition for hearing must be filed with the local tax administrator within **forty-five (45) days** of receipt of the written notice of the tax determination and assessment.

(C) If a timely written notice and petition for hearing is filed, the local tax administrator shall fix the time and place for hearing and shall give written notice to the taxpayer. The hearing shall be scheduled for a date within **fourteen (14) days** of receipt of the written protest and petition for hearing, unless the taxpayer requests a later date convenient to all parties.

(D) If a written protest and petition for hearing is not filed within the **forty-five (45) day** period, the tax determination, audit or assessment shall become a final bill due and owing without further notice.

(E) Upon the showing of reasonable cause by the taxpayer and the full payment of the contested tax liability along with interest accrued as of the due date of the tax, the local tax administrator may reopen or extend the time for filing a written protest and petition for hearing. In no event shall the time for filing a written protest and petition for hearing be reopened or extended for more than **ninety (90) days** after the expiration of the **forty-five (45) day** period.

36-2-10 HEARING.

(A) Whenever a taxpayer or a tax collector has filed a timely written protest and petition for hearing under **Section 36-2-9**, above, the local tax administrator shall conduct a hearing regarding any appeal.

(B) No continuances shall be granted except in cases where a continuance is absolutely necessary to protect the rights of the taxpayer. Lack of preparation shall not be grounds for a continuance. Any continuance granted shall not exceed **fourteen (14) days**.

(C) At the hearing the local tax administrator shall preside and shall hear testimony and accept any evidence relevant to the tax determination, audit or assessment. The strict rules of evidence applicable to judicial proceedings shall not apply.

(D) At the conclusion of the hearing, the local tax administrator shall make a written determination on the basis of the evidence presented at the hearing. The taxpayer or tax collector shall be provided with a copy of the written decision.

36-2-11 INTEREST AND PENALTIES. In the event a determination has been made that a tax is due and owing, through audit, assessment or other bill sent, the tax must be paid within the time frame otherwise indicated.

(A) **Interest.** The City hereby provides for the amount of interest to be assessed on a late payment, underpayment, or nonpayment of the tax to be **six percent (6%)** per annum, based on a year of **three hundred sixty-five (365) days** and the number of days elapsed.

(B) **Late Filing and Payment Penalties.** If a tax return is not filed within the time and manner provided by the controlling tax ordinance, a late filing penalty, of **five percent (5%)** of the amount of tax required to be shown as due on a return shall be imposed; and a late payment penalty of **five percent (5%)** of the tax due shall be imposed. If no return is filed within the time or manner provided by the controlling tax ordinance and prior to the City issuing a notice of tax delinquency or notice of tax liability, then a failure to file penalty shall be assessed equal to **twenty-five percent (25%)** of the total tax due for the applicable reporting period for which the return was required to be filed. A late filing or payment penalty shall not apply if a failure to file penalty is imposed by the controlling ordinance.

36-2-12 ABATEMENT. The local tax administrator shall have the authority to waive or abate any late filing penalty, late payment penalty or failure to file penalty if the local tax administrator shall determine reasonable cause exists for delay or failure to make a filing.

36-2-13 INSTALLMENT CONTRACTS. The City may enter into an installment contract with the taxpayer for the payment of taxes under the controlling tax ordinance. The local tax administrator may not cancel any installment contract so entered unless the taxpayer fails to pay any amount due and owing. Upon written notice by the local tax administrator that the payment is **thirty (30) days** delinquent, the taxpayer shall have **fourteen (14) working days** to cure any delinquency. If the taxpayer fails to cure the delinquency within the **fourteen (14) day** period or fails to demonstrate good faith in restructuring the installment contract with the local administrator, the installment contract shall be canceled without further notice to the taxpayer.

36-2-14 STATUTE OF LIMITATIONS. The City, through the local tax administrator, shall review all tax returns in a prompt and timely manner and inform taxpayers of any amounts due and owing. The taxpayer shall have **forty-five (45) days** after receiving notice of the reviewed tax returns to make any request for refund or provide any tax still due and owing.

(A) No determination of tax due and owing may be issued more than **four (4) years** maximum after the end of the calendar year for which the return for the applicable period was filed or for the calendar year in which the return for the applicable period was due, whichever occurs later.

(B) If any tax return is not filed or if during any **four (4) year** period for which a notice of tax determination or assessment may be issued by the City, the tax paid was less than **seventy-five percent (75%)** of the tax due, the statute of limitations shall be **six (6) years** maximum after the end of the calendar year in which return for the applicable period was due or end of the calendar year in which the return for the applicable period was filed.

(C) No statute of limitations shall not apply if a fraudulent tax return was filed by the taxpayer.

36-2-15 **VOLUNTARY DISCLOSURE.** For any locally imposed and administered tax for which a taxpayer has not received a written notice of an audit, investigation, or assessment from the local tax administrator, a taxpayer is entitled to file an application with the local tax administrator for a voluntary disclosure of the tax due. A taxpayer filing a voluntary disclosure application must agree to pay the amount of tax due, along with interest of **one percent (1%)** per month, for all periods prior to the filing of the application but not more than **four (4) years** before the date of filing the application. A taxpayer filing a valid voluntary disclosure application may not be liable for any additional tax, interest, or penalty for any period before the date the application was filed. However, if the taxpayer incorrectly determined and underpaid the amount of tax due, the taxpayer is liable for the underpaid tax along with applicable interest on the underpaid tax, unless the underpayment was the result of fraud on the part of the taxpayer, in which case the application shall be deemed invalid and void. The payment of tax and interest must be made by no later than **ninety (90) days** after the filing of the voluntary disclosure application or the date agreed to by the local tax administrator. However, any additional amounts owed as a result of an underpayment of tax and interest previously paid under this Section must be paid within **ninety (90) days** after a final determination and the exhaustion of all appeals of the additional amount owed or the date agreed to by the local tax administrator, whichever is longer.

36-2-16 **PUBLICATION OF TAX ORDINANCES.** Any locally administered tax ordinance shall be published via normal or standard publishing requirements. The posting of a tax ordinance on the Internet shall satisfy the publication requirements. Copies of all tax ordinances shall be made available to the public upon request at the City Clerk's office.

36-2-17 **INTERNAL REVIEW PROCEDURE.** The local tax administrator shall establish an internal review procedure regarding any liens filed against any taxpayers for unpaid taxes. Upon a determination by the local tax administrator that the lien is valid, the lien shall remain in full force and effect. If the lien is determined to be improper, the local tax administrator shall:

- (A) timely remove the lien at the City's expense;
- (B) correct the taxpayer's credit record; and
- (C) correct any public disclosure of the improperly imposed lien.

36-2-18 **APPLICATION.** This Ordinance shall be liberally construed and administered to supplement all of the City's tax ordinances. To the extent that any tax ordinance is in conflict with or inconsistent with this ordinance, this ordinance shall be controlling.

(Ord. No. 01-01; 01-08-01)

(See 50 ILCS 45/1 et seq.)

ARTICLE III - SIMPLIFIED TELECOMMUNICATIONS TAX

36-3-1 **DEFINITIONS.** As used in this Article, the following terms shall have the following meanings:

(A) **"Amount Paid"** means the amount charged to the taxpayer's service address in such municipality regardless of where such amount is billed or paid.

(B) **"Department"** means the Illinois Department of Revenue.

(C) **"Gross Charge"** means the amount paid for the act or privilege of originating or receiving telecommunications in such a municipality and for all services and equipment provided in connection therewith by a retailer, valued in money whether paid in money or otherwise, including cash, credits, services and property of every kind or nature, and shall be determined without any deduction on account of the cost of such telecommunications, the cost of the materials used, labor or service costs or any other expense whatsoever. In case credit is extended, the amount thereof shall be included only as and when paid. "Gross charges" for private line service shall include charges imposed at each channel termination point within a municipality that has imposed a tax under this Article and charges for the portion of the inter-office channels provided within that municipality. Charges for that portion of the inter-office channel connecting **two (2)** or more channel termination points, one or more of which is located within the jurisdictional boundary of such municipality, shall be determined by the retailer by multiplying an amount equal to the total charge for the inter-office channel by a fraction, the numerator of which is the number of channel termination points that are located within the jurisdictional boundary of the municipality and the denominator of which is the total number of channel termination points connected by the inter-office channel. However, "gross charge" shall not include any of the following:

- (1) any amounts added to a purchaser's bill because of a charge made pursuant to:
 - (a) the tax imposed by this Section,
 - (b) the tax imposed by the Telecommunications Excise Tax Act,
 - (c) the tax imposed by Section 4251 of the Internal Revenue Code,
 - (d) 911 surcharges, or
 - (e) charges added to customers' bills pursuant to the provisions of Section 9-221 or 9-222 of the Public Utilities Act, as amended, or any similar charges added to customers' bills by retailers who are not subject to rate regulation by the Illinois Commerce Commission for the purpose of recovering any of the tax liabilities or other amounts specified in those provisions of the Public Utilities Act.
- (2) charges for a sent collect telecommunication received outside the City.
- (3) charges for leased time on equipment or charges for the storage of data or information or subsequent retrieval or the processing of data or information intended to change its form or content. Such equipment includes, but is not limited to, the use of calculators, computers, data processing equipment, tabulating equipment, or accounting equipment and also includes the usage of computers under a time-sharing agreement.
- (4) charges for customer equipment, including such equipment that is leased or rented by the customer from any source, wherein such charges are disaggregated and separately identified from other charges.
- (5) charges to business enterprises certified as exempt under Section 9-222.1 of the Public Utilities Act to the extent of such exemption and during the period of time specified by the Department of Commerce and Economic Opportunity.
- (6) charges for telecommunications and all services and equipment provided in connection therewith between a parent corporation and its wholly owned subsidiaries or between wholly owned subsidiaries when the tax imposed under this Act has already been paid to a retailer and only to

the extent that the charges between the parent corporation and wholly owned subsidiaries or between wholly owned subsidiaries represent expense allocation between the corporations and not the generation of profit for the corporation rendering such service.

- (7) bad debts ("bad debt" means any portion of a debt that is related to a sale at retail for which gross charges are not otherwise deductible or excludable that has become worthless or uncollectible, as determined under applicable federal income tax standards; if the portion of the debt deemed to be bad is subsequently paid, the retailer shall report and pay the tax on that portion during the reporting period in which the payment is made).
- (8) charges paid by inserting coins in coin-operated telecommunications devices.
- (9) amounts paid by telecommunications retailers under the Telecommunications Infrastructure Maintenance Fee Act.
- (10) Charges for nontaxable services or telecommunications if:
 - (a) those charges are aggregated with other charges for telecommunications that are taxable,
 - (b) those charges are not separately stated on the customer bill or invoice, and
 - (c) the retailer can reasonably identify the nontaxable charges on the retailer's books and records kept in the regular course of business.

If the nontaxable charges cannot reasonably be identified, the gross charge from the sale of both taxable and nontaxable services or telecommunications billed on a combined basis shall be attributed to the taxable services or telecommunications. The burden of proving nontaxable charges shall be on the retailer of the telecommunications.

(D) **"Interstate Telecommunications"** means all telecommunications that either originate or terminate outside this State.

(E) **"Intrastate Telecommunications"** means all telecommunications that originate and terminate within this State.

(F) **"Person"** means any natural individual, firm, trust, estate, partnership, association, joint stock company, joint venture, corporation, limited liability company, or a receiver, trustee, guardian, or other representative appointed by order of any court, the Federal and State governments, including State universities created by statute, or any city, town, county, or other political subdivision of this State.

(G) **"Purchase at Retail"** means the acquisition, consumption or use of telecommunications through a sale at retail.

(H) **"Retailer"** means and includes every person engaged in the business of making sales at retail as defined in this Section. The Department may, in its discretion, upon application, authorize the collection of the tax hereby imposed by any retailer not maintaining a place of business within this State, who, to the satisfaction of the Department, furnishes adequate security to insure collection and payment of the tax. Such retailer shall be issued, without charge, a permit to collect such tax. When so authorized, it shall be the duty of such retailer to collect the tax upon all of the gross charges for telecommunications in this State in the same manner and subject to the same requirements as a retailer maintaining a place of business within this State. The permit may be revoked by the Department at its discretion.

(I) **"Retailer maintaining a place of business in this State"**, or any like term, means and includes any retailer having or maintaining within the State, directly or by a subsidiary, an office, distribution facilities, transmission facilities, sales office, warehouse or other place of business, or any agent or other representative operating within this State under the authority of the retailer or its subsidiary, irrespective of whether such place of business or agent or other representative is located here permanently or temporarily, or whether such retailer or subsidiary is licensed to do business in this State.

(J) **"Sale at Retail"** means the transmitting, supplying or furnishing of telecommunications and all services and equipment provided in connection therewith for a consideration, to persons other than the Federal and State governments, and State universities created by statute and other than between a parent corporation and its wholly owned subsidiaries or between wholly owned subsidiaries for their use or consumption and not for resale.

(K) **"Service address"** means the location of telecommunications equipment from which telecommunications services are originated or at which telecommunications services are received by a taxpayer. In the event this may not be a defined location, as in the case of mobile phones, paging systems, and maritime systems, service address means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. For air-to-ground systems and the like, "service address" shall mean the location of a taxpayer's primary use of the telecommunications equipment as defined by telephone number, authorization code, or location in Illinois where bills are sent.

(L) **"Taxpayer"** means a person who individually or through his or her agents, employees, or permittees, engages in the act or privilege of originating or receiving telecommunications in a municipality and who incurs a tax liability as authorized by the Article.

(M) **"Telecommunications"**, in addition to the meaning ordinarily and popularly ascribed to it, includes, without limitation, messages or information transmitted through use of local, toll, and wide area telephone service, private line services, channel services, telegraph services, teletypewriter, computer exchange services, cellular mobile telecommunications service, specialized mobile radio, stationary two-way radio, paging service, or any other form of mobile and portable one-way or two-way communications, or any other transmission of messages or information by electronic or similar means, between or among points by wire, cable, fiber optics, laser, microwave, radio, satellite, or similar facilities. As used in this Article, "private line" means a dedicated non-traffic sensitive service for a single customer, that entitles the customer to exclusive or priority use of a communications channel or group of channels, from one or more specified locations to one or more other specified locations. The definition of "telecommunications" shall not include value added services in which computer processing applications are used to act on the form, content, code, and protocol of the information for purposes other than transmission. "Telecommunications" shall not include purchases of telecommunications by a telecommunications service provider for use as a component part of the service provided by such provider to the ultimate retail consumer who originates or terminates the taxable end-to-end communications. Carrier access charges, right of access charges, charges for use of inter-company facilities, and all telecommunications resold in the subsequent provision of, used as a component of, or integrated into, end-to-end telecommunications service shall be non-taxable as sales for resale. Prepaid telephone calling arrangements shall not be considered "telecommunications" subject to the tax imposed under this Act. For purposes of this Section, "prepaid telephone calling arrangements" means that term as defined in Section 2-27 of the Retailers' Occupation Tax Act.

36-3-2 SIMPLIFIED MUNICIPAL TELECOMMUNICATIONS TAX IMPOSED. A tax is hereby imposed upon any and all of the following acts or privileges:

(A) The act or privilege of originating in the City or receiving in the City intrastate telecommunications by a person at a rate of **six percent (6%)** of the gross charge for such telecommunications purchased at retail from a retailer. To prevent actual multi-municipal taxation of the act or privilege that is subject to taxation under this subsection, any taxpayer, upon proof that the taxpayer has paid a tax in another municipality on that event, shall be allowed a credit against any tax enacted pursuant to or authorized by this Section to the extent of the amount of the tax properly due and paid in the municipality that was not previously allowed as a credit against any other municipal tax.

(B) The act or privilege of originating in the City or receiving in the City interstate telecommunications by a person at a rate of **six percent (6%)** of the gross charge for such telecommunications purchased at retail from a retailer. To prevent actual multi-state or multi-municipal taxation of the act or privilege that is subject to taxation under this Section, any taxpayer, upon proof that the taxpayer has paid a tax in another state or municipality in this State on such event, shall be allowed a credit against any tax enacted pursuant to or authorized by this Section to the extent of the amount of such tax properly due and paid in such other state or such tax properly due and paid in a municipality in this State which was not previously allowed as a credit against any other state.

(C) The tax imposed by this Article is not imposed on such act or privilege to the extent such act or privilege may not, under the Constitution and statutes of the United States, be made the subject of taxation by the City.
(Ord. No. 17-2017; 08-28-17)

36-3-3 COLLECTION OF TAX BY RETAILERS.

(A) The tax authorized by this Article shall be collected from the taxpayer by a retailer maintaining a place of business in this State and shall be remitted by such retailer to the Department. Any tax required to be collected pursuant to or as authorized by this Article and any such tax collected by such retailer and required to be remitted to the Department shall constitute a debt owed by the retailer to the State. Retailers shall collect the tax from the taxpayer by adding the tax to the gross charge for the act or privilege of originating or receiving telecommunications when sold for use, in the manner prescribed by the Department. The tax authorized by this Article shall constitute a debt of the taxpayer to the retailer until paid, and, if unpaid, is recoverable at law in the same manner as the original charge for such sale at retail. If the retailer fails to collect the tax from the taxpayer, then the taxpayer shall be required to pay the tax directly to the Department in the manner provided by the Department.

(B) Whenever possible, the tax authorized by this Article shall, when collected, be stated as a distinct item separate and apart from the gross charge for telecommunications.

36-3-4 RETURNS TO DEPARTMENT. Commencing on **January 1, 2003**, the tax imposed under this Article on telecommunication retailers shall be returned with appropriate forms and information as required by the Department pursuant to the Illinois Simplified Municipal Telecommunications Tax Act (Public Act 92-526, Section 5-50) and any accompanying rules and regulations created by the Department to implement this Act.

36-3-5 RESELLERS.

(A) If a person who originates or receives telecommunications claims to be a reseller of such telecommunications, such person shall apply to the Department for a resale number. Such applicant shall state facts which will show the Department why such applicant is not liable for the tax authorized by this Article on any of such purchases and shall furnish such additional information as the Department may reasonably require.

(B) Upon approval of the application, the Department shall assign a resale number to the applicant and shall certify such number to the applicant. The Department may cancel any number which is obtained through misrepresentation, or which is used to send or receive such telecommunications tax-free when such actions in fact are not for resale, or which no longer applies because of the person's having discontinued the making of resales.

(C) Except as provided hereinabove in this Section, the act or privilege of originating or receiving telecommunications in this State shall not be made tax-free on the ground of being a sale for resale unless the person has an active resale number from the Department and furnishes that number to the retailer in connection with certifying to the retailer that any sale to such person is non-taxable because of being a sale for resale.

36-4-2 **FEES.** Any such corporation, company or association not incorporated under the laws of the State of Illinois, which is engaged in the City in effecting fire insurance, shall pay the City Treasurer for the maintenance, use, and benefit of the Fire Department of the City, a sum of money equal in amount to **two percent (2%)** per annum of the gross receipts received as premiums upon fire insurance policies by any and all agents of such corporation, company, association during the year ending on the first day of July in each year, for any insurance effected or agreed to be effected on property located in the City by or with such corporation, company, or association during such year.

Such agent shall also, at the time of rendering the aforesaid report, pay to the City Treasurer the sum of money for which company, corporation, or association represented by him is chargeable, by virtue of the provisions of this Section.

36-4-4 **RECOVERY OF MONIES.** The sum of money for which such company, corporation, or association is so chargeable may be recovered of it, or its agents or agent, by an action in the name of and for the use of the City as for money had and received. Nothing in this Section shall be held to exempt any person, corporation, company, association from indictment and conviction under the provisions of an act entitled "An Act to enable cities, towns, and villages, organized under any general or special law, to levy and collect a tax or license fee from foreign insurance companies for the benefit of organized fire department," in force **July 1, 1895**.

This tax shall only be imposed at the rate of **one and one-half percent (1.5%)** as authorized by the Act, which is at the same rate that the City imposes a Home Rule Municipal Retailers’ Occupation Tax under the Home Rule Municipal Retailers’ Occupation Tax Act. Under the Act, this additional tax may not be imposed on the sales of food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food that has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics.

(B) **“City”** shall mean the City of Herrin, a unit of government under Section 6(a) Article VII of the 1970 Constitution of the State of Illinois.

(C) **“Interested Party(s)”** shall mean (a) any organization(s) active within the City, (b) any resident(s) of the City, and (c) any other entity or person otherwise entitled under the Act to register in a specific Registry who has registered in such Registry and whose registration has not been terminated in accordance with these Registration Rules.

(D) **“Redevelopment Project Area”** shall mean a redevelopment project area that (a) is intended to qualify (or has subsequently qualified) as a “redevelopment project area” under the Act and (b) is subject to the “interested parties” registry requirements of the Act.

(E) **“Registration Form”** shall mean the form appended to these Registration Rules, or such revised form as may be approved by the City consistent with the requirements of the Act.

(F) **“Registry” or “Registries”** shall mean each interested parties registry, and all such registries, collectively, established by the City pursuant to Section 11-74.4-4.2 of the Act for a Redevelopment Project Area.

37-1-2 **ESTABLISHMENT OF REGISTRY.** The City shall establish a separate interested parties registry for each Redevelopment Project Area, whether existing as of the date of the adoption of these Rules or hereafter established. The City shall establish a new registry whenever it has identified an area for study and possible designation as a Redevelopment Project Area. In any event the process of establishing the new registry must be completed prior to the deadline for sending any of the notices required in **Section 37-1-10** of this Chapter or any other notices required by the Act with respect to the proposed Redevelopment Project Area.

37-1-3 **MAINTENANCE OF REGISTRY.** The Registries shall be maintained by the City Clerk or his or her designee. In the event the City determines that someone other than the Clerk should maintain the Registries, the City may transfer the responsibility for maintaining the Registries to such other Department provided that the City (a) gives prior written notice to all Interested Parties not less than **thirty (30) days** prior to such transfer and (b) publishes notice of such transfer in a newspaper of general circulation in the City.

37-1-4 **REGISTRATION BY RESIDENTS.** An individual seeking to register as an Interested Person with respect to a Redevelopment Project Area must complete and submit a Registration Form to the City Clerk. Such individual must also submit a copy of a current driver's license, lease, utility bill, financial statement or such other evidence as may be acceptable to the Clerk to establish the individual's current residency.

37-1-5 **REGISTRATION OF ORGANIZATIONS.** An organization seeking to register as an Interested Person with respect to a Redevelopment Project Area must complete and submit a Registration Form to the City Clerk. Such organization must also submit a copy of a one-page statement describing the organization's current operations in the City.

All individuals and organizations whose Registration Form and supporting documentation complies with these Registration Rules shall be registered in the applicable Registry within **ten (10) business days** of the City Clerk's receipt of all such documents. The Clerk shall provide written notice to the registrant conforming such registration. Upon registration Interested Parties shall be entitled to receive all notices and documents required to be delivered under these Rules or as otherwise required under the Act with respect to the applicable Redevelopment Project Area. If the City Clerk determines that a registrant's Registration Form and/or supporting documentation is incomplete or does not comply with these Registration Rules, the Clerk shall give written notice to the registrant specifying the defect(s). The registrant shall be entitled to correct any defects and resubmit a new Registration Form and supporting documentation.

37-1-7 RENEWAL AND TERMINATION. An Interested Person's registration shall remain effective for a period of **three (3) years**. At any time after such **three (3) year** period, the City Clerk may provide written notice by regular mail to the Interested Person stating that such registration shall terminate unless the Interested Person renews such registration within **thirty (30) days** of the Clerk's mailing of written notice. To renew such registration, the Interested Person shall, within such **thirty (30) day** period, complete and submit the same Registration Form and supporting documentation then required of initial registrants in order to permit the Clerk to confirm such person's residency or such organization's operations in the City. The registration of all individuals and organizations whose Registration Form and supporting documentation is submitted in a timely manner and complies with these Regulation Rules shall be reviewed for an additional, consecutive **three (3) year** period. If the City Clerk determines that a registrant's renewal Registration Form and/or supporting documentation is incomplete or does not comply with these Registration Rules, the Clerk shall give written notice to the registrant at the address specified in the renewal Registration Form submitted by such registrant, specifying the defect(s). The registrant shall be entitled to correct any defects and resubmit a new Registration Form and supporting documentation within **thirty (30) days** of receipt of the Clerk's notice. If all defects are not corrected within **thirty (30) days** of the Interested Person's receipt of the City Clerk's notice, the Interested Person's registration shall be terminated. Any Interested Person whose registration is terminated shall be entitled to register again as if a first-time registrant.

An Interested Party may amend its registration by giving written notice to the City Clerk by certified mail of any of the following: (1) a change in address for notice purposes; (2) in the case of organizations, a change in the name of the contact person; and (3) a termination of registration. UTILITIES

ARTICLE I – DEPARTMENT ESTABLISHED

38-1-1 DEPARTMENT ESTABLISHED. There shall be an executive department of the City known as the **Utilities Department**. It shall include the Superintendent and employees of the Department. The designated office shall be the City Hall.

38-1-2 UTILITIES COMMITTEE. The City Council standing committee on Utilities shall exercise a general supervision over the affairs of the Departments. They shall ascertain the condition and needs thereof; and shall, from time to time, report the same to the Mayor and City Council so that a full understanding thereof shall be had; and generally, shall do all acts necessary to promote the efficiency of the Departments.

38-1-3 SUPERINTENDENT. The Superintendent of Public Works shall be subject to the supervision of the Utilities Committee and shall be hereinafter be referred to as the **"Superintendent"**. The Superintendent shall be appointed by the Mayor, by and with the advice and consent of the City Council and shall hold office until his successor is appointed and qualified. He shall receive such salary as may be provided by the annual budget of the City Council at the time of his appointment.

38-1-4 DUTIES OF THE SUPERINTENDENT. The Superintendent shall exercise general management and control over his respective department.

(A) He shall supervise over and be responsible for the conduct and performance of all employees of the department as a Department Head in accordance with the Employee Code, if any.

(B) He shall be responsible for the operation and maintenance of the City's water system and sewer system as provided in this Code.

(C) He shall be the custodian of all vehicles, equipment, structures, and property provided by the City for the use of his department.

(D) He shall enforce the provisions of this Chapter and make such inspections, measurements, and tests as necessary for that purpose.

(E) He shall perform such other duties as may be assigned to him by the provisions of this Code or by the City Council.

ARTICLE II – UTILITY REGULATIONS

38-2-1 CONTRACT FOR UTILITY SERVICES.

(A) Customer Accepts Service. The rates, rules and regulations contained in this Chapter shall constitute and be considered a part of the contract with every person, company or corporation who is supplied with water and sewer services from the waterworks and sewer system and every person, company or corporation, hereinafter called a “customer” who accepts and uses City water and sewer services shall be held to have consented to be bound thereby.

(B) Not Liable for Interrupted Service. The Department shall endeavor at all times to provide a regular and uninterrupted supply of service, however, in case the supply of service shall be interrupted or irregular or defective or fail from causes beyond its control or through ordinary negligence of employees, servants or agents, the Departments shall not be liable therefor.

(C) Using Utilities Without Paying. Any person using utility services from the City without paying for the services, or who shall be found guilty of breaking any water meter or appurtenances or by-passing the water meter shall be guilty of a misdemeanor and upon conviction, shall be fined a sum as is provided in **Section 1-1-19** of this Code, unless for good cause shown the City Council passes a resolution making an express finding that the person or persons use of utility services, or any portion thereof, without paying for them was not the fault of that person or persons, and was instead the fault of the City, in which case the City Council may, by resolution, provide for the continued provision of services to said person for a period not to exceed **ninety (90) days** from the date of billing within which said person must bring the account current or otherwise suffer the consequences of this and other related ordinances. **(Ord. No. 27-93; 09-29-93)**

(D) Destroying Property. Any person found guilty of defacing, tampering, injuring or destroying, or in any manner, limiting the use or availability of any meter or any property of the waterworks system and sewer system, or erecting signs on the property of the Department without permission shall, upon conviction of such act, be fined as provided in **Section 1-1-20** of the Revised Code.

(E) Service Obtained By Fraud. All contracts for water and sewer services shall be made in the name of the head of the household, firm or corporation using the established spelling of that person's or firm's name. Attempts to obtain service by the use of other names, different spellings or by substituting other persons or firms shall be considered a subterfuge and service shall be denied. If service has been discontinued because of nonpayment of bills, or any unpaid obligation and service has again been obtained through subterfuge, misrepresentation or fraud, that service shall be promptly disconnected and the whole or such part of the deposit as may be necessary to satisfy the unpaid obligation shall be retained by the City and credited to the appropriate account.

(F) Failure to Receive Bill. Failure to receive a bill shall not excuse a customer from his obligation to pay within the time specified. Should the department fail to bill a customer for services used during any given month, this fact shall not invalidate the debt-owing to the department by the unbilled services used during any given month shall be charged and properly billed within **one (1) year** of their rendering.

(G) Request to Discontinue Service. Services shall have been deemed to have been supplied to any property connected to the Water and Sewer Systems during a month unless the customer notifies the City prior to the first day of the new billing month in which the services are to be discontinued.

(H)

Billing; Utility Shut-off.

- (1) All bills for utility services shall be due on the **twentieth (20th)** of each month and if bill is not paid on or before that date, a penalty equal to **ten percent (10%)** of the amount due on said bill shall be added thereto. This penalty shall be in addition to the charges heretofore established for the utility services.
- (2) Any customer who fails to pay the utility bills by the **first (1st) of the next month**, shall have the utility services disconnected. Once utility services have been disconnected, the same shall not be again connected or used until all delinquent accounts and bills of service are paid in full including a reconnect fee of **Fifty Dollars (\$50.00)** for reconnect between the hours of **8:00 A.M.** and **4:00 P.M.** Monday through Friday. Holidays and weekends there will not be any reconnects due to non-payment. Also, if water has been disconnected due to non-payment for more than **sixty (60) days**, a new codes inspection must be performed, an inspection fee of **Twenty-Five Dollars (\$25.00)** paid and a new occupancy permit required.

(Ord. No. 36-2020; 09-28-20)

(J)

Lien Notice. Whenever a bill for utility services remains unpaid for **sixty (60) days** after it has been rendered, the Clerk shall file with the County Recorder of Deeds a statement of lien claim. This statement shall contain the legal description of the premises served, the amount of the unpaid bill, and a notice that the municipality claims a lien for this amount to the period covered by the bill.

If the consumer of utility services whose bill is unpaid is not the owner of the premises and the Treasurer has notice of this, then notice shall be mailed to the owner of the premises if his address is known to the Clerk whenever such bill remains unpaid for a period of **thirty (30) days** after it has been rendered.

The failure of the Clerk to record such lien or to mail such notice, or the failure of the owner to receive such notice shall not affect the right to foreclose the lien for unpaid utility bills as mentioned herein. **(See 65 ILCS 5/11-139-8)**

(K)

Foreclosure of Lien. Property subject to a lien for unpaid utility charges may be sold for non-payment of the same, and the proceeds of such sale shall be applied to pay the charges, after deducting costs, as is the case in the foreclosure of statutory liens. Such foreclosure shall be by bill-in-equity in the name of the City.

The City Attorney is hereby authorized to institute such proceedings in the name of the City in any Court having jurisdiction over such matters against any property for which the bill for utility services has remained unpaid **ninety (90) days** after it has been rendered. **(See 65 ILCS 5/11-139-8)**

(L)

Bill Adjustments. A customer may receive **one (1)** water bill adjustment per **twelve (12) month** period if water usage spike is greater than or equal to a minimum of **six thousand (6,000) gallons** over the average of the last **six (6) months** bills. The adjustment will be on the water portion only. The adjustment will only be credited on **one (1) months** billing cycle.

The bill adjustment shall be determined by the following method:

The average water usage (A) shall be calculated by taking the sum of the previous **six (6) bills** of metered water volume (C) divided by 6. Where A = average water usage in gallons and C = previous 6 water bills usage in gallons, $[A=C/6]$. The previous **six (6) bills** usage (C) will be determined by back dating beginning from the **first (1st)** prior bill in which the usage

spike occurred. If the usage spike is greater than or equal to **six thousand (6,000) gallons** over the average (A), then a water adjustment will be calculated from the current water rate scale in effect. If the usage spike is less than **six thousand (6,000) gallons** over the average (A) as determined above, then no bill adjustment is permitted. A water customer must make a formal request for an adjustment prior to the due date of the current water bill. To receive the adjustment credit to your bill, you must appear in person and sign for the credit adjustment.

This method does not apply to municipal, governmental or industrial accounts that have an individual contract agreement with the City. Their provisions are in their respective contracts.

(Ord. No. 3-2021; 04-12-21)

38-2-2 CONSUMER LISTS. It is hereby made the duty of the Clerk to prepare or cause to be prepared a complete and accurate list of all premises and properties receiving utility services, showing the name and address of the occupant and the owner of the same. The list shall be kept up-to-date and shall be corrected from time to time to allow changes in the occupancy or ownership of any such property or premises. It shall be presented at the regular monthly meeting if requested.

38-2-3 FILED IN RECORDER OF DEEDS. A copy of this Chapter properly certified by the City Clerk, shall be filed in the office of the Recorder of Deeds of the County, and shall be deemed notice to all owners of real estate of liability for service supplied to any user of the service of the waterworks system of said City on their properties.

38-2-4 LIABILITY FOR CHARGES. The owner of any lot, parcel of land or premises and the user of the services shall be jointly and severally liable for the payment of the services to such lot, parcel of land or premises, and all services are rendered to the premises by the City only on the condition that such owner, occupant and user shall be jointly and severally liable therefor to the City.

38-2-5 ESTIMATED CHARGE. Whenever any meter, by reason of its being out of repair or from any cause fails to properly register the utilities passing through the same, the consumer shall be charged the average charge of the **previous three (3) months usage.** If no record of the previous **three (3) months** exists, then it shall be the duty of the Water Clerk to estimate the amount of utilities consumed during the time the meter fails to operate and the consumer shall be charged with such estimated amount. Bills may be estimated whenever it is impossible to read the meters during inclement weather.

38-2-6 NO FREE UTILITY SERVICE. No free utility service shall be furnished to any person, public or private, and all rates and charges shall be non-discriminatory, provided that the Mayor and City Council reserve the right to impose special rates and charges in cases where particular circumstances render the regular rates inadequate or unjust.

38-2-7 METER MALFUNCTION. Any municipal water meter shall be taken out and tested upon complaint of the consumer, upon payment of a fee of **Twenty Dollars (\$20.00)**. If upon test the meter is not within **three percent (3%)** of being accurate, it shall be repaired or replaced and the **Twenty Dollar (\$20.00)** fee returned to the consumer.

38-2-8 UTILITY DEPOSITS. Each application shall be accompanied by a deposit to insure payment of all bills. The amount of the deposit shall be determined as follows:

(A)	Dwelling	\$100.00
(B)	Apartment buildings containing one (1) or more units	\$100.00 per unit
(C)	Service stations without a wash rack	\$100.00
(D)	Laundries, Laundromats, commercial car washes, hotels and motels	\$200.00
(E)	Factories	\$200.00
(F)	Restaurants, Drive-In Restaurants	\$200.00
(G)	Gasoline service stations with wash rack	\$200.00

A reconnect fee shall also be due for reconnection of all services of **Fifty Dollars (\$50.00)** for reconnect between the hours of **8:00 A.M.** and **4:00 P.M.** Monday through Friday. Holidays and weekends there will not be any reconnects due to non-payment. Also, if water has been disconnected due to non-payment for more than **sixty (60) days**, a new codes inspection must be performed, an inspection fee of **Twenty-Five Dollars (\$25.00)** paid and a new occupancy permit required. Where the amount of the deposit provided above is not sufficient to adequately protect the Water Department, a greater amount than stated above may be required, based on the consumer's estimated bill for a customary billing period.

All deposits will be retained by the Water Department so long as the depositor is a customer. When service is discontinued, the deposit, less any amount due the City for water service shall be refunded without interest. **(Ord. No. 4-2020; 09-14-20)**

(C) All public fire hydrants located outside the City Limits owned by the City shall be maintained in as good order as reasonably possible, but the City will not undertake or assume any responsibility or liability for their condition or use or abuse. Such public fire hydrants shall be used only for the purpose of extinguishing fires except when the City may issue a special permit for their use to contractors who shall then be responsible for the hydrants and the use of water from them.

38-3-15 SHORTAGE AND PURITY OF SUPPLY. The City shall not be held responsible for or in any manner liable to any person, company, consumer or public body for any claim or damage, either direct or resultant because of any shortage of water supply, any shutoff of water for any reason, any bursting or leakage of either the consumer's or City's mains, pipes and fixtures, any pollution or impurity in water supply or any fire or water damage.

38-3-16 NON-COMPLIANCE WITH RULES AND REGULATIONS. If any consumer fails to comply with any of the rules and regulations in force, the City shall notify the consumer of such failure. If the consumer does not remedy the same as the rules provide and within a reasonable time,

the City shall have the right to discontinue service. Except in case of non-payment, emergency, necessity, or as otherwise provided, the City will not discontinue service for violation of any rule until **five (5) days** after notice has been given and the violation has not been remedied.

38-3-20 CITY NOT LIABLE FOR INTERRUPTION OF SUPPLY. The City shall have the right to shut off the supply of water whenever it is necessary to make repairs, improvements, enforce rules or for any notice as circumstances allow, will be given to consumers but in emergencies, the water may be shut off without notice. All hot water faucets shall be left open during any shut-off to prevent damage to plumbing. Such necessary work will be done as rapidly as may be practical and whenever feasible at such times as will cause the least inconvenience. The City shall not be held responsible for or liable because of any shut-off of supply for any direct or resultant damages to any person, company or consumer or to any pipe, fixtures, or plumbing.

Water for steam boilers, gas engines, ice plants, or other industrial use, shall not be furnished by direct pressure from the mains, but only to tanks holding ample reserve supply. Should any equipment be supplied direct from mains, then in case of any shutoff of water, the City will not be held responsible or liable for any direct or resulting damage because of interrupted supply, insufficient pressure, or otherwise.

Whenever water mains, pipes and service connections are taken up, shut-off or interfered with by reason of any City street improvements, the City will endeavor to maintain service so far as reasonably possible, but will not be directly or indirectly liable for any interruption, poor pressure, or damage of any kind either to consumers, adjacent or to other consumers affected thereby.

38-3-21 WATER WELL PERMITS REQUIRED. It shall be unlawful to drill a water-well in the City without the proper permits from the State of Illinois and the City Council. 38-3-22 ABANDONED CONNECTION. Whenever any connection to the waterworks system is abandoned, because the building to which the water connection is made has been abandoned, destroyed or removed, the Superintendent may remove the meter and any pipe or connections in the public right-of-way or easement, and cap, plug or otherwise seal the pipe or main. Before taking any such steps the Superintendent shall notify the owner of the real estate if the owner's name and address is

known, and shall notify the person shown on the real estate tax records as having paid taxes on the property the last time taxes were paid. Such notice shall be made by mail, at least **thirty (30) days** before any action is taken under this Section. If water is leaking, the Superintendent shall take immediate action, and send the notices within **three (3) working days** of the time action was taken.

38-3-23 ALTERNATIVE WATER SOURCE. Any customer with critical water requirements shall have an alternate water source. Failure to provide such shall be considered a violation of customer rules and loss or damages resulting therefrom shall be the responsibility of the customer. Those customers shall include but not be limited to manufacturers, hospitals, nursing homes, schools, greenhouses, hatcheries or any other building or business which might suffer any type of loss due to interruption of water service.

The City expressly stipulates with all customers and other persons who may be affected by the discontinuance of service that it will neither insure nor be responsible or liable in any manner for any loss or damages, direct or indirect, by reason of fire or any other cause and all water service furnished shall also be conditional upon acts of God, inevitable accidents, failure of supply, fire, strikes, riots or any other causes.

38-3-24 RULES TO BECOME PART OF CONTRACT. DIVISION II - CROSS-CONNECTION ADMINISTRATION

38-3-31 APPROVED BACKFLOW DEVICE. All plumbing installed within the City shall be installed in accordance with the Illinois Plumbing Code, 77 Ill. Adm. Code 890. If, in accordance with the Illinois Plumbing Code or in the judgment of the Inspector, an approved backflow prevention device is necessary for the safety of the public water supply system, the Inspector shall give notice to the water customer to install such an approved device immediately. The water customer shall, at his own expense, install such an approved device at a location and in a manner in accordance with the Illinois Plumbing Code, Illinois Environmental Protection Agency and all applicable local regulations, and shall have inspections and tests made of such approved devices upon installation and as required by the Illinois Plumbing Code, Illinois Environmental Protection Agency and local regulations.

38-3-32 CROSS-CONNECTION PROHIBITED; EXCEPTION. No person shall establish or permit to be established or maintain or permit to be maintained any connection whereby a private, auxiliary or emergency water supply other than the regular public water supply enters the supply or distribution system of the City, unless such private, auxiliary or emergency water supply and the method of connection and use of such supply shall have been approved by the Superintendent and the Illinois Environmental Protection Agency.

38-3-33 INVESTIGATIONS BY SUPERINTENDENT. It shall be the duty of the Superintendent to cause surveys and investigations to be made of commercial industrial and other properties served by the public water supply to determine whether actual or potential hazards to the public water supply may exist. Such surveys and investigations shall be made a matter of public record

and shall be repeated at least every **two (2) years** or as often as the Inspector shall deem necessary. Records of such surveys shall be maintained and available for review for a period of at least **five (5) years**.

38-3-34 RIGHT TO ENTER PREMISES. The approved cross-connection control device inspector shall have the right to enter at any reasonable time any property served by a connection to the public water supply or distribution system for the purpose of verifying the presence or absence of cross-connections and that the Inspector or his authorized agent shall have the right to enter at any reasonable time any property served by a connection to the public water supply or distribution system for the purpose of verifying information submitted by the customer regarding the required cross-connection control inspection. On demand, the owner, lessee or occupants of any property so served shall furnish to the Inspector any information which he may request regarding the piping system or systems or water use on such property. The refusal of such information when demanded shall, within the discretion of the Inspector, be evidence of the presence of improper connections as provided in this Chapter.

38-3-35 NOTICE TO CUSTOMER; RECONNECT FEE.
(A) The City Clerk is hereby authorized and directed to discontinue, after reasonable notice to the occupant thereof, the water service to any property wherein any connection in violation of the provisions of this Chapter is known to exist, and to take such other precautionary measures as he may deem necessary to eliminate any danger of contamination of the public water supply distribution mains. Water service to such property shall not be restored until such conditions have been eliminated or corrected in compliance with the provisions of this Chapter and until a reconnection fee of **One Hundred Dollars (\$100.00)** is paid to the City Clerk.

(B) Immediate disconnection with verbal notice can be effected when the Inspector is assured that imminent danger of harmful contamination of the public water supply system exists. Such action shall be followed by written notification of the cause of disconnection. Immediate disconnection without notice to any party can be effected to prevent actual or anticipated contamination or pollution of the public water supply, provided that, in the reasonable opinion of the Inspector or the Illinois Environmental Protection Agency, such action is required to prevent actual or potential contamination or pollution of the public water supply.

(C) The public water supply, the Inspector or the agents or assigns shall not be liable to any customer for any injury, damages or lost revenues which may result from termination of the customer's water supply in accordance with the terms of this Chapter, whether or not said termination was with or without notice.

38-3-36 CONTAMINATIONS COST AND THE CONSUMER. The consumer responsible for backsiphoned material or contamination through backflow, if contamination of the potable water supply system occurs through an illegal cross-connection or an improperly installed, maintained or repaired device, or a device which has been bypassed, shall bear the cost of clean-up of the potable water supply system.

The consumer shall immediately install such approved device or devices at his own expense; failure, refusal or inability on the part of the consumer to install such device or devices immediately shall constitute grounds for discontinuing water service to the premises until such device or devices have been installed. The consumer shall retain records of installation, maintenance, testing and repair as required in **Section 38-3-47(D)** below for a period of at least **five (5) years**. The Superintendent may require the consumer to submit a cross-connection inspection report to the City to assist in determining whether or not service line protection will be required. (Ord. No. 11-2010; 07-12-10)

DIVISION V - EXTENSION OF MAINS

38-3-64 DETERMINATION OF WHO PAYS EXPENSE OF EXTENSION. The City Council shall first determine if an extension of water main is economically feasible based on the estimated cost of the extension and the number of existing potential users that will use water along the extension. If the extension is economically feasible then the City may install and pay the cost of the extension at the discretion of the City Council. If the City elects not to pay the cost of extending the water main then the person or persons desiring water service shall install the extension at their own personal expense upon written consent by the City Council. The City shall not pay for any extensions to an undeveloped area, such as a subdivision being developed, unless there are sufficient existing residents or businesses to make the extension economically feasible. All extensions shall comply with the "Standard Specifications for Water & Sewer Construction in the State of Illinois". **(See Appendix #2)**

38-3-65 EASEMENTS. Applicants for main extensions shall deliver, without cost to the City, permanent easements or right-of-way when necessary for the installation and maintenance of the extensions or subsequent additions thereto. The City shall not be obligated to authorize any construction until all requirements of this Chapter have been met.

38-3-66 SIZE AND TYPE. The City reserves the right to determine and specify the diameter and type of pipe required to provide the service requested, and subject to the requirements of municipal authorities, its location within or without the limits of a street. The City further reserves the right to install a main larger in diameter than the main required to render the service requested, in which case, the City will pay the difference in cost.

38-3-67 TITLE. Title to all main extensions shall be vested in the City and the City shall have the right to further extend any main installed in and to other streets or premises without repayment or refund to any applicant. However, the City reserves the right to consider extensions made at the applicant's expense and without written agreement as to service lines. Upon such lines, the City will set a meter at the beginning of the extension to measure all water used and title to the line beyond the meter will be vested in the customer who shall be responsible for maintenance and replacement, when necessary.

38-3-68 MAINTENANCE AND REPLACEMENT. The City, at its own expense, shall maintain and when necessary, replace the City-owned mains used to supply water to its customers, and if adequate service requires the reconstruction or replacement of such mains, the mains shall be reconstructed or replaced by the City at its expense.

38-3-69 RESERVED.

The debt service charge is computed by apportioning the annual debt service as a charge per **one thousand (1,000) gallons**. The capital improvement charge is levied on users to provide for capital improvements, extensions or reconstruction of the water works. The capital improvement charge is computed by apportioning the annual amount to be accrued as a charge per **one thousand (1,000) gallons**.

In the event a particular building or premises shall contain more than **one (1) dwelling**, commercial, or industrial unit, there shall be an additional permit and inspection fee of **Two Hundred Dollars (\$200.00)** paid to the City for each additional unit to be served. The industry, as a condition of permit authorization, must provide information describing its wastewater constituents, characteristics and type of activity. **(Ord. No. 41-01; 10-22-01)**

(C) When the City is installing a new sewer line, **Three Hundred Dollars (\$300.00)** shall be paid to the City for the installation of a sewer tap on a vacant lot inside the corporate limits, for use in the future. **(Ord. No. 38-2003; 07-28-03)**

38-4-24 COST BORNE BY OWNER. All costs and expenses including labor and material incidental to the installation, connection and maintenance of a lateral sewer line shall be borne by the owner(s). The owner(s) shall indemnify the City from any loss or damage that may directly or indirectly

be occasioned by the installation, connection and maintenance of the lateral sewer lines. This section shall apply even where the lateral sewer line runs under a public street, public right-of-way, or public easement.

38-4-25 SEPARATE WASTEWATER: EXCEPTION. A separate and independent building sewer shall be provided for every building, except that where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer; except for sewer connection charges accruing from such buildings or properties.

38-4-26 OLD BUILDING WASTEWATER. Old building sewer may be used in connection with new buildings only when they are found, on examination and test by the Superintendent, to meet all requirements of this Code.

38-4-27 CONSTRUCTION METHODS. The size, slope, depth and alignment, of the building sewer shall be subject to the approval of the Superintendent. In no case shall the inside diameter of the building sewer be less than **four (4) inches**. If **six (6) inch diameter pipe** is used, the slope shall not be less than **one-eighth (1/8) inch** per foot. If **four (4) inch or five (5) inch diameter pipe** is used, the slope shall not be less **one-fourth (1/4) inch** per foot. The depth of the building sewer shall be sufficient to afford protection from frost. The building sewer shall be laid at a uniform grade and in straight alignment, insofar as possible. Changes in direction shall be made only with properly curved pipe and fittings, unless the break in alignment is made at a manhole facilitating servicing. Installation shall be in accordance with Standard Specifications for Water and Sewer Main Construction in Illinois.

All building sewer shall be constructed of materials approved by the City. Generally all building sewer shall be constructed of the following materials:

- (A) Ductile iron pipe
- (B) PVC solid wall plastic pipe (6" diameter maximum) SDR-35

All pipe joints must be gastight and watertight and are subject to the approval of the City. Transition joints from one pipe material to another shall be made using fittings manufactured for such transitions.

38-4-28 PLUMBING CODE REQUIREMENTS. The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and backfilling the trench, shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the City. In the absence of code provisions or in amplification thereof, the materials and procedures set forth in appropriate specifications of the American Society of Testing materials, **Water Pollution Control Federation Manual of Practice No. 9**, and **Standard Specifications for Water and Sewer Main Construction in Illinois** shall apply.

38-4-29 ELEVATION. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by a means which is approved in accordance with **Section 38-4-22** and discharged to the building sewer.

38-4-30 PROHIBITED CONNECTIONS. No person(s) shall make connection of roof downspouts, exterior foundation drains, areaway drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to public sanitary sewer.

38-4-31 CONNECTIONS TO WASTEWATER MAINS. Building Sewer connections with any sewer shall be made only at manholes or other such junctions as may be provided or designated by the City, and then only in such manner as directed. The connection of the building sewer shall be made at a wye branch, if such branch is available. The building service sewer shall generally enter the sewer main or lateral by way of an existing wye. In the event of absence of the wye, the connection to the sewer main or lateral shall be made by one of the methods indicated below.

(A) Installation of a manhole

(B) Circular saw-cut sewer main by proper tools ("Sewer Tap" machine or similar), and proper installation of hub wye saddle, in accordance with manufacturer's recommendation. This method shall not be allowed when the wye branch is larger than **four (4) inches** in diameter. The entire sewer main in the location of the wye and the wye shall be encased in concrete.

(C) Using the pipe cutter only, neatly and accurately cut out desired length of pipe for insertion of proper fitting. Remove both hub and bell ends, or other compression couplings from wye branch fitting to allow the wye branch to be inserted with no more than a total of **one-half (1/2) inch** gap. Use "Band Seal" couplings, or similar couplings, and shear rings and clamps to fasten the inserted fitting and hold it firmly in place. The entire section shall then be encased in concrete having a minimum thickness of **four (4) inches** and extending **eight (8) inches** beyond each joint.

If another method is desired, a detail shall be submitted for review and approval by the City before the connection is made. Indiscriminate breaking of the sewer main pipe is not allowed.

On Site Inspection. After the wye branch has been inserted and jointed, and before any additional fittings have been placed in the service line, the installation shall be approved by the Superintendent, or his authorized representative. After approval is granted the contractor shall encase the work area as specified herein.

Backfill. To be placed in accordance with The Standard Specifications for Water and Sewer Main Construction in Illinois, Current Edition. In addition, any building sewer crossing any street, or traveled alley shall be backfilled with CA-86 backfill material.

Concrete Encasement. When a riser is constructed and its height is **four (4) feet** or more measured from the flowline of the sewer main to the top of the riser pipe, the wye connection shall be encased in concrete to a height of at least **one foot six inches (1' 6")** above the flowline of the sewer main. When the height of the riser is less than **four (4) feet** above the flowline of the sewer main, the wye connection shall be backfilled to the top of the riser pipe with carefully placed and compacted granular backfill.

38-4-32 CAPACITY OF WASTEWATER. A building sewer permit will only be issued and a sewer connection shall only be allowed if it can be demonstrated that the downstream sewer facilities, including sewer, pump stations and sewer treatment facilities, have sufficient reserve capacity to adequately and efficiently handle the additional anticipated waste load.

38-4-33 TAP-IN SUPERVISION AND TESTING. The applicant for the building sewer permit shall notify the City when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Superintendent or his representative.

At any time after the installation of the building sewer, the City may test the building sewer for violation of this Code.

38-4-34 INSPECTION. After the building sewer has been constructed in the trench but before the sewer is backfilled, the applicant for the building sewer permit shall notify the Superintendent that the building sewer is ready for inspection. If the sewer has been constructed properly, permission will be given to backfill the trench. If the sewer construction is found to be unsuitable, the permit applicant will correct the installation to meet City 's requirements.

38-4-35 PUBLIC WASTEWATER CONNECTION. The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code, or other applicable rules and regulations of the City, or the procedures set forth in appropriate specifications of the American Society of Testing Materials, **Water Pollution Control Federation Manual of Practice No. 9**, and **Standard Specifications for Water and Sewer Main Construction in Illinois**. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the City before installation.

38-4-36 PROTECTION OF PROPERTY. All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the City.

38-4-37 BOND REQUIRED. If the applicant for the building sewer permit does not have a general bond on file with the City, the applicant shall furnish a corporate surety bond in an amount **one and one-half (1 1/2) times** the cost of the contemplated work for which the permit is to be issued.

38-4-38 UNLAWFUL DISCHARGES. All disposal by any person into the sewer system is unlawful except those discharges in compliance with Federal Standards promulgated pursuant to the Federal Act and more stringent State and local standards.

38-4-39 - 38-4-41 RESERVED.

DIVISION V - EXTENSION OF COLLECTING WASTEWATERS

38-4-42 PERMIT REQUIRED; AUTHORIZED PERSONNEL. No person, other than an authorized employee of the City, shall make any connection with, uncover, alter or disturb a City sewer, or open any manhole, intercepting chamber, or any appurtenance thereof without first obtaining a written permit to do so from the City, and no person shall make any connection or opening into any sewer, the flow of which is directly or indirectly discharged into any City sewer, without first obtaining a written permit to do so from the City. **(See Appendix #2)**

38-4-43 EXTENSION PERMITS. Issuance of sewer extension permits shall be initiated by an application for construction permit. The application shall be made on the forms provided by the IEPA, shall be fully completed by the applicable persons or parties, and shall be accompanied by a set of plans, specifications, and any other information as may be required by the City.

Plans and specifications shall be prepared by a registered professional engineer and approval thereof must be obtained from the City and IEPA.

If the application is in proper form, and the sewer extension indicated therein appears to be in accordance with this ordinance and all state and federal requirements, the City shall issue the permit for

construction of the sewer. If otherwise, the application for permit shall be denied by the City. There shall be no fee charged for sewer extension application or permits.

If the application is denied by the City, they shall state the reason or reasons therefore in writing, mailed or personally delivered to the applicant. The applicant shall have the right to amend such application in conformity with the reasons given for denial, and resubmit it to the City for further consideration.

All permits issued under this Article V shall have an expiration date of **two (2) years** after the date of issuance. Any sewer not constructed prior to the date of expiration shall have a new application submitted and a new permit issued prior to their construction.

The applicant for the permit shall furnish a corporate surety bond in an amount **one and one-half (1 1/2) times** the cost of the contemplated work for which the permit is to be issued.

38-4-44 MATERIALS. All sewer extensions shall be constructed of the following materials:

(A) Sewer pipe with diameters **eight (8) inches** and larger shall be one of the following:

(B) Laterals and fittings from the sewer to the property lines shall be **six (6) inch** diameter and

- (1) of comparable material to the sewer main for VCP and PVC pipe.
- (2) for ABS pipe use ABS solid wall pipe SDR-23.5 conforming to ASTM D-2751.

38-4-45 INSPECTIONS OF CONSTRUCTION. Construction of the sewer shall be inspected under competent supervision supplied by a registered professional engineer and upon completion of construction, accurate detailed plans as constructed ("record drawings") shall be certified and submitted by the professional engineer to the City before any applications for building sewer permits are filed; all at the expense of the Owner. These plans shall show all elevations as installed as well as accurate measurements showing the locations of service connections. The Engineer shall also submit a certified statement showing the source, place and volume of foreign waters.

All sewer shall be subjected to:

(A) A lamp test which shall provide that from one manhole to another, at least **one-half (1/2)** of the pipe end area shall be visible.

(B) Infiltration or exfiltration test with acceptable allowance of 200 gallons per day per inch diameter per mile;

(C) Under special circumstances, when approved by the City, air pressure testing with allowance to be specified by the City.

When any sewer line fails to pass the infiltration test, the exfiltration test, or an air pressure test, the sewer line shall be televised in the presence of the City's representatives to determine points of faulty construction. The Owner shall repair all defects; the method of repair shall be subject to the approval of the City. **(See Appendix #5)**

38-4-46 MANHOLES REQUIRED. Manholes shall be installed at all changes in grade and/or direction and at distances not greater than **four hundred (400) feet** apart. All manhole covers shall be watertight and self-sealing, incorporating an "O" ring gasket. All covers shall have concealed pick holes. Where manhole covers may be subjected to frequent and extreme submergence, additional watertightness shall be ensured by using bolt down covers.

38-4-47 - 38-4-48 RESERVED.

DIVISION VI - USE OF PUBLIC WASTEWATER FACILITIES

38-4-49 DISCHARGE OF STORM WATER. No person shall discharge, or cause to be discharged, any stormwater, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

(H) Any mercury or any of its compounds in excess of **0.0005 mg/l as Hg** at any time except as permitted by the City in compliance with applicable State and Federal regulations.

(I) Materials which exert or cause:

- (1) unusual concentrations or inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate);
- (2) excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions);

(L) Any cyanide in excess of 0.025 mg/l at any time except as permitted by the City in compliance with applicable State and Federal regulations.

38-4-53 HARMFUL WASTES: APPROVAL.

(A) If any waters or wastes are discharged or are proposed to be discharged to the public sewer, which waters contain the substances or possess the characteristics enumerated in **Section 38-4-52** of this Division, and/or which are in violation of the standards for pretreatment provided in 40 CFR 403, June 26, 1978 and any amendments thereto, and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

- (1) reject the wastes;
- (2) require pretreatment to an acceptable condition for discharge; and/or;
- (3) require control over the quantities and rates for discharge; and/or;
- (4) require payment to cover the added costs of handling and treating the wastes not covered by existing taxes or sewer charges, under the provisions of **Section 38-4-42.**

(B) If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent, and subject to the requirements of all applicable codes, articles, and laws.

(C) The owner of the pretreatment or equalization facilities shall obtain construction and operating permits from the Illinois Environmental Protection Agency prior to the issuance of final approval by the Superintendent.

(D) Where multiple process or discharges are present or contemplated at an industry, the City shall have the authority to require the owner or person to furnish and install more than one control manhole with appurtenances and/or require that all sewer be discharged through a single control manhole or structure with appurtenances described herein.

38-4-54 INTERCEPTORS PROVIDED.

(A) Grease, oil, and sand interceptors shall be provided in accordance with the Illinois State Plumbing Code to assure the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the City and shall be located as to be readily and easily accessible for cleaning and inspection. All grease interceptors shall be serviced and emptied of accumulated waste content as required or at a minimum of once every **four (4) months** in order to maintain minimum design capability or effective volume of the grease interceptor and to prevent carry over of grease into the sanitary sewer system. All fast food and sit-down restaurants shall install a grease interceptor with a capacity of at least **one thousand five hundred (1,500) gallons**, and designed in accordance with **Appendix "A"**. Food establishments that serve a minimum amount of fried foods such as deli sandwich shops, shall install a grease interceptor with a capacity of at least **one thousand (1,000) gallons**, and designed in accordance with **Appendix "B"**.

(B) Users whose operations cause or allow excessive grease to discharge or accumulate in the City wastewater collection and treatment system may be liable to the City for costs related to service calls for sewer line blockages, line cleaning, line and pump repairs, etc. including all labor, materials, and equipment. Failure to pay all service related charges may also be grounds for sewer service discontinuance.

(C) **Maintenance Log.** A grease trap cleaning/maintenance log indicating each pumping for the previous **twenty-four (24) months** shall be maintained by each Food Service Facility. This log shall include the date, time, amount pumped, hauler, and disposal site and shall be kept in a conspicuous location for inspection. Said log shall be made available to the City or his representative upon request.

(D) **Submittal of Records.** Each user shall submit all cleaning and maintenance records to the City. The maintenance records shall include the following information:

- (1) Facility name, address, contact person, and phone number.
- (2) Company name, address, phone number, and contact name of person responsible for performing the maintenance, cleaning, pumping, or repair of grease trap.
- (3) Types of maintenance performed.
- (4) Dates maintenance was performed.
- (5) Date of next scheduled maintenance.
- (6) Copies of manifests.
- (7) The user shall be required to submit maintenance records to the City on an annual basis. Records shall be submitted by **September 1st** of each year. The records shall be submitted to:
Attn: Wastewater Superintendent

(E) The City will perform periodic inspections of these facilities and shall notify the user of any additional required maintenance or repairs. Upon written notification by the City, the user shall be required to perform the maintenance and records of said maintenance within **fourteen (14) calendar days**. Upon inspection by the City the user may be required to install, at his expense, additional controls to provide a complete system which prevents discharges of undesirable materials into the wastewater collection system.

(F) **Control Plan for Fats, Oils, Greases (FOG) and Food Waste.**

- (1) Any new construction, renovation, or expansion of Food Service Facilities shall be required to submit to the City a FOG and food waste control plan that will effectively control the discharge of undesirable materials into the wastewater collection system.

- (2) Any existing Food Service facilities shall also be required to submit a FOG and food waste control plan that will effectively control the discharge of undesirable materials into the wastewater collection system. Existing facilities shall not be exempt from the requirements of this Section. There will be no "Grandfathering".

(G) **Exceptions to the Above.** Should existing facilities be hampered by space constraints or restrictions caused by unchangeable plumbing, an alternative interceptor may be approved, provided that:

- (1) Said interceptor and installation is endorsed by a licensed plumbing contractor in regard to its operability.
- (2) Said interceptor and installation is endorsed by the City Engineer.
- (3) Said interceptor and installation is approved by the Superintendent and the Water and Sewer Committee.

Such installations may be subject to more stringent inspections and maintenance schedules.

38-4-55 FLOW-EQUALIZING FACILITIES. Where preliminary treatment or flow-equalizing facilities are provided, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

38-4-56 INDUSTRIAL WASTES CONTROL MANHOLE. Each industry shall be required to install a control manhole and, when required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessible and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

38-4-57 INDUSTRIAL WASTE TESTING.

(A) The owner of any property serviced by a building sewer carrying industrial wastes shall provide laboratory measurements, tests, and analyses of waters and wastes to illustrate compliance with this Code and any special conditions for discharge established by the City or regulatory agencies having jurisdiction over the discharge.

(B) The number, type, and frequency of laboratory analyses to be performed by the owner shall be as stipulated by the City, but no less than once per year the industry must supply a complete analysis of the constituents of the sewer discharge to assure that compliance with the Federal, State, and local standards are being met. The owner shall report the results of measurements and laboratory analyses to the City at such times and in such a manner as prescribed by the City. The owner shall bear the expense of all measurements, analyses, and reporting required by the City. At such times as deemed necessary the City reserves the right to take measurements and samples for analysis by an outside laboratory service.

38-4-58 MEASUREMENTS AND TESTS. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this Code shall be determined in accordance with the latest edition of **IEPA Division of Laboratories Manual of Laboratory Methods**, and shall be determined at the control manhole provided, or upon suitable samples taken at the control manhole. In the event that no special manhole has been required the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a **twenty-four (24) hour** composite

of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from **twenty-four (24) hour** composites of all outfalls, whereas pH's are determined from periodic grab samples.)

38-4-59 SPECIAL ARRANGEMENTS. No statement contained in this Article shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment, subject to payment therefore, in accordance with the Chapter, hereof, by the industrial concern provided such payments are in accordance with Federal and State guidelines for User Charge System and Industrial Cost Recovery System.

38-4-60 PROTECTION FROM DAMAGE. No authorized person shall maliciously, willfully, or negligently break, damage, destroy, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

38-4-61 - 38-4-64 RESERVED.

DIVISION VII - INSPECTIONS

38-4-65 DAMAGE. No unauthorized person shall maliciously, willfully, or negligently break, damage, destroy, or tamper with any structure, appurtenance, or equipment which is part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

38-4-66 INSPECTION AND TESTING.
(A) The Superintendent and other duly authorized employees of the City, the Illinois Environmental Protection Agency, and the United States Environmental Agency, bearing proper credentials and identification, shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this Code.

(B) The Superintendent or his representative shall have no authority to inquire into any processes, including metallurgical, chemical, oil refining, ceramic, paper, or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewer or waterway or facilities for waste treatment. **(See Appendix #5)**

38-4-67 LIABILITY OF CITY. While performing the necessary work on private properties referred to in **Section 38-4-66** above, the Superintendent or duly authorized employees of the City, the Illinois Environmental Protection Agency, and the United States Environmental Protection Agency shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the City employees and the City shall indemnify the company against liability claims and demands for personal injury or property damage asserted against the company and growing out of the gauging and sampling operation, except as such may be caused by negligence or failure of the company to maintain conditions as required in **Section 38-4-57**.

38-4-68 PRIVATE PROPERTY INSPECTIONS. The Superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but

not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within the easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

38-4-69 - 38-4-70

RESERVED.

DIVISION VIII – WASTEWATER SERVICE CHARGES

38-4-710 BASIS FOR WASTEWATER SERVICE CHARGES. The wastewater service charge for the use of and for service supplied by the wastewater facilities of the City shall consist of a basic user charge for operation and maintenance plus replacement, applicable surcharges and local capital cost charge composed of a debt service charge and a capital improvement charge.

The debt service charge is computed by dividing the annual debt service of all outstanding bonds by the number of users. Through further divisions, the monthly debt service charges can be computed.

The capital improvement sewer charge is levied on all users to provide for capital improvements, sewer extensions or reconstruction of the sewage treatment works. The capital improvement is computed by apportioning the annual amount to be accrued as a fixed charge per month.

The basic user charge shall be based on water usage as recorded by water meters for wastes having the following normal domestic concentrations:

- ♦ A five day, **20 degree centigrade (20 degree C)** biochemical oxygen demand (BOD) of **204 mg/l.**
- ♦ A suspended solids (SS) content of **240 mg/l.**

It shall consist of operation and maintenance costs plus replacement and shall be computed as follows:

- (A) Estimate wastewater volume, pounds of SS and pounds of BOD to be treated.
- (B) Estimate the projected annual revenue required to operate and maintain the wastewater facilities including a replacement fund for the year, for all work categories.
- (C) Proportion the estimated OM&R costs to each user class by volume, suspended solids and BOD.
- (D) Proportion the estimated operation, maintenance and replacement (OM&R) costs to wastewater facility categories by Volume, Suspended Solids and BOD.
- (E) Compute costs per **one thousand (1,000) gallons** for normal sewage strength.
- (F) Compute surcharge costs per pound per **one thousand (1,000) gallons** in excess of normal sewage strength for BOD and SS.

A surcharge will be levied to all users whose wastewaters exceed domestic concentrations of BOD **300 mg/l** and SS **350 mg/l**. The surcharge will be based on water usage as recorded by water meters for all wastes which exceed the **300 mg/l** and **350 mg/l** concentration for BOD and SS respectively. **Section 38-4-25** specifies the procedure to compute a surcharge.

The adequacy of the wastewater service charge shall be reviewed as soon as possible following receipt of the annual audit of the Sewer Department, and in no event, later than two (2) months after receipt of the audit. The review, appraisal, and examination of the wastewater service charges shall be made by the Public Works Committee, the Superintendent, City Treasurer, City Clerk, City Auditor and City Engineer for the purpose to determine where a change should be made. The items to be reviewed are the local capital cost, operation and maintenance cost, and replacement cost. A written report of the results of the study shall be submitted to the City Council by the Public Works Committee, together with its recommendation.

The users of wastewater treatment services will be notified annually, in conjunction with a regular bill, of the rate and that portion of the user charges which are attributable to the wastewater treatment operation, maintenance and replacement. (**Ord. No. 32-97; 07-14-97**)

38-4-72 MEASUREMENT OF FLOW. The volume of flow used for computing basic user charges and surcharges shall be the metered water consumption read to the lowest even increments of **one hundred (100) gallons.**

(A) If the person discharging wastes into the public sewers procures any part, or all, of his water from sources other than the Public Waterworks System, all or a part of which is discharged into the public sewers, the person shall install and maintain, at his expense, water meters of a type approved by the City for the purpose of determining the volume of water obtained from these other sources.

(B) Devices for measuring the volume of waste discharged may be required by the Superintendent if these volumes cannot otherwise be determined from the metered water consumption records.

(C) Metering devices for determining the volume of waste shall be installed, and maintained by the person and owned by the City. Following approval and installation, such meters may not be removed, unless service is cancelled, without the consent of the Superintendent.

(D) All multi-unit buildings, residents, businesses or both constructed after the date of this Chapter shall have a water meter installed for each building.

(E) A building unit is defined as all persons or families residing in a building under **one (1) roof**, be it an apartment or homes converted into more than **one (1) dwelling place**, each family or individual resident residing therein shall be deemed an individual customer and such homes or apartments or dwellings shall be billed for at least **one (1)** minimum sewer account, according to the number of families or individual residents residing therein. When **two (2)** or more families live in **one (1) dwelling**, **one (1)** minimum per dwelling shall be charged. If more than the minimum is used, the owner or occupant of such dwelling shall pay the additional over such minimum as provided.

38-4-73 DEBT SERVICE CHARGE. A debt service charge of **Four Dollars Eighty Cents (\$4.80)** per user per month, to each user of wastewater facility of the City is hereby established.

A capital improvement charge will be levied on all users as a fixed charge of **Sixty Cents (\$0.60)** per month, to provide funds for extension, improvements, or reconstruction of the sewage treatment works.

38-4-74 BASIC SEWER RATE. There shall be and there is hereby established a minimum charge and a basic user rate for the use of and for service supplied by the Wastewater Facilities of the City. A minimum charge of **Fifteen Dollars Thirty-Two Cents (\$15.32)** of which **One Dollar Forty-Two Cents (\$1.42)** shall be established as a debt service charge, per month shall be applied to all users who are located inside the corporate limits of the City whose water consumption does not exceed **two thousand (2,000) gallons** per month, and a minimum charge of **Sixteen Dollars Fifty-Seven Cents (\$16.57)** of which **One Dollar Forty-Two Cents (\$1.42)** shall be established as a debt service charge, per month shall be applied to all users who are located outside the corporate limits of the City whose consumption does not exceed **two thousand (2,000) gallons** per month. A basic user rate of **Three Dollars Seventeen Cents (\$3.17)** per **one thousand (1,000) gallons** shall be applied to all users for water consumption in excess of **two thousand (2,000) gallons** per month. The aforementioned minimum charges shall be effective starting the **December 2015** billing cycle.

All non-metered residential users of the wastewater facilities shall pay a minimum flat rate charge per month adequate to cover the costs of the minimum accrual capital cost charge, the minimum service charge and the basic user rate of **Sixteen Dollars Two Cents (\$16.02)** per month for users located inside the corporate limits of the City and **Eighteen Dollars Eighty-Two Cents (\$18.82)** per month for users located outside the corporate limits of the City; these minimum flat rate charges shall be effective starting the **December 2015** billing cycle. The flat rate charge will allow a maximum usage of **five thousand (5,000) gallons** per month. In the event use of the wastewater facilities is determined by the Superintendent to be in excess of **five thousand (5,000) gallons** per month, the Superintendent may require such flat rate user to install metering devices on the water supply to measure the amount of service supplied.

(Ord. No. 40-2015; 11-23-15)

38-4-75 SURCHARGE RATE. The rates of surcharges for BOD₅ and SS shall be as follows:

per lb. of BOD/1,000 gallons	\$0.20
per lb. of SS/1,000 gallons	\$0.19

(Ord. No. 32-97; 07-14-97)

38-4-76 COMPUTATION OF SURCHARGE. The concentration of wastes used for computing surcharges shall be established by waste sampling. Waste sampling shall be performed as often as may be deemed necessary by the Superintendent and shall be binding as a basis for surcharges.

38-4-77 COMPUTATION OF WASTEWATER SERVICE CHARGE. The wastewater service charge shall be computed by the following formula:

$$CW = CC + CD + CM + (Vu-X) CU + CS$$

Where CW = Amount of waste service charges (\$) per billing period.
 CD = Debt Service Charge **(Section 38-4-22)**
 CC = Capital Improvement Charge.
 CM = Minimum Charge for Operation, Maintenance and Replacement **(Section 38-4-23)**
 Vu = Wastewater Volume for the billing period.
 X = Allowable consumption in gallons for the minimum charge **(Section 38-4-23)**
 CU = Basic User Rate for Operation, Maintenance and Replacement **(Section 38-4-23)**
 CS = Amount of Surcharge **(Sections 38-4-24 and 38-4-25)**

(Ord. No. 26-97; 06-09-97)

38-4-78 INDUSTRIAL SEWER USAGE CHARGE SYSTEM. When hydraulic loading ratio and/or organic loading ratio [expressed in terms of Biochemical Oxygen Demand (BOD) or Suspended Solids (SS), whichever is greater] from a commercial or industrial establishment equals or exceeds **five percent (5%)** of the total wastewater treatment plant loading, then the business establishment shall pay an Industrial Cost Recovery Charge which will be determined by the following formula:

(A) $C_i = \frac{THL + TOL}{2} \times (AGA)$

(B) C_i = Annual Industrial Cost Recovery Charge

(C) THL = The ratio [expressed as a decimal fraction] of the hydraulic loading contributed by the establishment to the total hydraulic loading on the Wastewater Treatment Plan.

(D) TOL = The ratio [expressed as a decimal fraction] of the organic loading contributed by the establishment to the total organic loading on the Wastewater Treatment Plan.

(E) AGA = The grant amount awarded to the City by the Federal Environmental Agency divided by the useful life of the treatment works.

This Industrial Cost Recovery Charge shall be assessed annually to the industry. The first payment will be due **one (1) year** after connection to the sanitary sewer system.

The City shall return **fifty percent (50%)** of the above Industrial Cost Recovery Charge to the United States Treasury on an annual basis while retaining the remaining **fifty percent (50%)**. This retained charge shall be set aside in a separate account. **Eighty percent (80%)** of the retained amounts must be used in expansion or reconstruction of the sanitary sewer treatment facilities with written approval of the Regional Administrator of the United States Environmental Protection Agency. The remaining **twenty percent (20%)** of the retained amount may be used as the City sees fit.

In addition to the Industrial Cost Recovery Charge, the establishment as defined above shall pay a sewer charge as determined by the following formula:

(F)
$$C_o = \frac{THL + TOL}{2} \times (AOM)$$

(G) C_o = Annual sewer usage charge based on Operation and Maintenance Costs.

(H) AOM = The annual operation and maintenance cost to the City incurred for, and related to the operation of the wastewater treatment plant, based on the actual cost for the previous year. This annual cost shall include the yearly depreciation amount as well as the standard Operation and Maintenance and debt service costs as established in the Sewer Use Ordinance Accounting System.

The contributor shall, upon the request of the Superintendent, provide a satisfactory opening in the lateral before the sewage reaches the sewer main where a representative sample of the sewage can be taken and where the flow can be measured by the Superintendent.

The loading contributed by an establishment shall be determined from the numerical average of BOD or SS [whichever is higher], and from recorded flows based on actual flow measurement or water use records, over the preceding **six (6) month** period, if such records are available. Otherwise, the loading shall be determined based on the best available information.

The Superintendent shall take representative samples of sewage on a minimum frequency of once a month, and run the BOD and/or SS test according to standard methods, which shall be used to calculate the Industrial Cost Recovery Charge and the annual sewer usage charge.

38-4-79 - 38-4-90 RESERVED.

ARTICLE XIII - SIGNS

40-13-1 **PURPOSE.** This Article shall be known and cited as the "Sign Code". The sign regulations set forth in this Article are adopted in accord with an overall plan and program for the public safety, area development, preservation of property values, and general welfare of the City of Herrin. The intent is to safeguard the general welfare of the property owner, to preserve and protect the beauty of the community while balancing the growth, development and commercial pursuits. In establishing the standards, the following findings are made:

(A) A multiplicity of signs is distracting to motorists and a hazard to vehicular and pedestrian traffic.

(B) A proliferation of off-premise commercial signs obscure the legitimate effort of local business establishments to reasonably identify the location and nature of their businesses.

(C) It is a legitimate public purpose to limit commercial signs in the City to those reasonably necessary to identify local businesses. Such restrictions are established for the following purposes:

(1) Limit distraction to motorists and reduce the danger to vehicular traffic and pedestrians.

(2) Control and abate the unsightly use of buildings and land and enhance the appearance of the landscape.

(3) Preserve the beauty of the landscape and residential and commercial architecture.

(D) It is necessary for the promotion and preservation of the public health, safety and welfare of the City that the size, type, placement, construction, location and maintenance of all signs be regulated and controlled so as to assure that all signs are:

(1) Compatible with the surroundings, and

(2) Appropriate to the type of activity to which they pertain.

40-13-2 **SIGNS.** No sign shall be installed, altered, enlarged, or replaced within the City of Herrin until a sign permit has been issued by the Zoning Administrator. A drawing of the sign, which shows its proposed location and size shall be submitted to the Code Inspector, along with a fee of **Fifty Dollars (\$50.00)**. (**Ord. No. 40-2003; 08-25-03**)

ARTICLE XIV – WIRELESS COMMUNICATION FACILITIES

40-14-1 PURPOSE. The purpose of this Article is to establish general guidelines for the siting of wireless communication facilities (WCF) and to encourage the orderly development of WCFs in a manner to protect and preserve the character of residential neighborhoods, to protect the public health, safety and general welfare, and to advance sound planning principles and encourage the delivery of new wireless technologies throughout the City, while regulating the proliferation of transmission towers. The objectives of the wireless communication facilities siting Regulations and Standards are as follows:

- (A) To protect residential areas from the uncontrolled development of WCFs by requiring reasonable siting conditions;
- (B) To encourage users of towers and antennas to configure them in a manner that minimizes the adverse visual impact of the towers and antennas;
- (C) To provide a range of locations for WCFs throughout the City's zoning jurisdiction;
- (D) To promote the use of suitable land for the location of wireless antennas, towers and other WCFs;
- (E) To encourage site sharing of existing and new WCFs;
- (F) To encourage the location WCFs onto existing structures to reduce the number of new communication towers needed within the City;
- (G) To regulate the type of tower constructed when towers are permitted;
- (H) To enhance the ability of providers or wireless communication services to provide such services to the community;
- (I) To preserve aircraft safety at the Williamson County Regional Airport;
- (J) To establish standards to address the siting of WCFs which are consistent with the requirements of the Federal Telecommunications Act of 1996, and in the best interests of the City of Herrin.

40-14-2 DEFINITIONS. The following words and phrases shall have the following meanings, unless the context of the sentence in which they are used shall indicate otherwise.

40-14-3 APPLICABILITY.

(A) **New Wireless Communication Facility.** No person shall install or construct any new WCF, unless and until a permit is issued by the City pursuant to requirements of this Article.

(B) **Pre-Existing Wireless Communication Facility.** WCFs which exist, or WCFs which have been approved for construction prior to the effective date of this Article shall not be required to meet the requirements of this Article, unless expansion or additions are requested. Alterations to a support structure, or the addition of antenna arrays to a structure, must meet the requirements of this Article and may be completed after appropriate permits are issued.

(C) **Exemptions.** The provisions of this Article do not apply to a ground or building mounted receive only radio or television antenna used for residential purposes; a ground or building mounted citizens band radio antenna; a ground, building or tower mounted antenna operated by a federally licensed amateur (ham) radio operator; and satellite dish antennas less than **one (1) meter** in diameter for residential uses; and less than **two (2) meters** in diameter for commercial or industrial uses, including direct to home satellite services, when used as an accessory use of the property. Such installations shall comply with any other applicable provisions of the Zoning Code.

40-14-4 SHARED FACILITIES AND CO-LOCATION POLICY. All new wireless communications facilities shall be engineered, designed and constructed to be capable of sharing the facility with other applicants, to co-locate with other existing WCFs and to accommodate the future co-location of other WCFs. A tower and/or antenna use permit shall not be issued until the applicant proposing a new WCF shall demonstrate that it has made, in reasonable good faith, an attempt to locate its WCF onto an existing structure. Competitive conflict and financial burden alone are not deemed to be adequate reasons against co-location.

40-14-5 INVENTORY OF EXISTING SITES. Upon approval of this Article, all wireless communication service providers operating in the City are required to register with the City. Registering service providers shall provide to the Code Inspector an inventory of existing WCF towers and/or antennas that are within the zoning jurisdiction of the City, which includes all areas within the corporate limits of the City and within **one and one-half (1 ½) miles** of the corporate limits, which shall include specific information about the location, height, design of each tower, and all permits obtained from the FCC and the FAA.

40-14-6 PREFERRED LOCATIONS FOR WIRELESS COMMUNICATION FACILITIES.
The order of preference for locating new wireless communication facilities within the City shall be as follows:

(A) Locating antenna attachments to existing support structures or to existing buildings or other structures which shall include, but not be limited to utility poles, signs and water towers. All antenna attachments shall be permitted by the Code Inspector, subject to the standards set forth in **Section 40-15-10** of this Chapter.

(B) Locating new support structures on land that meet all of the following requirements:

(1) The site is located on property zoned Industrial.

- (2) The site has a setback distance of **two hundred (200) feet** from residentially zoned property.
- (3) The site has a minimum spacing requirement distance of **one thousand (1,000) feet** from any other support structure greater than **one hundred (100) feet** in height.
- (4) The support structure does not exceed **two hundred fifty (250) feet** in height in the industrial zoning district, and meets all FAA requirements with respect to the Williamson County Regional Airport.
- (5) Support structures on these lands shall be permitted by the Code Inspector subject to the standards set forth in **Section 40-14-10**.

(C) Locating new support structures on any other lands not meeting the requirements in (B) above, and within the City's zoning jurisdiction. Support structures on these lands shall only be permitted by means of approval of a special use and subject to the standards set forth in **Section 40-15-10**. When applying for a special use, the applicant shall provide the City with adequate information to establish that no lands included in (A) or (B) above can be made suitable for the applicant's proposed WCFs in accord with **Section 40-15-4** of this Chapter.

40-14-7 REVIEW PROCEDURES.

(A) **Permitted Wireless Communications Facilities.** Attached WCFs that meet the standards set forth in **Section 40-14-10** of this Article shall be permitted by Code Inspector with the appropriate permit. All WCFs with support structures that are located on land in accord with the requirements set forth in **Section 40-14-6(B)** of this Article and meet the standards set forth in **Section 40-14-10** of this Article shall be permitted by administrative review.

Once granted, a temporary WCF permit may be extended for an additional **sixty (60) days** upon evidence of need by the applicant. Upon termination of the temporary permits, the temporary WCF shall be removed within **ten (10) days** at the owner's expense.

(D) **Wireless Communication Facilities Requiring a Certificate of Appropriateness.** Any wireless communication facility, regardless of type, to be located in the downtown historic business district, shall be subject to review by the Historical Preservation Committee.

40-14-8 REQUIRED DOCUMENTATION FOR TOWER AND/OR ANTENNA USE PERMIT.

(A) All requests for a WCF, regardless of type, shall be submitted on an application provided by the City and accompanied by an administrative fee of **One Hundred Dollars (\$100.00)**. The following supporting documents and exhibits shall be attached to the application:

- (2) **Review Criteria.** Each application shall be reviewed for compliance with the standards specified in **Section 40-15-10** of this Chapter.
- (3) **Timing of Decision.** The Code Inspector shall render a decision on the application as promptly as possible once all requested information has been submitted.
- (4) **Application Approval.** If the application is in compliance with the standards in **Section 40-14-10**, and otherwise meets the requirements of this Article, the Code Inspector shall issue a permit.
- (5) **Application Denial.** If administrative approval is denied by the Code Inspector, the reason for the denial shall be made known to the applicant. The applicant may appeal the decision of the Code Inspector to the Board of Appeals in accord with **Section 40-16-6** of this Chapter.

(B) **Special Review Procedure.** The following shall apply to all applications requiring submission to the Zoning Board for review in accord with **Section 40-16-16** et seq., the special use section of the Zoning Code. The Zoning Board shall consider the following in reaching a decision for recommendation to the City Council.

- (1) **Review Criteria.** Each application shall be reviewed for compliance with the standards set forth in **Section 40-14-10**.
- (2) **Tower Siting Conditions.** The Zoning Board may recommend to the City Council that conditions and restrictions be imposed upon the applicant, or on the premises to be benefited by the permit, as it deems necessary to reduce or minimize any adverse effects and to enhance the compatibility of the WCF with the surrounding property, in accord with the purposes and intent of this Article.
- (3) **Factors in Granting Special Use Permits for Towers.** In addition to any standards for consideration of special use permit applications pursuant to **Section 40-16-16** of the Zoning Code, the Zoning Board shall consider the following factors when reviewing applications for new towers:
 - (a) Height of proposed tower.
 - (b) Proximity of the tower to residential structures and residential district boundaries.
 - (c) Nature of uses on adjacent and nearby properties.
 - (d) Surrounding topography.
 - (e) Surrounding tree coverage and foliage; and
 - (f) Proposed ingress and egress.
- (4) **Availability of Suitable Existing Towers.** No new support structure shall be permitted unless the applicant submits written documentation that

no existing tower structure can accommodate the applicant's proposed WCF. Evidence submitted shall be prepared by a qualified licensed Illinois professional engineer and may consist of one or more of the following:

- (a) Existing towers or structures are not located within a reasonable geographic area which meet the applicant's engineering requirements.
- (b) Existing towers or structures are not sufficient height to meet the applicant's engineering requirements.
- (c) Existing towers or structures cannot be altered to provide sufficient structural strength to support applicant's proposed antenna and related equipment.
- (d) The applicant's proposed antenna would cause electromagnetic interference with the antenna on the existing towers or structures, or the antenna on the existing towers or structures would cause interference with the applicant's proposed antenna.
- (e) The fees, cost or contractual provisions required by the owner in order to share an existing tower or structure, or to adapt an existing tower or structure for sharing, are unreasonable based upon market information provided to the Code Inspector. Costs exceeding new tower development are presumed to be unreasonable.
- (f) The applicant demonstrates that there are other limiting factors that render existing towers and structures unsuitable.
- (g) The applicant demonstrates that an alternative technology that does not require the use towers or structures is unsuitable.
- (h) Applicants are required to demonstrate by providing proof of certified mailings or other reasonable means:
 - (i) that they have contacted the owners of reasonably suitable structures within a **one thousand (1,000) foot** radius of the proposed site and, which from a location standpoint, could provide part of a network for transmission of signals;
 - (ii) have asked for permission to install the antenna on those structures; and
 - (iii) were denied for reasons other than economic feasibility.

40-14-10 DEVELOPMENT STANDARDS. Standards for wireless communication facilities shall include the following:

(B) **Setback Standards.** The following setback standards shall apply to all WCF installations:

- (1) All support structures shall be constructed to comply with the setback provisions of the zoning district in which they are located, or as may be required by the site distance or spacing requirements prescribed in **Section 40-14-6** of this Article, but in no instance shall any support structure be less than **twenty (20) feet** from any lot line.
- (2) Attached WCFs are exempt from any setback standard. An antenna array may extend up to **five (5) feet** horizontally beyond the edge an attachment structure so long as the antenna array does not encroach upon an adjoining parcel.
- (3) Equipment facilities and guy anchors, if permitted must satisfy the minimum setback requirements of the zoning district in which they are located.

(C) **Landscaping.** The following landscaping requirements shall be maintained by the applicant and shall apply to all new WCF installations. Support structures and attached WCFs with new building construction shall be landscaped around the perimeter of the security fencing by a row of evergreen trees or shrubs capable of creating a continuous hedge and obtaining a height of at least **ten (10) feet**. Trees shall be minimum of **one and one-half (1 ½) inch** caliper, or shrubs a minimum of **thirty-six (36) inches** tall, at the time of planting.

(D) **Aesthetics – Materials and Colors.** The following standards shall apply to all WCFs installations:

- (1) Support structures shall either maintain a galvanized steel finish or, subject to any applicable standards of the FAA, be painted a neutral color, or such shades as are appropriate with the surrounding environment so as to reduce visual obtrusiveness.
- (2) Antenna array attachments and supporting electrical and mechanical equipment shall be of a color that is identical to or closely compatible with the color of the attachment structure so as to make the antenna array and related equipment as visually unobtrusive as possible.

(E) **Security Fencing.** WCFs with support structures shall be enclosed by an opaque security fence not less than **six (6) feet** in height. Security features may be incorporated into the buffer, landscaping and screening requirements for the site. Nothing herein shall prevent security fencing that is necessary to meet requirements of state or federal agencies.

(F) **Lighting.** The following lighting requirements shall apply to all WCF installations. WCFs shall not be artificially illuminated, directly or indirectly, except for:

- (1) Security and safety lighting of equipment buildings, if such lighting is appropriately down shielded to keep light within the boundaries of the site; and

(G) **Signage.** WCFs shall not display any signage, logos, decals, symbols or any messages of a commercial or noncommercial nature, except for a message containing provider identification and emergency telephone numbers and other emergency warning information as may be required by local, state or federal regulations governing WCFs.

(H) **Radio Frequency Emissions.** The following radio frequency emissions standards shall apply to all WCF installations:

Structures, as it may be updated and amended. Each support structure shall be capable of supporting multiple antenna arrays.

(J) **Co-Location Support Structure Design.** To encourage co-location of WCFs, all WCFs shall be designed to accommodate multiple antenna arrays in accordance with the standards set forth in **Section 40-14-10** of this Article.

(K) **Other Applicable Regulations.**

- (1) **State or Federal Requirements.** All towers must meet or exceed current standards and regulations of the National Environmental Policy Act (NEPA); Federal Aviation Administration (FAA), Federal Commerce Commission (FCC), and any other agency of the state or federal government with the authority to regulate towers and antennas. If such standards and regulations are changed, then the owner of the towers and antennas governed by this Article shall bring such towers and antennas within compliance with such revised standards and regulations within **six (6) months** of the effective date of such standards and regulations, unless a different compliance schedule is mandated by the controlling state or federal agency. Failure to bring towers and antennas into compliance with such revised standards and regulations shall constitute grounds for the removal of the tower or antenna at the owner's expense.
- (2) **Building Code Requirements.** Construction of all WCFs within the City shall comply with the requirements of the Building Code and permitting process in addition to the requirements of this Article.

40-14-11 NONCONFORMING WIRELESS COMMUNICATION FACILITIES. WCFs in existence, or WCFs which have been approved for construction prior to the date of the approval of this Article, which do not comply with the requirements of this Article shall be considered a nonconforming Wireless Communication Facility and are subject to the following provisions:

However, if the damage to the WCF exceeds **fifty percent (50%)** of the replacement cost, the WCF may only be reconstructed in compliance with this Article.

(D) Any nonconforming WCF not in use as a WCF for a period of **six (6) consecutive months** or longer, which is thereafter determined to be abandoned by the Code Inspector, shall no longer be a nonconforming use.

40-14-12 ABANDONED WIRELESS COMMUNICATION FACILITIES. The owner of a WCF shall file annually a declaration with the City as to the continuing operation of every facility installed and that the facility continues to meet EIA/TIC 222-E standards and any other applicable state and federal standards. Failure to do so shall be determined to mean that the facility is no longer in use and may be considered abandoned subject to the following:

Any WCF that has not operated for a continuous period of **six (6) months** shall be considered abandoned, unless the owner of the WCF provides evidence to the satisfaction of the City that in reasonable good faith, attempts have been made to market the WCF to a provider pursuant to the requirements of this Article.

40-14-13 REMOVAL OF ABANDONED WIRELESS COMMUNICATION FACILITIES. The City, in its discretion, may require the owner of an abandoned WCF to remove the WCF within **ninety**

(90) days from the date the owner receives notice from the City to remove the WCF. If there are **two (2)** or more users of a single WCF, this provision shall not become effective until all providers cease to use the WCF. If the owner of an abandoned WCF cannot be located, or is no longer in business, the requirements of this Section shall be the responsibility of the landowner on whose property the WCF is located.

40-14-14 REVOCATION OF TOWER AND ANTENNA USE PERMITS. Any tower and/or antenna use permit issued pursuant to this Article may be revoked by the City as provided hereinafter. If the Code Inspector finds that any permit holder has violated any provision of this Article, or the conditions, restrictions or additional standards of an approved special use, or has failed to make, in reasonable good faith, efforts to provide or seek co-location, the Code Inspector shall notify the permit holder in writing that the permit is revocable due to noncompliance with the conditions of the permit. The Code Inspector shall meet with the permit holder and may grant no more than **thirty (30) days** to correct the violation, in lieu of revocation.

(Ord. No. 6-2000; 03-27-00)

ARTICLE II – STORM WATER DETENTION

41-2-1 PURPOSE AND APPLICABILITY.

(A) The growth in and around the City and associated development; construction of buildings, paved surfaces, roads and other improvements has altered in the past and continues to alter the natural flow of surface waters on land. This alteration of natural flows of surface waters on land together with the construction of gutters, culverts, drains and channels for carrying of surface waters has both increased the quantity of storm water and amplified peak flow rates of runoff thus leading to present and potential flooding of property and homes, dangerous flows within and over public streets, and soil/channel erosion.

(B) It is the intention of the City to protect the health and safety of citizens and visitors of the community and to prevent damage to private property and public facilities through the proper design and construction of both on-site and regional storm water detention facilities that prevent or adequately reduce increases in peak flow rates of runoff that may otherwise increase the risk of flooding and associated risk of public endangerment, property damage and erosion.

(C) It is the intention of the City, through this Article, to establish a storm water detention program for the design and construction of storm water detention facilities so, where practical, the most cost-effective protection from flooding may be accomplished.

(D) It is the intention of the City to protect the health and safety of citizens and visitors of the community and to prevent damage to private property and public facilities through the installation of temporary and permanent erosion control practices that prevent or adequately reduce increases in erosion and siltation that may otherwise increase the risk of flooding and the associated risk of public endangerment and property damage by clogging and/or partial filling of constructed or natural drainage ways as well as drainage structures and detention facilities.

(E) This Article shall apply to all property within the corporate city limits and the **one and one-half (1 ½) mile** zoning jurisdiction by the City.

(F) Sections of this Article shall not apply to:

- (1) Single family or duplex residential lots of subdivisions approved prior to the adoption of this Article, unless specifically required by prior agreement between the City and the owners or developers of such subdivisions, or to new one or two-lot subdivisions for single family or duplex residential lots. This Article is intended to be implemented for entire residential subdivisions and commercial developments at the time of platting and not on individual lot basis for single family and duplex residential subdivisions.
- (2) Residential lots in the non-subdivided areas that create no more impervious ground cover than **twenty percent (20%)** of the gross lot surface area exclusive of any area within the **one hundred (100) year** flood plain.

41-2-2 STANDARDS AND REQUIREMENTS FOR STORM WATER DETENTION.

(A) It is prohibited to place fill material or construct impervious cover or construct or place any other structure on such person's property or perform any excavation or grading in a manner which alters the flow of surface water across said property in a manner which damages any adjacent property.

- (1) No final subdivision plat, subdivision construction plan, or site plan shall be approved by the City unless it can be demonstrated by the owner or developer of such property that the proposed development will not result in damage to any adjacent or downstream property. This will be certified by a professional engineer's submittal of sufficient data and calculations.

(B) The above requirement shall be accomplished through one of the following means:

(1) Design and construction of an on-site storm water detention facility, or facilities, by the land owner or developer which limits the peak flood flows from the proposed development to the existing peak flood flows from the subject tract.

(C) Acceptance of requests from the land owner or developer to meet the storm water detention requirements through measures listed in (A) and (B) above is solely at the discretion of the City and shall not relieve the owner of responsibility under civil law to adjacent and downstream properties.

(D) Acceptance by the City of on-site storm water detention plans will be based on the suitability and adequacy of the engineering and technical design of the proposed storm water detention facility, as described in **Section 41-2-3** below.

41-2-3 ADDITIONAL STANDARDS FOR APPROVAL.

(A) A Registered Professional Engineer, licensed in the State of Illinois and qualified and experienced in the design and operation of storm water detention ponds and related storm water management facilities, shall perform the hydraulic and structural design of storm water detention ponds and related storm water management facilities, including the development of engineering and technical information required for evaluation by the City.

(B) All design and technical information necessary to thoroughly evaluate the suitability and adequacy of engineering and technical design of proposed on-site stormwater detention facilities and, if proposed, off-site facilities shall be provided to the City for review. All detention and runoff calculations, including computer model simulations, if used, shall be provided.

(C) All on-site storm water detention facilities shall be designed to adequately and safely pass all storm water inflows, including flood flows and runoff from upstream and adjacent properties that have natural and/or existing overland flows toward and onto the subject tract. The on-site storm water detention facilities should not impound storm water onto or cause backwater to inundate any upstream or adjacent properties in excess of existing conditions.

(D) On-site storm water detention facilities shall not be placed such that they encroach into the regulatory 100-year floodplain as established by the City and/or the Federal Emergency Management Agency, unless it can be satisfactorily demonstrated to the City through the use of hydraulic modeling that such encroachment will not cause any rise in the 100-year flood level on other off-site properties or that the increase in the 100-year flood level caused by such encroachment will occur entirely onsite on the owner's or developer's property.

(E) Additional engineering and technical rules and guidance with respect to the application and review of the storm water detention requirements of this Article may be provided by the City.

41-2-4 PLANNING AND DESIGN DRAINAGE CRITERIA.

(A) **General.** The Drainage Criteria included in this Section are for the purpose of providing a set of guidelines for planning and designing storm drainage facilities in the City and within its extraterritorial jurisdiction. These drainage criteria will be used by City Departments, City engineer, and consulting engineers for private developments in the City.

(B) **Rational Method for Peak Storm Flows.** The formula to be used for calculating peak storm flows for drainage areas less than **two hundred (200) acres** shall be the Rational Method, in which:

$Q = CIA$, where

Q – is the peak storm flow at a given point in cubic feet per second (cfs).

C – is the runoff coefficient that is equal to the ratio that the peak rate of runoff bears to the average rate (intensity) of rainfall;

- I - is the average intensity of rainfall in inches per hour for a storm duration equal to the time of travel for run off to flow from the farthest point of the drainage area to the design point in question;
- A - is the drainage area tributary to the design point, in acres.

Note: For drainage areas greater than **two hundred (200) acres**, peak storm flows shall be determined based on a flow routing analysis using detailed hydrographs such as the Soil Conservation Service hydrologic methods that are available in such computer programs as TR-20, HEC-1, etc.

(C) **Runoff Coefficient.** The runoff coefficient (C) shall consider the slope of the terrain, the character of the land use, the length of overland flow and the imperviousness of the drainage area and shall be determined based on ultimate land development. The run-off coefficient for the appropriate land used shall be as follows:

Commercial	0.90
Industrial	0.70
Single Family Residential	0.55
Multi-Family	0.75
Parks and Open Space	0.35
Schools, Churches, etc.	0.75

(D) **Rainfall Intensity-Frequency.** The rainfall intensity-frequency curves which are shown from data provided by the Illinois Department of Transportation.

The intensity (I) in the formula $Q=CIA$, is determined from the curves by arriving at a time of concentration for the subject drainage area and adapting a storm frequency upon which to base the design of drainage improvements.

- (1) **Time of Concentration.** The time of concentration, which is the longest time of travel for runoff to flow from any point of the subject drainage area to the design point, consists of the time required for runoff to flow overland plus the time required to flow in a street gutter, storm drain, open channel or other conveyance facility. A minimum time of concentration of **fifteen (15) minutes** shall be used for Single Family Residential Parks and Open Space areas and a minimum time of concentration of **ten (10) minutes** shall be used for Commercial, Industrial, Multi-Family Residential, School and Church areas.

- (2) **Storm Frequency.** Required design storm frequencies for storm drainage improvements in the City are shown in the following table.

Type of Facility	Design Frequency (Years)
*Storm Sewer Systems	25
*Culverts, Bridges, Channel, and Creeks	100

*The drainage system shall be designed to carry those flows greater than the 25-year frequency up to and including a 100-year frequency within defined rights-of-way or drainage easements.

(E) **Area.** The drainage area used in determining peak storm flows shall be calculated by subdividing a map into the watersheds within the basin contributing storm water runoff to the system. Areas shall be determined by plan metering or digitizing.

(F) **Stormwater Detention Pond Design.** The basic concept underlying the use of stormwater detention pond (SDP) involves providing temporary storage of stormwater runoff so that peak rates of runoff can be reduced. Runoff is released from storage at a controlled rate which cannot exceed the capacities of the existing downstream drainage systems or the predeveloped peak runoff rate of the site, whichever is less.

Stormwater detention ponds may be of two (2) basic types: On-site and Regional. In general, on-site ponds are those which are located off-channel and provide stormwater detention for a particular project of development. Regional ponds are designed to provide stormwater detention in conjunction

with other improvements on a watershed-wide basis. The performance and safety criteria in this Section apply to all ponds which provide management of peak rates of stormwater runoff, regardless of type.

Performance Criteria for On-Site SDP's.

- (1) On-site SDP's are further classified as either small or large, as follows:

On-Site SDP

<u>Pond Class</u>	<u>Drainage Area</u>
Small	<25 acres
Large	25-64 acres

For design purposes, any pond with a drainage area larger than **sixty-four (64) acres** shall be classified as a regional pond.

- (2) On-site SDP ponds shall be designed to reduce post-development peak rate of discharge to existing pre-development peak rates of discharge for the 10 and 100-year storm events at each point of discharge from the project or development site. In addition, the capacity of the existing downstream systems must be considered in determining the need for managing the 100-year storm event. For the post-development hydrologic analysis, any off-site areas which drain to the pond shall be assumed to remain in the existing developed condition.
- (3) A Modified Rational Method (MRM) may be used for the design of small on-site ponds only. The maximum contributing drainage area to a pond designed with the MRM is **ten (10) acres** when using this equation.

Safety Criteria for SDP's. All ponds shall meet or exceed all specified safety criteria. Use of these criteria shall in no way relieve the engineer of the responsibility for the adequacy and safety of all aspects of the design of the SDP.

- (1) The spillway, embankment, and appurtenant structures shall be designed to safely pass the design storm hydrograph with the freeboard shown in the table below. All contributing drainage areas, including on-site and off-site area, shall be assumed to be fully developed. Any orifice with a dimension smaller than or equal to **eight (8) inches** shall be assumed to be fully blocked.

<u>Detention Pond Class</u>	<u>Design Storm Event</u>	<u>Freeboard to Top of Embankment, Ft.</u>
On-Site: Small	100 year	1.0'
Large	100 year	1.0'

- (2) All SDP's (except small on-site ponds) shall be designed using a hydrograph routing methodology. A Modified Rational Method may be used only for contributing drainage areas less than **ten (10) acres**.
- (3) The minimum embankment top width of earthen embankments shall be as follows:

<u>Total Height of Embankment, Ft.</u>	<u>Minimum Top Width, Ft.</u>
0-6	4
6-10	6
10-15	8
15-20	10
20-25	12
25-35	15

- (4) The constructed height of an earthen embankment shall be equal to the design height plus the amount necessary to ensure that the design height will be maintained once all settlement has taken place.

- This amount shall in no case be less than **five percent (5%)** of the total fill height. All earthen embankments shall be compacted to **ninety-five percent (95%)** of maximum density.
- (5) Earthen embankment side slopes shall be no steeper than **four (4)** horizontal to **one (1)** vertical. Slopes must be designed to resist erosion, to be stable in all conditions and to be easily maintained. Earthen side slopes for regional facilities shall be designed on the basis of appropriate geotechnical analyses.
 - (6) Detailed hydraulic design calculation shall be provided for all SDP's. Stage-discharge rating data shall be presented in tabular form with all discharge components, such as orifice, weir, and outlet conduit flows, clearly indicated. A stage-storage table shall also be provided.
 - (7) When designing SDP's in a series (i.e., when the discharge of one pond becomes the inflow to another), the engineer must submit a hydrologic analysis which demonstrates the system's adequacy. This analysis must incorporate the development of hydrographs for all inflow and outflow components.
 - (8) No outlet structures from SDP's, parking detention, or other concentrating structures shall be designed to discharge concentrated flow directly onto arterial or collector streets. Such discharges shall be conveyed by a closed conduit to the nearest existing storm sewer. If there is no existing storm sewer within **three hundred (300) feet**, the outlet design shall provide for a change in the discharge pattern from concentrated flow back to sheet flow, following as near as possible the direction of the gutter.
 - (9) Stormwater runoff may be detained within parking lots. However, the engineer should be aware of the inconvenience to both pedestrians and traffic. The location of ponding areas in the parking lot should be planned so that this condition is minimized. Stormwater ponding depths (for the 100-year storm) in parking lots are limited to an average of **six (6) inches** with a maximum of **eight (8) inches**.
 - (10) All pipes discharging into a public storm sewer system shall have a minimum diameter of **twelve (12) inches**. In all cases, ease of maintenance and/or repair must be assured.
 - (11) All concentrated flows into a SDP shall be collected and conveyed into the pond in such a way as to prevent erosion of the side slopes. All outfalls into the pond shall be designed to be stable and non-erosive.

Outlet Structure Design. There are **two (2)** basic types of outlet control structures: those incorporating orifice flow and those incorporating weir flow. Weir flow is additionally broken down into **two (2) categories**: rectangular and V-notch. In each type, the bottom edge of the weir over which the water flows is called the crest. Sharp-crested and broad-crested weirs are the most common types.

Generally, if the crest thickness is more than **sixty percent (60%)** of the nappe thickness, the weir should be considered broad-crested. The coefficients for sharp-crested and broad-crested weirs vary.

Detention Pond Storage Determination. The method to be used for determining detention pond volume requirements is governed initially by the size of the total contributing drainage area to the pond.

For contributing areas up to **ten (10) acres**, a Modified Rational Method (MRM) may be used. For contributing areas greater than **ten (10) acres**, a flow routine analysis using detailed hydrographs must be applied. The Soil Conservation Service hydrologic methods (available in TR-20, HEC-1) can be used. The engineer may use other methods but must have their acceptability approved by the City. These methods may also be used for the smaller areas. The most noticeable difference between the **two (2)** methods is that the MRM is essentially an approximation of the dynamic routing procedures used in the flow routing analysis using detailed hydrographs. The MRM is also limited in application by the restrictions and assumptions associated with the Rational Method.

Modified Rational Method (MRM). The MRM is derived from the Rational Method previously described in Section (B). This procedure determines the critical storm duration which produces the largest pond storage requirement with respect to the release rate values established for the pond. These release rates can be derived either from pre-development conditions or from specified allowable release rate criteria. In addition to the general criteria stated previously, the following MRM criteria must also be follows:

- (1) Maximum contributing area to the pond is **ten (10) acres**.
- (2) All off-site flows must be diverted around the pond.
- (3) Pond outflows calculated by the MRM may not be used as inflows to another pond (i.e., cascaded ponds cannot be analyzed by the MRM).
- (4) If the critical storm duration produces a peak flow less than the allowable peak release rate, the storm duration to be used in all subsequent calculation shall be that which produces a peak flow equal to the allowable peak release rate.
- (5) On-site flows which do not enter a pond are referred to as "bypass" flow. All such flows must be subtracted from the allowable peak flow release rate for the development.
- (6) Only single-storm events can be analyzed with the MRM.

The MRM is based on the same assumptions as the Rational Method. The most significant assumption is that the period of rainfall intensity averaging is equal to the duration of the storm. This means that the rainfall and corresponding runoff which occurs either before or after that averaging period are not considered in the storage calculations. Comparison of storage volumes calculated by the MRM with volumes calculated by the Hydrograph Method suggests that significant underestimation of required storage volumes may result for areas larger than a few acres. This appears to be a direct result of the assumption just stated. Therefore, a volume adjustment factor is always applied to the storage calculated by this procedure.

The MRM also assumes that the outflow hydrograph can be approximated by either a triangular or trapezoidal shape. If the rainfall duration is greater than t_c then the approximate shape of the hydrograph is a trapezoid. If the rainfall duration is equal to the t_c then the approximate hydrograph is a triangle. This assumption is equivalent to assuming that the effective contributing drainage area increases linearly with time. In other words, there is a linear area-time relationship for the contributing drainage area. If the actual relationship differs significantly from this assumption (e.g., a preponderance of either quickly-arriving or greatly-delayed flows), the pond could be significantly oversized or undersized.

The MRM was originally designed as a graphical procedure and is still widely used and accepted in that format for storage volume calculations.

Detention Pond Maintenance and Equipment Access Requirements.

- (1) Silt shall be removed and the pond returned to original lines and grades when standing water conditions occur or the pond storage volume is reduced by more than **ten percent (10%)**.
- (2) To limit erosion, no unvegetated area shall exceed **ten (10) square feet** in extent.
- (3) Accumulated paper, trash and debris shall be removed every **six (6) months** or as necessary to maintain proper operation.
- (4) Ponds shall be mowed annually between the months of June and September.
- (5) Corrective maintenance is required any time a dry pond does not drain completely within **sixty (60) hours** of cessation of inflow (i.e., no standing water is allowed).
- (6) Structural integrity of pond embankments shall be maintained at all times.

Alternative Designs/Underground Systems/Infiltration. Underground stormwater detention systems are a structural best management practice (BMP) used to control the flow of stormwater and if demonstrated to be effective at maintaining the post construction peak flows to pre-construction peak flows will be considered by the City. Detention systems work as an integral part of the

storm sewer system to provide a temporary storage area for excess stormwater. Runoff is stored and discharged over time whenever runoff inflow exceeds the allowable discharge rate. The systems are typically installed beneath parking lots, streets and parks to maximize property usage and lower development costs.

On sites where soils drain well and the water table is low enough, a stormwater infiltration system may be the most economical means for managing runoff. Unlike detention systems, which typically discharge runoff from a single outlet pipe, infiltration systems allow accumulated runoff to percolate into the subsoil. Water quality is usually improved through the soils natural filtering ability. Infiltration systems can also minimize water table reductions. Infiltration is a key feature of low impact (LID) designs.

Certifications Required. After completion of the project and before final approval and acceptance can be made, an "As Built" set of plans prepared and certified by a professional engineer shall be submitted to the Council for review. These plans shall include all pertinent data relevant to the completed storm drainage system and shall include:

- (1) Pipe size and pipe material.
- (2) Invert elevations.
- (3) Top rim elevations.
- (4) Lengths of all pipe structures.
- (5) Data and calculations showing detention basin storage volume.
- (6) Certified statement on plans stating the completed storm drainage system substantially complies with construction plans as approved by the Council.

All such submitted plans shall be reviewed for compliance by the City Engineer or other City designee. Upon approval of the submitted plans, such approval shall be evidenced in writing to the person submitting the plans.
